1. Argentina

Status	<ul style="list-style-type: none">▶ Enacted in two of Argentina's largest provinces, Buenos Aires City and Buenos Aires Province. The entry into force has been postponed several times. As per the current rules, the tax would enter into force on 1 August 2020 in the City of Buenos Aires and on 1 January 2021 in the Province of Buenos Aires.▶ Argentina's "turnover tax" is a gross receipt tax that is levied on a provincial basis on the gross revenues generated by businesses. There are 24 provincial jurisdictions throughout Argentina. While the turnover tax existed for many years, two of Argentina's main provinces have now extended the tax to foreign providers of digital services used in Argentina. This expansion represents a distinct addition to previously in-force rules.
Scope	<p>City of Buenos Aires</p> <ul style="list-style-type: none">▶ Digital services are understood to be those developed through the internet network or any adaptation or application of the protocols, platforms or technology used by the internet or another network through which equivalent services are provided which, by their nature, are basically automated, require minimal human intervention and require the use of devices for download, display or use. <p>Province of Buenos Aires</p> <ul style="list-style-type: none">▶ Digital services will be considered, whatever the device used for downloading, viewing or use, those carried out through the internet network or any adaptation or application of the protocols, platforms or technology used by the internet or other network to through which equivalent services are provided that, by their nature, are basically automated and require minimal human intervention, comprising, among others, the following:<ol style="list-style-type: none">a) The supply and hosting of computer sites and webpages, as well as any other service consisting of offering or facilitating the presence of companies or individuals in an electronic networkb) The supply of digitized products in general, including, but not limited to, computer programs, their modifications and updates, as well as access and/or download of digital books, designs, components, patterns and the like, reports, financial analysis or data and market guidesc) The remote maintenance, in an automated way, of programs and equipmentd) Remote system administration and online technical supporte) Web services, comprising, among others, the storage of data with remote or online access, memory services and online advertisingf) Software services, including, among others, software services provided on the internet ("software as a service" or "SaaS") through cloud-based downloadsg) Access and/or download to images, text, information, video, music, games. This section includes, among other services, the downloading of movies and other audiovisual content to devices connected to the internet, online downloading of games – including those with multiple players connected remotely – the dissemination of music, movies, bets or any other digital content – although it is done through streaming technology, without downloading to a storage device – obtaining jingles, mobile and music tones, viewing online news, traffic information and weather forecasts – even through satellite benefits – weblogs and website statisticsh) The provision of databases and any service generated automatically from a computer, through the internet or an electronic network, in response to a specific data entry by the customeri) The services of online clubs or dating websitesj) The service provided by blogs, magazines or newspapers onlinek) The provision of internet servicesl) Distance education or test or exercises, performed or corrected automaticallym) The granting, for consideration, of the right to market a good or service on an internet site that functions as an online market, including online auction servicesn) The manipulation and calculation of data through the internet or other electronic networks

1. Argentina (contd.)

Rate	The rate usually varies between 3% and 5%, but lower or higher rates may apply depending on the province and type of activity. In the two provinces listed, the tax is levied at a rate of 2%, slightly lower than the average rate for this tax, and viewed as a "special rate" on service providers not located in Argentina.			
Thresholds	None specified			
Exclusions	None specified			
Effective date	Announced for 1 August 2020 in the City of Buenos Aires and 1 January 2021 in the Province of Buenos Aires. It is expected that other provinces will follow suit, extending their existing turnover taxes to foreign providers of digitally delivered services.

3. Austria

Status	<ul style="list-style-type: none">▶ On 2 June 2020, the United States (US) Trade Representative (USTR) announced investigations will be conducted into certain jurisdictions relating to the adoption or contemplated adoption of a DST. As outlined in a corresponding Federal Register Notice (FRN) (comment due 15 July 2020), jurisdictions included within the scope of this announcement include: Austria, Brazil, the Czech Republic, the European Union (EU), India, Indonesia, Italy, Spain, Turkey and the United Kingdom.▶ Enacted on 23 October 2019.▶ On 4 April 2019, the Austrian Federal Ministry of Finance published a draft bill introducing a new digital advertising tax. The bill, with no significant changes, was passed by the National Council (lower house) on 19 September 2019 and by the Federal Council (upper house) on 10 October 2019.		
Scope	Online advertising		
Rate	5% (on revenues/turnover)		
Thresholds	EUR750m of global annual revenue and EUR25m from digital advertising sales in Austria		
Exclusions	None included in bill		
Effective date	1 January 2020		
Notes	The DST is part of a package of measures that includes the proposed elimination of the VAT exemption for small value imports and a proposal for information reporting requirements for online intermediaries.

