Audit inspection report

1 July 2020 to 30 June 2021

Report 712 | November 2021

About this report

This report sets out our findings from reviewing audit files at Ernst & Young Australia for the period 1 July 2020 to 30 June 2021 and aspects of EY's approach to culture and talent.

Introduction

This report includes findings from:

- › reviews that we substantially completed in the 12 months to 30 June 2021 (this year) of key audit areas in selected financial report audits of listed entities and other public interest entities conducted by Ernst & Young Australia (EY, the firm); and
- › financial reporting surveillances completed by us this year relating to listed entities and other public interest entities audited by EY.

This report:

- › also comments on our review of aspects of EY's approach to maintaining a culture focused on audit quality and attracting and retaining the right talent for complex audits;
- › should not be taken to provide assurance that the firm's audits and systems, or audited financial reports, are free of other deficiencies not identified in this report;
- › does not include details of enforcement actions that may have been underway or finalised in the 12-month period relating to audits (if any) involving members of the firm;
- › is intended to communicate our findings in a clear and concise manner to the leadership of the firm who are informed auditing and accounting professionals. Other readers of this report should recognise they may not have the full context of this report and the findings summarised below; and
- › does not represent a balanced scorecard as our negative findings are based on a limited number of audits focusing on higher risk audit areas and does not report on positive audit quality.

ASIC extended the deadlines for lodging audited financial reports for both listed and unlisted entities by one month for certain balance dates. We note that the firm and the entities it audits were required to adapt to remote work arrangements, global, national and local travel restrictions and other impacts of COVID-19.

We consulted an independent external panel on the method of measuring and reporting our findings. The panel discussed and tested the conclusions reached (including firm responses) on a small number of anonymised findings and agreed with them. The panel agreed with our approach to measuring and reporting our findings.

[Information Sheet 224](#) ASIC audit inspections (INFO 224) and [Report 709](#) Audit inspection report: 1 July 2020 to 30 June 2021 (REP 709) provide further information on our audit firm inspection process.

Our findings

EY did not obtain reasonable assurance that the financial report was free of material misstatement (negative findings) in two of the 30 key audit areas reviewed (7%) across eight audits by the firm this year. This compares to five of the 35 key audit areas reviewed (14%) for the 12 months ending 30 June 2020 (last year). See Figure 1.

A limited number of audits and audit areas were selected for review on a risk basis, and so caution is needed in generalising from the results to all audits conducted by the firm and all areas of those audits.

The firm should continue its initiatives to maintain and sustain improved audit quality.

Figure 1: Negative findings from reviews of key audit areas in audit files

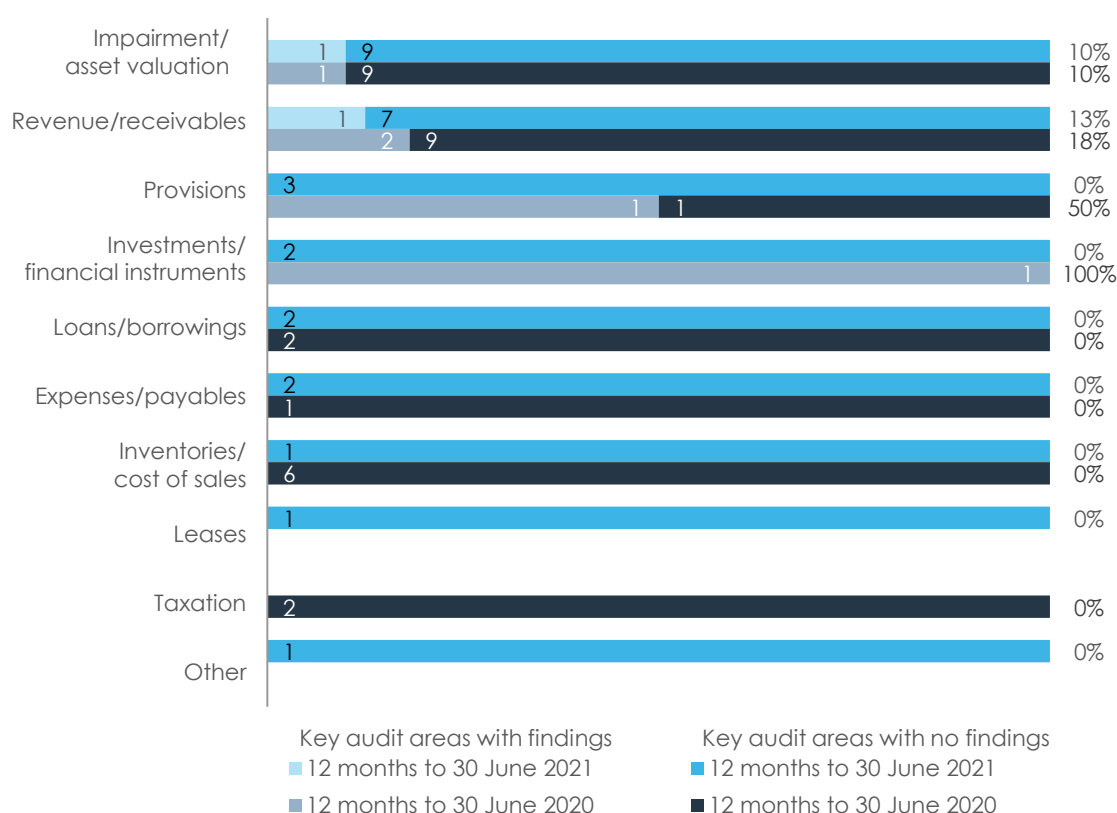

Note: See Table 3 for the data shown in this figure (accessible version).

