2020年“安永企业家奖”中国评选活动已圆满结束。祝贺今年获奖的中国企业家，并向给予评选工作鼎力支持的评委表示衷心的感谢。

今年年初爆发的新冠肺炎疫情对中国和世界经济产生巨大冲击，也给中国企业和企业家带来史无前例的挑战。面临严峻的考验和压力，中国企业家积极行动，团结企业员工，携手商业伙伴，戮力同心，共渡难关。他们将履行社会责任作为企业的重要使命，通过向社会捐赠防疫物资和善款，助力打赢这场疫情防控攻坚战，以实际行动支撑着疫情下的中国稳步前行。同时，为营造企业复原力和抗压力，中国企业家快速响应疫情时代的市场需求，率领企业大胆创新，运用新技术从新的挑战中探索新的机遇，引领行业变革。

安永很荣幸能够在这样一个特殊时期，对这些锐意进取，积极创新，践行社会责任的杰出商业领袖进行表彰，分享他们振奋人心的故事。变局之下，这些企业家在坚守中展现出的高度韧性和创新精神正是我们在这个新时代所崇尚的企业家精神，他们树立了行业榜样，帮助我们在危机时刻重振行业信心，推动了行业和社会的可持续发展，为中国经济的持续复苏作出卓越贡献。

以人工智能和大数据为核心的第四次工业革命阔步而来。科技变革不断重新定义着各行各业的发展模式，尤其在新冠疫情的冲击下，数字经济新动能加速崛起，迫切需要企业顺势而为，积极做出改变。思变方能行远，重构未来具有重要意义！契合时代要求的创新思维和新技术是重构未来的重要羽翼，我们的未来是在创新与智慧中历经重构，必然要求企业家具有居安思危的风险意识，积极拥抱变革的胆识，擅于在挑战中识别战略机遇的智慧和借势攀升的斗志。目前，疫情和经贸形势仍存在不确定性，以习近平总书记为核心的党中央审时度势地提出了以“内循环为主、国际国内双循环互促”的新发展格局，并就拓展国际视野，加速构建新发展格局寄语中国企业家：“企业家要立足中国，放眼世界，提高把握国际市场动向和需求特点的能力，提高把握国际规则能力，提高国际市场开拓能力，提高防范国际市场风险能力，带动企业在更高水平的对外开放中实现更好发展，促进国内国际双循环。”

优秀的企业家是推动高质量发展的生力军，企业家精神关乎国家经济发展的未来。弘扬企业家精神，激发企业家潜能，共同为行业发展和进步贡献力量是安永举办“企业家奖”的初衷。安永始终不忘初心，将一如既往鼎力协助中国企业和企业家行稳致远。我们真诚地期待与志同道合的优秀企业家们共同成长，携手并进，一起重构未来！

变局之下，这些企业家在坚守中展现出的高度韧性和创新精神正是我们在这个新时代所崇尚的企业家精神，他们树立了行业榜样，帮助我们在危机时刻重振行业信心，推动了行业和社会的可持续发展，为中国经济的持续复苏作出卓越贡献。

The resilience and innovative spirit they have demonstrated in the midst of uncertainty are the very traits of entrepreneurship that we admire in this new era. They have set industry benchmarks, helped us regain confidence, and promoted the sustainable development of industry and society, making a remarkable contribution to the ongoing recovery of China's economy.

As the 2020 EY Entrepreneur Of The Year China Awards draws to a close, I would like to take this opportunity to congratulate our winners and thank our judges for their support in the judging process.

The outbreak of COVID-19 in early 2020 dealt a heavy blow to the economies of China and the whole world, creating unprecedented challenges for Chinese corporates and entrepreneurs. During these trying times, Chinese entrepreneurs have proactively united employees and business partners to overcome the adversity. They have prioritized social responsibility by donating protective equipment and funding to help fight the pandemic, and they have made contributions to stabilizing China's economy and society throughout the crisis. Chinese entrepreneurs have shown extraordinary resilience, re-emerging from the pandemic by responding swiftly to market demand, by leading businesses to innovate, adopt new technologies and discover new opportunities, and by turning the crisis into a starting point for industry transformation.