4. Belgium

Status	<ul style="list-style-type: none">▶ Following the release of the advice of the Belgian Council of State, amendments to the draft DST legislation were made on 29 May 2020. The Finance and Budget Committee of the lower house has examined the proposal on 16 June 2020. This law is meant to expire when an OECD or EU consensus enters into force.▶ A new proposal was introduced – based on the previous one – in July 2019. On 11 May 2020 the Belgian Council of State released its advice on the draft DST legislation. At this stage, it is unclear what next legislative steps will be – with sponsoring parties of the draft bill still representing a minority in Parliament.▶ Belgium had in 2019 a draft bill that was rejected. 23 January 2019, lawmaker Vanessa Matz and others submitted a draft bill on a DST to the lower house of the Belgian parliament. On 13 March 2019, the Finance and Budget Committee of the lower house rejected the proposal.
Scope	Follows the EU compromise text
Rate	3% (on revenues/turnover)
Thresholds	Revenue generated by digital services of EUR750 million worldwide and EUR5 million within Belgium threshold
Exclusions	Law excludes series services, including providing digital content, communication services and payment services and certain financial services
Effective date	Proposed entry into force is the date publication of the law
Notes	Matz also submitted early 2019 a draft bill seeking to reform tax rules on creation of a digital PE, which was also rejected

5. Brazil

Status	<ul style="list-style-type: none"> ▶ On 2 June 2020, the United States (US) Trade Representative (USTR) announced investigations will be conducted into certain jurisdictions relating to the adoption or contemplated adoption of a DST. As outlined in a corresponding Federal Register Notice (FRN) (comment due 15 July 2020), jurisdictions included within the scope of this announcement include: Austria, Brazil, the Czech Republic, the European Union (EU), India, Indonesia, Italy, Spain, Turkey and the United Kingdom. ▶ Proposal stage (May 2020). ▶ On 4 May 2020, Brazilian Congressman João Maia proposed Bill 2,358/2020, which would establish an annual federal digital services tax called the Contribution for Intervention in the Economic Domain – Digital (CIDE-Digital). Like the DSTs introduced in many European and OECD countries, the CIDE-Digital is targeted at large digital groups. Both chambers of the National Congress (i.e., Chamber of Deputies and Senate) still need to discuss and approve the bill, in different voting rounds. The legislative process usually takes time in Brazil and there may be changes to the current wording of the bill during this process. 			
Scope	<p>The CIDE-Digital would be levied on gross revenues derived from:</p> <ol style="list-style-type: none"> a) Placing advertisements on a digital platform targeted at Brazilian users of that interface (i.e., digital-targeted advertising) b) Making online platforms and multi-sided digital interfaces available to allow users to interact for purposes of facilitating the marketing of goods or services to those users (at least one user must be located in Brazil) c) Transmitting data collected about users and generated by users' activity on digital interfaces 			
Rate	<p>Should the bill be approved as presented, local and foreign legal entities that provide digital services and are part of groups whose income exceeds the thresholds would have to collect the CIDE-Digital. The CIDE-Digital would apply progressively as follows:</p> <ol style="list-style-type: none"> a) 1% on the portion of the annual gross revenue up to R\$150 million b) 3% on the portion of the annual gross revenue over R\$150 million and up to R\$300 million c) 5% on the portion of the annual gross revenue that exceeds R\$300 million 			
Thresholds	<p>Annual worldwide gross revenue and local gross revenue exceed R\$3 billion and R\$100 million, respectively.</p>			
Exclusions	<p>Not yet specified</p>			
Effective date	<p>Not yet specified</p>

7. Cyprus

Status	<ul style="list-style-type: none">▶ Further to reactions during the consultation process, the DST was put on hold by the Ministry of Finance.▶ On 29 August 2019, the Cyprus Ministry of Finance opened a public consultation on taxing the digital economy, which specifically referred to the introduction of a digital advertising services tax (DST). Interested parties were asked to provide comments by 20 September 2019. No formal communication has been made by the authorities as to the outcome of the public consultation process. As per discussions with the authorities, the introduction of a DST in Cyprus has been deferred until a consensus is reached at a global and EU level. As such, at this stage (June 2020) Cyprus is unlikely to unilaterally adopt a DST.				
Scope	Income from targeted advertising through the value creation of user data by digital interfaces				
Rate	3% on taxable revenues				
Thresholds	Global revenues of over EUR750m and revenues from taxable services in excess EUR50m in the EU				
Exclusions	Provision of intragroup taxable services				
Effective date	Not yet specified

