12,070	to 47,630	-	12.53%	15,270	to 43,790	-	15.00%
47,631	to 95,259	4,454	17.12%	43,791	to 87,575	4,278	20.00%
95,260	to 147,667	12,607	21.71%	87,576	to 106,555	13,035	24.00%
147,668	to 210,371	23,985	24.22%	106,556	and up	17,590	25.75%
210,372	and up	39,168	27.56%				

1. The tax rates reflect budget proposals and news releases to 15 June 2019. Where the tax is determined under the minimum tax provisions, the above table is not applicable. Alternative minimum tax (AMT) and Quebec minimum tax (QMT) may be applicable where the tax otherwise payable is less than the tax determined by applying the relevant AMT and QMT rates to the individual's taxable income adjusted for certain preference items. The rates do not reflect the health services fund contribution which may be required on non-employment income.
2. Taxable income for Quebec purposes is likely to differ from that determined for federal purposes.
3. Federal tax payable has been reduced by the 16.5% abatement for Quebec taxpayers whose taxes payable are the aggregate of federal and provincial taxes.
4. The federal tax and provincial tax determined by the table should be reduced by all applicable credits (see chart below) other than the basic personal tax credits, which have been reflected in the calculations.

### Combined tax rates on dividend income - 2019<sup>1</sup>

Taxable income <sup>2</sup>		Eligible dividends	Other dividends
\$ -	to \$ 12,069	0.00%	0.00%
12,070	to 15,269	0.00%	5.73%
15,270	to 43,790	4.44%	16.60%
43,791	to 47,630	11.34%	22.35%
47,631	to 87,575	17.66%	27.63%
87,576	to 95,259	23.18%	32.23%
95,260	to 106,555	29.52%	37.51%
106,556	to 147,667	31.93%	39.53%
147,668	to 210,371	35.39%	42.41%
210,372	and up	40.00%	46.25%

1. The rates shown are the combined federal and provincial rates (based on budget proposals and news releases to 15 June 2019), and apply to the actual amount of taxable dividends received from taxable Canadian corporations. Eligible dividends are those paid from public corporations and private companies out of earnings that have been taxed at the general corporate tax rate (the dividend must be designated by the payor corporation as an eligible dividend). Where the dividend tax credit exceeds the federal and provincial tax otherwise payable on the dividends, the rates do not reflect the value of the excess credit that may be used to offset taxes payable from other sources of income. This assumption is consistent with prior year rates.
2. Taxable income for Quebec purposes is likely to differ from that determined for federal purposes. The tax rates do not reflect the health services fund contribution which may be required on non-employment income.

1. This table lists the most common tax credits; other non-refundable and refundable credits may be available.
2. The tax value of the federal credit is generally the sum of the federal credit less the 16.5% abatement for Quebec taxpayers.
3. The tax value of the provincial credit is the value that would apply to taxpayers with sufficient taxes payable to be reduced by the credit.
4. An additional personal credit of \$263 is available for persons living alone, or only with one or more persons under 18 or one or more adult children, grandchildren, or great-grandchildren enrolled in full-time studies (post-secondary studies or vocational training). A further credit of \$324 may be available where the single-parent is living with one or more adult children enrolled in full-time studies. These credits are reduced when the parent's (or grandparent's or great-grandparent's, when applicable) net income exceeds \$34,610.
5. A credit of \$641 is available for related dependants (other than a spouse) aged 18 or over. This credit is not available for dependants enrolled in full-time studies (post-secondary studies or vocational training) who have transferred to a parent a credit amount (up to a maximum of \$1,572) in recognition of the parent's contribution to the dependant's education. This credit is reduced by 15% of the dependant's income.
6. The federal credit applies to eligible medical expenses that exceed the lesser of \$2,352 and 3% of net income. For Quebec purposes, the credit is reduced by 3% of net family income with no limit on the grind.
7. One-half of CPP/QPP paid by self-employed individuals is deductible in computing taxable income.
8. The credit is reduced by 12.53% of the dependant's income.
9. The federal tax credit rate of 27.56% applies to charitable donations in excess of \$200 to the extent the individual has taxable income in excess of \$210,371; otherwise, a federal tax credit rate of 24.22% applies.
10. The Quebec tax credit rate of 25.75% applies to charitable donations in excess of \$200 to the extent the individual has taxable income in excess of \$106,555; otherwise, a tax credit rate of 24.00% applies.
11. The credit is reduced by 12.53% of the particular person's income over \$16,766.
12. This is the maximum credit base that can be transferred from one spouse to another. The credit is reduced by 15% of the spouse's taxable income up to \$15,269.
13. A portion of this refundable credit is reduced by 16% of the dependant's income over \$24,105. The credit is rather \$1,032 for caring for an elderly spouse unable to live alone. For 2018 and later years, a refundable tax credit of up to \$542 may be available for an individual who supports an eligible relative without housing or co-residing with the relative.
14. The federal age credit is available to individuals 65 and over. The maximum federal age credit occurs at \$37,790 of net income and declines to nil as net income rises to \$87,750.
15. The provincial age credit is available to individuals 65 and over. The age and pension credits are reduced when net family income exceeds \$34,610.
16. Quebec does not provide separate non-refundable credits for CPP/QPP contributions, EI/QPIP premiums, and contributions to the health services fund, since these are taken into account in the basic personal credit.
17. Quebec provides a net income deduction on eligible work (incl. employment income). A tax credit may also be available for workers 60 or older.
18. A federal caregiver tax credit of \$280 may be available in respect of a spouse, dependant or child who is dependent on the individual by reason of mental or physical infirmity.
19. A credit of up to \$880 may be available in respect of a child under 18 years old enrolled in post-secondary studies. This credit is reduced by 15% of the dependant's income.
20. A children's activities tax credit is available for a child between 5 and 15 years old (family income must not exceed \$138,525). An additional amount may be available for a child with a disability.
21. For Quebec purposes, a 25% tax credit for a large cultural donation and a 30% tax credit for cultural patronage may also be claimed.