EY is proud to recognize these outstanding business leaders who have demonstrated unwavering determination, courage to innovate, and commitment to social responsibility. We are delighted to share their inspiring stories with the wider community. The resilience and innovative spirit they have demonstrated in the midst of uncertainty are the very traits of entrepreneurship that we admire in this new era. They have set industry benchmarks, helped us regain confidence, and promoted the sustainable development of industry and society, making a remarkable contribution to the ongoing recovery of China's economy.

The fourth industrial revolution, which has artificial intelligence (AI) and big data at its core, has marched in. Technological disruption is redefining the development models for various industry sectors that are undergoing a transformation. Against the backdrop of the COVID-19 pandemic, the development of the digital economy has

accelerated, bringing new momentum to enterprises, challenging them to make proactive changes in alignment with the latest trends. Reframing the future calls for an innovative mindset, collective wisdom, and the help of new technologies. It is crucial for entrepreneurs to be fully aware of the risks yet have the courage to embrace change, the wisdom to identify opportunities amid challenges, and the ambition to ride the trends, ultimately to rise to new heights.

Given that the impact of the pandemic and the prospects for trade and economy remain uncertain, President Xi Jinping has put forward a new development model that urges the nation to "focus on internal circulation and promote domestic as well as international dual circulation." President Xi urged Chinese entrepreneurs to "think globally while ensuring solid performance at home. They should enhance the ability to stay ahead of the curve and better understand the demand and rules in the international marketplace. They should better explore and forestall risks of the world market. With such abilities, they will be better-positioned to lead their firms toward further growth as the country opens up further."

Outstanding entrepreneurs are the key to the high-quality development of a company, and entrepreneurship is crucial to the future economic development of a country. At the heart of the EY Entrepreneur Of The Year Awards program is the commitment to advocate entrepreneurship, unleash the potential of entrepreneurs as well as to promote the development of industry sectors and the society. EY will carry forward this aspiration and continue to support the long-term growth of Chinese enterprises and entrepreneurs. We look forward to working hand in hand with like-minded entrepreneurs on our journey to building a better working world.

“

2020年初，突如其来的新冠疫情给世界经济带来巨大冲击。我们看到，面对疫情带来的压力和挑战，企业家们迅速行动，创新求变，并积极践行社会责任，为中国经济稳步复苏和实现高质量发展做出巨大贡献。

The COVID-19 outbreak in early 2020 has significantly impacted the world economy. We have seen entrepreneurs responding swiftly to the pressures and challenges brought by the pandemic. They have embraced change and innovation, and actively fulfilled their social responsibilities. These actions have made a great contribution to China's steady economic recovery and robust development.

安永全球企业家奖

### 安永全球企业家奖2020

安永企业家奖具有本国性和全球性。安永企业家奖在中国的评选活动结束之后，大奖获奖者还将代表中国参加翌年六月左右举办的全球颁奖典礼，争夺众所瞩目的安永全球企业家奖殊荣。届时，来自世界各地安永企业家奖大奖获奖者将齐聚一堂，参加这一奖项的角逐。

安永全球企业家奖项的评选超越国家疆界，致力于表彰杰出企业家在当地、本国和世界竞技舞台上取得的杰出成就，对其在全球范围内带来的积极影响予以认同。安永全球企业家奖为企业家精英相互交流、制订下一步战略规划提供了独一无二的平台。

今年六月，总部位于印度的Biocon Limited执行主席Kiran Mazumdar-Shaw博士荣膺2020年度安永全球企业家奖。

### EY World Entrepreneur Of The Year 2020

Following the success of the awards in China, EY extends this pre-eminent awards platform with the World Entrepreneur Of The Year (WEOY) awards. Each year in June, Entrepreneur Of The Year award winners from around the world come together and vie for the coveted WEOY title in Monte Carlo, Monaco.

Transcending national boundaries, the WEOY awards recognize the global impact of entrepreneurs and honor their outstanding achievements in their communities, countries and the world arena. The awards provide business elites an exclusive platform to network, strategize and plan their next strategy.

This year in June, Brad Keywell, CEO of Uptake Technologies, Inc., was named EY World Entrepreneur Of The Year™ 2020 Award winner.