8. Czech Republic

Status	<ul style="list-style-type: none"> ▶ On 10 June 2020, the Czech ruling coalition parties agreed to decrease the tax rate of the proposed digital tax to 5% of the local revenues of global internet businesses. It was not immediately clear if any of the current proposed thresholds would change. The initial plan was to impose a 7% tax on big tech companies' local revenues from targeted advertising, digital marketplace provision and user data sales. The Czech legislation is still subject to parliamentary approval. Moreover, the coalition parties agreed to shift the expected effective date from mid-2020 to the beginning of 2021. ▶ On 2 June 2020, the United States (US) Trade Representative (USTR) announced investigations will be conducted into certain jurisdictions relating to the adoption or contemplated adoption of a DST. As outlined in a corresponding Federal Register Notice (FRN) (comment due 15 July 2020), jurisdictions included within the scope of this announcement include: Austria, Brazil, the Czech Republic, the European Union (EU), India, Indonesia, Italy, Spain, Turkey and the United Kingdom. ▶ On 5 September 2019, the Czech Ministry of Finance published information stating that a draft proposal on the introduction of a digital tax had been sent to the Government. The Government approved this proposal on 18 November 2019 and submitted it to the Czech Parliament. Subsequently, a revised draft proposal was published on 26 November 2019. That proposal has not yet debated by the Czech Parliament. 				
Scope	Local revenues of targeted advertising, sale of user data by internet platforms and the making available to users of a multilateral digital interface				
Rate	5% on taxable revenues				
Thresholds	Global revenue of over EUR750m (approx. USD853 million) and 100 million crowns (approx. EUR2m, and USD4.28 million) in the Czech Republic. Along with more than 200,000 user accounts				
Exclusions	Provision of a regulated financial/payment services, provision of communication services, digital content, operating gambling, computer game-playing services				
Effective date	Expected from the beginning of 2021

9. European Union

Status	<ul style="list-style-type: none">▶ On 2 June 2020, the United States (US) Trade Representative (USTR) announced investigations will be conducted into certain jurisdictions relating to the adoption or contemplated adoption of a DST. As outlined in a corresponding Federal Register Notice (FRN) (comment due 15 July 2020), jurisdictions included within the scope of this announcement include: Austria, Brazil, the Czech Republic, the European Union (EU), India, Indonesia, Italy, Spain, Turkey and the United Kingdom.▶ On 27 May 2020, the European Commission presented its proposal for a recovery plan from the crisis that societies and economies face due to COVID-19. To ensure the recovery is sustainable and fair for all EU Member States, the Commission proposed to create a new recovery instrument worth EUR750 billion, called "Next Generation EU." As part of the funding proposal for the instrument, the Commission proposed the introduction of EU taxes to complement the existing own resources. The proposal includes a digital tax applied on companies with a turnover above EUR750 million that could generate up to EUR1.3 billion per year for the EU budget. The analysis and assessment of the Commission's proposal will start immediately in the bodies of the EU institutions with the aim to reach a political agreement at the level of the European Council by July.▶ In a document dated 1 March 2019 (6873/19, LIMITE, FISC 135, ECOFIN 242, DIGIT 44) the Council of the EU indicated that the initial scope should be limited to the taxation of revenues resulting from the provision of digital advertising services. Taxable revenues obtained by an entity in a tax period shall be treated as obtained in a Member State in that tax period if users with respect to the taxable service are located in that Member State in that tax period. A user shall be deemed to be located in a Member State in a tax period if the advertising in question appears on the user's device at a time when the device is being used in that Member State in that tax period to access a digital interface. Thresholds, rates (3%), etc., remain unchanged in this proposal.▶ In the first proposal, laid down in a document dated 21 March 2018, the Commission proposes a new Council Directive on the common system of a digital services tax on revenues resulting from the provision of certain digital services (COM (2018) 148 final, 2018/0073 (CNS)). The following revenues resulting from the provision of each of the following services are taxable under this proposal:<ul style="list-style-type: none">a) The placing on a digital interface of advertising targeted at users of that interfaceb) The making available to users of a multi-sided digital interface that allows users to find other users and to interact with them, and which may also facilitate the provision of underlying supplies of goods or services directly between usersc) The transmission of data collected about users and generated from users' activities on digital interfaces▶ As a general rule, "taxable person" covered by the proposal are entities meeting both of the following conditions:<ul style="list-style-type: none">a) The total amount of worldwide revenues reported by the entity for the relevant financial year exceeds EUR750 millionb) The total amount of taxable revenues obtained by the entity within the Union during the relevant financial year exceeds EUR50 million▶ Rules are proposed for determining whether and how revenue should be allocated to various jurisdictions, as well as the calculation of the tax. The rate is set at 3%.
Scope	Revenues resulting from the provision of digital advertising services. Taxable revenues obtained by an entity in a tax period shall be treated as obtained in a Member State in that tax period if users with respect to the taxable service are located in that Member State in that tax period. A user shall be deemed to be located in a Member State in a tax period if the advertising in question appears on the user's device at a time when the device is being used in that Member State in that tax period to access a digital interface.
Rate	3%
Thresholds	EUR750 million (revenues reported worldwide) and EUR50 million (taxable revenues obtained within the EU)