The firm did not agree with all of our findings. The findings do not necessarily mean that the financial report was materially misstated. Rather, in our view, the auditor did not have a sufficient basis for their opinion.

Our negative findings relate to impairment testing and the audit of revenue and receivables.

Figure 2 shows the areas we reviewed and the frequency of our findings this year and last year.

Figure 2: Key audit areas with negative findings, and key audit areas reviewed in the 12 months to 30 June 2021 and the 12 months to 30 June 2020

Note 1: See Table 4 for the data shown in this figure (accessible version).

Note 2: Other key audit areas include mining & exploration expenditure (excluding impairment).

Table 1 summarises our findings that were classified as a risk of material misstatement.

Table 1: Audit review findings—risk of material misstatement

Entity	Areas with findings	Findings
Entity A	1 of 4 key audit areas reviewed	› <i>Impairment testing</i> —the auditor did not obtain sufficient evidence over the reasonableness of the quantum of resources included in the impairment testing model for a significant asset class
Entity B	1 of 3 key audit areas reviewed	› <i>Rental revenue</i> —the auditor did not obtain sufficient evidence over the occurrence and accuracy of rental revenue, such as not testing key automated controls relied on by the auditor, not testing the accuracy of revenue and deferred revenue calculations against contracts and not testing contract terminations

Our audit file review findings which did not involve a risk of material misstatement are summarised in Table 2. These findings include matters that could be relevant to obtaining reasonable assurance for the audited entity in future or another audited entity.

Table 2: Audit review findings—other

Entity	Findings
Entity B	› <i>Goodwill impairment testing</i> —the auditor should not have relied on the entity's market capitalisation as the only fair value technique for testing impairment. Goodwill should have been reviewed for consistency with adjustments intended to remove synergistic benefits from the valuations of investment properties. All available evidence should have been considered, including in the value in use model provided by the entity
Entity C	› <i>Right of use asset</i> —although not material, the auditor did not conclude on the right accounting treatment for one right of use asset which was not adjusted for deferred rent at the date of transition

Financial report findings

We completed risk-based reviews of aspects of 57 financial reports of listed and other public interest entities audited by the firm this year. Following our inquiries there were no material changes to net assets or profits.

Culture and talent

This year we reviewed how the firm:

- › establishes and maintains a culture focused on audit quality; and
- › has the right talent for complex audits, including how they attract, retain and upskill partners, staff and experts.

The firm had a range of practices and initiatives to maintain a culture focused on audit quality and to attract and retain the right talent for complex audits. Changes in practices and initiatives

by the firm on culture may take time. The extent to which these practices and initiatives are delivering the intended outcomes therefore should continue to be regularly monitored and assessed.

The availability of audit staff resources may continue to be affected by COVID-19 conditions, pre-existing factors, and planned and future changes.

We made no better practice recommendations for EY. Instead, [REP 709](#) discusses general considerations for firms and the profession in the areas of culture and talent.

Improving audit quality

The level of negative findings from our limited reviews has declined in recent years. However, the firm should continue to identify and address the root causes for the matters reported from our audit file reviews and for findings from internal and global firm reviews. The firm should also continue with its current initiatives to implement enhanced actions to maintain and sustain improved audit quality.

Further information

More information on the matters in Figures 1 and 2 and Tables 1 and 2 is contained in [REP 709](#) and detailed comment forms provided separately to the firm. The comment forms include the firm's responses to our findings.

Appendix: Accessible versions of figures

This appendix is for people with visual or other impairments. It provides the underlying data for the figures in this report.

Table 3: Negative findings from reviews of key audit areas in audit files

Firm	12 months to 30 June 2021			12 months to 30 June 2020		
	Key audit areas with findings	Key audit areas reviewed	Percentage	Key audit areas with findings	Key audit areas reviewed	Percentage
Ernst & Young	2	30	7%	5	35	14%

Note: This is the data shown in Figure 1.

Table 4: Key audit areas with negative findings, and key audit areas reviewed in the 12 months to 30 June 2021 and the 12 months to 30 June 2020

Key audit areas	12 months to 30 June 2021			12 months to 30 June 2020		
	Key audit areas with findings	Key audit areas reviewed	Percentage	Key audit areas with findings	Key audit areas reviewed	Percentage
Impairment/asset valuation	1	10	10%	1	10	10%
Revenue/receivables	1	8	13%	2	11	18%
Provisions	–	3	0%	1	2	50%
Investments/financial instruments	–	2	0%	1	1	100%
Loans/borrowings	–	2	0%	–	2	0%
Expenses/payables	–	2	0%	–	1	0%
Inventories/cost of sales	–	1	0%	–	6	0%
Leases	–	1	0%	–	–	–
Taxation	–	–	–	–	2	0%
Other	–	1	0%	–	–	–
Total	2	30	7%	5	35	14%

Note: This is the data shown in Figure 2.

About ASIC regulatory documents

In administering legislation ASIC issues the following types of regulatory documents: consultation papers, regulatory guides, information sheets and reports.
