

# Mobility: Immigration Tracker

Impact of COVID-19 on global immigration

18 April 2022

# Important notes

- ▶ This document provides a snapshot of the policy changes that have been announced in jurisdictions around the world in response to the COVID-19 crisis. It is designed to support conversations about policies that have been proposed or implemented in key jurisdictions.
- ▶ Policy changes across the globe are being proposed and implemented on a daily basis. This document is updated on an ongoing basis but not all entries will be up-to-date as the process moves forward. In addition, not all jurisdictions are reflected in this document.
- ▶ Find the most current version of this tracker on [ey.com](https://ey.com).
- ▶ Please consult with your EY engagement team to check for new updates and new developments.

# Overview/key issues

- ▶ With the crisis evolving at different stages globally, government authorities continue to implement immigration-related measures to limit the spread of the COVID-19 pandemic and protect the health and safety of individuals in and outside of their jurisdictions.
- ▶ Measures to stem the spread of COVID-19 include the following:
  - ▶ Entry restrictions and heightened admission criteria for certain populations (including prohibitions on entry from high-risk locations)
  - ▶ Mandatory “stay-home notices” and quarantine orders for newly admitted citizens, residents and visitors (whether in state facilities, hotels or private residences)
  - ▶ Temporary suspension (and in some cases, permanent cancelation) of existing (valid) visas issued prior to COVID-19 and suspension of issuance of new visas
  - ▶ Introduction of heightened eligibility criteria and application requirements where visas are being issued (including suspension of visa waiver agreements and enhanced document requirements for new applications)
- ▶ Some governments are announcing flexible policies to prevent temporary residents who are unable to travel from becoming overstayers under immigration laws, and enabling virtual right to work.

## Entry restrictions

- ▶ **Citizens.** Citizens, permanent residents, temporary residents and work visa/permit holders, business visitors and tourists may enter Angola.
- ▶ **Permanent residents.** See above.
- ▶ **Temporary residents and work visa/permit holders.** See above.
- ▶ **Business visitors.** See above.
- ▶ **Other categories.** See above.
- ▶ **Transit.** Transit through Angola is currently permitted.
- ▶ **Comments.** None.

## Heightened admission requirements

- ▶ **Pre-travel COVID-19 testing.** All travelers, including fully vaccinated travelers, are required to take a reverse transcription polymerase chain reaction (RT-PCR) COVID-19 test no more than 72 hours prior to their intended travel. They must test negative, and carry a certificate confirming the same, in order to enter Angola.
- ▶ **Post-arrival COVID-19 testing.** New entrants, including fully vaccinated travelers, may be required to take a rapid antigen COVID-19 test after arrival, at the discretion of the Angolan authorities. Travelers who are not fully vaccinated will also be tested for COVID-19 after their seventh day of quarantine.
- ▶ **Health screenings on arrival.** All new entrants will be screened upon arrival.
- ▶ **Declarations.** All new entrants must sign a consent form upon arrival, confirming that they will comply with local health rules (e.g., post-arrival testing, quarantine).
- ▶ **Registrations.** All travelers must complete a Travel Registration Form in advance of travel. For more information, click [here](#).
- ▶ **Mobile phone apps.** None.
- ▶ **Health insurance.** None.
- ▶ **Fees.** Travelers are responsible for costs related to post-arrival COVID-19 testing.
- ▶ **Comments.** None.

## Vaccination requirements and considerations

- ▶ Fully vaccinated travelers, irrespective of their nationality, who carry proof of their vaccination status (i.e., vaccination card) are exempt from the quarantine requirement, provided they test negative for COVID-19 upon arrival in Angola.
- ▶ Angolan citizens who are currently in Angola, are not be permitted to depart the country unless they have a certificate confirming that they are fully vaccinated against COVID-19. In some instances, Angolan citizens who received at least one dose of the COVID-19 vaccine may be permitted to depart the country, provided they test negative for COVID-19 no more than 48 hours prior to departure.

## Quarantine / isolation requirements

- ▶ **Duration.** Citizens and residents of Angola, as well as diplomatic personnel, are required to quarantine for seven days upon arrival. They will be tested for COVID-19 after this seven-day period, and if they test negative, they will be permitted to end their quarantine.
- ▶ **Location.** Individuals who are required to quarantine on arrival in Angola may do so in a private home or hotel, unless otherwise instructed by the local authorities.
- ▶ **Exemptions.** Fully vaccinated travelers, irrespective of their nationality, who carry proof of their vaccination status (i.e., vaccination card) are exempt from the quarantine requirement, provided their on-arrival COVID-19 test result is negative.
- ▶ **Comments.** All travelers are subject to local rules, including those relating to the use of masks, restrictions on gathering with others, curfews, etc.

## Impact on existing visas, and new visa issuance

- ▶ **Existing (valid) visas.** These visas are not suspended or canceled, and may be used to enter Angola, provided the visa holder is not otherwise inadmissible (e.g., business visitors who do not receive an entry/travel exemption).
- ▶ **New visa issuance.** New visa applications continue to be accepted and processed. However, delays are expected due to COVID-19.
- ▶ **Visa extensions/renewals.** Visa extension/renewal applications continue to be accepted and processed for individuals who are in Angola. However, delays are expected due to the COVID-19 pandemic.

## Entry restrictions

- ▶ **Citizens.** Citizens can enter Australia.
- ▶ **Permanent residents.** Permanent residents can enter Australia.
- ▶ **Temporary residents and work visa/permit holders.** [Fully vaccinated](#) visa holders may enter Australia without a travel exemption. Individuals who are not fully vaccinated against COVID-19 will require a valid [travel exemption](#) to enter Australia.
- ▶ **Business visitors.** Same as temporary residents and work visa holders.
- ▶ **Other categories.** The following individuals may also enter Australia: citizens of New Zealand who normally reside in Australia and their immediate family members, immediate family members of Australian citizens and permanent residents, Business Innovation and Investment (subclass 188) visa holders, individuals recruited under the approved Seasonal Worker Program or Pacific Labour Scheme, and select Temporary Activity (subclass 408) visa holders.
- ▶ **Transit.** Travelers may transit through Australia, provided they remain in Australia for 72 hours or less.
- ▶ **Comments.** Travelers may require approvals from the Australian States or Territories to which they will travel, and they are subject to the rules imposed by the States or Territories to which they will travel, or through which they will transit. Travelers should check the requirements in the locations through which they will transit as well as their final destination. Click [here](#) for more information about measures being implemented in different Australian States and Territories.

## Heightened admission requirements

- ▶ **Pre-travel COVID-19 testing.** Effective 18 April 2022, the Australian Government no longer requires inbound travelers to obtain a COVID-19 test before travel.
- ▶ **Post-arrival COVID-19 testing.** COVID-19 tests will be conducted after arrival while travelers are in quarantine. Alternatively, where quarantine is not required, travelers will be subject to COVID-19 testing at the time [set by the State or Territory](#) to which they travel.
- ▶ **Health screenings on arrival.** All travelers will be screened upon arrival, and asked if they have been, or are, experiencing COVID-19 symptoms.
- ▶ **Declarations.** A Digital Passenger Declaration must be completed within 72 hours before departure. The declaration can be found [here](#).
- ▶ **Registrations.** Each Australian State or Territory may have additional requirements for entry.
- ▶ **Mobile phone apps.** Each Australian State or Territory may have additional requirements for entry.
- ▶ **Health insurance.** None.
- ▶ **Fees.** Travelers are responsible for the costs associated with COVID-19 testing and quarantine.
- ▶ **Comments.** Masks must be worn on flights to Australia and domestic flights across the States/Territories. Masks are not required for children age 12 and under, or those with other accepted exemptions.

## Vaccination requirements and considerations

- ▶ Fully vaccinated travelers are defined as travelers who received the final dose of an approved COVID-19 vaccine at least seven days prior to travel to Australia.
- ▶ Approved COVID-19 vaccines for purposes of entry into Australia are listed [here](#).
- ▶ Fully vaccinated travelers may be exempt or eligible for reduced quarantine requirements when arriving in Australia. These requirements vary based on the [Australian State or Territory](#) to which they will travel.

## Quarantine / isolation requirements

- ▶ **Duration.** Unless otherwise exempt, inbound travelers are subject to a 7-14 day quarantine depending on their port of entry and vaccination status.
- ▶ **Location.** Quarantine must be completed at designated locations arranged by the Australian authorities.
- ▶ **Exemptions.** Fully vaccinated travelers may be exempt or eligible for reduced quarantine requirements when arriving in Australia. For details, see [here](#). These exemptions are tied to the requirements in the [Australian State or Territory](#) to which they will travel.
- ▶ **Comments.** All travelers are subject to local rules, including those relating to the use of masks, restrictions on gathering with others, curfews, etc.

## Impact on existing visas, and new visa issuance

- ▶ **Existing (valid) visas.** These visas are not suspended or canceled and may be used to enter Australia, provided the visa holder also has an entry/travel exemption.
- ▶ **New visa issuance.** Visa applications continue to be accepted and processed. Delays are being observed for some visa categories. Delays are also expected from third-party agencies, such as English test centers, health check providers, police clearance providers and biometrics collection centers.
- ▶ **Visa extensions/renewals.** Visa extension/renewal applications continue to be accepted and processed. Delays are being observed for some visa categories. Delays are also expected from third-party agencies, such as English test centers, health check providers, police clearance providers and biometrics collection centers.

Entry restrictions	Heightened admission requirements	Vaccination requirements and considerations	Quarantine / isolation requirements	Impact on existing visas, and new visa issuance
<ul style="list-style-type: none"> <li>▶ <b>Citizens.</b> Citizens, permanent residents, temporary residents and work visa/permit holders and business visitors are allowed to enter Austria.</li> <li>▶ <b>Permanent residents.</b> See above.</li> <li>▶ <b>Temporary residents and work visa/permit holders.</b> See above.</li> <li>▶ <b>Business visitors.</b> See above.</li> <li>▶ <b>Other categories.</b> Commuters must present a vaccination certificate, a certificate of recovery or a negative polymerase chain reaction (PCR) or antigen COVID-19 test result that is not older than 72 hours prior to arrival in Austria. This applies both to individuals commuting from abroad to their workplace in Austria and Austrian residents returning to Austria from their workplace outside of Austria.</li> <li>▶ <b>Transit.</b> Travelers may transit through Austria provided that they do not have any stopovers in Austria (with the exception of essential stops such as refueling stops). Travelers who transit through Austria and will not enter into the country are not required to complete the pre-travel online declaration.</li> <li>▶ <b>Comments.</b> All travelers (including citizens) should carry proof of meeting at least one of the following “3G rule” criteria: vaccinated against COVID-19, recovered from COVID-19, or tested for COVID-19. Children under the age of 12 are exempt from this rule.</li> </ul>	<ul style="list-style-type: none"> <li>▶ <b>Pre-arrival COVID-19 testing.</b> In general, travelers who are not fully vaccinated against COVID-19, those who did not receive a COVID-19 booster shot, and those who previously tested positive for COVID-19 and have since recovered, must take a PCR COVID-19 test no more than 72 hours prior to travel (if traveling from a location other than a virus-variant country) or 48 hours prior to travel (if traveling from a virus-variant country). Fully vaccinated travelers who received the COVID-19 booster and are traveling from virus variant countries must take a PCR COVID-19 test no more than 48 hours prior to travel. Travelers who are fully vaccinated against COVID-19 and received a COVID-19 booster, and are not traveling from virus-variant countries, are not required to get tested for COVID-19 prior to travel.</li> <li>▶ <b>Post-arrival COVID-19 testing.</b> In general, inbound travelers are not required to get tested for COVID-19 upon arrival if they tested negative for a PCR COVID-19 test prior to travel. Fully vaccinated travelers who did not receive a COVID-19 booster or have recovered from COVID-19 and did not take a PCR COVID-19 test prior to travel may be admitted; however, they are required to quarantine for 10 days after arrival and get tested for COVID-19 on their fifth day in the country.</li> <li>▶ <b>Health screenings on arrival.</b> None.</li> <li>▶ <b>Registrations.</b> In general, new entrants must <a href="#">register online</a> prior to travel. Fully vaccinated travelers, business visitors, commuters, children between the ages of 12 and 18 who are accompanied by a fully vaccinated adult, individuals entering for unforeseeable reasons and those who are transiting through Austria are exempt from the pre-travel registration requirement.</li> <li>▶ <b>Mobile phone apps.</b> New entrants may download the “Stop Corona” contact-tracing app for free from the Apple and Google app stores.</li> <li>▶ <b>Health insurance.</b> None.</li> <li>▶ <b>Fees.</b> Travelers are responsible for the costs associated with COVID-19 testing.</li> <li>▶ <b>Comments.</b> None.</li> </ul>	<ul style="list-style-type: none"> <li>▶ Travelers who received the final dose of an approved vaccine at least 14 days prior to travel are considered fully vaccinated for purposes of entry to Austria.</li> <li>▶ Vaccination certificates must be in German or English. Approved vaccines include Johnson &amp; Johnson, Moderna, Pfizer-BioNTech, Sinopharm and AstraZeneca/Covishield.</li> <li>▶ Travelers who received all required doses of an approved vaccine are deemed fully vaccinated for up to 360 days from the date of administration of the final dose of the approved vaccine. Previously, these individuals were considered fully vaccinated for up to 270 days from the date of administration of the final dose of the vaccine.</li> <li>▶ Travelers who receive a third dose of an approved two-dose vaccine must wait at least 90 days between the date of administration of the second and third doses. Travelers who receive a second dose of an approved one-dose vaccine must wait at least 90 days between the date of administration of the first and second doses.</li> </ul>	<ul style="list-style-type: none"> <li>▶ <b>Duration.</b> Travelers who recovered from COVID-19 and fully vaccinated travelers who did not receive a COVID-19 booster shot must quarantine for 10 days after arrival and get tested for COVID-19 on their fifth day in the country, unless they tested negative for COVID-19 prior to departure, in which case they are exempt from the quarantine requirement. Travelers who are unable to demonstrate they meet the “3G rule” must also quarantine for 10 days and test negative for COVID-19 before ending their quarantine.</li> <li>▶ Travelers who are required to quarantine on arrival may end their quarantine early by testing negative for COVID-19 on their fifth day in the country.</li> <li>▶ <b>Location.</b> Travelers who are required to quarantine may do so in a private residence. New entrants are not required to quarantine in a government-designated facility.</li> <li>▶ <b>Exemptions.</b> Fully vaccinated travelers who received a COVID-19 booster shot and travelers who recovered from COVID-19 are not required to quarantine on arrival, provided they are traveling from locations other than virus-variant countries. In addition, travelers between the ages of 12 and 18 who are accompanied by a fully vaccinated adult, business visitors, non-Austrian commuters entering Austria, Austrian commuters returning from their workplace outside of Austria and individuals entering for unforeseeable reasons.</li> <li>▶ <b>Comments.</b> All travelers are subject to local rules, including those relating to the use of masks, restrictions on gathering with others, curfews, etc. All individuals are required to wear FFP2 masks in all public places and when traveling using public transportation.</li> </ul>	<ul style="list-style-type: none"> <li>▶ <b>Existing (valid) visas.</b> These visas are not canceled or suspended. Visa holders may enter using their visas, provided they are not otherwise inadmissible (e.g., if they are seeking to enter from a high-risk area without getting tested for COVID-19 prior to a travel).</li> <li>▶ <b>New visa issuance.</b> Currently, visa applications may be lodged only in exceptional circumstances. For example, family members of Austrian citizens and certain Austrian residents (e.g., EU, EEA and Swiss citizens residing in Austria), as well as certain travelers entering for work, may be issued a new visa. In general, new visa applications may not be lodged with Austrian embassies and consulates, or with external service partners.</li> <li>▶ <b>Visa extensions/renewals.</b> These applications are being processed as usual, albeit with delays due to reduced staff.</li> </ul>

## Entry restrictions

- ▶ **Citizens.** Citizens may enter Belgium.
- ▶ **Permanent residents.** Permanent residents may enter Belgium.
- ▶ **Temporary residents and work visa/permit holders.** These individuals may enter Belgium, provided that they hold a valid permit or long-term D visa.
- ▶ **Business visitors.** Only individuals traveling from outside of Europe are subject to entry restrictions. These travelers must be in the possession of a valid attestation called an "Essential Travel Certificate," confirming that their travel to Belgium is permitted.
- ▶ **Other categories.** In general, the external Schengen borders are closed to foreigners for non-essential travel. This rule does not apply to residents traveling from a third country that is mentioned on the [white list](#).
- ▶ **Transit.** There are no restrictions in place for travelers who will strictly transit through Belgium en route to another destination. This applies regardless of the place from which the traveler departs, provided that flights are operating from that location.
- ▶ **Comments.** Individuals who are not citizens or residents of EU member states and who travel to Belgium from a third country that is not on Belgium's [white list](#) and who do not have one of the following documents, will be denied admission: (1) an EU Digital COVID Certificate (EUDCC), a certificate of recovery, (2) an [equivalent](#) document, or (4) an essential travel certificate.

## Heightened admission requirements

- ▶ **Pre-travel COVID-19 testing.** The following travelers are required to present either a negative polymerase chain reaction (PCR) COVID-19 test result, issued no more than 72 hours prior to departure, or an antigen (Ag) COVID-19 test issued no more than 24 hours prior to departure: (1) individuals above the age of 11 who are not residents of Belgium and who do not have an EU Digital COVID Certificate (EUDCC), a certificate of recovery, or an [equivalent](#) certificate, (2) individuals above the age of 11 who are not citizens or residents of an EU member state and who do not have an EUDCC, a certificate of recovery or an [equivalent](#) certificate, and (3) individuals above the age of 11 who are not residents of Belgium and who are arriving from a [very high-risk country](#) outside the EU.
- ▶ **Post-arrival COVID-19 testing.** Belgian residents traveling from a [dark red](#) or [grey country](#) who do not have an EUDCC, a certificate of recovery or a negative COVID-19 test certificate (issued no more than 72 hours prior to departure if it's a PCR test and no more than 24 hours prior to departure if it's an Ag test) are subject to COVID-19 (PCR or Ag) testing upon arrival in Belgium. All travelers above the age of 11 who do not have an EUDCC (including Belgian residents and non-residents) arriving from a [very high-risk country](#) within the EU, must take a PCR test upon arrival (provided they did not take a PCR test prior to travel) and on their seventh day in Belgium. All individuals aged 11 or above (including Belgian residents and non-residents) traveling from a [very high-risk country](#) outside the EU, must take a PCR test upon arrival and on their seventh day in country.
- ▶ **Health screenings on arrival.** None.
- ▶ **Declarations.** Travelers arriving by plane, train, bus or boat from a country outside the EU or Schengen area that is not on the [white list](#), are required to complete a [Passenger Locator form](#) (PLF) no more than six months prior to departure. Upon completing the PLF, travelers will receive confirmation of their testing and quarantine requirements (which may vary from the general guidelines announced by the Belgian Government). An essential travel certificate (ETC) is required for non-residents arriving from [very high-risk countries](#), and for non-residents arriving from third countries not mentioned on the [white list](#) and who do not have a [recognized](#) vaccination certificate.
- ▶ **Registrations.** None.
- ▶ **Mobile phone apps.** Apps are available, however it is not obligatory for travelers to use these apps.
- ▶ **Health insurance.** No specific COVID-19 rules in place regarding insurance.
- ▶ **Fees.** Travelers who are required to get tested for COVID-19 after entering into Belgium will be given a code following the submission of their Passenger Locator form which allows them to get tested free of charge. Those who do not abide by the testing rules are subject to a fine of EUR 250.
- ▶ **Comments.** Testing requirements can differ, depending on the period of stay (e.g., trips lasting less than 48 hours).