## Technology Category Winner

Chen Zuotao is a pioneer in the emerging sector who has achieved many successes, one of these being the acquisition of Giantec Semiconductor Corporation in 2016. Under Mr. Chen's leadership, the company has come to dominate the global market for EEPROM (Electrically Erasable Programmable Read-Only Memory) chips for smartphone cameras, with a market share of 42.72% in 2018. The chips are widely used in consumer electronics produced by various mainstream mobile phone manufacturers, including Samsung, Huawei, Xiaomi, vivo, and OPPO.

Giantec Semiconductor was listed on the Shanghai Stock Exchange STAR Market in 2019. As of 30 June, 2020, the IPO increased from RMB4,018 million at IPO to RMB9,305 million.

Chen has implemented a modern governance system at Giantec Semiconductor that integrates technology, market and capital. Giantec Semiconductor has formed long-standing partnerships with industry leaders, such as Sunny Optical, Ofilm, Foxconn, BOE, Huaxing Optoelectronics, LG, Haier, and Hisense. In the second half of 2019, the company took a solid step by expanding into the communications technology sector, helping to commercialize China's 5G technology for consumer use.

In addition, Giantec Semiconductor has proactively consolidated resources along the industry chain, working closely with renowned enterprises such as SMIC in the manufacturing of EEPROM for vehicles, and partnering with companies like Montage Technology in the research and development of DDR5 EEPROM products and related areas. All these plays a part in stabilizing the whole production chain in China's chip industry.

Mr. Chen believes in having a clear goal throughout one's career and values perseverance, resilience and hard work. These values will continue to help Giantec Semiconductor expand into new application markets, including data storage, automobile electronics and the Internet of Things (IoT). Leveraging the STAR Market platform, Giantec Semiconductor will scale new heights for chips made in China in the global market.

## 服务业 企业家奖获奖者

凭借对中国支线航空事业的坚定信仰及30多年的民航经验，胡晓军于2006年创办了华夏航空，并用12年时间将其发展上市。目前，华夏航空已经成长为中国支线航空龙头企业。

华夏航空于2018年3月在深圳证券交易所上市，上市后业绩表现持续亮眼，机队规模增长50%至53架，迈入中等航空序列。华夏航空的强劲表现依赖于胡晓军对商业模式的持续探索和技术的不创新。华夏航空倾力打造了一种有别于直飞、经停的第三种航班模式——通程航班，这也是国内首创的跨航司间的新型航空出行模式。公司自主研发的“多套通程服务信息化系统”更使华夏航空成为一家玩转航空网络大数据的科技型航空公司。

基于胡晓军对团队高效执行力的强调和坚持，对远大信念的坚定追求，以及对行业和社会的高度责任感，华夏航空在激烈的竞争中站稳了脚跟。在今年疫情对航空业重创的不利形势下，华夏航空率先突破困境，成为2020年前三季度唯一盈利的上市航司，累计盈利更是达到人民币1.71亿元。

在国内支线航空市场不断增加覆盖率的同时，华夏航空还积极寻求与“一带一路”国家合作的机会，在世界航空的舞台上崭露头角。另外，创立初期布局的航空产业生态圈也已初具规模，航空维修、教育、旅游、通航、供应链、传媒、科技、气象等与航空密切相关的产业都在蓬勃发展。

## Services Category Winner

Hu Xiaojun has more than 30 years of experience in the civil aviation sector. He established China Express Airlines in 2006, and over the next 12 years the business developed into a listed company. Today, China Express Airlines is a leading player in the regional aviation sector.

China Express Airlines was listed in March 2018 on the Shenzhen Stock Exchange. Since its listing, the company has continuously reported an outstanding financial performance, expanding its fleet size by 50% to 53 aircraft to become a medium-sized airline. Its strong performance was led by Mr. Hu's continuous exploration with the business model and technological innovation. China Express Airlines has introduced a new flight arrangement - the "tag-through flight" - that is different from direct flights and stopovers. This new travel mode was also the first shared service across airlines in China. The company has developed its own "multiple tag-through services information system," enabling it to become a technology-driven airline that can leverage big data in the aviation network.

