Overview

As a countermeasure to the outbreak of COVID-19 in Armenia, the draft Government decree introduces support to businesses in the form of co-financing, re-financing, or subsidizing interest of targeted loans when borrowing them from licensed banks or credit organizations operating in the territory of Armenia.

- ▶ By co-financing, the legislator aims to partially reduce the risk of currency volatility, partially decrease interest expenses, as well as resolve the problem of insufficient level of security means for the businesses.
- ▶ By refinancing, the legislator aims to completely neutralize the risk of currency volatility and partially decrease interest expenses.
- ▶ Finally, by subsidizing the interest, the legislator aims to substantially reduce interest expenses incurred by businesses.

Only one of the above three forms of assistances may be applied per business.

Business tax

JobKeeper Payments wage subsidy scheme

- ▶ The JobKeeper subsidy provides A\$1,500 every two weeks per retained employee to employers. Eligible employers include businesses with aggregated annual turnover (global turnover) <A\$1b where their Australian GST turnover has fallen by 30%, or 50% for businesses with aggregated annual turnover >A\$1b. The turnover based on modified GST concepts must generally have fallen in the relevant month or quarter relative to a year earlier, but alternate tests are available for certain classes of taxpayers. The subsidy is available from 30 March 2020 and may run to 27 September 2020. The necessary requirements must be met by the relevant deadlines for an employer to qualify for the JobKeeper subsidy. These include:
 - ▶ Enrollment with the ATO (including employee notifications which must be completed before enrollment and notification of eligible employees to the ATO): Due 31 May 2020 for the JobKeeper fortnights in April and May and thereafter, the end of each month;
 - ▶ Wage condition: Eligible employees must be paid by the end of each JobKeeper fortnight (except payments for the first 2 fortnights which had to be made by 8 May).
- ▶ The JobKeeper subsidy will be extended until 28 March 2021, with the following modifications:
 - ▶ Payment rate of A\$1,500 per fortnight will be reduced to A\$1,200 per fortnight from 28 September 2020 and to A\$1,000 per fortnight from 4 January 2021. Lower payment rates will apply for employees/business participants that worked fewer than 80 hours in the 28 day period ending at the end of the last pay cycle before either 1 March 2020 or 1 July 2020 (A\$750 per fortnight from 28 September 2020 and A\$650 per fortnight from 4 January 2021). Alternative rules and reference periods are available where the number of hours worked are not readily ascertainable or where the 28 day period ending before 1 March 2020 or 1 July 2020 is not a suitable reference period.
 - ▶ From 28 September 2020, employers seeking to claim the JobKeeper subsidy will be required to demonstrate ongoing significant decline in turnover using actual GST turnover (rather than projected GST turnover). The thresholds for the decline in turnover test remain the same but the eligibility criteria will change as follows:
 - ▶ From 28 September 2020 to 3 January 2021: Decline in turnover test (using actual GST turnover) must be met in the September 2020 quarter.
 - ▶ From 4 January 2021 to 28 March 2021: Decline in turnover test (using actual GST turnover) must be met in the December 2020 quarter.

- ▶ Further, the following requirements must be met by the relevant deadlines for an employer to qualify for the JobKeeper subsidy. These include:
 - ▶ Enrollment with the ATO: Due 31 October 2020 for employers which first become eligible based on the September 2020 quarter;
 - ▶ Wage condition: Eligible employees must be paid by the end of each JobKeeper fortnight (except payments for the fortnights starting on 28 September 2020 and 12 October 2020 which have to be made by 31 October 2020).

- ▶ Notional loss carryback tax offset
 - ▶ Only available to businesses with aggregated turnover (global turnover) less than A\$5b in the year of the loss.
 - ▶ Tax losses incurred in the FY20 to FY22 years can be carried back to offset taxable income in FY19 or later years, generating a refundable tax offset for taxes paid in those earlier years. Eligible entities may elect to receive a tax refund when lodging the 2020-21 and 2021-22 income tax returns.
 - ▶ For example, a company with a 31 December tax year end (early balancer for the Australian FY20/21 year) may carryback losses incurred in 31 December 2019 (FY19/20) and 2020 (FY20/21) to 2018 (FY18/19) and/or 2019 (FY19/20), and receive a tax refund in its 31 December 2020 (FY20/21) tax filing.