## Vaccination requirements and considerations

- ▶ Individuals are considered fully vaccinated against COVID-19 for purposes of entry to Belgium if they: (1) received the final dose of a vaccine that was approved by the European Medicines Agency at least 14 days prior to travel, or if traveling within the EU, (2) they tested positive for COVID-19 no more than 180 days prior to receiving their first dose of the vaccine.

## Quarantine / isolation requirements

- ▶ **Duration.** All travelers who are subject to COVID-19 testing are required to quarantine on arrival (except for individuals who have proof of a recent negative COVID-19 test). Travelers who are required to take a COVID-19 test on their first and seventh days in the country may end their quarantine if the result of their COVID-19 test taken on arrival (i.e., on their first day in Belgium) is negative. All travelers who tested positive for COVID-19 after entry to Belgium must quarantine for at least seven days. All travelers arriving from a [very high-risk country](#) (even if they tested negative for COVID-19) are required to quarantine for 10 days on arrival. Children under the age of 12 who present symptoms of COVID-19, and children whose parents are waiting on the test result must also quarantine until the test result is issued. Click [here](#) for more information regarding quarantine and self-isolation requirements.
- ▶ **Location.** Quarantines can be completed at a private home or temporary accommodation.
- ▶ **Exemptions.** In some instances, travelers entering Belgium for professional reasons for no more than 48 hours, who would otherwise be required to quarantine, may be allowed to receive an exemption from the quarantine requirement. This exemption does not apply for travelers coming from a [very high-risk country](#). Exemptions are granted at the sole discretion of the Belgian authorities. For more information on the applicable exemptions, click [here](#).
- ▶ **Comments.** All travelers are subject to local rules, including those relating to the use of masks, restrictions on gathering with others, curfews, etc.

## Impact on existing visas, and new visa issuance

- ▶ **Existing (valid) visas.** Visas are temporarily suspended for non-essential travel. Individuals holding valid visas may not use their visas to enter Belgium if the purpose of their proposed travel to Belgium is not considered essential.
- ▶ **New visa issuance.** Most Belgian consulates and embassies have resumed visa processing worldwide. They are currently only processing C (short-term) and D (long-term) visa applications for those whose travel is considered essential. Short-term travelers must obtain attestations from their local Belgian consulate/embassy confirming that their travel is essential. Specific processing requirements differ based on the jurisdiction where the consulate or embassy is situated. Visas will no longer be issued to travelers arriving from a [very high-risk country](#) for professional purposes until further notice, except if they are considered diplomats or seafarers.
- ▶ **Visa extensions/renewals.** Individuals applying for a work or single permit (first-time applicants and renewals) can submit their applications via email. The majority of town halls are handling their activities online, and certain documents may only be issued/delivered via email. First-time and renewal applications must continue to be submitted as required, even if the physical retrieval of the ID card / single permit is delayed.

Note, the residence permits themselves are not extended, and permit holders must comply with applicable requirements in order to renew these permits.</li> </ul>

## Entry restrictions

- ▶ **Citizens.** Citizens and permanent residents are allowed to enter.
- ▶ **Permanent residents.** See above.
- ▶ **Temporary residents and work visa/permit holders.** The borders are closed to most foreigners, including holders of visas issued before 28 March 2020 and Asia Pacific Economic Cooperation (APEC) Business Travel Cards. The travel ban does not apply to holders of diplomatic, service, courtesy or C visas, or Hong Kong, Macau or Taiwan residents who enter with a Mainland China Travel Permit. Holders of valid visas (where a "PU" or "TE" Invitation Letter was submitted) or valid residence permits for work/private affairs/reunion may also enter China. However, students with valid residence permits who depart from China are currently prohibited from re-entering China.
- ▶ **Business visitors.** See above.
- ▶ **Other categories.** See above.
- ▶ **Transit.** Transit is prohibited for the most part.
- ▶ **Comments.** All individuals traveling to China, including fully vaccinated travelers, travelers who never contracted COVID-19 and those who recovered from COVID-19, should consult their local Chinese Embassy or Consulate, as many Chinese Embassies and Consulates recently implemented new, stricter requirements for issuing health codes to foreign travelers in advance of their trips. For more information, click [here](#).

## Heightened admission requirements

- ▶ **Pre-travel COVID-19 testing.** In general, inbound travelers to China must take a polymerase chain reaction (PCR) test and IgM antibody test no more than 48 hours prior to travel. Travelers must test negative for all COVID-19 tests and present proof of the same to their local Chinese Consulate in order to receive a health code and gain authorization to travel to China. Individuals applying for health codes should submit their COVID-19 test results at least three hours before their travel.
- ▶ Travelers may be subject to additional tests (including lung CT, X-rays and antigen test) and rules for obtaining health codes prior to travel, depending on their COVID-19 recovery status and place of departure. In March 2022, the Chinese Embassies located in France, the United Kingdom, Canada, South Korea, the United States, Malaysia, Singapore and Germany issued notices regarding additional tests, timelines and rules for obtaining health codes for travelers arriving in China from these jurisdictions. Effective 22 April 2022, a "blue code" will be introduced to health codes issued to China-bound travelers located in United States. Passengers will receive a "blue code" if all their test results have been verified by a Chinese Embassy/Consulate. "Green codes" will continue to be issued but less often, and passengers holding a "green code" will still be eligible for boarding. China-bound travelers should consult the Chinese Embassy with jurisdiction over the place of departure to confirm the applicable requirements.
- ▶ **Post-arrival COVID-19 testing.** COVID-19 tests will be conducted after arrival (while travelers are in quarantine).
- ▶ **Health screenings on arrival.** Travelers are subject to random health screenings at the discretion of the Chinese authorities.
- ▶ **Declarations.** None.
- ▶ **Registrations.** Foreigners must complete an online registration in order to be admitted to China. They will need to provide information relating to their health status, and upload their pre-travel test results, among other things, before being issued a QR code (travelers must have a QR code to enter). For more information, click [here](#).
- ▶ **Mobile phone apps.** None.
- ▶ **Health insurance.** None.
- ▶ **Fees.** Travelers are responsible for the costs related to quarantine.
- ▶ **Comments.** None.

## Vaccination requirements and considerations

- ▶ Individuals in Macau, Hong Kong, South Korea, Japan, Australia (Sydney currently), Thailand, Belgium, Norway, Israel, Ireland, Philippines, Pakistan, Vietnam, Qatar, Slovakia, Laos, Bahrain, Belarus, Gabon, Micronesia, Malta, Sri Lanka, Timor-Leste, Indonesia (Medan currently), the United Arab Emirates, Greece, Cambodia and Kyrgyzstan who are seeking to apply for Chinese visas, and have been vaccinated with a COVID-19 vaccine produced in Mainland China, are not required to obtain an Invitation Letter (PU or TE) or an Invitation Verification Notice issued by the Chinese foreign affairs authorities, the departments of commerce of the provincial governments (including autonomous regions and municipalities), or the headquarters of central state-owned enterprises. In practice, Chinese embassies, consulates and visa application centers retain discretion to require for "PU" and "TE" letters from the visa applicants.
- ▶ Vaccinated travelers must have received the final dose of the COVID-19 vaccine at least 14 days prior to taking the pre-travel nucleic acid and IgM COVID-19 tests (48 hours prior to travel). Individuals who take the nucleic acid and IgM tests less than 14 days after receiving the final dose of the COVID-19 vaccine will not be granted authorization to enter China.

## Quarantine / isolation requirements

- ▶ **Duration.** Quarantine requirements vary across China. In Guangdong Province, a 14-day centralized quarantine (i.e., at a government-designated hotel) is required, followed by a 7-day home quarantine. In Jiangsu Province, a 14-day centralized quarantine is required, followed by 14 days of community health monitoring. In Zhejiang Province, a 14-day centralized quarantine is required, followed by a 7-day home quarantine. In Shanghai, a 14-day centralized quarantine is required, followed by a 7-day health observation period. In Beijing, a 14-day centralized quarantine is required, followed by a 7-day home observation period and another 7-day home health monitoring period.
- ▶ **Location.** In general, new entrants may quarantine in a hotel which is a government-designated location for the centralized quarantine.
- ▶ **Exemptions.** Macau residents are exempt from quarantine requirements, provided that they: (1) are in possession of a valid entry and exit document, (2) obtained a negative nucleic acid COVID-19 test certificate, and a green "health code" (in the health code app), no more than seven days prior to their desired entry, and (3) did not travel in the 14 days leading up to their desired entry to Mainland China.
- ▶ **Comments.** All travelers are subject to local rules, including those relating to the use of masks, restrictions on gathering with others, curfews, etc.

## Impact on existing visas, and new visa issuance

- ▶ **Existing (valid) visas.** The following are suspended until further notice: policies governing port visas, 24/72/144-hour visa-free transit through Mainland China, 30-day visa-free travel to Hainan, 15-day visa-free entry for foreign cruise members, 144-hour visa-free entry to Guangdong. Foreign nationals who hold valid residence permits for work are temporarily not allowed to enter China if they are departing from Canada or the United States and they have not received advance approval from the Chinese Embassy/Consulate. US residents traveling from San Francisco, Seattle and Detroit who hold valid Chinese residence permits (for work, personal affairs or family reunification) are no longer required to obtain advance approval from the Chinese Consulates in San Francisco and Chicago. However, they must test negative for nucleic acid and IgM COVID-19 tests, and obtain a health code before traveling to China.
- ▶ **New visa issuance.** In general, many Chinese embassies and consulates are temporarily suspending visa issuance for many visa types. In addition, the authorities are reviewing in detail applications for government-issued "PU" invitation letters. Foreigners entering for economic, trade, scientific, technology and emergency humanitarian reasons, as well as those entering to attend funerals, may apply for visas at embassies and consulates, and these requests will be processed on a case-by-case basis. Foreign employees may apply for "PU" invitation letters and then apply for visas to enter China. Dependents visiting foreign employees working in Beijing may now apply for PU letters.
- ▶ **Visa extensions/renewals.** These requests are being processed currently.

## Entry restrictions

- ▶ **Citizens.** Citizens, permanent residents, temporary residents, work visa/permit holders and business visitors may enter the Czech Republic.
- ▶ **Permanent residents.** See above.
- ▶ **Temporary residents and work visa/permit holders.** See above.
- ▶ **Business visitors.** See above.
- ▶ **Other categories.** See above.
- ▶ **Transit.** Transit through the Czech Republic is permitted.
- ▶ **Comments.** None.

## Heightened admission requirements

- ▶ **Pre-travel COVID-19 testing.** None.
- ▶ **Post-arrival COVID-19 testing.** None.
- ▶ **Health screenings.** None.
- ▶ **Declarations.** None.
- ▶ **Registrations.** None.
- ▶ **Mobile phone apps.** None.
- ▶ **Health insurance.** None.
- ▶ **Fees.** None.
- ▶ **Comments.** None.

## Vaccination requirements and considerations

- ▶ All restrictions, including vaccination requirements, for travelers seeking to enter the Czech Republic have been lifted.

## Quarantine / isolation requirements

- ▶ **Duration.** None.
- ▶ **Location.** Not applicable.
- ▶ **Exemptions.** Not applicable.
- ▶ **Comments.** Travelers are subject to the local rules. For more information, click [here](#).

## Impact on existing visas, and new visa issuance

- ▶ **Existing (valid) visas.** Existing (valid) visas are not impacted (e.g., suspended) as a result of the COVID-19 pandemic.
- ▶ **New visa issuance.** New visas continue to be issued and there is no impact on processing as a result of the COVID-19 pandemic.
- ▶ **Visa extensions/renewals.** Processing of visa extensions/renewals is not currently impacted by the COVID-19 pandemic.

## Entry restrictions

- ▶ **Citizens.** Citizens, permanent residents, temporary residents and work visa/permit holders, business visitors and tourists may enter Denmark. Click [here](#) for more information.
- ▶ **Permanent residents.** See above.
- ▶ **Temporary residents and work visa/permit holders.** See above.
- ▶ **Business visitors.** See above.
- ▶ **Other categories.** See above.
- ▶ **Transit.** Transit through Denmark is currently permitted.
- ▶ **Comments.** None.

## Heightened admission requirements

- ▶ **Pre-travel COVID-19 testing.** None.
- ▶ **Post-arrival COVID-19 testing.** None.
- ▶ **Health screenings on arrival.** None.
- ▶ **Declarations.** None.
- ▶ **Registrations.** None.
- ▶ **Mobile phone apps.** None.
- ▶ **Health insurance.** None.
- ▶ **Fees.** None.
- ▶ **Comments.** None.

## Vaccination requirements and considerations

- ▶ All restrictions, including vaccination requirements, for travelers seeking to enter Denmark have been lifted.

## Quarantine / isolation requirements

- ▶ **Duration.** None.
- ▶ **Location.** Not applicable.
- ▶ **Exemptions.** Not applicable.
- ▶ **Comments.** None.

## Impact on existing visas, and new visa issuance

- ▶ **Existing (valid) visas.** Existing visas are not currently suspended or canceled.
- ▶ **New visa issuance.** In general, new visas are currently being issued, with limited exceptions (e.g., working holiday visas are currently not being issued to Argentine nationals).
- ▶ **Visa extensions/renewals.** The Danish immigration authorities are processing extension and renewal requests, albeit with delays in some cases. Holders of Danish visas and permits that expired (or will expire) while they were (are) in Denmark who, due to COVID-19, were (are) unable to depart before the document expired (expires), must inform the Danish immigration authorities, and wait to receive instructions from the Danish authorities before leaving Denmark.

## Entry restrictions

- ▶ **Citizens.** Citizens, permanent residents, temporary residents and work visa/permit holders returning to Finland may enter Finland.
- ▶ **Permanent residents.** See above.
- ▶ **Temporary residents and work visa/permit holders.** See above.
- ▶ **Business visitors.** There are no restrictions on entry for business visitors traveling from the EU and Schengen Area member states, Andorra, Monaco, San Marino, the Vatican, and green list locations (i.e., Bahrain, Colombia, Chile, Hong Kong, Indonesia, Kuwait, Macau, New Zealand, Peru, Qatar, Rwanda, Saudi Arabia, South Korea, Taiwan, the United Arab Emirates and Uruguay). Business visitors traveling from locations other than these, who were born in 2006 or earlier, may enter Finland if they present: (a) a certificate proving that the traveler received all required doses of the COVID-19 vaccine (i.e., two doses of a two-dose series, or one dose of a one-dose series) at least seven days prior to travel to Finland, (b) a single certificate proving that the traveler recovered from COVID-19 in the six months preceding their desired travel (i.e., they tested positive for COVID-19 no more than six months prior to travel to Finland) and received one dose of an approved two-dose COVID-19 vaccine, or (c) an EU Digital COVID Certificate (EUDCC) proving that the traveler tested positive for COVID-19 in the six months preceding their travel to Finland. Individuals who do not present any of these certificates and are not traveling to Finland for necessary or essential reasons will be denied admission. Limited exceptions apply for essential travel. Click [here](#) for more information.
- ▶ **Other categories.** None.
- ▶ **Transit.** In general, foreigners may transit through Finland, except in certain situations. Click [here](#) for more information about transit rules in Finland.
- ▶ **Comments.** Travelers are advised to use the [Finentry](#) or [Laplandentry](#) services to manage their COVID-19 entry/testing requirements.

## Heightened admission requirements

- ▶ **Pre-travel COVID-19 testing.** Admissible individuals traveling from locations other than the EU, the Schengen Area and other permitted locations (i.e., Andorra, Monaco, San Marino, the Vatican, Bahrain, Colombia, Chile, Hong Kong, Indonesia, Kuwait, Macau, New Zealand, Peru, Qatar, Rwanda, Saudi Arabia, South Korea, Taiwan, United Arab Emirates and Uruguay) who do not hold any of the three following forms of documentation must take a polymerase chain reaction (PCR) or rapid antigen COVID-19 test no more than 72 hours prior to travel, and test negative: (a) a certificate proving that they received all required non-booster doses of the COVID-19 vaccine (i.e., two doses of a two-dose series, or one dose of a one-dose series) at least seven days, and no more than nine months, prior to travel to Finland, (b) a single certificate proving that they recovered from COVID-19 in the six months preceding their desired travel (i.e., they tested positive for COVID-19 no more than six months prior to travel to Finland) and that they received one dose of an approved two-dose COVID-19 vaccine, or (c) an EU Digital COVID Certificate (EUDCC) proving that they tested positive for COVID-19 in the six months preceding their desired travel to Finland. Click [here](#) for more information.
- ▶ **Post-arrival COVID-19 testing.** Individuals who are required to get tested for COVID-19 prior to travel must also get tested for COVID-19 between 72 and 120 hours after their arrival in Finland. Individuals who enter Finland for necessary/essential reasons and do not get tested for COVID-19 prior to travel must get tested for COVID-19 on arrival to Finland, and again between 72 to 120 hours after their arrival. Click [here](#) for more information.
- ▶ **Health screenings on arrival.** Inbound travelers are required to take part in a health screening upon arrival. During the health screening, the traveler will be asked to provide their vaccination certificate and pre-travel COVID-19 test result. Limited exceptions apply. Click [here](#) for more information.
- ▶ **Declarations.** None.
- ▶ **Registrations.** None.
- ▶ **Mobile phone apps.** Travelers are recommended to download and use the "Koronavilkku" app.
- ▶ **Health insurance.** None.
- ▶ **Fees.** Travelers who take COVID-19 tests on arrival at the airport may do so free of charge. Individuals who get tested in private clinics in Finland are responsible for the cost of those tests.
- ▶ **Comments.** None.

## Vaccination requirements and considerations

- ▶ Travelers are considered fully vaccinated against COVID-19 if they took all required (non-booster) doses of an approved COVID-19 and received the final (non-booster) dose at least seven days, and no more than nine months, prior to entry into Finland. Individuals who received their final (non-booster) shot more than nine months prior to their desired travel to Finland must get a booster shot to be considered fully vaccinated for purposes of entry into Finland.
- ▶ The following COVID-19 vaccines are approved in Finland: (a) Comirnaty (Pfizer-BioNTech), (b) Spikevax (Moderna), (c) Vaxzevria (AstraZeneca), (d) Janssen (Johnson & Johnson), (e) Sinopharm (BIBP), (f) Covishield (Serum institute of India), (g) CoronaVac (Sinovac Life Sciences), and (h) Covaxin (Bharat Biotech Int), and (i) Nuvaxovid (Novavax CZ), and (k) Covovax (Serum Institute of India). Click [here](#) for more information about approved vaccines and required doses.

## Quarantine / isolation requirements

- ▶ **Duration.** Individuals who enter Finland without a certificate proving they are fully vaccinated against COVID-19 are recommended to quarantine until they receive negative results for their second COVID-19 test after entering Finland.
- ▶ **Location.** Where applicable, the quarantine can occur in a hotel or private residence.
- ▶ **Exemptions.** Not applicable.
- ▶ **Comments.** All travelers are subject to local rules, including those relating to the use of masks, restrictions on gathering with others, curfews, etc.

## Impact on existing visas, and new visa issuance

- ▶ **Existing (valid) visas.** Existing (valid) business visas and residence permits are not impacted (e.g., suspended) as a result of the COVID-19 pandemic.
- ▶ **New visa issuance.** New business visa issuance and new residence permit application intake is starting gradually. We recommend checking the website of the Embassy of Finland in your country of residence. Click [here](#) for additional details.
- ▶ **Visa extensions/renewals.** In general, it is not possible to extend a business visa while in Finland. However, in situations involving force majeure, the local police may grant short extensions. Click [here](#) for additional details.
- ▶ Processing of residence permit extensions/renewals in Finland is not currently impacted by the COVID-19 pandemic.