Mr. Hu emphasizes and upholds the importance of effective execution in his team. He firmly believes in pursuing a long-term mission and has taken on a large share of responsibility for enhancing the industry and society as a whole - an approach that has established a solid position for China Express Airlines in the face of fierce competition. Despite the adverse environment this year, in which the pandemic has had a severe impact on the airline industry, China Express Airlines was able to emerge strongly from the crisis and became the only listed airline to generate profits (RMB171 million) in the first three quarters of 2020.

As China Express Airlines continues to increase its coverage in China's regional airlines market, it is also actively seeking opportunities to partner with the Belt and Road countries to build its international presence. In addition, the aviation ecosystem that was scoped during the initial stage of its establishment has begun to take shape. It includes the fast-developing sectors that are closely related to aviation, such as aviation maintenance, education, tourism, general aviation, supply chain, media, technology and meteorology.

Dr. Liu Jun is the Founder and President of Unicom Technology. He leads a professional and international team that focuses on the research of the fundamental theories of X-ray physics. Dr. Liu and his team specialize in microfocus X-ray technological applications in a range of areas, including integrated circuit (IC) packaging and testing, electronic assembly, new energy lithium-ion batteries, aerospace defense equipment and industrial castings.

Daring to challenge himself, Dr. Liu did not take up a permanent job in China after his graduation. Instead, he chose to work and study overseas. Dr. Liu's endeavour and persistence earned him extensive experience in corporate management and exposed him to international perspective, laying the foundations for successful entrepreneurship.

After more than a decade of relentless effort since starting his own business, Dr. Liu and his team have overcome key technical challenges in photon emission from micron and nano scale point light and successfully manufactured the first 3-micron precision ray generator in China. This invention won national-level recognition for core technical achievement and brought the company 400 patents and copyrights at home and abroad. Supported by its hard-core technologies, Unicom Technology has developed various ray inspection devices for application in industry, providing alternatives to imported products and selling equipment to more than 60 overseas countries. This has secured the company's leading position in a range of vertical markets in China.

“Building a first-class company in the field of X-ray and establishing the most respectful brand in the world” has always been the goal that drives Dr. Liu and his team. “Optimism, integrity, learning and gratitude” is his motto and the team's code of conduct. Since its establishment, Unicom Technology has remained committed to building its brand, leading to growing recognition of the Unicom brand at home and abroad.

## Technology Category Winner

Shao Danwei founded Wanbang Digital Energy Co., Ltd. in 2014. With its core brand Star Charge, the company has developed into a leading manufacturer, service operator, and solution provider of electric vehicles (EV) charging infrastructure in China.

Shao entered the field of EV charging facilities in 2014 by establishing Star Charge Co., an EV charging operator that was built on the foundations of Wanbang Digital Energy. Under Shao's leadership, Wanbang Digital Energy has rapidly developed into a leader in the industry, and Star Charge has become one of the top EV charging operators in China, leading the industry in terms of average daily charging capacity. There are currently more than 400,000 self-built charging facilities on Star Charge's platforms, covering 226 cities and providing over 5 million kWh of daily charging capacity.

In 2014, Star Charge was the first EV charging operator to realize human-machine interaction on smart phones without using a card or the screen of the charging facility. In 2016, the company was the first to establish a national charging network and successfully transformed itself into a service operator. In 2017, Wanbang Digital Energy became a solution provider committed to providing scenario-based solutions to customers. Over the years, Wanbang Digital Energy has achieved various milestones on its globalization journey, including setting up a joint venture with Volkswagen, winning an exclusive bid from ENEL, which is the largest electric power company in Italy, and a strategic investment from Schneider Electric.

Shao wants herself and the team at Wanbang Digital Energy to establish the social responsibility. For example, the company held annually an 828 Low-carbon Festival for consumers, providing funding support so that customers could charge their vehicles for free, which helped raise the awareness of low-carbon travel. During the COVID-19 outbreak earlier this year, the company provided free charging services for all the ride-hailing drivers and all the anti-epidemic volunteers in Wuhan for two months. This initiative aimed to encourage more people to support the medical teams going to Wuhan from other parts of the country, as well as providing free shuttle services for doctors. The company spent millions of RMB to fund the provision of these services.