9. European Union (contd.)

Exclusions	Revenues resulting from the provision of a service by an entity belonging to a group to another entity in that same group shall not qualify as taxable revenues for the purposes of this Directive.
Effective date	1 January 2022
EY Global Tax Alerts	<ul style="list-style-type: none">▶ USTR initiates investigations into digital services taxes either adopted, or under consideration, by certain jurisdictions (4 June 2020)▶ European Commission publishes proposal for recovery plan and adjusts 2020 Work Programme (28 May 2020)

10. France

Status	<ul style="list-style-type: none">▶ On 18 June 2020, the French Finance Minister reacted to a letter received from US Treasury Secretary Steven Mnuchin, after discussions on how digital giants should be taxed, i.e. OECD discussions as part of Pillar 1 are halted because they reach an “impasse.” The Minister rejected the threats of sanctions by the US and claimed that French DST will apply in 2020 insofar an agreement is not reached in 2020 at the level of the OECD over taxation of the digital economy, as agreed in August 2019.▶ On 30 March 2020, the French tax authorities published a comprehensive draft guidance on the French DST (scope, taxable revenues, compliance ...). This guidance was subject to consultation up to the end of May 2020 and is likely to be updated, yet the published version is already enforceable against the tax authorities.▶ After discussions between the French and US presidents at the August 2019 G7 summit in France, a postponement of 2020 French DST payments was announced (optional deferral of the two advanced payments due in April and October 2020 to a single payment in December 2020). Such optional postponement was officially confirmed on 10 February 2020 by the French tax authorities. Enacted (July 2019).▶ The French Senate and National Assembly Joint Committee agreed a revised text of the draft French DST bill on 26 June 2019, after which the National Assembly approved it on 4 July 2019 and the Senate followed on 11 July 2019. French President Emmanuel Macron signed the levy into law on 24 July 2019 and it came into force the following day with its publication in the Journal Officiel.▶ On 2 December 2019, the U.S. Trade Representative announced that it has completed the first segment of its investigation under section 301 of the Trade Act of 1974 and concluded that France’s DST discriminates against US companies, is inconsistent with prevailing principles of international tax policy, and is unusually burdensome for affected US companies. French products subject to potential duties includes 63 tariff subheadings with an approximate trade value of USD2.4 billion. Before any tariffs are confirmed, there will be a period for public comment, including a hearing in Washington in January. Read more here.▶ On 10 July 2019, the USTR announced it would commence an investigation under Section 301 of the Trade Act of 1974 into France’s pending DST. The US action is utilizing the trade mechanism under Section 301 to address what is seen as unfair treatment of US-based companies under the DST.
Scope	Imposition of the DST in France requires four cumulative conditions: <ul style="list-style-type: none">▶ Existence of a taxable service▶ Location of the taxable service in France▶ Receipt of income in return for the taxable service▶ Satisfaction of the revenue thresholds for application of the DST, determined on the basis of all entities that are directly or indirectly affiliated based on control
Rate	3% (on revenues)
Thresholds	Gross amounts received from worldwide taxable services (as defined by the French DST law) more than EUR750m and gross amounts received from deemed French taxable services (as defined by the French DST law) more than EUR25m
Exclusions	Certain regulated financial services; provision of a digital interface by which a person or entity uses it as a single or main basis for providing users with digital content, communication services, payment services, services provided intragroup, direct sale of goods or services online, and nontargeted advertising

10. France (contd.)

Effective date	1 January 2019		
Notes	<p>An advance payment will be due in November 2019, based on 2018 taxable amounts (allocation percentage of taxable services in France determined using data of the period from 26 July 2019 up to 31 October 2019).</p> <p>The French tax authorities have offered the option for taxpayers to postpone the payment of two prepayments due in 2020 to a single payment due in December 2020 (on the November 2020 VAT return). Yet, April 2020 balance payment for DST due in 2019 based on 2019 data (ratio of French deemed services made on the period 26 July 2019 to 31 December 2019) is still due.</p>

