

# Mobility: Immigration Tracker

Impact of COVID-19 on Global Immigration

April 2020

# Important notes

- ▶ This document provides a snapshot of the policy changes that have been announced in jurisdictions around the world in response to the COVID-19 crisis. It is designed to support conversations about policies that have been proposed or implemented in key jurisdictions
- ▶ Policy changes across the globe are being proposed and implemented on a daily basis. This document is updated on an ongoing basis but not all entries will be up-to-date as the process moves forward. In addition, not all jurisdictions are reflected in this document
- ▶ Find the most current version of this tracker on [ey.com](https://www.ey.com)
- ▶ Please consult with your EY engagement team to check for new developments

EY teams have developed additional trackers to help you follow changes:

- ▶ [Labor and Employment Law](#)
- ▶ [Tax Controversy](#)
- ▶ [Tax Policy Stimulus Tracker](#)

EY professionals are updating the trackers regularly as the situation continues to develop.

# Overview/key issues

- ▶ With the number of confirmed cases and fatalities worldwide rising rapidly every day, many government authorities are enacting immigration-related measures to limit the spread of the COVID-19 pandemic and protect the health and safety of individuals in and outside of their countries.
- ▶ Measures being introduced to stem the spread of COVID-19 include the following:
  - ▶ Entry restrictions and heightened admission criteria for certain populations (including prohibitions on entry from high risk locations);
  - ▶ Mandatory “stay home notices” and quarantine orders for newly admitted citizens, residents and visitors (whether in state facilities, hotels or private residences);
  - ▶ Temporary suspension (and in some cases, permanent cancelation) of existing visas issued prior to COVID-19 and suspension of issuance of new visas; and
  - ▶ Introduction of heightened eligibility criteria and application requirements where visas are being issued (including suspension of visa waiver agreements and enhanced document requirements for new applications).

# Next steps

Employers should focus on:

- ▶ Identifying local and globally mobile populations and their family members,
- ▶ Assessing the impact on local employees and global travelers, and
- ▶ Developing action plans for specific individuals, groups and locations.