## Entry restrictions

- ▶ **Citizens.** German citizens, permanent residents, temporary residents and work visa/permit holders may enter Germany, from both high-risk and variant areas. Residents and work visa/permit holders must have a residence in Germany in order to re-enter the country. There are no restrictions for travelers from exempted countries. There are only two types of risk areas, high-risk and variant areas. The "normal" risk areas category was abolished on 8 August 2021.
- ▶ **Permanent residents.** See above.
- ▶ **Temporary residents and work visa/permit holders.** See above.
- ▶ **Business visitors.** Visitors who are not otherwise admissible may only enter in certain circumstances, including for important economic reasons (as determined by the German authorities). Travelers who received their final dose of the COVID-19 vaccine at least two weeks prior to their desired entry may enter Germany for any reason (and not just important economic reasons). Visitors in locations with COVID-19 variants - including fully vaccinated individuals - are not permitted to enter currently, except in very limited situations.
- ▶ **Other categories.** The following individuals are admissible to Germany: (1) citizens of EU countries, (2) citizens of Iceland, Norway, Liechtenstein, and Switzerland, (3) holders of valid long-term residence permits issued by EU Member States, Iceland, Norway, Liechtenstein or Switzerland, (4) skilled and highly-qualified foreign workers, if their employment is deemed necessary from a German economic perspective, and the work cannot be postponed or done remotely, (5) residents of certain exempted countries (click [here](#) for more information, see section titled "What applies to air and sea travel outside of the European Union"), (6) transport personnel, and (7) seasonal workers in the agricultural sector. Residents of Mainland China who are seeking to enter as visitors are expected to be permitted to enter if/when a reciprocity agreement goes into effect allowing German citizens and residents to enter into Mainland China.
- ▶ **Transit.** Foreigners may transit through Germany provided they are admissible to their final destination and do not exceed the time necessary in Germany to transit to their next destination. However, individuals who transit through Germany by air, from within or outside of the Schengen Area, must present proof that they: (1) are fully vaccinated against COVID-19, (2) tested negative for COVID-19 prior to travel, or (3) recovered from COVID-19.
- ▶ **Comments.** Travel from virus-variant areas is prohibited, with limited exceptions.

## Heightened admission requirements

- ▶ **Pre-travel COVID-19 testing.** All travelers seeking entry from a virus-variant area must test negative for COVID-19 no more than 24 hours prior to their entry. All other travelers must test negative for COVID-19 within 72 hours (if relying on a PCR test) or 48 hours (if relying on an antigen test) leading up to their entry. All test results must be in German, English or French, and must be kept for at least 10 days after entry. Individuals who were fully vaccinated at least two weeks prior to their desired entry to Germany, as well as individuals who fully recovered from COVID-19 within the six months preceding their desired entry, are not required to get tested prior to entry, provided they are not traveling from a virus-variant area. For more information, click [here](#).
- ▶ **Post-arrival COVID-19 testing.** None.
- ▶ **Health screenings on arrival.** Travelers are subject to random screening upon arrival.
- ▶ **Declarations.** None.
- ▶ **Registrations.** In general, travelers seeking entry to Germany from a high-risk area or a virus-variant area must complete an online registration prior to entry. Travelers transiting through Germany other than by air are generally exempt from this registration requirement. For more information, click [here](#).
- ▶ **Mobile phone apps.** All travelers are recommended, but not required, to download and use the Corona-Warn app. For more information on the app, click [here](#).
- ▶ **Health insurance.** Travelers must have health insurance covering at least EUR 30.000 worth of medical costs.
- ▶ **Fees.** Travelers are responsible for the costs associated with COVID-19 testing.
- ▶ **Comments.** None.

## Vaccination requirements and considerations

- ▶ Individuals who were fully vaccinated at least two weeks prior to their desired entry, as well as individuals who fully recovered from COVID-19 within the six months preceding their desired entry, are not required to undergo testing before entry and may be exempt from the quarantine requirement, as long as they are not traveling from a region with a COVID-19 variant. The list of approved vaccines can be found [here](#).
- ▶ Fully vaccinated travelers must carry an EU Digital COVID Certificate or a comparable proof of vaccination, issued in German, English, French, Italian or Spanish, containing the following information: (1) the traveler's name and date of birth, (2) the date(s) of vaccination, (3) the name of the vaccine(s) administered, (4) the name, address and electronic signature or seal of the institution(s) that administered the vaccine.

## Quarantine / isolation requirements

- ▶ **Duration.** Travelers from high-risk or variant countries are required to quarantine for 10 to 14 days upon arrival (depending on applicable rules in the location in Germany to which they will travel), if they have been in a high-risk area in the 10 days leading up to their travel to Germany. The quarantine period may be shortened by up to five days, in some (but not all) instances, if new entrants: (a) test negative for COVID-19, (b) are traveling to an area in Germany where a shorter quarantine period is required, or (c) are either fully vaccinated against, or recovered from, COVID-19 in the six months preceding their entry. Travelers entering from a virus-variant area are required to quarantine for 14 days upon arrival without having the option to shorten it. Travelers entering from areas that are not considered high-risk or virus-variant areas are not required to quarantine upon arrival. For more information, click [here](#). Travelers who test positive for COVID-19 after entering Germany must self-isolate, irrespective of their COVID-19 vaccination and/or recovery status.
- ▶ **Location.** The quarantine can take place in a private residence. New entrants are not required to quarantine at a state facility.
- ▶ **Exemptions.** Local state rules may permit exemptions and/or shorter quarantine periods. Other limited exemptions may apply in specific situations, as determined by the German authorities on a case-by-case basis.
- ▶ **Comments.** All travelers are subject to local state rules, including those related to the use of masks.

## Impact on existing visas, and new visa issuance

- ▶ **Existing (valid) visas.** These visas are not canceled or suspended. Visa holders may enter using their visas, provided they are not otherwise inadmissible (e.g., seeking to enter from a high-risk area without getting tested prior to travel).
- ▶ **New visa issuance.** New visa issuance is currently limited to applicants from high-risk countries who can prove that they have a valid and urgent reason for their travel. Evidence of urgency may include an employer letter, Additional proof may be requested by German consulates processing the new visa request. No restrictions apply to residents from exempted countries. In general, visas are not being issued to travelers from variant countries.
- ▶ **Visa extensions/renewals.** Extension applications are being processed as usual, albeit with delays due to reduced staff. Individuals who apply to renew/extend their visa, whose request is not processed before their visa expires, will be considered to have valid immigration status while the application is adjudicated by the German authorities.

However, they will be required to get vaccinated upon arrival.</li> <li>▶ Persons who are vaccinated with World Health Organization Emergency Use Listing vaccine that is not approved by Ghana's Food and Drug Authority (FDA) will be given the opportunity to receive a COVID-19 vaccine on arrival that was approved by Ghana's FDA.</li> </ul>	<ul style="list-style-type: none"> <li>▶ <b>Duration.</b> A seven-day quarantine is mandatory for all travelers who test positive for COVID-19 on arrival. At the end of the quarantine period, travelers who do not display COVID-19 symptoms will be discharged and asked to self-isolate at home (while observing the requirements and instructions of the local COVID-19 medical team). In addition, unvaccinated and partially vaccinated citizens and residents of Ghana who refuse to get vaccinated on arrival must quarantine for seven days in a government isolation center, at their own cost.</li> <li>▶ Foreigners will be responsible for the costs associated with their quarantine; whereas citizens will have their quarantine expenses covered by the Ghana government.</li> <li>▶ <b>Location.</b> The quarantine must be carried out at a government isolation center.</li> <li>▶ <b>Exemptions.</b> Passengers that do not test positive for COVID-19 during the test taken on arrival, are exempt from the quarantine requirement.</li> <li>▶ <b>Comments.</b> All travelers are subject to local rules, restrictions on gathering with others and curfews.</li> </ul>	<ul style="list-style-type: none"> <li>▶ <b>Existing (valid) visas.</b> Existing (valid) visas are not impacted (e.g., suspended) as a result of the COVID-19 pandemic.</li> <li>▶ <b>New visa issuance.</b> New visas continue to be issued and there is no impact on processing as a result of the COVID-19 pandemic.</li> <li>▶ <b>Visa extensions/renewals.</b> Processing of visa extensions/renewals is not currently impacted by the COVID-19 pandemic.</li> </ul>

## Entry restrictions

- ▶ **Citizens.** Citizens, permanent residents and holders of Greek residence permits are permitted to enter this jurisdiction.
- ▶ **Permanent residents.** See above.
- ▶ **Temporary residents and work visa/permit holders.** See above.
- ▶ **Business visitors.** Business visitors may enter Greece provided they are one of the following: (a) EU/EEA and Schengen country citizens, long-term residents, or holders of residence permits and their family members, (b) diplomats, (c) cross-border commuters, (d) health care workers, (e) people transporting goods, or (f) nationals or permanent residents of San Marino, Azerbaijan, Albania, Andorra, Argentina, Armenia, Australia, Vatican, North Macedonia, Bosnia-Herzegovina, the United Arab Emirates, the United States, the United Kingdom, Japan, Jordan, India, Israel, Canada, Qatar, Mainland China, Kosovo, Kuwait, Belarus, Lebanon, Montenegro, Moldova, Monaco, Bahrain, Brunei, New Zealand, South Korea, Ukraine, Uruguay, Russia, Saudi Arabia, Serbia, Singapore, Turkey, Taiwan, Oman, Chile and Mexico.
- ▶ **Other categories.** The following are allowed entry to Greece: (a) EU/EEA and Schengen country citizens, long-term residents as well as holders of residence permits and their family members, (b) diplomats, (c) cross-border commuters, (d) health care workers, (e) people transporting goods, and (f) nationals and permanent residents of San Marino, Azerbaijan, Albania, Andorra, Argentina, Armenia, Australia, Vatican, North Macedonia, Bosnia-Herzegovina, the United Arab Emirates, the United States, the United Kingdom, Japan, Jordan, India, Israel, Canada, Qatar, Mainland China, Kosovo, Kuwait, Belarus, Lebanon, Montenegro, Moldova, Monaco, Bahrain, Brunei, New Zealand, South Korea, Ukraine, Uruguay, Russia, Saudi Arabia, Serbia, Singapore, Turkey, Taiwan, Oman, Chile and Mexico.
- ▶ **Transit.** Travelers may transit through Greece.
- ▶ **Comments.** None.

## Heightened admission requirements

- ▶ **Pre-travel COVID-19 testing.** Individuals aged five and above traveling to Greece from the EU, the EEA or any of the following locations are not required to take a COVID-19 test prior to travel, provided they hold an EU Digital COVID Certificate (EUDCC) confirming that they (a) are fully vaccinated against COVID-19 and they received their final, non-booster dose, no more than 9 months before their intended travel (no time restriction for those who received their booster dose), (b) recovered from COVID-19 no more than 180 days before their intended travel, (c) tested negative for a polymerase chain reaction (PCR) COVID-19 test no more than 72 hours (24 hours if they took a rapid antigen COVID-19 test) before their travel: Albania, Andorra, Armenia, Cape Verde, El Salvador, Faroe Islands, Georgia, Iceland, Israel, Lebanon, Liechtenstein, Morocco, Montenegro, Moldova, Monaco, New Zealand, North Macedonia, Norway, Panama, San Marino, Switzerland, Ukraine, the United Arab Emirates, the United Kingdom, Uruguay, Serbia, Singapore, Taiwan, Thailand, Togo, Tunisia, Turkey, the Vatican, Jordan, Benin, Colombia and Malaysia. Additionally, individuals traveling to Greece from Australia, Canada or the United States may enter the country provided they hold: (a) proof that they received the final (non-booster) dose of a COVID-19 vaccine no more than nine months before their intended travel to Greece; (b) proof that they received a booster dose of the COVID-19 vaccine (there are no time restrictions associated with the booster dose), (c) a certificate of recovery proving that they tested positive for COVID-19 and have made a full recovery and are asymptomatic issued no more than 180 days prior to travel to Greece, or (d) proof that they took a PCR COVID-19 test no more than 72 hours prior to travel, or a rapid antigen COVID-19 test no more than 24 hours prior to travel, and tested negative.
- ▶ All other travelers aged five and above are required to take a PCR COVID-19 test no more than 72 hours prior to travel, or a rapid antigen COVID-19 test no more than 24 hours prior to travel, and test negative, to be admitted, irrespective of their COVID-19 vaccination/recovery status.
- ▶ Travelers aged four and below are not required to get tested prior to entry into Greece.
- ▶ **Post-arrival COVID-19 testing.** Travelers who enter Greece by land may be required to take a COVID-19 test on arrival. In addition, all travelers, regardless of nationality, may be subject to COVID-19 sample testing (i.e., testing at random) on arrival.
- ▶ **Health screenings on arrival.** See above.
- ▶ **Declarations.** None.
- ▶ **Registrations.** None.
- ▶ **Mobile phone apps.** None.
- ▶ **Health insurance.** None.
- ▶ **Fees.** None.
- ▶ **Comments.** Additional requirements may apply for individuals who enter Greece via land borders (e.g., obligation to show documents proving the trip is for urgent business or medical purposes).

## Vaccination requirements and considerations

- ▶ See the “Heightened admission requirements” section.

## Quarantine / isolation requirements

- ▶ **Duration.** Travelers subject to sample testing are required to remain in quarantine until their result is issued. If the sample test result is positive, they must undergo a five-day quarantine. After the fifth day, asymptomatic passengers may leave quarantine, otherwise the quarantine period is extended until the symptoms subside.
- ▶ **Location.** Quarantine may take place in a private residence or another suitable accommodation, as long as it matches the address listed on the PLF declaration form.
- ▶ **Exemptions.** None.
- ▶ **Comments.** All travelers are subject to local rules, including those relating to the use of masks, restrictions on gathering with others, curfews, etc.

## Impact on existing visas, and new visa issuance

- ▶ **Existing (valid) visas.** Holders of short-term C visas will not be permitted to enter Greece unless they classify under one of the permissible entry categories. Work and other valid residence visas are not currently impacted.
- ▶ **New visa issuance.** New short-term C visas are only issued for persons classifying under one of the permissible entry categories. Work and other residence visas may be issued in communication with the competent Greek Consulate, however delays and/or additional requirements can be expected.
- ▶ **Visa extensions/renewals.** Certificates for the submission of a residence permit application (blue certifications) and residence permits which were previously extended until 31 December 2021 and then until 31 March 2022, were automatically extended until 30 June 2022. The renewed residence permits will be valid retrospectively, starting on the first day after the expiration date.
- ▶ There is currently no provision for the extension of entry (work or other residence) visas to Greece.

## Entry restrictions

- ▶ **Citizens.** Citizens may enter Hong Kong.
- ▶ **Permanent residents.** Permanent residents, temporary residents and work visa/permit holders may enter Hong Kong, provided they are fully vaccinated and they were not present in a location outside China Mainland in the 14 days leading up to their arrival to Hong Kong.
- ▶ Effective 1 April 2022, Hong Kong residents who were present in a location outside China Mainland in the 14 days leading up to their travel may board flights for Hong Kong if they: (1) are fully vaccinated, (2) hold a recognized COVID-19 vaccination record, (3) hold a negative test result for a polymerase chain reaction (PCR) COVID-19 test conducted no more than 48 hours prior to the aircraft's scheduled departure time, and (4) are able to present a Designated Quarantine Hotel (DQH) room reservation confirmation. For more information, click [here](#).
- ▶ **Temporary residents and work visa/permit holders.** See above.
- ▶ **Business visitors.** Non-Hong Kong residents are allowed to enter Hong Kong provided that they were only present in Mainland China, Macau or Taiwan in the 14 days preceding their travel to Hong Kong.
- ▶ **Other categories.** See above.
- ▶ **Transit.** Transit through Hong Kong is currently permitted. All travelers boarding a flight departing from an overseas location or Taiwan, may transit through Hong Kong if they have a negative test result for a PCR COVID-19 test conducted no more than 48 hours prior to aircraft's scheduled departure time. For more details, click [here](#).
- ▶ **Comments.** None.

## Heightened admission requirements

- ▶ **Pre-travel COVID-19 testing.** Prior to boarding, all inbound travelers arriving by air must present a proof of negative nucleic acid PCR COVID-19 test conducted no more than 48 hours prior to the aircraft's scheduled departure time. The test must be conducted by a local government-recognized, or ISO 15189 accredited, laboratory or healthcare institution. Click [here](#) for more information.
- ▶ **Post-arrival COVID-19 testing.** All inbound travelers are required to undergo COVID-19 testing. For more information regarding testing requirements, click [here](#).
- ▶ **Health screenings on arrival.** None.
- ▶ **Declarations.** Travelers are required to submit a health declaration form online no more than 48 hours prior to travel. For more information, click [here](#). Upon completing the online form, they will receive a QR code that permits them to enter Hong Kong via the International Airport within 48 hours of completing the form, or via land control points within 24 hours of completing the form.
- ▶ **Registrations.** None.
- ▶ **Mobile phone apps.** None.
- ▶ **Health insurance.** None.
- ▶ **Fees.** Travelers are responsible for quarantine-related costs.
- ▶ **Comments.** None.

## Vaccination requirements and considerations

- ▶ Click [here](#) for the definition of the term "fully vaccinated persons." Individuals who previously tested positive for COVID-19 and have since made a full recovery and are asymptomatic (i.e., recovered persons) are considered fully vaccinated if they received at least one dose of an approved COVID-19 vaccine at least 14 days prior to arrival in Hong Kong. Click [here](#) for more information regarding current approved vaccines and [here](#) to learn more about documents that may be used to prove that a person is fully vaccinated for purposes of entry into Hong Kong. For the list of places that issue recognized vaccination records, click [here](#).
- ▶ Individuals who are medically ineligible to receive the COVID-19 vaccine (and carry proof of the same from a doctor), and individuals who received one dose of a recognized two-dose COVID-19 vaccine and were later deemed to be medically ineligible to receive the second dose (and carry proof of the same) are exceptionally allowed to board for Hong Kong.
- ▶ Entry, testing and quarantine requirements vary for vaccinated and non-vaccinated travelers. Click [here](#) for more information.

## Quarantine / isolation requirements

- ▶ **Duration.** Click [here](#) for information on quarantine requirements.
- ▶ **Location.** Travelers entering from Mainland China or Macau may quarantine at a hotel, private home or other accommodation. Travelers entering from other locations must quarantine at a government-designated quarantine hotel (DQH) in Hong Kong.
- ▶ Effective 1 April 2022, travelers may book their DQH room for either 7 or 14 nights, depending on whether they plan to meet the conditions for early discharge. Individuals who book a room for 14 nights will not be discharged earlier even if they test negative for COVID-19 on the seventh day. Click [here](#) for information about early discharge requirements.
- ▶ **Exemptions.** Hong Kong residents who travel to Mainland China or Macau (with the exception of [at-risk places](#)) may be exempt from the quarantine requirement upon their return to Hong Kong, provided they fulfill the conditions under the Return2HK Scheme. Click [here](#) for more information.
- ▶ Travelers who are not residents of Hong Kong who are traveling to Hong Kong from Guangdong or Macau (with the exception of [at-risk places](#)) may be exempt from the quarantine requirement, provided they fulfill the conditions under the Come2HK Scheme. Click [here](#) for more information. Exemptions are also available for other categories of travelers. Click [here](#) and [here](#) for more information.
- ▶ **Comments.** All travelers are subject to local rules, including those relating to the use of masks, restrictions on gathering with others, curfews, etc.