Through his forward-looking "6+6" strategy, he aims to establish six factories overseas and another six in China on the basis of a global R&D and marketing system. Since 2010, Wang Feng has been leading Linglong Tyre to actively promote its international development strategy, and he has established a global presence for the company with huge success. To date, Linglong Tyre's overseas business has contributed to more than 50% of its profit.

Nevertheless, Wang Feng is dedicated to continuous innovation and self-improvement. The pandemic in 2020 has created an unfavourable environment that has had a significant impact on the tire industry. In response, Wang Feng decided to launch his "New Retail" plan, which had been incubated for three years, ahead of schedule. The company developed a Linglong New Retail smart marketing platform that integrates online and offline operations, allowing the company to transform its business from selling tire products to providing comprehensive automobile aftermarket services. Linglong Tyre recorded growth in every area, in spite of the adverse environment during the pandemic. Its sales revenue in the first three quarters of 2020 increased to RMB13.246 billion, ranking 11 among listed tire manufactures globally taking the company's development to new heights.

Wang Feng places a strong focus on R&D. In 2019, Linglong Tyre invested more than RMB700 million in this area. It is the only enterprise in the tire industry that has won the China Industrial Grand Award. In addition, Linglong Tyre was recognized as one of the top 10 most valuable tire brands in the world in 2020, making it the only tire brand in China to appear on the list.

Under Wang Feng's leadership, Linglong Tyre is committed to its strategy of "focusing on technology, optimizing management, building a famous brand, and increasing efficiency" in order to enhance the company's overall capability, make bigger contribution to the technological innovation and transformation of the tire industry, and drive rapid and high-quality development of industry in China.

余凯博士从一名科学家成长为中国人工智能领域成功的企业家，他是行业先行者和中国技术自主创新的典型代表。

2015年，余凯博士创立地平线，是全球第一家做人工智能芯片的创业公司。创立至今，地平线已在边缘人工智能芯片行业取得了卓越的成就，发布中国首款自主研发的车规级AI芯片，并已成功实现前装量产。目前，地平线是国内唯一一家实现车规级人工智能芯片前装量产的企业。

在余凯博士的带领下，地平线围绕环境综合感知和车内人机交互两大方向，坚持以“芯片+算法+工具链”为基础平台，更结合整套数据闭环的能力进行底层技术开放赋能，孜孜以求，笃定前行，始终引领车载人工智能技术潮流，并不断创新突破。

如今，余凯博士凭借着对边缘人工智能计算的独到眼光和执着追求，拒绝传统，守正出奇，引领产业价值认同，将地平线带上了二十一世纪边缘人工智能领域的康庄大道。

## Technology Category Winner

Dr. Yu Kai is a renowned entrepreneur in China's artificial intelligence (AI) sector, who began his career as a scientist. He is an industry pioneer and an iconic figure who spearheads China's technological innovation.

In 2015, Dr. Yu founded Horizon Robotics, the world's first start-up to develop AI chips. Since its inception, the company has made outstanding achievements in the field of edge AI chips. It launched China's first automotive-grade AI chip, which has now been put into pre-installed mass production. Horizon Robotics is currently the only company in China with such capability.

Under Dr. Yu's leadership, Horizon Robotics has specialized in developing integrated environmental perceptions and in-vehicle human-machine interface solutions. It has committed to using "chip + algorithms + tool chains" as the basic platform, combining this with a full set of closed-loop data to open up the underlying technologies and empower the business. With its dedication to striving for excellence and moving toward a clear goal, Horizon Robotics continues to lead the trend in automotive AI technology by means of innovation and breakthrough.

With Dr. Yu's unique foresight and persistence in edge AI, his new and innovative ideas have brought great value to the industry and gained him wide recognition. He has led Horizon Robotics onto a promising path to the future development of edge AI in the 21st century.