13. India

Status	<ul style="list-style-type: none">▶ On 2 June 2020, the United States (US) Trade Representative (USTR) announced that investigations will be conducted into certain jurisdictions relating to the adoption or contemplated adoption of a DST. As outlined in a corresponding Federal Register Notice (FRN) (comment due 15 July 2020), jurisdictions included within the scope of this announcement include: Austria, Brazil, the Czech Republic, the European Union (EU), India, Indonesia, Italy, Spain, Turkey and the United Kingdom.▶ On 27 March 2020, India passed Finance Act 2020, including an unexpected expansion of the Equalization Levy (EL) to tax nonresident entities on their online sales of goods and services. The provisions came into effect from 1 April 2020, with compliance requirements on a quarterly basis. The EL provisions are quite complex, and detailed rules or frequently asked questions are likely to be notified by the Government in response to industries' requests).▶ Before this amendment, the EL at 6% was restricted only to payments toward online advertisements and other related payments to nonresidents not having permanent establishment (PE) in India (subject to certain exceptions). EL was required to be deducted and paid by residents carrying on business or profession and nonresidents having PE in India in case payments exceed threshold of INR0.1m. However, the expanded charge of EL is to include consideration received or receivable by "e-commerce supply or services" to specified taxpayers. With effect from tax year 2020-21.▶ On 1 February 2020, "significant economic presence" (SEP) provisions that were introduced by the Finance Act 2018, have now been deferred until 1 April 2021. The provisions stated that the SEP of a nonresident in India shall constitute "business connection" in India.▶ In May 2019, tax officials issued a consultation paper on profit attribution in case of permanent establishment. The final rules are now awaited (June 2020).
Scope	<ul style="list-style-type: none">▶ The tax is on the amount of consideration received/receivable by a nonresident (NR) e-commerce operator from "e-commerce supply or services" made, provided or facilitated by such NR (beyond threshold of INR20m) during a tax year to:<ul style="list-style-type: none">a) A person resident in Indiab) NR (which entails) sale of advertisement targeted at a customer resident in India or accessing such advertisement through an Indian IP addressc) NR (which entails) sale of data collected from a person resident in India or from a person who uses Indian IP addressd) A person who buys goods or services using Indian IP address
Rate	2%
Thresholds	INR20m (approx. USD265,000) during a tax year
Exclusions	<p>EL on "e-commerce supply or services" shall not apply where:</p> <ul style="list-style-type: none">▶ NR e-commerce operator has a PE in India and such supply or services is effectively connected with such PE▶ Sales/turnover/gross receipts of NR e-commerce operator from e-commerce suppliesOr▶ Services are less than INR20m during the relevant tax year▶ The existing EL on online advertisement and related services covers such supply or services

14. Indonesia

Status	<ul style="list-style-type: none">▶ The Minister of Finance announced (July 2020) that they will put on hold the implementation of digital PE and ETT in Indonesia, indicating their position to wait and see the OECD development later this year.▶ On 2 June 2020, the United States (US) Trade Representative (USTR) announced investigations will be conducted into certain jurisdictions relating to the adoption or contemplated adoption of a DST. As outlined in a corresponding Federal Register Notice (FRN) (comment due 15 July 2020), jurisdictions included within the scope of this announcement include: Austria, Brazil, the Czech Republic, the European Union (EU), India, Indonesia, Italy, Spain, Turkey and the United Kingdom.▶ In a fast-moving development as part of the country's COVID-19 stimulus efforts, the President of Indonesia released a "Government Regulation in Lieu of Law" that provides for new taxes on digital transactions. This was subsequently ratified as law. Notably, while the regulation is in immediate effect, implementing regulations are required before each taxing measure can take effect, to set key thresholds needed to enable impacted taxpayers to comply. Specifically, the new rules provide (i) an offshore VAT regime; and (ii) digital PE thresholds, and certain electronic transaction taxes (ETT).▶ The offshore VAT regime has been implemented from 1 July 2020, with the Indonesian authorities provided the power to register certain offshore parties to collect and remit 10% Indonesian VAT on their digital transactions with the Indonesian customers.▶ The digital PE and ETT concepts are designed quite broadly in the initial regulation, and if implemented fully, many details and thresholds will need to be set.▶ The primary approach is to define a new concept of permanent establishment and subject to in-scope foreign entities to corporate income tax. If the PE definition under a treaty overrides this domestic law, an electronic transaction tax (ETT) is imposed to tax income sourced from Indonesia. Implementing regulations in respect of the types of transactions, thresholds, rate of ETT and other administrative arrangements have not been issued yet. There have been announcements from Government sources that the policy preference is for a multilateral solution. It remains to be seen how long Indonesia would pursue a multilateral approach before implementing the digital PE and/or ETT concepts.
Scope	<ul style="list-style-type: none">▶ International sellers, international service providers, or international e-commerce platform providers that actively offer and/or conduct activities with consumers domiciled in Indonesia may be deemed to have a PE in Indonesia (or become subject to the ETT) if they exceed certain yet unspecified thresholds with respect to<ul style="list-style-type: none">a) Consolidated group gross revenueb) Revenue derived from Indonesiac) Number of active users in Indonesia