## Impact on existing visas, and new visa issuance

- ▶ **Existing (valid) visas.** Existing (valid) visas are not suspended or canceled. These visas may be used to enter Hong Kong, provided the visa holder is not otherwise inadmissible (e.g., Hong Kong residents who are not fully vaccinated and were present in high-risk locations for more than two hours on the day of boarding, or during the 14 days preceding their travel to Hong Kong).
- ▶ **New visa issuance.** New visa applications are being processed currently, albeit with delays.
- ▶ **Visa extensions/renewals.** Extension applications are being processed currently. The Immigration authorities have announced that they are accepting applications to return to Hong Kong submitted by non-Permanent Residents located outside of Hong Kong. Click [here](#) for more information.

The Irish authorities have advised that this will be the final automatic extension.</li> </ul>

## Entry restrictions

- ▶ **Citizens.** Israeli citizens are allowed to enter Israel.
- ▶ **Permanent residents.** Permanent residents are allowed to enter Israel.
- ▶ **Temporary residents and work visa/permit holders.** Temporary residents and work visa/permit holders may enter Israel, irrespective of their vaccination status, provided they comply with the rules laid out by the Ministry of Health. For more information, click [here](#).
- ▶ **Business visitors.** Foreign visitors may enter Israel, irrespective of their vaccination status, provided they comply with the rules laid out by the Ministry of Health. For more information, click [here](#).
- ▶ **Other categories.** See above.
- ▶ **Transit.** Passengers must take the PCR test no more than 72 hours prior to their first flight, if the time elapsed between the first flight and the flight that arrives in Israel is shorter than 24 hours.
- ▶ **Comments.** None.

## Heightened admission requirements

- ▶ **Pre-travel COVID-19 testing.** Admissible travelers must take a polymerase chain reaction (PCR) COVID-19 test no more than 72 hours prior to travel, or a rapid antigen COVID-19 test from a recognized facility no more than 24 hours prior to travel, and test negative to be admitted. This requirement may be waived in exceptional cases.
- ▶ **Post-arrival COVID-19 testing.** All inbound travelers are required to take a PCR COVID-19 test upon arrival.
- ▶ **Health screenings on arrival.** Foreign nationals who display symptoms of COVID-19 must contact the authorities' Emergency Medical Services Hotline at 101 or the Ministry of Health Hotline at \*5400 for advice.
- ▶ **Declarations.** All travelers must submit an Inbound Clearance Application Form 48 hours before travel. For more information, click [here](#).
- ▶ **Registrations.** None.
- ▶ **Mobile phone apps.** None.
- ▶ **Health insurance.** Foreign nationals entering Israel are required to present a Health insurance policy, which includes coverage for medical care related to COVID-19.
- ▶ **Fees.** Travelers (or their sponsoring entities within Israel) are responsible for covering the costs of any PCR COVID-19 tests conducted at the airport on arrival, and after entry to Israel.
- ▶ **Comments.** None.

## Vaccination requirements and considerations

- ▶ Travelers may now enter Israel irrespective of their vaccination status, provided they comply with the rules laid out by the Ministry of Health. For more information, click [here](#).

## Quarantine / isolation requirements

- ▶ **Duration.** All travelers are required to quarantine for up to 24 hours or until receiving a negative result for the PCR test performed at the airport. If they test positive, they will be required to quarantine for at least 14 days. In some cases, individuals may end their quarantine earlier. Click [here](#) for details.
- ▶ **Location.** New entrants may quarantine in a private home. Hotels, hostels and guesthouses are not considered suitable locations for quarantine purposes. Government-run facilities are available for new entrants who are unable to quarantine in a private home.
- ▶ **Exemptions.** See above.
- ▶ **Comments.** All travelers are subject to local rules, including those relating to the use of masks, restrictions on gatherings, curfews, etc.

## Impact on existing visas, and new visa issuance

- ▶ **Existing (valid) visas.** These visas are not suspended or canceled and may be used to enter Israel.
- ▶ **New visa issuance.** New visa applications are being processed.
- ▶ **Visa extensions/renewals.** Visa extension/renewal applications continue to be accepted and processed.

## Entry restrictions

- ▶ **Citizens.** In general, citizens, permanent residents, temporary residents and work visa/permit holders may enter Italy.
- ▶ **Permanent residents.** See above.
- ▶ **Temporary residents and work visa/permit holders.** See above.
- ▶ **Business visitors.** Business travelers are permitted to enter Italy.
- ▶ **Other categories.** Specific regulations are in place Ukrainian citizens and third country nationals arriving from Ukraine. For more information, click [here](#).
- ▶ In general, tourists may enter Italy. For more information, click [here](#). Tourists seeking to enter Italy are advised to confirm their entry requirements with their airline prior to travel.
- ▶ **Transit.** Transit for less than 36 hours is permitted currently.
- ▶ **Comments.** None.

## Heightened admission requirements

- ▶ **Pre-travel COVID-19 testing.** Admissible travelers who do not carry proof that they are fully vaccinated against COVID-19, that they recovered from COVID-19 or that they tested negative for COVID-19 no more than 48 hours prior to travel (e.g., EU Digital COVID Certificate or an equivalent COVID-19 Certificate) must take a polymerase chain reaction (PCR) COVID-19 test no more than 48 hours prior to travel, or a rapid antigen COVID-19 test no more than 24 hours prior to travel, and test negative, to be admitted. Click [here](#) for more information about EU COVID Certificates.
- ▶ **Post-arrival COVID-19 testing.** Ukrainian citizens and third country nationals arriving from Ukraine must take an antigenic swab or molecular COVID-19 test within 48 hours after arriving in Italy. In addition, in order to end their five-day self-monitoring period, they must take another COVID-19 swab test and test negative. Click [here](#) for more details.
- ▶ **Health screenings on arrival.** None.
- ▶ **Declarations.** Travelers must complete a [declaration form](#) before being admitted to Italy.
- ▶ **Registrations.** Travelers are not required to register with the authorities on arrival or after entry to Italy.
- ▶ **Mobile phone apps.** Travelers are advised to download and use the [Immuini](#) mobile app.
- ▶ **Health insurance.** None.
- ▶ **Fees.** Foreign travelers are responsible for the cost of COVID-19 testing. Tests may be performed either in public or private testing facilities, with prices generally ranging from EUR 10 to 15 per test. Travelers who are enrolled in the Italian National Health System may be exempt from these costs, if the tests are taken at the direction of a doctor.
- ▶ **Comments.** Regional authorities within Italy may impose additional restrictions. Travelers are subject to local rules and should consider these when planning travel.

## Vaccination requirements and considerations

- ▶ Travelers are considered fully vaccinated against COVID-19 for purposes of travel to Italy if they received all required (non-booster) doses of an approved COVID-19 vaccine no more than nine months prior to travel to Italy, or if they received a booster dose of an approved COVID-19 vaccine.
- ▶ Approved COVID-19 vaccines for purposes of entry to Italy include: Pfizer/BioNTech, Moderna, Covishield/R-CoVI/Vaxzevria (AstraZeneca), Janssen, vaccines recognized by the [European Medicines Agency](#) (EMA) and recombinant COVID-19 vaccine (Fiocruz). Click [here](#) and [here](#) for more information.

## Quarantine / isolation requirements

- ▶ **Duration.** In general, travelers are not required to isolate or quarantine on arrival. Individuals who are admitted into Italy but fail to present an EU COVID Certificate or an equivalent COVID Certificate confirming their COVID-19 vaccination status, will be required to quarantine for five days on arrival and test negative for COVID-19 at the end of the five-day period to end their quarantine. Individuals traveling from San Marino and/or the Vatican are not required to quarantine on arrival.
- ▶ Ukrainian citizens and third country nationals arriving from Ukraine must undergo a five-day self-monitoring period upon arrival in Italy and test negative for COVID-19 in order to end their self-monitoring period. Check [here](#) and the official websites of Italy's local health offices and Police Headquarters (Questura offices) for more details.
- ▶ **Location.** In general, travelers who are required to quarantine may do so in a home, hotel or private residence, except for inbound travelers who test positive for COVID-19 on arrival in Italy, who may be required to quarantine in a government-designated COVID hotel.
- ▶ **Exemptions.** Limited exemptions are applicable to specific categories of workers (e.g., transport crew members, cross-border workers), who are exempt from the testing and isolation requirements. For more information, click [here](#).
- ▶ **Comments.** All travelers are subject to local rules, including those relating to the use of masks, restrictions on gathering with others, etc.

## Impact on existing visas, and new visa issuance

- ▶ **Existing (valid) visas.** These visas are not currently suspended or canceled. However, travelers who are otherwise ineligible to enter Italy may not use their existing visas to gain admission to Italy.
- ▶ **New visa issuance.** Most Italian consulates continue to process new visa requests.
- ▶ **Visa extensions/renewals.** Visa/residence permit extensions are still being processed in most locations. In order to submit a visa renewal request, the individual must be physically present in Italy at the time of the application filing.

## Entry restrictions

- ▶ **Citizens.** Macau ID holders (Permanent or Non-Permanent type)
- ▶ **Permanent residents.** See above.
- ▶ **Temporary residents and work visa/permit holders.** In general, foreign non-resident workers (aka Macau Blue Card holders) and visitors are prohibited from entering Macau. Visitors and Blue Card holders who are residents of Mainland China, Taiwan or Hong Kong (Hong Kong Permanent Identity Card or Hong Kong Identity Card holders with a One-Way Permit issued by Mainland China), are allowed to enter Macau, unless they have traveled to locations other than Mainland China, Hong Kong or Taiwan in the 21 days leading up to their proposed entry to Macau.
- ▶ **Business visitors.** See above.
- ▶ **Other categories.** Individuals who previously tested positive for COVID-19 may only enter Macau by air at least two months after testing positive for COVID-19, provided they carry a certificate of recovery from COVID-19. Individuals seeking to travel to Macau by air from the following countries, or who were present in any of these countries in the 21 days preceding their desired travel to Macau, are inadmissible until further notice: South Africa, Botswana, Zimbabwe, Namibia, Lesotho, Eswatini, Mozambique and Malawi.
- ▶ **Transit.** Transit through Macau is currently not permitted.
- ▶ **Comments.** Foreigners who were present in Mainland China or Macau in the 21 days immediately preceding their proposed entry to Macau may be permitted to enter on an exceptional, case-by-case basis. Click [here](#) for more information. Foreigners who were present in Hong Kong prior to travel to Macau may be permitted to enter. Click [here](#) for more information.

## Heightened admission requirements

- ▶ **Pre-travel COVID-19 testing.** COVID-19 test requirements vary based on the location from which the individual is traveling.
- ▶ Macau ID holders and residents of Mainland China, Hong Kong and Taiwan who were present in: (1) Mainland China in the 14 days preceding entry to Macau must take a nucleic acid COVID-19 test no more than 24 hours prior to travel, and test negative (if arriving from Guangdong), or a negative COVID-19 nucleic acid test result that is valid for seven days after the date of the test (if arriving by an inbound civil aircraft from Mainland China), (2) Hong Kong in the 14 days preceding entry must carry a negative nucleic acid COVID-19 test certificate, issued no more than 24 hours prior to travel, (3) Taiwan in the 21 days preceding their entry must carry a negative nucleic acid COVID-19 test certificate, issued no more than 24 hours prior to travel, (4) locations other than Mainland China, Hong Kong or Taiwan that are considered high-risk (i.e., Bangladesh, Brazil, Cambodia, India, Indonesia, Iran, Nepal, Pakistan, Philippines, Russia, South Africa, Sri Lanka, Tanzania and Turkey, United States of America, Botswana, Zimbabwe, Namibia, Lesotho, Eswatini, Mozambique and Malawi) must present proof of three negative nucleic acid COVID-19 tests conducted no more than five days prior to departure, with a gap of at least 24 hours between each test travel; and (5) any other jurisdiction must present proof of a negative nucleic acid COVID-19 test taken no more than 48 hours prior to departure, travel. Further, individuals aged 12 or above traveling from Hong Kong, must show a certificate confirming that they received all required COVID-19 (non-booster) doses at least 14 days before travel with the final dose administered no more than 7 months before travel, or proof that they are medically ineligible to receive the COVID-19 vaccine, to gain admission to Macau.
- ▶ Macau ID holders and residents of Mainland China, Hong Kong and Taiwan who were present in Hong Kong in the 14 days preceding their entry or in Taiwan in the 21 days preceding their entry, and who tested positive for COVID-19 in the 2 months before travel, must obtain 3 consecutive and negative antigen or nucleic acid COVID-19 test results (each test taken at least 24 hours apart), at least 14 days before travel.
- ▶ **Post-arrival COVID-19 testing.** All travelers who are eligible to enter Macau must get tested at least three times after arrival in Macau, during their quarantine/isolation period.
- ▶ **Health screenings on arrival.** Travelers are subject to health screenings on arrival.
- ▶ **Declarations.** All travelers must complete a declaration, which includes questions about their recent travel history, prior to travel. For more information, click [here](#).
- ▶ **Registrations.** None.
- ▶ **Mobile phone apps.** None.
- ▶ **Health insurance.** None.
- ▶ **Fees.** None.

## Vaccination requirements and considerations

- ▶ Individuals are considered fully vaccinated against COVID-19 if they received all required doses (e.g., two doses of a two-dose series, or one dose of a one-dose series) of an approved COVID-19 vaccine, at least 14 days prior to travel to Macau.
- ▶ Approved COVID-19 vaccines for purposes of entry to Macau include Foosun-BioNTech and Sinopharm.
- ▶ Individuals who were present in locations other than Mainland China, Hong Kong or Taiwan and are 12 or older must present proof that they are fully vaccinated against COVID-19 and received the final dose of the COVID-19 vaccine 14 days to 7 months prior to travel to Macau. Individuals who are exempt from the vaccine (e.g., for medical reasons) must provide proof of the same before entering Macau.
- ▶ Individuals who were previously infected with COVID-19 and intend to fly to Macau must have a certificate of recovery proving that at least two months have passed since they tested positive for COVID-19. Click [here](#) for more information.

## Quarantine / isolation requirements

- ▶ **Duration.** Quarantine requirements vary based on the location from which individual travel. Travelers who were present in: (1) specific locations within Mainland China are required to observe certain epidemic-control measures at designated locations (click [here](#) for more information), (2) Hong Kong in the 21 days preceding entry must quarantine for 14 days on arrival and undergo a period of 7 days of health self-management (i.e., they must observe their health and report any symptoms to local health authorities), (3) Taiwan in the 21 days preceding entry must quarantine for 14 days on arrival and then undergo a period of 7 days of health self-management, and (4) locations other than Mainland China, Hong Kong or Taiwan in the 21 days prior to entry must quarantine for 14 days on arrival and then undergo a period of 7 days of health self-management.
- ▶ **Location.** All travelers must quarantine at a government-designated location before their health self-management period. Macau residents and Blue Card holders can choose to quarantine in either “designated hotels” (to be arranged by the government, based on hotel availability), or pay an additional fee to quarantine at one of the two selected “optional hotels.” All other non-residents are required to quarantine at one of the two selected “optional hotels.”
- ▶ **Exemptions.** Travelers who are residents of Macau, Mainland China, Hong Kong or Taiwan (only), who were present in Mainland China (with the exception of the areas noted above) in the 14 days preceding entry but not in another jurisdiction in the 21 days preceding their travel, are not required to quarantine.
- ▶ **Comments.** “Health self-management” does not require individuals to isolate. Individuals are free to move within Macau but with restricted access to certain venues like government buildings or casinos. The individual’s Macau Health Code color will change to “yellow”, indicating that he/she is not allowed to enter venues that require a “green” health code. Individuals will need to perform four additional nucleic acid COVID-19 tests during their health self-management period (i.e., on the first, second, fourth and seventh day).

## Impact on existing visas, and new visa issuance

- ▶ **Existing (valid) visas.** Existing (valid) visas are not suspended. However, they are restricted for entry to Macau as per the current entry policy.
- ▶ **New visa issuance.** New visa applications are being processed. However, visas may be used to enter Macau until entry restrictions are lifted.
- ▶ **Visa extensions/renewals.** Visa extension/renewal applications are being processed currently.

Entry restrictions	Heightened admission requirements	Vaccination requirements and considerations	Quarantine / isolation requirements	Impact on existing visas, and new visa issuance
<ul style="list-style-type: none"> <li>► <b>Citizens.</b> Malaysian citizens and residents may enter Malaysia.</li> <li>► <b>Permanent residents.</b> See above.</li> <li>► <b>Temporary residents and work visa/permit holders.</b> Foreigners with valid Malaysian long-term passes may enter (and depart) Malaysia. ## Entry restrictions

- ▶ **Citizens.** Citizens of the Netherlands, and citizens of EU and Schengen member states (including Norway, Iceland, Switzerland, Liechtenstein) and their family members are allowed to enter the Netherlands.
- ▶ **Permanent residents.** Permanent residents are allowed to enter the Netherlands.
- ▶ **Temporary residents and work visa/permit holders.** Third-country nationals residing in an EU member state or a Schengen country, and their family members with a valid long-term residence permit (e.g., ICT-permits, EU Blue Cards), are allowed to enter the Netherlands. MVV visa holders, and MVV visa-exempt nationals with an approval letter from the Dutch immigration authorities are also allowed to enter. Short-term work permit holders carrying a Dutch employment permit or proof of the work to be carried out in the Netherlands, are also allowed to enter.
- ▶ **Business visitors.** Short-term business travelers in possession of a "Note Verbale" issued by a Dutch embassy or consulate, stating that they are exempt from the entry ban, are allowed to travel to the Netherlands. For more information, click [here](#).
- ▶ **Other categories.** Cross-border commuters are eligible to enter the Netherlands. Additional groups, including professional journalists and researchers, may also be allowed to travel to the Netherlands provided that they comply with the relevant entry requirements. Students, professionals in the cultural and/or creative sectors who hold a signed statement from the Performing Arts Fund and partners in long-distance relationships are also eligible to enter the Netherlands, subject to applicable entry, testing and other rules. Travelers entering for humanitarian or other compelling reasons (e.g., to visit seriously ill family members) are also eligible to enter. For more information, click [here](#).
- ▶ **Transit.** Passengers transiting through the Netherlands to a non-EU country must prove that they have a connecting flight to a country outside the Schengen area within 48 hours of arrival in Amsterdam. Passengers in transit must not leave the airport's international transit zone. Passengers traveling to Schengen member countries via the Netherlands must be able to show that they have permission to enter the final destination in the Schengen Area. Failure to provide this proof could result in passengers not being permitted to transit through the Netherlands.
- ▶ **Comments.** Travelers who reside in and are coming from a [safe country](#) are allowed to enter without restrictions.

## Heightened admission requirements

- ▶ **Pre-travel COVID-19 testing.** Eligible travelers arriving from outside the EU and Schengen Area, including fully vaccinated and recovered travelers, must present a negative COVID-19 test result prior to traveling to the Netherlands. There are limited exceptions to this requirement apply. For more information, click [here](#). Individuals traveling from within the EU or Schengen Area may enter the Netherlands with proof that they are fully vaccinated against (or recovered from) COVID-19 or they tested negative for COVID-19 prior to travel. Click [here](#) for more information.
- ▶ Effective 23 March 2022, individuals arriving in the Netherlands from outside the EU will not be required to present a negative COVID-19 test result. Travelers arriving from an EU Member State will not be required to present proof that they are vaccinated against, recovered from, or have tested negative for COVID-19 prior to travel.
- ▶ **Post-arrival COVID-19 testing.** Inbound travelers (including those who are fully vaccinated against or recovered from COVID-19) are advised to get tested for COVID-19 after arrival. Travelers who are fully vaccinated or recovered from COVID-19 and have proof of the same are advised to do a self-test. Admissible unvaccinated or partially vaccinated travelers are advised to get tested at a [municipal health service](#) or to complete a [self-test](#), on their second and fifth days after arrival in the Netherlands.
- ▶ **Health screenings on arrival.** None.
- ▶ **Declarations.** A [health declaration form](#) is required for all passengers traveling by air.
- ▶ **Registrations.** None.
- ▶ **Mobile phone apps.** It is not required, however travelers are recommended to download and use the [CoronaMelder](#) app.
- ▶ **Health insurance.** None.
- ▶ **Fees.** Travelers are eligible to get tested for COVID-19 by the Dutch health service at no cost.