### 瑞信 - 亚太区企业家银行

今年是瑞信作为白金赞助商，与安永企业家奖携手共进的第五年。祝贺各位获奖者！我们很荣幸能够继续与安永在大中华区共同推广和弘扬企业家精神。

2020年是特殊的一年，新冠疫情对各个行业造成不同程度的影响。与全球同行一样，中国企业家面临着具有挑战性的经营环境。幸而，中国经济已经走出了最低谷，这对中国企业家来说是个好预兆。

我们对中国企业家的应变能力和应对未来挑战的能力充满信心。他们的韧性很大程度上得益于中国的数字化转型，大多数公司已经具备维持稳定运营的工具和策略，并能够迅速调整业务，以减轻新冠疫情造成的影响，同时把握由线下向线上商业模式持续转变所带来的机遇。

中国企业家在中国的转型和变革中起着至关重要的作用。过去20年来，中国在技术创新领域取得长足进步，目前许多尖端技术的发展处于领先地位，对此企业家群体的功绩不可磨灭。科技正在推动中国大多数行业的变革，如教育娱乐、电商、数字医疗和人工智能领域。

与此同时，中国也正在逐步确立其富裕、创新型的主要经济体的地位。瑞信最新发布的《全球财富报告》显示，中国财富自2000年以来增长了21倍，从而使得这些财富的拥有者实现资产多元化，利好中国经济的持续增长。

作为**亚太区企业家银行**，瑞信一直鼎力支持中国企业家借助国际资本市场拓展业务、捕捉新的增长机遇，同时也在连接中国境内资本走向全球市场以及境外资本走入中国境内市场中扮演着重要角色。同时，我们也不断积极寻求在中国市场深耕的机遇，在今年六月份，瑞信正式控股我们在华证券合资公司，致力于为大中华区的客户提供全方位、高品质的产品和服务。

我们期待与新一代的企业家紧密合作，并凭借我们深厚的专业知识、顶级的咨询实力以及遍布全球的资源网络，协助他们把握发展机遇，走向共赢。

### Credit Suisse - The Bank for Entrepreneurs in Asia Pacific

Credit Suisse is pleased to collaborate with EY to support the Entrepreneur of the Year (EOY) awards for China as the Platinum Sponsor for the fifth consecutive year. Congratulations to this year's winners! We are honoured to join hands with EY again for our continued efforts to promote entrepreneurship in Greater China.

2020 is an exceptional year, with the COVID-19 pandemic impacting every sector to varying degrees. Chinese entrepreneurs, like their global counterparts, are currently operating in a challenging environment. There are encouraging signs that the worst of the pandemic is over for the domestic economy, and this bodes well for the country's entrepreneurs.

We have full confidence in the resilience of China's entrepreneurs and their ability to weather the challenges ahead. Much of this resilience comes from the digital infrastructure that Chinese companies already have in place which has enabled them to maintain stable operations as well as quickly adapt their businesses to mitigate the disruptions caused by COVID-19, such as shifting to a fully online business model.

China's entrepreneurs play a critical role in the transformational changes taking place in the country. China has made great strides in the field of technological innovation over the past two decades and is today leading the way in the development of many cutting-edge technologies, thanks to the achievements of its entrepreneurial community. Technology is driving change across most sectors in China - such as edutainment, e-commerce, digital healthcare and Artificial Intelligence (AI).

In addition, China is well on its way to establishing its position as a dominant, wealthy, innovative economy. The country's wealth has increased 21-fold since 2000, according to the 2020 Credit Suisse Global Wealth Report. Allowing the owners of that wealth to diversify their assets is good for the continued growth of the Chinese economy.

As the **Bank for Entrepreneurs in Asia Pacific**, Credit Suisse actively connects Chinese entrepreneurs to the international capital markets to support the growth of their businesses, and plays an important role in bridging onshore China capital to the global markets and foreign capital to onshore China. Meanwhile, we have also been building on our strong China franchise to provide holistic solutions and products to meet the needs of clients in Greater China. In June this year, we became the majority shareholder of our China securities joint venture.

We look forward to working with the newest generation of entrepreneurs as they grow, and supporting them to capture growth opportunities and fulfil their aspirations, with our in-depth local knowledge, world-class advisory capabilities and global connectivity.