23. Turkey

Status	<ul style="list-style-type: none"> ▶ On 2 June 2020, the United States (US) Trade Representative (USTR) announced investigations will be conducted into certain jurisdictions relating to the adoption or contemplated adoption of a DST. As outlined in a corresponding Federal Register Notice (FRN) (comment due 15 July 2020), jurisdictions included within the scope of this announcement include: Austria, Brazil, the Czech Republic, the European Union (EU), India, Indonesia, Italy, Spain, Turkey and the United Kingdom. ▶ A DST has been levied for the first time in Turkey. DST return filings and payments for the first taxation period (March 2020) have been made by taxpayers' subject to the DST who exceed the thresholds in 2019 accounting period. Filings and payments were made through the following link: digitalservice.qib.gov.tr by the last day of April. ▶ On 20 March 2020, General Communiqué on the Implementation of the Digital Services Tax ("DST Communiqué") was published in the Official Gazette, effective from 1 March 2020. ▶ On 5 February 2020 the Turkish Government published the Draft DST Communiqué. Draft DST Communiqué was updated on 28 February 2020 and republished on the website of the Turkish Revenue Administration. Draft DST Communiqué clarifies how the scope of DST would apply by providing several examples and explanations. As revised, storage of digital data on online platforms, tickets sold in the digital environment that provides the right to use services to an actual presentation (e.g., cinema, transport, concerts) and software activation that is required for a sold product to operate (and is incorporated within the product) are now out of scope of the DST. Some companies that provide a digital environment with which users can interact are also in scope. Companies that mediate the sale of various culture, art, sports and transport, as well as companies that provide a platform for people to share professional careers and professional interests are now in scope of the DST. ▶ On 5 December 2019, the Turkish Parliament enacted Law no.7194, which provides for a DST. This law was published in the Official Gazette on 7 December 2019 and the DST will enter into force as of 1 March 2020. ▶ On 24 October 2019, the Turkish Government submitted an initial bill that would introduces a DST into Turkish tax legislation. The bill proposes a DST at a rate of 7.5% on gross revenues and sets forth the scope of the tax, the taxpayers and exemptions.
Scope	<ul style="list-style-type: none"> ▶ Services in scope are as follows: <ol style="list-style-type: none"> a) All types of advertisement services provided through digital platforms (including advertisement control and performance measurement services, as well as data transmission and management services concerning users, and technical services for providing advertisements) b) The sale of all types of auditory, visual or digital contents on digital platforms (including computer programs, applications, music, videos, games, in-game applications, etc.) and services provided on digital platforms for listening, watching, playing of this content or downloading of the content to the electronic devices or using of the content in these electronic devices c) Services related to the provision and operation services of digital platforms where users can interact with each other (including services relating to the sale or facilitation of the sale of goods or services among users) ▶ Intermediary services of digital service providers on digital platforms are subject to DST, as well. ▶ If a digital service provider fails to comply with provisions of the tax, there would be irregularity fines. However, there is a specific sanction for failure to comply with the registration. In this case of noncompliance, the Ministry of Treasury and Finance with cooperation may block access to the services provided by these service providers until the obligations are fulfilled. The blockage of access will be executed by the Information and Communication Technologies Authority in Turkey upon the notification form the Ministry of Treasury and Finance.
Rate	7.5% on gross revenues. The President retains the authority to reduce the rate to 1% or double it from 7.5% in relation to specific services.
Thresholds	EUR750 million in global revenues and TRY20 million (approximately USD2.9 million) in local revenues

23. Turkey (contd.)

Exclusions	<ul style="list-style-type: none">▶ Services that are subject to “treasury duty” paid in accordance with the Telegram and Telephone Law▶ Services that are subject to the “special communication tax”▶ Services within the scope of Article 4 of the Banking Law no.5411▶ Payment services within the scope of Article 12 of the Law on Payment and Securities Settlement Systems, Payment Services and Electronic Money Institutions▶ Sales of products and services provided exclusively through these products developed because of research and development (R&D) activities in R&D centers that are defined under Article 2 of the Law on Supporting Research, Development and Design Activities dated 28 February 2008, no.5746			
Effective date	1 March 2020