## Vaccination requirements and considerations

- ▶ Travelers are considered fully vaccinated against COVID-19 if they received the second dose of an approved two-dose COVID-19 vaccine (e.g., Pfizer-BioNTech, Moderna, AstraZeneca) at least 14 days prior to travel, or the first dose of an approved one-dose COVID-19 vaccine (e.g., Johnson & Johnson) at least 28 days prior to travel.
- ▶ In general, travelers who are fully vaccinated against COVID-19 and received a vaccine approved by the European Medicines Agency (EMA) or the World Health Organization (WHO) may enter the Netherlands if they hold a [vaccination certificate](#) which confirms the same. This exception does not apply to individuals traveling from Mainland China as long as Mainland China continues to restrict travel for individuals departing from Europe.
- ▶ For more information regarding vaccination requirements (for purposes of entry to the Netherlands), click [here](#).

## Quarantine / isolation requirements

- ▶ **Duration.** Inbound travelers are no longer required to quarantine on arrival, irrespective of the location from which they are traveling, and their travel history.
- ▶ **Location.** Not applicable.
- ▶ **Exemptions.** Not applicable.
- ▶ **Comments.** All travelers are subject to local rules, including those relating to the use of masks, restrictions on gathering with others, curfews, etc.

## Impact on existing visas, and new visa issuance

- ▶ **Existing (valid) visas.** Current visas remain valid, but cannot be used if the traveler does not fall under the entry exemptions.
- ▶ **New visa issuance.** Residents living in jurisdictions for which the EU travel ban has been lifted may apply for visas. Residents of jurisdictions that are not currently permitted to enter the Netherlands are not eligible to submit visa applications unless the applicant is otherwise exempt from travel restrictions and authorized to enter the jurisdiction. Visa applications currently in process and visa applications for which a related flight/trip has been canceled will be denied. Due to COVID-19, some Dutch embassies are working with limited services or providing appointments for consular services only in specific situations.
- ▶ **Visa extension/renewals.** Applications for visas based on events/meetings that have been canceled as a result of COVID-19 related measures will be denied with the reason "travel destination canceled."

## Entry restrictions

- ▶ **Citizens.** Citizens can enter New Zealand.
- ▶ **Permanent residents.** Permanent residents and residents with valid travel conditions who have entered New Zealand previously can enter New Zealand.
- ▶ **Temporary residents and work visa/permit holders.** Temporary work and student visa holders who continue to meet their visa requirements can enter New Zealand.
- ▶ **Business visitors.** These individuals are not permitted to enter New Zealand unless they hold a travel exemption.
- ▶ **Other categories.** The following individuals may enter New Zealand: (1) immediate family members of New Zealand citizens/residents who hold a valid relationship-based visa, (2) Australian citizens and permanent residents who live in New Zealand. All travelers, including residents of New Zealand, may only be eligible to enter if they were not present in a very high-risk country in the 14 days preceding their travel to New Zealand.
- ▶ **Transit.** Travelers may transit through New Zealand provided they: (1) remain airside, (2) are transiting through Auckland International Airport for less than 24 hours, and (3) they hold a NZETA or transit visa (unless exempt).
- ▶ **Comments.** On 28 February 2022, New Zealand began [reopening its borders](#) in a phased approach. The borders are expected to open fully for all New Zealand visa holders by October 2022.
- ▶ All foreign travelers must be fully vaccinated to enter New Zealand unless they receive a vaccine exemption from the authorities in New Zealand.

## Heightened admission requirements

- ▶ **Pre-travel COVID-19 testing.** In general, all travelers (except those arriving from Antarctica and most Pacific Islands) must present a negative polymerase chain reaction (PCR) COVID-19 test result issued no more than 48 hours prior to their scheduled departure, irrespective of their COVID-19 vaccination status. Children under the age of two are exempt from this requirement. Further information on acceptable tests can be found [here](#). Travelers who are unable to take a PCR COVID-19 test prior to travel due to the lack of availability of PCR COVID-19 tests, may take a rapid antigen (RAT) or supervised loop-mediated isothermal amplification (LAMP) COVID-19 test in lieu of a PCR COVID-19 test, no more than 24 hours prior to travel. Travelers who take a RAT or LAMP COVID-19 test must test negative for COVID-19 prior to travel to be admitted to New Zealand. All pre-travel COVID-19 tests must be supervised by a health professional (e.g., pharmacist) and verified in writing in traveler's country of departure. For more information about pre-travel testing requirements, click [here](#).
- ▶ **Post-arrival COVID-19 testing.** Admissible travelers will be given two rapid antigen tests on arrival. They must take the first test on the day of their arrival or the next day, and the second test on their fifth or sixth day in New Zealand.
- ▶ **Health screenings on arrival.** All travelers will be screened upon arrival and asked if they have been, or are, experiencing COVID-19 symptoms.
- ▶ **Declarations.** Travelers who are exempt from the quarantine requirement must complete a [New Zealand Travel Declaration form](#) prior to boarding a flight to New Zealand.
- ▶ **Registrations.** None.
- ▶ **Mobile phone apps.** None.
- ▶ **Health insurance.** None.
- ▶ **Fees.** Travelers are responsible for the costs related to quarantine unless exempt.
- ▶ **Comments.** None.

## Vaccination requirements and considerations

- ▶ All foreign nationals aged 17 and over, including permanent residents of New Zealand, must be fully vaccinated in order to enter New Zealand, unless they have an exemption.
- ▶ New Zealand defines fully vaccinated travelers as those who received an approved COVID-19 vaccine at least 14 days prior to travel to New Zealand.
- ▶ [Approved COVID-19 vaccines for purposes of entry into New Zealand](#) include COVID-19 vaccines that have been approved, authorized, licensed, granted emergency use authorization, or made available for use outside of clinical trials via any pathway by a regulatory agency, national authority or another entity.

## Quarantine / isolation requirements

- ▶ **Duration.** In general, admissible travelers are no longer required to isolate or quarantine upon arrival. Individuals who test positive for COVID-19 after entering New Zealand may be required to isolate at the discretion and direction of the New Zealand authorities.
- ▶ **Location.** Individuals who test positive for COVID-19 after entering New Zealand may be required to isolate at the discretion and direction of the New Zealand authorities.
- ▶ **Exemptions.** Fully vaccinated travelers and individuals who are otherwise exempt, are not required to isolate after entry to New Zealand.
- ▶ **Comments.** Limited categories of travelers, such as specific refugees, individuals arriving from Afghanistan, maritime crew, and international aircrew, may still be required to quarantine upon arrival. All travelers are subject to local rules, including those relating to the use of masks, restrictions on gathering with others, curfews, etc.

## Impact on existing visas, and new visa issuance

- ▶ **Existing (valid) visas.** Existing (valid) visas are not suspended or canceled as a result of the COVID-19 pandemic.
- ▶ **New visa issuance.** Visa applications from offshore applicants (excluding those from applicants based in Niue and the Cook Islands) are currently not being accepted given the border closure. Onshore visa applications continue to be accepted and processed, with the exception of residence applications under the Skilled Migrant category, which remains suspended until further notice.
- ▶ Some work visa holders currently in New Zealand as well as some critical purpose visitor visa holders may be eligible to apply for residence under the new residence category (the "2021 Resident Visa").
- ▶ **Visa extensions/renewals.** Onshore visa extension/renewal applications continue to be accepted and processed. The authorities have granted a 6-month automatic extension to employer-assisted temporary work visa holders and their dependents (who hold a dependent visa) provided they were present in New Zealand on 1 January 2021 and currently hold a visa that expired between 1 January 2021 and 30 June 2021 (inclusive). The extension does not apply to the following: (1) individuals who submitted an Essential Skills work visa application prior to the announcement and who have been granted an interim visa, (2) migrant workers whose jobs have ended, and (3) individuals holding Specific Purpose work visas or Event work visas. An extension has also been submitted to Visitor visa holders in New Zealand. Migrants on Working Holiday and Supplementary Seasonal Employment visas that are due to expire between 21 June 2021 and 31 December 2021 will have their visas automatically extended for an additional six months.

## Entry restrictions

- ▶ **Citizens.** Citizens, permanent residents, temporary residents, work visa/permit holders and business visitors can enter Nicaragua.
- ▶ **Permanent residents.** See above.
- ▶ **Temporary residents and work visa/permit holders.** See above.
- ▶ **Business visitors.** See above.
- ▶ **Other categories.** None.
- ▶ **Transit.** Travelers can transit through Nicaragua without restriction.
- ▶ **Comments.** Nicaragua is currently allowing foreigners to enter the country provided they satisfy health-related admission requirements. Citizens and foreigners with fever or respiratory symptoms may be denied admission to Nicaragua.

## Heightened admission requirements

- ▶ **Pre-travel COVID-19 testing.** Citizens and foreigners must carry a certificate proving that they tested negative for a polymerase chain reaction (PCR) COVID-29 test no more than 72 hours prior to entry.
- ▶ **Post-arrival COVID-19 testing.** Travelers are not required to get tested for COVID-19 upon arrival.
- ▶ **Health screenings on arrival.** All travelers will be screened upon arrival and asked if they have been, or are, experiencing COVID-19 symptoms. Citizens and foreigners with fever or respiratory symptoms may be denied admission. Those who are permitted to enter will be monitored by the health authorities (via telephone follow-up calls) during their initial 14 days in Nicaragua.
- ▶ **Declarations.** Airlines may require travelers to complete forms with their personal information, prior to boarding.
- ▶ **Registrations.** None.
- ▶ **Mobile phone apps.** None.
- ▶ **Health insurance.** None.
- ▶ **Fees.** Travelers are responsible for costs related to COVID-19 testing.
- ▶ **Comments.** None.

## Vaccination requirements and considerations

- ▶ There are currently no vaccination-related requirements that have been announced in connection with travel to this jurisdiction.

## Quarantine / isolation requirements

- ▶ **Duration.** Travelers are not required to quarantine upon arrival. Individuals who test positive for COVID-19 after arrival may be hospitalized and/or quarantined on a case-by-case basis.
- ▶ **Location.** Where required, a quarantine must be completed at government-designated location.
- ▶ **Exemptions.** None.
- ▶ **Comments.** All travelers are subject to local rules, including those relating to the use of masks, restrictions on gathering with others, curfews, etc.

## Impact on existing visas, and new visa issuance

- ▶ **Existing (valid) visas.** Existing (valid) visas are not suspended or canceled as a result of COVID-19.
- ▶ **New visa issuance.** New visa applications are being processed currently.
- ▶ **Visa extensions/renewals.** Visa extension/renewal requests are being processed currently.

## Entry restrictions

- ▶ **Citizens.** Citizens and foreigners holding valid residency visas may enter Oman provided that they are fully vaccinated. Limited exemptions apply, including for travelers under the age of 18 and those who are medically exempt from receiving the vaccine.
- ▶ **Permanent residents.** See above.
- ▶ **Temporary residents and work visa/permit holders.** Foreign nationals entering for work are admissible provided that they are fully vaccinated. Limited exemptions apply, including for travelers who are medically exempt from receiving the vaccine.
- ▶ These travelers must a No Objection Certificate (NOC) from the sponsoring company in Oman, carry a soft copy of the NOC and be prepared to show it when boarding, and upon arrival.
- ▶ **Business visitors.** Business visitors are not permitted to enter currently.
- ▶ **Other categories.** Individuals traveling from the following locations is temporarily suspended until further notice: the United Kingdom, Lebanon, Tunisia, Iraq, Iran, Brunei, Libya, Indonesia, Singapore, the Philippines, Sudan, Ethiopia, Ghana, Tanzania, Guinea, Sierra Leone, Nigeria, Colombia, Brazil, India, Pakistan, Bangladesh, Argentina, South Africa, Namibia, Botswana, Zimbabwe, Mozambique, Lesotho and Eswatini. Most individuals who transited through, or were present in, any of these locations in the 14 days preceding their desired travel to Oman are also temporarily inadmissible. Citizens and residents of Oman, diplomats, health personnel, and their direct family members may still enter Oman from these locations, subject to COVID-19 testing and quarantine requirements.
- ▶ **Transit.** Transit through Oman is not currently permitted.
- ▶ **Comments.** Citizens of Gulf Cooperation Council (GCC) member states may enter Oman. Oman's Civil Aviation Authority (CAA) has announced that passengers traveling to Oman will no longer be able to remain in Oman for trips lasting fewer than eight days, so that they can comply with mandatory quarantine requirements.
- ▶ Passengers traveling to Oman will only be able to book their flight ticket after paying the full cost of the mandatory seven-day quarantine.
- ▶ All foreign travelers aged 18 and older must be fully vaccinated against COVID-19 (i.e., they must have received all required non-booster doses of an approved COVID-19 vaccine at least 14 days prior to travel to Oman).

## Heightened admission requirements

- ▶ **Pre-travel COVID-19 testing.** None.
- ▶ **Post-arrival COVID-19 testing.** Inbound travelers aged 18 and older must take a polymerase chain reaction (PCR) COVID-19 test on arrival or no more than 24 hours after arrival.
- ▶ **Health screenings on arrival.** None.
- ▶ **Declarations.** None.
- ▶ **Registrations.** None.
- ▶ **Mobile phone apps.** All travelers must download, and comply with the requirements of the Tarassud+ and HMushrif mobile phone applications.
- ▶ **Health insurance.** Passengers must have health insurance that covers COVID-19-related expenses for at least one month. Citizens of Oman are exempt from this requirement, as they are already covered under the Oman health system.
- ▶ **Fees.** None.
- ▶ **Comments.** Non-citizens must print and carry a copy of their COVID-19 vaccination certificate(s). Limited exemptions apply, including for travelers under the age of 18 and those who are medically exempt from receiving the vaccine.

## Vaccination requirements and considerations

- ▶ Travelers aged 18 and over must be fully vaccinated with a vaccine that is recognized by the Oman Government.
- ▶ The approved COVID-19 vaccines for purposes of entry to Oman are Janssen (Johnson & Johnson), AstraZeneca, Moderna, Pfizer-BioNTech, Sinovac, Sinopharm, Covishield and Sputnik V.
- ▶ Travelers who are fully vaccinated against COVID-19 (i.e., who received two doses of an approved two-dose vaccine, or one dose of an approved one-dose vaccine) should carry a medical certificate containing a QR code as proof of their vaccination. The second dose of the vaccine (or the first dose in the case of an approved one-dose vaccine) must have been administered at least 14 days before the individual's desired travel to Oman.
- ▶ Travelers under the age of 18 and those who are medically exempt from receiving the vaccine, are not required to present proof of vaccination or a certificate proving that they tested negative for a PCR COVID-19 test in advance of their entry to Oman.

## Quarantine / isolation requirements

- ▶ **Duration.** In general, inbound travelers are not required to quarantine provided that they have proof that they either are fully vaccinated against COVID-19 or tested negative for a PCR COVID-19 test prior to departure. Admissible travelers who did not take a COVID-19 test prior to travel must get tested after entering Oman and quarantine until they test negative for COVID-19. Inbound travelers who test positive for COVID-19 on arrival must quarantine for 10 days on arrival. Citizens of Oman, diplomats, health personnel and citizens of the following countries who are lawful residents of Oman, must take a PCR COVID-19 test upon arrival and quarantine in a government facility for seven days (and take another COVID-19 test on their sixth day in Oman): the United Kingdom, Lebanon, Tunisia, Iraq, Iran, Brunei, Libya, Indonesia, Singapore, the Philippines, Sudan, Ethiopia, Ghana, Tanzania, South Africa, Guinea, Sierra Leone, Nigeria, Colombia, Brazil, India, Pakistan, Bangladesh, Argentina, South Africa, Namibia, Botswana, Zimbabwe, Mozambique, Lesotho and Eswatini. For more information about quarantine and testing requirements in Oman, click [here](#).
- ▶ **Location.** Where required, the quarantine must be completed at a government-designated location.
- ▶ **Exemptions.** Travelers who are fully vaccinated with a recognized vaccine or who tested negative for COVID-19 prior to travel, are not required to quarantine provided they carry and present proof of the same upon arrival to Oman.
- ▶ **Comments.** All travelers are subject to local rules, including those relating to the use of masks, restrictions on gathering with others, curfews, etc.

## Impact on existing visas, and new visa issuance

- ▶ **Existing (valid) visas.** These visas are not suspended or canceled, and may be used for entry to Oman, provided the visa holders are not otherwise inadmissible (e.g., business visitors).
- ▶ **New visa issuance.** New visa application processing is currently on hold.
- ▶ **Visa extensions/renewals.** Visa extension/renewal application processing is currently on hold.

## Entry restrictions

- **Citizens.** All Filipino citizens are currently permitted entry.
- **Permanent residents.** Certain categories of residents may enter. Click [here](#) for more information.
- **Temporary residents and work visa/permit holders.** Holders of specific types of visas may enter. Click [here](#) for more information.
- **Business visitors.** Business visitors may enter the Philippines. Click [here](#) for more information.
- **Other categories.** Effective 10 February 2022, nationals of [visa-waiver countries](#) may enter the Philippines for leisure or tourism purposes provided they meet certain criteria. Other travelers may be permitted entry. Click [here](#) and [here](#) for more information.
- **Transit.** Transit through the Philippines is currently permitted provided the flight departing from the Philippines is on the same day as the traveler's arrival to the Philippines. Individuals seeking to transit through the Philippines may not remain in the country overnight.
- **Comments.** None.

## Heightened admission requirements

- **Pre-travel COVID-19 testing.** All travelers, including citizens, must carry a certificate confirming they tested negative for a reverse transcription polymerase chain reaction (RT-PCR) COVID-19 test no more than 48 hours or a rapid antigen COVID-19 test no more than 24 hours prior to entry.
- **Post-arrival COVID-19 testing.** All travelers, including citizens, who are unvaccinated, partially vaccinated, or individuals who do not have documentary proof that they are vaccinated against COVID-19, will be required to undergo a RT-PCR COVID-19 test on their fifth day in the Philippines.
- **Health screenings on arrival.** New entrants will be subject to temperature checks.
- **Declarations.** All travelers, including citizens, must complete a health declaration and submit an undertaking on arrival. For more information, click [here](#).
- **Registrations.** All travelers, including citizens, must register for, and complete an electronic case investigation form (e-CIF) and a Bureau of Quarantine e-Health Declaration Card or a One Health Pass (OHP) no more than three days prior to arrival. The e-CIF can be accessed [here](#) and the OHP can be accessed [here](#).
- **Mobile phone apps.** All travelers (including citizens) must download the Traze app for airport use and contact tracing.
- **Health insurance.** Business travelers must have health insurance that covers the cost of treatment related to COVID-19 for the entire duration of their stay in the Philippines, with a minimum coverage of US\$35,000 (or its equivalent).
- **Fees.** Travelers are responsible for the costs associated with COVID-19 testing on arrival (i.e., PHP 4,000 or approximately USD 85). They must also cover the cost of their hotel accommodations and food costs while they quarantine.
- **Comments.** None.