Zhenyi Tang  
Chief Executive Officer, China, Credit Suisse

The theme of the EY Entrepreneur of the Year China Award program this year is “Know your challenge, Go far and beyond”. In a year with enough challenges to fill a lifetime, the demand for innovative solutions that can help us overcome difficulties and turn them into opportunities is more prevalent than ever. It is up to entrepreneurs to fill this gap and collectively, they can form the New Economy engine that elevates us above current predicaments and transforms our society.

As the digital technology flagship of Hong Kong, Cyberport has witnessed some Asia’s most successful and innovative entrepreneurs leading the charge in helping enterprises meet new demands in the technology-driven New Normal. By fueling the momentum and impact of digital transformation, these entrepreneurs are shaping win-win collaboration that benefits society as a whole. I look forward to celebrating their achievements and recognising their contributions, all whilst challenging them to take the extra steps to lead us further and beyond.

The Covid-19 pandemic has created unprecedented difficulties for businesses around the world. Therefore, the theme of “Know Your Challenge. Go Far and Beyond” is particularly fitting for this year’s EY Entrepreneur of the Year China Awards.

While the virus has created huge uncertainty, it is also giving businesses and entrepreneurs the opportunity to find ways to overcome the challenges and help to rebuild the global economy. China’s return to growth, and its rapidly growing markets such as the Greater Bay Area, offer fertile ground to develop entrepreneurial ideas. Such innovative thinking will help businesses to move beyond the present crisis and to create a brighter future for all.

On behalf of the Hong Kong General Chamber of Commerce, I wish the 2020 Entrepreneur of the Year China Awards every success, and look forward to seeing the innovative ideas and achievements from this year’s entrants.

With over 27 years of history, leveraging on the development of the Greater Bay Area, we have developed diverse strategic partnerships and built a broad scope of alliances across businesses, laid a solid foundation for future development. Nonetheless, COVID-19 is rampant across the globe, battering the global economy, we are all facing extensive and unprecedented challenges. The theme of the EOY China Awards this year “Know Your Challenge. Go Far and Beyond” particularly points out the situation that all entrepreneurs are currently confronting.

As one of the most prestigious international business awards, the award aims to recognize extraordinary insight, outstanding leadership and exceptional achievements and to inspire excellent entrepreneurs from all walks of life. I hope the new awardees will leverage their entrepreneurial experiences and successful models to bring new insights to the industry and influence it as a whole.

很多年后，当人类翻看公元2020年的历史记载时，会惊叹于此刻的我们在一连串“奇点”事件中做出的选择。

全球化的变奏已持续数年，一场全球疫情，是将进一步撕裂相互之间信任，加深仇隙、割断连接，还是会让绝大多数人意识到唯有全球一体才能对人类命运负责？

说到信任，基于信任的全球货币体系，正面临着近50年来最大的挑战，世界经济能否形成足够自省，能否最终稳定住信用，而来自东方的双循环，能否为它注入新的双重信用保障？从环境到社会到治理，可持续的理念被写入联合国70周年宣言，这个古老的组织是否还有足够的力量凝聚起地球政体的共识，并推动共同发展？

每一个是或否，都可能将历史引向全然不同路径。站到未来的立场上来看今天，或许是我们做出最优选择的至善法门。

洞悉挑战，行稳致远。通向未来的按钮，在你我每个人手中。

Many years later, when humans look back at the historical records for 2020, they will be amazed at the choices we made in a series of “singularity” events of our time.

Changes brought forth by globalization have been making impacts over the past few years. Will the global pandemic further degrade mutual trust, deepen conflicts and break connections? Or will it make most people realize that only by unifying the globe can we face our common destiny as one human race?

Speaking of trust, the global monetary system – which is built on trust – is facing its biggest challenge in 50 years. Will the mechanism of the world economy have the ability to self-reflect and adjust to finally stabilize credit? Can the dual circulation from China inject a double layer of credit protection into the world economy? From environment to society to governance, the concept of sustainability has been written into the declaration of the 70th Anniversary of the United Nations. Does this long-established organization have enough power to gather a consensus from different countries across the globe and promote development together?

Different answers to the questions above may lead to completely different paths in history. Looking back at today from an imagined future may give us the best perspective to make the right choice.

Know your challenge, go far and beyond. The key to the future is in the hands of every one of us.