24. United Kingdom

Status	<ul style="list-style-type: none">▶ On 2 June 2020, the United States (US) Trade Representative (USTR) announced investigations will be conducted into certain jurisdictions relating to the adoption or contemplated adoption of a DST. As outlined in a corresponding Federal Register Notice (FRN) (comment due 15 July 2020), jurisdictions included within the scope of this announcement include: Austria, Brazil, the Czech Republic, the European Union (EU), India, Indonesia, Italy, Spain, Turkey and the United Kingdom.▶ It was announced in the 2020 Budget that the UK would be introducing a 2% DST with effect from 1 April 2020 and the DST provisions were included in the Finance Bill 2020. The Bill is currently progressing through Parliament and still needs to receive Royal Assent, but it is not expected to change prior to enactment.▶ The UK tax authority published its DST manual on 19 March 2020, which explains the structure and details of the UK DST. This manual includes: what is meant by digital services activity and revenue, definitions of a user and identifying revenue of UK users, detail on the role and responsibilities of the responsible member, as well as further details of the administration and compliance framework that applies for DST. This guidance reflects the legislation contained in the Finance Bill. As the Finance Bill is potentially subject to amendment during passage through Parliament the guidance should be treated as draft until Royal Assent has been received.
Scope	<ul style="list-style-type: none">▶ Revenues derived from UK users from in-scope activities, which includes the provision of social media platforms, internet search engines or online marketplaces. In addition, to the extent a business carries out an in-scope activity, revenues arising from an “associated online advertising business” should also fall within the scope of the DST.▶ A group will be within the scope of UK DST if it provides one or more of the three digital services activities. Further guidance on the definitions of each of the activities, along with examples, are available in separate sections of the manual.
Rate	2% of gross revenues from UK in-scope activities above threshold; however, taxpayers may apply an alternative calculation method calculated based on operating margin in respect of in-scope activities where they are loss-making or have a very low profit margin
Thresholds	<ul style="list-style-type: none">▶ £500m revenues from in-scope activities provided globally and £25m of revenue from in-scope activities provided to UK users per 12-month accounting period. The first £25m of revenues is not subject to the tax. £500m and £25m thresholds are applied to total revenues arising to a group from in-scope activities, rather than on an activity by activity basis.▶ The group upon which the thresholds are tested is determined by reference to accounting consolidation principles.
Exclusions	Provision of an online marketplace by a financial services provider where upwards of 50% of revenues relate to the creation/trading of financial assets
Effective date	1 April 2020
EY Global Tax Alerts	<ul style="list-style-type: none">▶ USTR initiates investigations into digital services taxes either adopted, or under consideration, by certain jurisdictions (4 June 2020)▶ UK releases draft clauses and guidance on Digital Services Tax (12 July 2019)▶ UK proposes Digital Services Tax: unilateral measure announced in Budget 2018 (5 November 2018)

25.1. United States - Federal

Status	<ul style="list-style-type: none">▶ On 2 June 2020, the United States (US) Trade Representative (USTR) announced investigations will be conducted into certain jurisdictions relating to the adoption or contemplated adoption of a DST. As outlined in a corresponding Federal Register Notice (FRN) (comment due 15 July 2020), jurisdictions included within the scope of this announcement include: Austria, Brazil, the Czech Republic, the European Union (EU), India, Indonesia, Italy, Spain, Turkey and the United Kingdom.▶ Investigations will be conducted pursuant to Section 301 of the Trade Act of 1974 (Section 301), with the goal of determining whether the adopted or contemplated DST of the relevant jurisdiction is unreasonable or discriminatory, as well as whether it burdens or restricts US commerce.▶ On 2 December 2019, the USTR announced that it has completed the first segment of its investigation under section 301 of the Trade Act of 1974 and concluded that France's DST discriminates against U.S. companies, is inconsistent with prevailing principles of international tax policy, and is unusually burdensome for affected US companies. French products subject to potential duties includes 63 tariff subheadings with an approximate trade value of USD2.4 billion. Before any tariffs are confirmed, there will be a period for public comment, including a hearing in Washington in January. Read more here.▶ On 10 July 2019, the USTR announced it would commence an investigation under Section 301 of the Trade Act of 1974 into France's pending DST. The US action is utilizing the trade mechanism under Section 301 to address what is seen as unfair treatment of US-based companies under the DST.

25. United States

25.2. United States - Maryland

Status	<ul style="list-style-type: none"> ▶ On 7 May 2020, Maryland Governor Larry Hogan vetoed two bills (HB 732 and HB 932) that would have imposed a new tax on digital advertising and extended the state's existing sales and use tax to digital goods, respectively. With the Maryland legislature currently out of session, and no special sessions currently scheduled, the earliest that a veto override vote may be considered would be in January 2021, barring a special session being called before that date. ▶ Proposed. Maryland Senate Bill 2 (SB 2), introduced on 8 January 2020, would create a new state tax called the Digital Advertising Gross Revenues Tax (DAGRT). 			
Scope	<ul style="list-style-type: none"> ▶ Under SB 2, "Digital advertising services" would be defined as "advertisement services on a digital interface, including advertisements in the form of banner advertising, search engine advertising, interstitial advertising and other comparable advertising services." ▶ "Annual gross revenues" would be defined as income or revenue from all sources, before any expenses or taxes, computed according to generally accepted accounting principles. Persons with annual gross revenues derived from digital advertising services within Maryland of at least USD1 million would have been required to file a return with the Office of the Maryland Comptroller of Treasury on or before 15 April of the next year. ▶ Persons that reasonably expected their annual gross revenues derived from digital advertising services in the state to exceed that amount would have been required to file a declaration of estimated tax on or before 15 April of that year and pay quarterly estimated taxes. ▶ Persons subject to the tax would have had to maintain records of the digital advertising services they provided in the state to substantiate the basis for their apportionment and calculation of the tax owed on digital advertising gross revenues. ▶ Failure to comply with provisions of this new tax would have resulted in criminal penalties, including fines and imprisonment. 			
Rate	A progressive tax rate schedule would apply, ranging from 2.5% of the annual gross revenues derived from digital advertising services in Maryland (i.e., the assessable base) for persons with annual gross revenue of USD100 million through USD1 billion, and to 10% of the assessable base for persons with global annual gross revenues exceeding USD15 billion.			
Thresholds	<ul style="list-style-type: none"> ▶ Global revenues of at least USD100 million. ▶ Persons that reasonably expect their annual gross revenues from digital advertising services in Maryland to exceed USD100 million would be required to file a declaration of estimated tax, and then file a tax return on or before 15 April of the next year if the assessable base exceeds USD100 million. 			
Exclusions	None specified			
Effective date	If enacted as currently drafted, the DAGRT would apply to tax years beginning after 31 December 2020.			
EY Global Tax Alerts	<ul style="list-style-type: none"> ▶ Maryland Governor vetoes new taxes on digital advertising and digital goods, override uncertain (7 May 2020) ▶ Maryland and Nebraska propose taxing revenues from digital advertising (21 January 2020)