## Vaccination requirements and considerations

- **Returning Overseas Filipino Workers (OFWs)** must carry a vaccination certificate verified by the Philippine Overseas Labor Offices (POLO). All other travelers may present a vaccination certificate issued by their health authorities, provided that such certificate can be independently verified/confirmed by the Philippine authorities as valid or authentic, or an International Certificate of Vaccination. Click [here](#) for more information.
- The following documents are admissible as proof of COVID-19 vaccination for purposes of entry into the Philippines: (1) World Health Organization International (WHO) Certificate of Vaccination and Prophylaxis, (2) VaxCertPH issued by the Filipino government, or (3) certificate of vaccination issued by another country which accepts VaxCertPH under a reciprocal arrangement. Exemptions may be granted at the discretion of the Inter-Agency Task Force.
- Travelers are considered "recovered persons" if they: (1) previously tested positive for COVID-19, (2) made a full recovery and have been asymptomatic for at least three days (and have a note from a doctor confirming the same), and (3) have completed 14 days of quarantine or self-isolation in their country of residence prior to travel to the Philippines.

## Quarantine / isolation requirements

- **Duration.** Inbound travelers may be required to quarantine on arrival depending on their vaccination status. Individuals who are fully vaccinated against COVID-19 and present proof of the same will be required to self-monitor for COVID-19 symptoms for seven days after their arrival in the Philippines. Travelers who are unvaccinated, partially vaccinated and/or who do not have documentary proof that they are vaccinated against COVID-19 must quarantine at a government-designated facility until they receive a negative result for a COVID-19 test taken on their fifth day in the country. If they test negative, they may quarantine at home until their 14th day in the country.
- **Location.** The quarantine can be carried out at a pre-booked, government-approved hotel while awaiting the result of the RT-PCR COVID-19 test taken after arrival, or at a home or private residence once a negative result is issued. A medical certificate from the Bureau of Quarantine (BOQ) is required before the traveler can leave the hotel. Individuals in quarantine must permit inspections by government health workers, who may visit from time to time to confirm that travelers are abiding by the terms of their quarantine.
- **Exemptions.** None.
- **Comments.** All travelers are subject to local rules, including those relating to the use of masks, face shields, restrictions on gathering with others, curfews etc.

## Impact on existing visas, and new visa issuance

- **Existing (valid) visas.** Existing (valid) visas are not suspended.
- **New visa issuance.** New visa applications are being processed currently.
- **Visa extensions/renewals.** All visa and permit types, whether temporary or long-term, can be renewed or extended provided the applicant is physically present in the country.

## Entry restrictions

- ▶ **Citizens.** Saudi citizens, their spouses and children, and household workers who are traveling with the Saudi citizen, are allowed to enter and exit Saudi Arabia.
- ▶ **Permanent residents.** This category does not exist in Saudi Arabia.
- ▶ **Temporary residents and work visa/permit holders.** Residents, work visa holders and business visitors may enter Saudi Arabia provided they comply with COVID-19 testing requirements and are not traveling from locations that are currently considered high risk. See the comments section further below for more information.
- ▶ **Business visitors.** See above.
- ▶ **Other categories.** Individuals seeking to enter Saudi Arabia for tourist purposes are not currently admissible.
- ▶ **Transit.** Transit through Saudi Arabia is permitted, except from specific locations from which travel is currently prohibited. See the comments section further below for more information.
- ▶ **Comments.** Travel from the following locations is currently prohibited: Indonesia, Pakistan, Brazil, Turkey, Lebanon, Egypt, India, Ethiopia, Vietnam, Indonesia and Afghanistan. Individuals who were present in any of these locations in the 14 days preceding their desired entry to Saudi Arabia are currently inadmissible.

## Heightened admission requirements

- ▶ **Pre-travel COVID-19 testing.** All travelers, except Saudi citizens, are required to have a negative polymerase chain reaction (PCR) COVID-19 test certificate, issued by an approved laboratory no more than 72 hours prior to travel. Travelers are required to confirm testing requirements with their airline prior to travel. Travelers who do not provide this certificate will be denied entry.
- ▶ **Post-arrival COVID-19 testing.** All unvaccinated travelers, except passengers under the age of eight must undergo two PCR tests after arrival. The first test will be conducted within 24 hours of arrival, and the second will be conducted on the travelers' seventh day in Saudi Arabia (or on the sixth day for unvaccinated Saudi citizens)
- ▶ **Health screenings on arrival.** None.
- ▶ **Declarations.** All travelers must complete a health declaration form and submit the same to the health control center upon arrival, at the airport.
- ▶ **Registrations.** Vaccinated travelers (except for Saudi citizens and other travelers who are authorized by the Saudi authorities) must fill out a Registration Immunization Form, which can be accessed [here](#). Once this is complete, they will be able to use the Tawakkalna mobile app.
- ▶ **Mobile phone apps.** All eligible entrants must download and register on the Tatamman and Tawakkalna mobile phone apps. They must also update their home location in Saudi Arabia through the Tatamman app within eight hours of arrival. Travelers will also be required to conduct a daily health assessment using the Tatamman app.
- ▶ **Health insurance.** All travelers who are seeking to enter Saudi Arabia - except for Saudi citizens and residents, and GCC nationals - must have medical insurance that covers the costs of COVID-19 treatment, including the costs associated with the quarantine requirement.
- ▶ **Fees.** None.
- ▶ **Comments.** None.

## Vaccination requirements and considerations

- ▶ Vaccinated individuals who are seeking to enter Saudi Arabia must fill out a Registration Immunization Form, which can be accessed [here](#). Once this is complete, they will be able to use the Tawakkalna mobile app. These travelers must provide proof of vaccination (i.e., completion of two doses of the Moderna, Pfizer-BioNTech or Oxford/Astra Zeneca vaccines, or one dose of the Johnson & Johnson vaccine). The final dose of the vaccine must have been administered at least 14 days before the individual's entry to Saudi Arabia.
- ▶ Visitors to Saudi Arabia must carry their vaccine certificates at all times during their stay in Saudi Arabia (or be able to provide proof of the same through other documents). Failure to comply with this requirement may result in penalties, including fines and possible deportation from Saudi Arabia.

## Quarantine / isolation requirements

- ▶ **Duration.** In general, recently admitted individuals must quarantine for 7 to 14 days at a government-designated location.
- ▶ **Location.** See above and below.
- ▶ **Exemptions.** Vaccinated travelers are not required to quarantine on arrival. Unvaccinated Saudi citizens must isolate at home for seven days upon arrival; they are not required to undergo institutional quarantine. Saudi residents under the age of 18 must isolate at home for seven days upon arrival.
- ▶ **Comments.** All travelers are subject to local rules, including those relating to the use of masks, restrictions on gathering with others, curfews, etc. Individuals are asked to monitor themselves for symptoms of COVID-19. In the event that they develop symptoms, they must immediately call 937 or go to a primary healthcare center.

## Impact on existing visas, and new visa issuance

- ▶ **Existing (valid) visas.** In general, existing (valid) visas are not suspended or canceled. Visa holders may use these for entry, unless they are otherwise inadmissible (e.g., if they are citizens of countries whose citizens are currently banned from entering Saudi Arabia).
- ▶ **New visa issuance.** New block visa and letter of intent requests continue to be processed currently. The new residence visa stamping process will only be completed, provided the Saudi consulate in the applicant's home country is open.
- ▶ **Visa extensions/renewals.** Visa extension/renewal requests are being processed. Saudi Arabia has introduced a new process wherein the employer can submit renewal requests online for Iqamas and exit and re-entry visas, even if the applicant is currently outside of Saudi Arabia.

## Entry restrictions

- ▶ **Citizens.** In general, Serbian borders are open for all travelers.
- ▶ **Permanent residents.** See above.
- ▶ **Temporary residents and work visa/permit holders.** See above.
- ▶ **Business visitors.** See above.
- ▶ **Other categories.** See above.
- ▶ **Transit.** Travelers are permitted to transit through Serbia.
- ▶ **Comments.** In general, individuals who recovered from COVID-19 (i.e., who tested positive previously and have since made a full recovery and are asymptomatic) are admissible, provided they hold a certificate of recovery. Click [here](#) for more information.
- ▶ There are currently no entry/travel restrictions for citizens of Ukraine.

## Heightened admission requirements

- ▶ **Pre-travel COVID-19 testing.** In general, inbound travelers must show a negative polymerase chain reaction (PCR) COVID-19 test certificate, issued no more than 48 hours prior to travel, in order to be allowed entry to Serbia. Passengers in transit are exempt from this requirement, provided they remain in Serbia for 12 hour or less. Citizens of the following countries are exempt from the PCR COVID-19 test requirement when traveling to Serbia directly from these countries: Albania, Bosnia and Herzegovina, Bulgaria, North Macedonia, Hungary and Montenegro. Individuals who were vaccinated in Serbia are not required to get a PCR COVID-19 test before re-entering Serbia. There may be additional exemptions in very limited circumstances, granted at the sole discretion of the local authorities and on a case-by-case basis. In general, individuals who tested positive for COVID-19 no less than 14 days and no more than six months prior to travel may enter Serbia provided they hold a certificate confirming the same. Click [here](#) for more information.
- ▶ **Post-arrival COVID-19 testing.** Serbian citizens, and holders of temporary and permanent residence permits, who are unable to present a negative PCR COVID-19 test certificate (issued no more than 48 hours prior to travel) on arrival, may take a PCR COVID-19 test in Serbia. If they test negative, they may be permitted to shorten their isolation period.
- ▶ **Health screenings on arrival.** Travelers may be subject to random/ad hoc health screenings upon arrival.
- ▶ **Declarations.** None.
- ▶ **Registrations.** All foreign citizens are required to register their address in Serbia within 24 hours of entry. This is the obligation of the accommodation provider. After the registration is complete, the police department will issue a document titled "Registration of place of stay." A new registration is required every time a foreigner changes their address in Serbia.
- ▶ **Mobile phone apps.** None.
- ▶ **Health insurance.** None.
- ▶ **Fees.** None.
- ▶ **Comments.** None.

## Vaccination requirements and considerations

- ▶ Travelers in possession of a COVID-19 vaccination certificate issued by the Serbian health authorities, confirming that the traveler has been fully vaccinated may enter Serbia without taking a PCR COVID-19 test in advance of travel.
- ▶ In addition, travelers may be permitted to enter without taking a PCR COVID-19 test in advance of travel if they have a vaccination certificate issued by specific countries, including Greece, Hungary, Romania, Slovenia, Turkey, UAE, Czech Republic, India, Croatia, Slovakia, Georgia, Morocco, Cyprus, Lebanon, Moldova, San Marino, Tunisia, Armenia and Egypt. Travelers may choose to carry proof of a negative PCR COVID-19 test issued no more than 48 hours prior to travel, to facilitate entry.

## Quarantine / isolation requirements

- ▶ **Duration.** In general, travelers are not required to quarantine on arrival provided that they are carrying proof that they tested negative for a PCR COVID-19 test prior to entry. Serbian citizens and residents who do not get tested for COVID-19 in advance of entry must quarantine for up to 10 days on arrival.
- ▶ **Location.** Travelers who must isolate may do so in a private accommodation. They are not required to isolate in a government-designated facility.
- ▶ **Exemptions.** Serbian citizens and residents who enter with a negative pre-travel PCR COVID-19 test result are not required to quarantine upon arrival. In addition, citizens of the following countries (when entering Serbia from home countries) are exempt from the quarantine requirements: Albania, Bosnia and Herzegovina, Bulgaria, North Macedonia, Hungary and Montenegro.
- ▶ **Comments.** All travelers are subject to local rules, including those relating to the use of masks, restrictions on gathering with others etc.

## Impact on existing visas, and new visa issuance

- ▶ **Existing (valid) visas.** These visas are not suspended or canceled. They may be used for entry to Serbia.
- ▶ **New visa issuance.** New visa applications are being processed currently.
- ▶ **Visa extensions/renewals.** Visa extension/renewal applications are being processed currently.

## Entry restrictions

- ▶ **Citizens.** Citizens may enter Singapore.
- ▶ **Permanent residents.** Permanent residents may enter Singapore.
- ▶ **Temporary residents and work visa/permit holders.** All fully vaccinated pass holders and non-fully vaccinated children aged 12 and below may enter Singapore.
- ▶ **Business visitors.** All fully vaccinated business visitors may enter Singapore.
- ▶ **Other categories.** All fully vaccinated short-term visitors and non-fully vaccinated children aged 12 and below may enter Singapore.
- ▶ **Transit.** Transit is permitted.
- ▶ **Comments.** On 1 April 2022, the Singaporean Government will launch the Vaccinated Travel Framework for all travelers. Countries/regions will be classified as either General Travel or Restricted Category locations, and border measures will be based on the traveler's vaccination status. Their travel history in the seven days leading up to their arrival in Singapore also has an impact on their requirements for entry to Singapore. Click [here](#) for more details.
- ▶ Effective 24 January 2022, fully vaccinated and recently-recovered travelers may be exempted from border and health measures, provided they can present certain documents. Click [here](#) for more details.

## Heightened admission requirements

- ▶ **Pre-travel COVID-19 testing.** All travelers are required to take a polymerase chain reaction (PCR) COVID-19 test no more than two days prior to departure. Travelers from General Travel category locations have the option to take a professionally-administered antigen rapid COVID-19 test (ART) or ARTs supervised by license-approved providers in Singapore in lieu of a PCR COVID-19 test. Recently-recovered travelers may be exempt from pre-arrival testing requirements if they can show the required documentation. Click [here](#) for more details.
- ▶ **Post-arrival COVID-19 testing.** Individuals who are traveling to Singapore from Restricted Category locations are subject to a PCR COVID-19 test on arrival. Non-fully vaccinated travelers from General Travel or Restricted Category locations are required to undergo PCR COVID-19 testing on the seventh day of their Stay Home Notice (SHN).
- ▶ **Health screenings on arrival.** None.
- ▶ **Declarations.** All travelers must submit an online health and travel history declaration form. Submission can be made up to three days prior to arrival. For more information, click [here](#).
- ▶ **Registrations.** Individuals arriving from Restricted locations are encouraged to register for their post-arrival PCR COVID-19 test to facilitate immigration clearance upon arrival in Singapore. Click [here](#) for more information.
- ▶ **Mobile phone apps.** All travelers must download and use the [TraceTogether](#), [FWMOMCare](#) (for work pass holders only) and [WhatsApp](#) mobile applications.
- ▶ **Health insurance.** Unvaccinated and partially vaccinated short-term visitors must carry COVID-19 insurance with a minimum coverage of S\$30,000.
- ▶ **Fees.** Travelers must cover the cost of their post-arrival PCR COVID-19 tests and, where applicable, their SHN accommodations.

## Vaccination requirements and considerations

- ▶ Travelers are considered fully vaccinated for purposes of entry to Singapore if they received the second dose of a qualifying two-dose vaccine, or a single dose of a qualifying single-dose vaccine, at least 14 days prior to travel to Singapore. Qualifying vaccines include the Pfizer-BioNTech and Moderna vaccines, and the World Health Organization Emergency Use Listing vaccines (e.g., Sinovac, Sinopharm, AstraZeneca, Covaxin). Click [here](#) for more details.
- ▶ Effective 1 February 2022, only fully vaccinated individuals will be eligible to obtain new Long Term Passes and renew existing Passes. Individuals who are not fully vaccinated will not be permitted to obtain new Passes or renew an existing Pass as of 1 February 2022.
- ▶ Effective 24 January 2022, fully vaccinated and recently-recovered travelers may be exempted from the border and health measures, provided they can present certain documentation. Click [here](#) for more details.

## Quarantine / isolation requirements

- ▶ **Duration.** Individuals who were present in any of the Restricted locations in the seven days leading up to their proposed entry to Singapore may be required to isolate for up to seven days on arrival. The isolation period is known as a Stay Home Notice (SHN).
- ▶ **Location.** Non-fully vaccinated travelers arriving from the General Travel category locations are eligible for a seven-day SHN at their place of residence. They may isolate at a location of their choosing. Travelers arriving from Restricted locations are required to isolate for seven days at a government-designated SHN Dedicated Facility (SDF). Travelers may upgrade to a SHN dedicated suite at their own expense, subject to availability.
- ▶ **Exemptions.** Fully vaccinated travelers from General Travel locations are not required to isolate.
- ▶ **Comments.** All travelers are subject to local rules, including those relating to the use of masks, restrictions on gathering with others, curfews, etc. For more information regarding SHN and swab requirement tests, click [here](#).

## Impact on existing visas, and new visa issuance

- ▶ **Existing (valid) visas.** Existing (valid) visas are currently suspended for most business visitors, except for those who are otherwise admissible (e.g., those entering pursuant to an RGL or ATP or VTL). Individuals in high-risk jurisdictions who received entry approval previously but have not yet entered Singapore are not currently being permitted to enter.
- ▶ **New visa issuance.** New work visa applications continued to be processed by the Ministry of Manpower. The work visa application process can only be completed after the visa holder enters Singapore and completes the SHN period.
- ▶ **Visa extensions/renewals.** Work visa renewal applications continue to be approved by the Ministry of Manpower. The visa renewal process can only be completed when the visa holder is in Singapore.

## Entry restrictions

- ▶ **Citizens.** Citizens, permanent residents, temporary residents, work visa/permit holders and business visitors are allowed to enter the country by air or sea. South Africa's land borders resumed operations.
- ▶ **Permanent residents.** See above.
- ▶ **Temporary residents and work visa/permit holders.** See above.
- ▶ **Business visitors.** See above.
- ▶ **Other categories.** None.
- ▶ **Transit.** Transit is permitted through sea and airports of entry. Transit by land is now permitted for all border posts.

## Heightened admission requirements

- ▶ **Pre-travel COVID-19 testing.** All travelers are required to carry a certificate confirming they tested negative for COVID-19 no more than 72 hours prior to departure. However, it is being observed that some travelers are being allowed to board flights without completing this requirements.
- ▶ **Post-arrival COVID-19 testing.** Those who arrive in South Africa without proof of a negative COVID-19 test, are being required take an antigen COVID-19 test, and to quarantine at their own cost, upon entry.
- ▶ **Health screenings on arrival.** New arrivals are subject to temperature checks and questioning about their travel and medical histories.
- ▶ **Declarations.** Travelers must declare whether they are experiencing (or recently experienced) symptoms of COVID-19, and whether they have come into contact with infected individuals, prior to boarding flights and buses to South Africa.
- ▶ **Registrations.** None.
- ▶ **Mobile phone apps.** None.
- ▶ **Health insurance.** All travelers, except for citizens and permanent residents, must have health insurance that covers the cost of medical treatments and/or hospitalization related to COVID-19.
- ▶ **Fees.** None.
- ▶ **Comments.** None.

## Vaccination requirements and considerations

- ▶ There are currently no vaccination-related requirements that have been announced in connection with travel to this jurisdiction.

## Quarantine / isolation requirements

- ▶ **Duration.** Travelers who enter South Africa without proof that they tested negative for COVID-19 prior to departure, may be required to isolate for 14 days upon arrival (i.e., if they test positive upon arrival). In practice however, local officials have demonstrated inconsistency in their approach to this requirements, as some individuals who tested negative for COVID-19 are being required to isolate.
- ▶ **Location.** Isolation may be carried out in private homes or residences. Those who are required to isolate are not required to isolate at a government facility or government-designated location.
- ▶ **Exemptions.** In principle, travelers who carry proof that they tested negative for COVID-19 prior to travel are not required to isolate.
- ▶ **Comments.** All travelers are subject to local rules, including those relating to the use of masks, restrictions on gathering with others, curfews, etc.

## Impact on existing visas, and new visa issuance

- ▶ **Existing (valid) visas.** Visas remain valid and valid visa holders are able to enter the country using their existing visas.
- ▶ **New visa issuance.** New visa applications may be filed abroad, subject to local conditions and restrictions in each country.
- ▶ Visas that expired (or will be expiring) for individuals with pending visa applications, waiver applications and asylum seekers are extended automatically until 30 June 2022.
- ▶ **Visa extensions/renewals.** Visa extension/renewal requests are being processed currently.

## Entry restrictions

- ▶ **Citizens.** South Korean citizens may enter South Korea.
- ▶ **Permanent residents.** Permanent residents may enter South Korea.
- ▶ **Temporary residents and work visa/permit holders.** Long term work visa holders with re-entry permits are may enter South Korea.
- ▶ **Business visitors.** Business travelers holding C-type short-term business traveler visas may enter South Korea.
- ▶ **Other categories.** Citizens of the following jurisdictions may enter South Korea without a visa: Albania, Andorra, Barbados, Dominica, Guam, Guyana, Ireland, Malta, Mexico, Monaco, New Caledonia, Nicaragua, Palau, Saint Kitts and Nevis, Saint Vincent and the Grenadines, San Marino, Slovenia, the United Kingdom, the United States, the Vatican, Venezuela.
- ▶ Travelers who may ordinarily enter South Korea without a visa (i.e., visa-waived nationals, visa-exempt nationals) must now obtain a [Korean Electronic Travel Authorization](#) prior to entry.
- ▶ **Transit.** In general, travelers may transit through South Korea, provided they remain in the country for 24 hours or less.
- ▶ **Comments.** None.

## Heightened admission requirements

- ▶ **Pre-travel COVID-19 testing.** All travelers, including South Korean citizens, must take a polymerase chain reaction (PCR) COVID-19 test no more than 48 hours prior to travel, test negative, and carry a certificate confirming the same. Travelers who have recovered from COVID-19 are recommended to carry a certificate from a medical professional or institution in their country of residence stating that the traveler is fully recovered and no longer considered COVID-19 positive.
- ▶ **Post-arrival COVID-19 testing.** All travelers, including South Korean citizens, are required to get tested for COVID-19 upon arrival and within their seven-day mandatory self-isolation period (if applicable). New entrants will not be allowed to end their period of self-isolation (and depart the government-designated isolation facility) until they have obtained a negative PCR COVID-19 test result issued within their isolation period.
- ▶ **Health screenings on arrival.** All travelers will be screened upon arrival, and asked if they have been, or are currently, experiencing symptoms of COVID-19.
- ▶ **Declarations.** All travelers must complete a form consenting to PCR testing on arrival.
- ▶ **Registrations.** None.
- ▶ **Mobile phone apps.** None.
- ▶ **Health insurance.** None.
- ▶ **Fees.** Travelers are responsible for quarantine-related costs.
- ▶ **Comments.** Effective 20 January 2022, new entrants who test positive for COVID-19 must use one of the following methods of transportation while in South Korea, till the time they test negative: personal vehicle, quarantine taxi or quarantine bus.

## Vaccination requirements and considerations

- ▶ Travelers are considered fully vaccinated for the purposes of entry into South Korea if they: (1) received the second dose of a WHO-approved two-dose COVID-19 vaccine, or one dose of a WHO-approved single-dose COVID-19 vaccine, at least 14 days prior to travel to South Korea, or (2) received a booster shot of a WHO-approved COVID-19 vaccine no more than 180 days prior to travel to South Korea.
- ▶ Travelers aged 18 and above may register their COVID-19 vaccination status with the Korean authorities. Once the registration is complete, they will receive a COVID-19 vaccination certificate called a "COVID-19 Vaccine Pass," which will enable them to use certain public facilities without restrictions for a limited duration of time.
- ▶ The issuance of COVID-19 Vaccine Passes is currently suspended until further notice. Travelers aged 18 and above may continue using public facilities without having to obtain an additional document in the meantime.

## Quarantine / isolation requirements

- ▶ **Duration.** All inbound travelers who are not fully vaccinated must quarantine on arrival for seven days.
- ▶ **Location.** Foreign nationals entering South Korea for less than 90 days must quarantine at a government-designated facility. Those entering for 90 days or longer may quarantine at a private residence or hotel. These travelers will need to provide the address of the location where they will quarantine, to the local authorities. Citizens may quarantine at a location of their choosing. They will not be required to quarantine at a government-designated location. Recovered travelers may be subject to stricter quarantine requirements, at the discretion of the immigration authorities.
- ▶ **Exemptions.** Effective 1 April 2022, all fully vaccinated travelers are exempt from the quarantine requirement. However, they must register their details in [Q-code](#).
- ▶ **Comments.** All travelers are subject to local rules, including those relating to the use of masks, restrictions on gathering with others, curfews, etc.

## Impact on existing visas, and new visa issuance

- ▶ **Existing (valid) visas.** Existing (valid) visas are not suspended or canceled and may be used to enter South Korea, provided that the visa holder obtains is not otherwise inadmissible. Travelers who may ordinarily enter into South Korea without a visa (i.e., visa-waived nationals, visa-exempt nationals) must now obtain a [Korean Electronic Travel Authorization](#) prior to entry.
- ▶ **New visa issuance.** Some new visa applications are being processed, albeit with delays. Issuance of long-term and short-term visas has been suspended in the locations designated as restricted countries by South Korean government.
- ▶ **Visa extensions/renewals.** These applications are being processed currently.

## Entry restrictions

- ▶ **Citizens.** Citizens, permanent residents, temporary residents and work visa/permit holders, business visitors and tourists may enter Sweden.
- ▶ **Permanent residents.** See above.
- ▶ **Temporary residents and work visa/permit holders.** See above.
- ▶ **Business visitors.** See above.
- ▶ **Other categories.** See above.
- ▶ **Transit.** Transit through Sweden is permitted.
- ▶ **Comments.** None.

## Heightened admission requirements

- ▶ **Pre-travel COVID-19 testing.** None.
- ▶ **Post-arrival COVID-19 testing.** None.
- ▶ **Health screenings on arrival.** None.
- ▶ **Declarations.** None.
- ▶ **Registrations.** None.
- ▶ **Mobile phone apps.** None.
- ▶ **Health insurance.** None.
- ▶ **Fees.** None.
- ▶ **Comments.** None.

## Vaccination requirements and considerations

- ▶ All restrictions, including vaccination requirements, for travelers seeking to enter Sweden have been lifted.

## Quarantine / isolation requirements

- ▶ **Duration.** None.
- ▶ **Location.** Not applicable.
- ▶ **Exemptions.** Not applicable.
- ▶ **Comments.** All travelers are subject to local rules, including those relating to the use of masks, restrictions on gathering with others, curfews, etc.

## Impact on existing visas, and new visa issuance

- ▶ **Existing (valid) visas.** Existing (valid) visas are not suspended or canceled.
- ▶ **New visa issuance.** There may still be delays in the issuance of visas as consular posts are closed or are operating with reduced staff. Local embassies may provide further information.
- ▶ **Visa extensions/renewals.** Permit extension applications should continue to be submitted before the current permit expires. This includes filings by foreigners unable to leave Sweden.

Entry restrictions	Heightened admission requirements	Vaccination requirements and considerations	Quarantine / isolation requirements	Impact on existing visas, and new visa issuance
<ul style="list-style-type: none"> <li>▶ <b>Citizens.</b> There are no entry restrictions for citizens of Taiwan.</li> <li>▶ <b>Permanent residents.</b> There are no entry restrictions for permanent residents of Taiwan.</li> <li>▶ <b>Temporary residents and work visa/permit holders.</b> Resident permit (ARC) holders may enter Taiwan.</li> <li>▶ <b>Business visitors.</b> Visa holders may enter Taiwan starting on 7 March 2022.</li> <li>▶ <b>Other categories.</b> Non-Taiwanese nationals who are blood relatives of Taiwanese nationals or ARC holders, and non-Taiwanese nationals who hold a special permission from the Central Epidemic Command Center (CECC), may apply for a visa and enter Taiwan.</li> <li>▶ <b>Transit.</b> Transit through Taiwan is currently prohibited.</li> <li>▶ <b>Comments.</b> Hong Kong and Macau residents, and Mainland China nationals, may enter Taiwan provided they hold a Taiwan entry permit under the fulfillment work or intracompany transfer categories (starting 7 March 2022), an ARC or obtain special permission from the National Immigration Agency prior to entry.</li> </ul>	<ul style="list-style-type: none"> <li>▶ <b>Pre-travel COVID-19 testing.</b> All eligible entrants are required to take a polymerase chain reaction (PCR) COVID-19 test no more than two days prior to travel to Taiwan, and test negative (and obtain a certificate confirming the same), before entering. Travelers arriving via Vietnamese airlines must take a rapid antigen COVID-19 test no more than six hours before travel, and test negative, to gain admission to Taiwan.</li> <li>▶ <b>Post-arrival COVID-19 testing.</b> All arriving travelers are subject to COVID-19 testing upon arrival, between the sixth and seventh day of their quarantine period, and again prior to ending their quarantine. Individuals who traveled to, or transited through key high-risk jurisdictions, in the 14 days immediately preceding their entry to Taiwan, will be required to quarantine at a government-mandated group quarantine facility.</li> <li>▶ Individuals traveling by air from the Americas, Europe, the Middle East, New Zealand, Australia, India and Southeast Asia must take a government-funded rapid PCR COVID-19 test upon arrival in Taiwan. Those who test negative will be taken to a government quarantine facility, where they will be required to quarantine for 14 days. Those who test positive will be transported to a designated hospital or a government-approved quarantine facility until they test negative for COVID-19.</li> <li>▶ <b>Health screenings on arrival.</b> None.</li> <li>▶ <b>Declarations.</b> All travelers must submit an <a href="#">online health declaration</a> that includes the traveler's health status and travel history, within the 48 hours leading up to their arrival in Taiwan.</li> <li>▶ <b>Registrations.</b> None.</li> <li>▶ <b>Mobile phone apps.</b> Travelers are required to have a phone number of a local Taiwan telecom service provider (a SIM card can be purchased at the airport) and to use a personal smartphone (i.e., one smartphone per person) to complete and submit their health declaration. However, under special circumstances (such as, children under the age of 12 that will quarantine at the same location as the accompanying adult) they can complete the health declaration through a shared smartphone.</li> <li>▶ <b>Health insurance.</b> None.</li> <li>▶ <b>Fees.</b> None.</li> <li>▶ <b>Comments.</b> None.</li> </ul>	<ul style="list-style-type: none"> <li>▶ Inbound travelers are not required to show proof of their COVID-19 vaccination status to enter Taiwan.</li> </ul>	<ul style="list-style-type: none"> <li>▶ <b>Duration.</b> In general, travelers are required to undergo a 10-day home quarantine followed by a seven-day self-health management period.</li> <li>▶ Arriving travelers who have not visited key high-risk jurisdictions in the 14 days immediately preceding their arrival in Taiwan will be required to take a throat/saliva test and a PCR COVID-19 test upon arrival in Taiwan. All travelers are required to take a rapid home COVID-19 test between the sixth day and seventh day of their self-health management period and voluntarily report their test results via text message. All arriving travelers who test positive for COVID-19 will be subject to genome sequencing.</li> <li>▶ Due to the Lunar New Year holiday, it is expected that many Taiwanese travelers will return to Taiwan between mid-December 2021 and remain until mid February 2022. Accordingly, the Taiwanese authorities announced that, between 14 December 2021 and 14 February 2022, travelers arriving to Taiwan from locations other than key high-risk locations will be required to stay in a government-mandated quarantine hotels/facilities for 10 days after arrival (with one person per room). They may then serve the remaining four days of quarantine in a private home or residence (with one person per residence, except where fully vaccinated family members travel together, in which case they may quarantine in the same residence). Travelers arriving to Taiwan from key high-risk locations, between 14 December 2021 and 14 February 2022, will be required to complete the full 14 days of quarantine in a government-designated facility.</li> <li>▶ <b>Location.</b> In general, travelers should quarantine at a government-designated facility (with one adult per room). All travelers will be asked to show proof of the location where they will complete their quarantine. Effective 1 December 2021, Egypt, Malawi, Mozambique and Nigeria are classified as key high-risk countries. Travelers departing from these locations who are admissible to Taiwan must quarantine in group quarantine facility upon arrival.</li> <li>▶ <b>Exemptions.</b> Business travelers with a valid ARC or Employment Gold Card (EGC) who plan to stay in Taiwan for less than three months may shorten the home-quarantine period pursuant to a special procedure. Those coming from low-risk countries/regions may take COVID-19 test on the fifth day of their stay (at their own expense). Those who arrive from medium-risk countries/regions may take a COVID-19 test on their seventh day in Taiwan (at their own expense). Provided they receive a negative test result, these business travelers will be allowed to end their home-quarantine period and shift to an enhanced self-health management period, lasting until the 14<sup>th</sup> day after entry. They will then need to observe a seven-day regular self-health management period.</li> <li>▶ <b>Comments.</b> All travelers are subject to local rules, including those relating to the use of masks, restrictions on gathering with others, curfews, etc.</li> </ul>	<ul style="list-style-type: none"> <li>▶ <b>Existing (valid) visas.</b> Holders of existing visas issued prior to 19 May 2021 are temporarily prohibited from entering Taiwan, except for foreign spouses or children under the age of 20 of Taiwanese citizens with unused dependent visas that are valid until 31 December 2021.</li> <li>▶ <b>New visa issuance.</b> Travelers entering for special humanitarian reasons, and foreign spouses, and children under the age of 20, of Taiwanese citizens and ARC holders entering Taiwan for family visit/reunification purposes, may apply for visas and/or entry permits for Hong Kong and Macau nationals. Foreign nationals who hold a special permission from the Central Epidemic Command Center (CECC) may also apply for a visa to enter Taiwan. Taiwan Entry Permit applications for Mainland China nationals are suspended until further notice.</li> <li>▶ <b>Visa extensions/renewals.</b> The Taiwan Center for Disease Control downgraded the nationwide alert to level 2 effective 27 July 2021. Applicants whose ARC expired during the level 3 alert period (between 19 May 2021 and 26 July 2021) must submit their application documents within 30 days of the nationwide alert being downgraded to level 2. Those with expired ARCs who remain in Taiwan beyond their permitted period of stay will be allowed to depart Taiwan without penalties, and they will not be considered to have overstayed, provided they depart no later than 10 days after the nationwide alert was downgraded to level 2. Holders of visitor visas that expired during level 3 alert period (between 19 May 2021 and 26 July 2021), who are present in Taiwan beyond their permitted period of stay, do not require an extension. They will not be considered to have overstayed, provided they either depart Taiwan, or submit an extension application no later than 10 days after the nationwide alert was downgraded to level 2.</li> </ul>

## Entry restrictions

- ▶ **Citizens.** Thai citizens, permanent residents, temporary residents, work visa/permit holders and business visitors may enter Thailand provided they apply for, and obtain, a Thailand Pass (which replaces the Certificate of Entry from 1 November 2021 onward) prior to travel.
- ▶ **Permanent residents.** See above.
- ▶ **Temporary residents and work visa/permit holders.** See above.
- ▶ **Business visitors.** See above.
- ▶ **Other categories.** Dependent family members of citizens, permanent residents, temporary residents and work visa/permit holders may enter Thailand together with the primary travelers, provided all travelers obtain a Thailand Pass prior to entry. Holders of APEC Business Travel Cards may enter Thailand provided they obtain a Thailand Pass prior to travel, and are not otherwise inadmissible. Travelers who recovered from COVID-19 (i.e., who tested positive no more than three months prior to travel to Thailand, and have recovered and are asymptomatic at the time of travel) may enter Thailand subject to testing and other requirements.
- ▶ **Transit.** International transit through Thailand is allowed, provided the traveler remains in Thailand for no more than 24 hours.
- ▶ **Comments.** Travelers may enter into Thailand via the Test & Go scheme, the Alternative Quarantine (AQ) scheme or the [Sandbox scheme](#), but only to the following locations: Chonburi, Phuket, Krabi, Phang-Nga, Surat Thani and Trat.

## Heightened admission requirements

- ▶ **Post-arrival COVID-19 testing.** None.
- ▶ **Post-arrival COVID-19 testing.** Non-Thai nationals are required to take a reverse transcription polymerase chain reaction (RT-PCR) COVID-19 test upon arrival in Thailand. They must also get tested during their quarantine period. Travelers who are required to quarantine for 10 days must get tested on their eighth or ninth day in Thailand (in addition to on arrival). Travelers entering pursuant to a Sandbox scheme must quarantine for seven days must get tested on their sixth or seventh day in the country (in addition to on arrival). Travelers entering pursuant to the Test & Go scheme must take a self-administered rapid antigen (ATK) COVID-19 test on their fifth day in Thailand (in addition to on arrival).
- ▶ **Health screenings on arrival.** All passengers are subjected to health screening on arrival. Passengers with a fever will be flagged, isolated and sent to a state medical facility.
- ▶ **Declarations.** Passengers must complete and submit a paper declaration form to authorities upon arrival to Thailand.
- ▶ **Registrations.** None.
- ▶ **Mobile phone apps.** Travelers who are required to take a self-administered rapid antigen (ATK) COVID-19 test after entering Thailand must upload the rest of their test using the Morchana mobile app.
- ▶ **Health insurance.** Non-Thai passengers are required to have health insurance with a minimum coverage of USD 20,000, which covers medical treatment related to COVID-19 over the entire duration of their stay in Thailand. Foreigners who are residents of Thailand are not required to hold a separate insurance policy, and can rely on their employer-provided health insurance instead.
- ▶ **Fees.** All Thai and Non-Thai nationals must cover their quarantine-related expenses, including costs related to quarantine hotels and COVID-19 testing.
- ▶ **Comments.** Travelers must carry proof that they paid for their accommodations in Thailand and any required COVID-19 testing. Individuals entering pursuant to the Sandbox scheme are responsible for the cost of COVID-19 testing if their hotel doesn't cover this cost.

## Vaccination requirements and considerations

- ▶ The Thai Government recognizes the COVID-19 vaccines that are approved by its Ministry of Public Health and the World Health Organization, i.e., Moderna, CoronaVac (Sinovac), AstraZeneca (Covishield), Janssen (Johnson & Johnson), Pfizer-BioNTech (Comirnaty), Sinopharm (COVILCO) and Sputnik V.
- ▶ Travelers must receive the second dose of the vaccine (or the first dose, in the case of the Janssen vaccine) at least 14 days prior to travel to Thailand, and present a vaccination certificate in Thai or English, to be considered fully vaccinated. Travelers with vaccination certificates issued in a language other than Thai or English must carry an English translation of the certificate.
- ▶ Travelers who were previously infected with COVID-19 are considered fully vaccinated against COVID-19 if they received at least one dose of an approved vaccine at any time after they recovered from COVID-19.
- ▶ Travelers who were fully vaccinated prior to contracting COVID-19 are still considered fully vaccinated for purposes of entry into Thailand.
- ▶ Travelers who recovered from COVID-19 in the three months prior to their trip to Thailand must carry a valid recovery certificate confirming that they recovered from COVID-19 in the three months prior to their trip or are asymptomatic (in the event they test positive for an RT-PCR COVID-19 test prior to travel).

## Quarantine / isolation requirements

- ▶ **Duration.** Fully vaccinated travelers entering Thailand under the Test & Go scheme must stay at an approved hotel the night of their arrival, pending the result of their post-arrival COVID-19 test. Individuals who enter Thailand under the AQ scheme must quarantine for 7 to 10 days depending on vaccination status. Fully vaccinated travelers entering a [Sandbox Scheme location](#) are not required to quarantine; however, they may only travel to Sandbox locations for their first seven days in Thailand. Children under the age of 18 who are accompanying their parents and are not vaccinated may be exempt from the quarantine requirement if their parents are exempt. Children between the ages of 12 and 17 who received one dose of an approved COVID-19 vaccine may travel unaccompanied.
- ▶ **Location.** Travelers (including Thai citizens and foreigners) who are required to quarantine must do so at an AQ location or a government-approved hotel. For more information, click [here](#).
- ▶ **Exemptions.** See above.
- ▶ **Comments.** All travelers are subject to local rules, including those relating to the use of masks, restrictions on gathering with others, curfews, etc.