25. United States

25.3. United States - Nebraska

Status	▶ Introduced on 14 January 2020. See LB 989 .
Scope	▶ Introduced on 14 January 2020, LB 989 would amend Nebraska's existing sales and use tax law by expanding the definition of taxable gross receipts to include retail sales of digital advertisements. This provision would specifically define "digital advertisement" for these purposes to mean "an advertising message delivered over the internet that markets or promotes a particular good, service or political candidate or message."
Rate	Average rate of 7.0% (composed of a Nebraska state-wide rate of 5.5%, plus a variety of local rates of between 0.5% and 2.5%, for a top rate of as high as 8.0%) Rates are routinely updated by the Nebraska Department of Taxation. Combined state and local tax rates as of 1 January 2020 can be found here .
Thresholds	▶ Sellers with a physical presence in Nebraska would have to collect in any case. ▶ Remote sellers (i.e., businesses without a physical presence in Nebraska) would have to collect if they made more than USD100,000 of sales or entered into 200 or more transactions with Nebraska-based customers. For more information, see Nebraska's Department of Revenue " South Dakota v. Wayfair, Inc. Collection of Sales Tax by Remote Sellers FAQs ."
Exclusions	General sales tax exceptions and exemptions may apply.
Effective date	The law, if enacted, would become effective 1 October 2020.
EY Global Tax Alerts	▶ Maryland and Nebraska propose taxing revenues from digital advertising (21 January 2020)
EY contact	Steve Wlodychak Ernst & Young LLP Indirect Tax/State and Local/National Tax Principal steven.wlodychak@ey.com

25. United States

25.4. United States - New York

Status	▶ SB 8166 introduced on 13 April 2020; AB 10321 introduced on 22 April 2020 (bills are identical)		
Scope	<ul style="list-style-type: none"> ▶ Adds “digital advertising services” to the list of taxable services under NY Tax Law §1105(c). “Digital advertising services” means advertisement services on a digital interface, including advertisements in the form of banner advertising, search engine advertising, interstitial advertising, and other comparable advertising services that markets or promotes a particular good, service, or political candidate or message. “Digital interface” means any type of software, including a website, part of a website or application that a user can access. ▶ Funds generated from the tax would be earmarked exclusively for the providing zero interest refinancing of eligible education loans by the New York State Higher Education Services Corporation. 		
Rate	The New York State sales tax rate is 4%. Additional local rates also may apply, including the New York City sales tax rate of 4.5%, and the Metropolitan Commuter Transportation District surcharge of 0.375%. Total sales and use tax rate, depending on situs of transaction, can be as high as 8.875%. The bill does not specify any sourcing methodology for digital advertising services.		
Thresholds	▶ Under New York’s economic nexus provisions, service providers with a physical presence in New York would have to collect and remit in any case. Remote service providers (i.e., businesses without a physical presence in New York) would have to collect if they made more than USD500,000 of sales or entered into more than 100 separate transactions with New York-based customers in the immediately preceding four quarterly periods ending on the last day of February, May, August and November. Note that New York uses a nonstandard quarter measurement starting on 1 March of each calendar year in determining whether the thresholds have been met.		
Exclusions	General sales tax exceptions and exemptions may apply – including the resale exemption.		
Effective date	The law would become effective on the 30th day after it becomes law and would apply to sales made and uses occurring on and after such date (even if made, occurring or rendered under a prior contract). The law would expire and be deemed repealed five years after such effective date.