## Impact on existing visas, and new visa issuance

- ▶ **Existing (valid) visas.** In general, existing (valid) visas are not suspended or canceled, and they may be used to enter Thailand, provided the visa holder obtains a Thailand Pass prior to travel, and is not otherwise inadmissible. Individuals who received a Thailand Pass with a QR code may enter Thailand subject to the terms of their Thailand Pass.
- ▶ **New visa issuance.** New visa application processing varies from consulate to consulate. Some Thai consulates are issuing new visas. However, others are only issuing limited categories of visas.
- ▶ **Visa extensions/renewals.** Visa extension requests submitted from within Thailand are being processed currently. Foreigners in Thailand whose visas expired and who cannot depart Thailand (e.g., due to border closures) can apply for a "COVID visa" until 24 May 2022. Travelers who entered Thailand with a Visa on Arrival must obtain a confirmation letter from the embassy/consulate. The "COVID visa," if granted, permits the visa holder to remain lawfully in Thailand for at least 30 days and up to 60 days. During this time, "COVID visa" holders must make arrangements to return to their home countries.

## Entry restrictions

- ▶ **Citizens.** Citizens, permanent residents, temporary residents, work permit holders and business visitors must obtain a "TTravel Pass" prior to their travel to Trinidad and Tobago. For more information, click [here](#).
- ▶ **Permanent residents.** See above.
- ▶ **Temporary residents and work permit holders.** See above. In addition, these travelers must be fully vaccinated in order to be granted admission.
- ▶ **Business visitors.** See above. In addition, these travelers must be fully vaccinated in order to be granted admission.
- ▶ **Other categories.** Not applicable.
- ▶ **Transit.** There are no transit restrictions at this time.
- ▶ **Comments.** Citizens who are not fully vaccinated are admissible to Trinidad, provided that they are otherwise eligible for entry (e.g., they obtained a TTravel Pass). Non-citizens who are not fully vaccinated are currently inadmissible to Trinidad.
- ▶ Citizens and non-citizens who are not fully vaccinated are currently inadmissible to Tobago.
- ▶ Individuals in the oil and gas sector who are not fully vaccinated may be eligible to receive an exemption from the entry requirements.

## Heightened admission requirements

- ▶ **Pre-travel COVID-19 testing.** Inbound travelers must take a rapid antigen COVID-19 test no more than 24 hours prior to travel, and test negative, to be admitted.
- ▶ **Post-arrival COVID-19 testing.** None.
- ▶ **Health screenings on arrival.** Travelers may be subject to health screenings on arrival. The health authorities retain the right to require that new entrants be tested for COVID-19 upon arrival.
- ▶ **Declarations.** None.
- ▶ **Registrations.** None.
- ▶ **Mobile phone apps.** All eligible entrants must download the Ministry of Health mobile application for Trinidad and Tobago.
- ▶ **Health insurance.** None.
- ▶ **Fees.** Travelers must pay for the cost of quarantine lodging.
- ▶ **Comments.** None.

## Vaccination requirements and considerations

- ▶ A fully vaccinated individual is defined as a person who has received the required number of doses of a World Health Organization (WHO) approved vaccine at least two weeks prior to travel to Trinidad and Tobago.

## Quarantine / isolation requirements

- ▶ **Duration.** All individuals who are not fully vaccinated must quarantine for seven days on arrival in Trinidad.
- ▶ **Location.** Travelers must undergo their quarantine at a government-approved facility. Evidence of a hotel booking is required to apply for a TTravel Pass and enter the country.
- ▶ **Exemptions.** Fully vaccinated travelers are not required to quarantine. Unvaccinated children traveling with vaccinated parents are not required to quarantine. However, they must take a PCR COVID-19 test on their third, fourth or fifth day after arrival.
- ▶ **Comments.** All travelers are subject to local rules, including those relating to the use of masks, restrictions on gathering with others, etc.

## Impact on existing visas, and new visa issuance

- ▶ **Existing (valid) visas.** There is currently no impact (e.g., suspension) on existing (valid) visas, as a result of COVID-19.
- ▶ **New visa issuance.** Entry visa applications are being processed currently for applicants who obtained a TTravel Pass. Work permit applications are being processed and may be submitted through the [TTBizLink](#) online portal. In-person applications are not being accepted for processing at this time.
- ▶ **Visa extensions/renewals.** Work permit renewal/extension applications are being processed and may be submitted through the [TTBizLink](#) online portal. Requests for in-person appointments for extensions of stay must be emailed to [extensions.international@gov.tt](mailto:extensions.international@gov.tt) or [extensions.caricom@gov.tt](mailto:extensions.caricom@gov.tt).

## Entry restrictions

- ▶ **Citizens.** UAE citizens who are abroad (and their direct family members traveling at the same time as them) are eligible to enter the UAE.
- ▶ **Permanent residents.** This category is not applicable in this jurisdiction.
- ▶ **Temporary residents and work visa/permit holders.** These travelers may enter the UAE currently. However, restrictions on entry from specific countries may be introduced with little or no notice, depending on COVID-19 infection rates in specific countries. Travelers are advised to confirm entry eligibility prior to travel.
- ▶ In general, residence permit holders who reside in Abu Dhabi must obtain advance approval from the [ICA](#) prior to entry. The UAE authorities recently announced that these approvals are no longer required.
- ▶ **Business visitors.** Business visitors may enter Dubai, Abu Dhabi and other Emirates without restrictions. However, restrictions on entry from specific countries may be introduced with little or no notice, depending on COVID-19 infection rates in specific countries.
- ▶ **Other categories.** Other categories of travelers are advised to seek advice prior to travel to the UAE to identify the requirements for their travel.
- ▶ **Transit.** Transit through the UAE is currently permitted. The UAE does not require fully vaccinated travelers (who carry proof of their vaccination status) to get tested for COVID-19 prior to transiting through the UAE. Individuals who are unvaccinated or only partially vaccinated must take a polymerase chain reaction (PCR) COVID-19 test no more than 48 hours prior to transiting through the UAE, and test negative, before being permitted to transit through the UAE.
- ▶ **Comments.** None.

## Heightened admission requirements

- ▶ **Pre-travel COVID-19 testing.** Individuals who are not fully vaccinated against COVID-19 must take a polymerase chain reaction (PCR) COVID-19 test no more than 48 hours prior to travel, and test negative, to be admitted. Fully vaccinated travelers are not required to get tested for COVID-19 prior to travel.
- ▶ **Post-arrival COVID-19 testing.** Post-arrival testing requirements vary based on the locations from which individuals are traveling, and their recent travel histories. Click [here](#) for more information.
- ▶ **Health screenings on arrival.** Travelers are subject to health screenings upon arrival. Click [here](#) for more information.
- ▶ **Declarations.** None.
- ▶ **Registrations.** None.
- ▶ **Mobile phone apps.** Residents are required to install and use the Al Hosn app (e.g., to upload proof of COVID-19 vaccination). Dubai-bound travelers are recommended to download and use the DXB Smart app. Click [here](#) for more information.
- ▶ **Health insurance.** Citizens, residents and their family members are covered under the UAE medical system for treatments related to COVID-19. Business visitors must have travel insurance that covers the cost of COVID-19-related treatments, if needed.
- ▶ **Fees.** None.
- ▶ **Comments.** None.

## Vaccination requirements and considerations

- ▶ See the “heightened admission requirements” and “quarantine / isolation requirements” sections.
- ▶ The COVID-19 vaccines that are recognized by the UAE authorities include AstraZeneca (Covishield), Pfizer-BioNTech, Sputnik V, Moderna and Sinopharm. Travelers are considered fully vaccinated for purposes of entry to the UAE if they received the final dose of an approved vaccine at least 14 days prior to travel to the UAE and hold a vaccination certificate with a QR code confirming the same.

## Quarantine / isolation requirements

- ▶ **Duration.** Unvaccinated travelers and travelers who are not fully vaccinated, who are traveling from countries that are not on the [green list](#) must quarantine for 10 days on arrival.
- ▶ **Location.** In general, individuals who are required to quarantine may do so at a private residence or hotel. Individuals who test positive for COVID-19 within the UAE are required to quarantine at a government-designated hospital or private residence, at the discretion of the local authorities.
- ▶ **Exemptions.** Unvaccinated travelers and those who are not fully vaccinated who travel to the UAE from green list countries are exempt from the quarantine requirement. Fully vaccinated travelers are exempt from the quarantine requirement, irrespective of their recent travel history.
- ▶ **Comments.** All travelers are subject to local rules, including those relating to the use of masks, restrictions on gathering with others, curfews, etc.

## Impact on existing visas, and new visa issuance

- ▶ **Existing (valid) visas.** In general, visas are not suspended for entry to the UAE. Business visitors who are seeking to enter the UAE from a country not on the green list may use their visas to enter the UAE at this time.
- ▶ **New visa issuance.** New visas are not currently being issued to applicants from the following countries, who are outside of the UAE: Algeria, Yemen, Syria, Iraq, Libya, Afghanistan, Pakistan, Somalia, Iran, Lebanon, Kenya, Tunisia and Turkey with limited exceptions. New Employment Residence Permit (ERP) applications for applicants who are outside of the UAE are only being approved in limited situations, and at the sole discretion of the local authorities. Tourist visas are still being issued.
- ▶ **Visa extensions/renewals.** Visa extension/renewal applications are being processed currently.

## Entry restrictions

- ▶ **Citizens.** Citizens, permanent residents, temporary residents and work visa/permit holders, business visitors and other categories of travelers can enter the United Kingdom, irrespective of their COVID-19 vaccination status.
- ▶ **Permanent residents.** See above.
- ▶ **Temporary residents and work visa/permit holders.** See above.
- ▶ **Business visitors.** See above.
- ▶ **Other categories.** See above.
- ▶ **Transit.** Transit through the United Kingdom is permitted.
- ▶ **Comments.** On 18 March 2022, the United Kingdom relaxed all COVID-19-related travel measures, including entry, testing and quarantine restrictions.

## Heightened admission requirements

- ▶ **Pre-travel COVID-19 testing.** None.
- ▶ **Post-arrival COVID-19 testing.** None.
- ▶ **Health screenings on arrival.** None.
- ▶ **Declarations.** None.
- ▶ **Registrations.** None.
- ▶ **Mobile phone apps.** None.
- ▶ **Health insurance.** None.
- ▶ **Fees.** None.
- ▶ **Comments.** None.

## Vaccination requirements and considerations

- ▶ Inbound travelers are no longer required to show proof of their COVID-19 vaccination status to enter the United Kingdom, irrespective of their COVID-19 vaccination status.

## Quarantine / isolation requirements

- ▶ **Duration.** None.
- ▶ **Location.** Not applicable.
- ▶ **Exemptions.** Not applicable.
- ▶ **Comments.** All travelers are subject to local rules, including those relating to the use of masks, restrictions on gathering with others, and curfews, as applicable.

## Impact on existing visas, and new visa issuance

- ▶ **Existing (valid) visas.** Existing valid visas may be used for travel to the United Kingdom, provided the visa holder is not otherwise inadmissible (e.g., business visa holders traveling to the United Kingdom from a banned country).
- ▶ **New visa issuance.** New visa applications are currently being processed without restrictions.
- ▶ **Visa extensions/renewals.** Visa renewal applications are currently being processed.

## Entry restrictions

- ▶ **Citizens.** U.S. citizens and lawful permanent residents (Green Card holders) who are not fully vaccinated will still be able to fly to the US but must show proof of a negative COVID-19 test within one day of their departure time. See the "Vaccination" section for more information.
- ▶ **Permanent residents.** See above.
- ▶ **Temporary residents and work visa/permit holders.** Universal vaccination and testing requirements for all travelers commenced on 8 November 2021, and country-specific travel restrictions are revoked, including the previous Proclamations regarding travel restrictions for individuals who were physically present in Botswana, Eswatini, Lesotho, Malawi, Mozambique, Namibia, South Africa, Zimbabwe, China, the United Kingdom, Ireland, Brazil, the Schengen area and India during the 14 days prior to entry into the US. The requirement to show a National Interest Exception (NIE) for travelers who were subject to the aforementioned country-specific restrictions no longer applies. See the "other categories" and "vaccination requirements" sections for more information. Testing requirements continue.
- ▶ **Business visitors.** See above.
- ▶ **Other categories.** All US-bound air travelers will be subject to universal vaccination and testing requirements, with narrow exceptions for unvaccinated travelers, as of 8 November 2021. See the "vaccination" section for more information.
- ▶ **Transit.** Transit is permitted, provided the traveler complies with testing and vaccination requirements. See the "vaccination" section for more information.
- ▶ **Comments.** Restrictions on land and ferry border crossings from Canada and Mexico will be lifted in two phases. On 8 November 2021, the US allowed non-essential travel across the land and ferry borders for fully vaccinated individuals, while only permitting entry for essential travel for unvaccinated individuals. Effective 22 January 2022, all inbound foreign nationals crossing U.S. land ports of entry or ferry terminals, whether for essential or non-essential reasons, must be fully vaccinated against COVID-19 and provide proof of vaccination. There will be limited exceptions to these requirements, including for children.

## Heightened admission requirements

- ▶ **Pre-travel COVID-19 testing.** In general, inbound international travelers must get a COVID-19 viral test (regardless of their COVID-19 vaccination status or citizenship) no more than one day before they travel by air to the United States. Travelers must show their negative COVID-19 test result to the airline before they board the flight. Travelers who recently recovered from COVID-19 in the 90 days prior to their trip to the United States may instead travel with documents proving their recovered status. For more information, click [here](#).
- ▶ The Centers for Disease Control and Prevention (CDC) has exercised its enforcement discretion to allow certain individuals arriving from Ukraine to enter the United States without a pre-departure COVID-19 test until 1 May 2022. Click [here](#) for more information.
- ▶ **Post-arrival COVID-19 testing.** Currently, the CDC recommends that domestic travelers get tested for COVID-19 three to five days after travel, and reduce non-essential activities for seven days. Travelers are subject to state/local requirements. For more information, click [here](#).
- ▶ **Health screenings on arrival.** US citizens and Lawful Permanent Residents entering from a restricted jurisdiction will be subject to enhanced entry screening, and directed to proceed to their final destination, and immediately home quarantine in accordance with CDC best practices.
- ▶ **Declarations.** Air passengers will be required to confirm that the COVID-19 documentation they present is true, in the form of an attestation.
- ▶ **Registrations.** None.
- ▶ **Mobile phone apps.** The US government released an [app](#) that asks a series of questions about health and exposure to determine if one should seek care for COVID-19 symptoms.
- ▶ **Health insurance.** None.
- ▶ **Fees.** None.
- ▶ **Comments.** The pre-testing rule applies to all individuals two years of age or older, including US citizens and legal permanent residents. It does not currently apply to land border crossings. Additional clarifications on restrictions for travel by land and sea are likely forthcoming.
- ▶ The CDC has issued a Contact Tracing Order that will require all airlines flying into the US to keep on hand - and promptly turn over to the CDC, when needed - contact information that will allow public health officials to follow up with inbound air travelers who are potentially infected or have been exposed to someone who is infected with COVID-19.

## Vaccination requirements and considerations

- ▶ Starting on 8 November 2021, all non-citizens and non-immigrants traveling to the US by air will be required to be fully vaccinated against COVID-19 and provide proof of their vaccination status prior to boarding their flights to the US. In addition, all travelers, regardless of their citizenship, will need to provide proof of a negative COVID-19 test.
- ▶ **Vaccine Mandate.** Travelers must be fully vaccinated as defined in the [CDC annex](#) and will need to show proof of their vaccination status to the airline prior to boarding the plane. The CDC has stated that the vaccines approved by the Food and Drug Administration (FDA) for use, as well as those authorized for emergency use by the World Health Organization (WHO), will be accepted for entry into the US. In addition, the CDC has said it will accept mixed-dose COVID-19 vaccines from international travelers. Click [here](#) for more information on accepted vaccines.
- ▶ In addition to the new vaccine mandate, all air travelers, regardless of their citizenship, will be required to produce a negative COVID-19 test result ahead of travel to the US.
- ▶ All fully vaccinated travelers to the US (including foreign nationals, US citizens and Legal Permanent Residents) will need to provide a negative test taken no more than one day prior to their travel.
- ▶ Unvaccinated non-US nationals (who meet the limited, allowable exceptions) need to provide a negative COVID-19 test taken no more than one day prior to their travel and agree to comply with a number of public health precautions, including but not limited to, showing proof of arranging a COVID-19 test upon arrival, arranging for self-quarantine upon arrival, and agreeing to become fully vaccinated within 60 days of arriving in the US.
- ▶ Unvaccinated US citizens and Legal Permanent Residents who are eligible to travel will need to provide proof of a negative COVID-19 test taken no more than one day prior to their flight's departure.
- ▶ Both nucleic acid amplification tests (NAATs), such as a polymerase chain reaction (PCR) test, and antigen tests qualify.
- ▶ Children between the ages of 2 and 17 are required to take a pre-departure COVID-19 test.
- ▶ Limited exceptions from vaccine requirements include children under the age of 18, medical exemptions, limited vaccine availability or no timely access to vaccines.
- ▶ Limited exceptions from COVID-19 testing requirements include children under the age of 2 and individuals who can prove that they recovered from COVID-19 in the 90 days preceding their trip.

## Quarantine / isolation requirements

- ▶ **Duration.** Air travelers seeking admission to the US from a foreign country will be required to comply with CDC [guidelines](#) for self-quarantine or self-isolation.
- ▶ **Location.** State-specific quarantine measures may be in effect as well. The latest guidance can be found [here](#).
- ▶ **Exemptions.** Fully vaccinated travelers are not required to quarantine after arriving in the United States.
- ▶ **Comments.** All travelers are subject to local rules, including those relating to the use of masks, restrictions on gathering with others, curfews, etc. Executive departments and agencies require that masks be worn in compliance with the CDC [requirements](#) while in airports or on commercial aircraft, trains, public maritime vessels (including ferries), intercity buses, and all forms of public transportation. The Coordinator of the COVID-19 Response and Counselor to the President (COVID-19 Response Coordinator) is responsible for encouraging physical distancing on public modes of transportation.

## Impact on existing visas, and new visa issuance

- ▶ **Existing (valid) visas.** Visas are not canceled and they may be used to enter the US, provided the visa holder is not otherwise inadmissible (e.g., if they were present in a restricted country).
- ▶ **New visa issuance.** The Department of State (DOS) is resuming immigrant and non-immigrant visa appointments. In addition, as of 23 December 2021 and through the end of 2022, the DOS has authorized consular officers to waive, at their discretion, the in-person interview requirement for certain temporary employment non-immigrant visa applicants who have a petition approved by the U.S. Citizenship and Immigration Services (USCIS). This new authorization applies to certain temporary workers who meet certain conditions, including that they are applying for a visa in their country of nationality or residence. However, most U.S. consulates are still closed or operating at a limited capacity, pursuant to local requirements, and working through a long backlog of visa appointments. A proclamation suspending the entry into the United States of certain immigrants who present a risk to the US labor market following the outbreak of COVID-19 was rescinded on 24 February 2021. The suspension of entry for certain non-immigrants expired on 31 March 2021 and was not renewed.
- ▶ **Visa extensions/renewals.** Foreigners entering under the Visa Waiver Program (VWP), also known as the Electronic System for Travel Authorization (ESTA), are not eligible to extend their stay or change status. If an emergency such as COVID-19 prevents the departure of a VWP entrant, United States Citizenship and Immigration Services (USCIS) has discretion to grant a period of satisfactory departure of up to 30 days. USCIS has temporary authority to grant an additional 30-day period to VWP entrants who are unable to depart after the initial 30-day period. Satisfactory departure requests must be made by calling the USCIS Contact Center at 1-800-375-5283.