Business tax (continued)

- ▶ Temporary full expensing of depreciating assets

To satisfy this new alternative test, businesses must have less than A\$5b in total statutory and ordinary income (excluding non-assessable non-exempt income) in either the FY19 or FY20 year **and** invested more than A\$100m in tangible depreciating assets in the FY17 to FY19 years.

 - ▶ All claimants accessing the non-refundable R&D tax offset will receive a benefit of between 8.5% and up to 16.5% (above the corporate tax rate).
 - ▶ No cap on the amount of refundable R&D tax offsets.

Notwithstanding this concession, Australia's corporate tax residency rules are under review, with the Board of Taxation report now being reviewed by the Government. Legislative change was announced in the Federal Budget on 6 October 2020 to clarify the circumstances in which a foreign incorporated company will be classified as an Australian tax resident for domestic income tax purposes.

 - ▶ The foreign incorporated company did not have a PE in Australia before the effects of COVID-19;
 - ▶ Temporary presence of employees in Australia continues to be solely due to COVID-19 restrictions;
 - ▶ Employees temporarily in Australia will relocate overseas as soon as practicable after international travel restrictions are relaxed;

Overview

- ▶ The Austrian Federal Ministry of Finance issued a decree on 14 March 2020 that shall help to safeguard businesses against liquidity shortages. This decree was replaced by a decree issued on 24 March 2020 to concretize individual provisions.
- ▶ Prerequisite for all cases and for all applications is that the taxpayer can credibly argue that liquidity shortages are directly caused by COVID-19 (e.g. break down of the supply chain, change in customer behavior, cancelation of hotel reservations, authority-imposed restrictions).
- ▶ The decrees are based on tax procedural law as currently enacted. Tax offices are instructed to process all applications with immediate effect. To facilitate applications and processing, the decree lists simplified draft wordings for applications.
- ▶ Taxpayers can apply to defer tax payments or to pay taxes in instalments. This already applies for tax payments due on Monday 16 March 2020 (e.g. VAT January 2020, Wage Tax, Employer's Contributions for February 2020). Independent of payment facilities, taxes still have to be calculated and notified. Requests for deferral or instalments of tax payments can be applied for until 30 September 2020.
- ▶ Taxpayers can apply to not levy interest on deferral of payments; such applications need to be filed together with applications to defer tax payments or to pay taxes in instalments.
- ▶ The filing deadline for tax returns 2018 filed by an Austrian tax advisor has been extended until 31 August 2020.
- ▶ Tax offices are instructed to not levy interest on late payment for tax payments if the failure to meet a payment deadline occurs until 1 September 2020.
- ▶ On 15 March 2020, the Austrian Parliament adopted the first COVID-19 Act. It includes a new short-time work model which is initially valid for three months but can be extended for a further three months if necessary; independent of the reduction of work, income can remain at up to 90%. The working time of employees must be at least 10% during the entire short-time working period. It can also be reduced temporarily down to 0%. In addition, the law provides for a framework for measures to safeguard liquidity of businesses (to be specified).
- ▶ The COVID-19 Law of 15 March 2020 also introduces a special leave of up to three weeks for employees with children under 14 years of age because of the close down of schools and child care facilities. The employer decides whether the special leave can be taken. Employers are entitled to compensation from the government up to one third of remuneration paid to those employees. The special leave does not apply to employees working in a "supply-critical sector" (e.g. pharmacies, food production, etc.).

Personal tax

- ▶ Taxpayers affected by a loss of income due to the COVID-19 virus may apply for a reduction of advance payments of direct taxes for calendar year 2020. The advance payment can even be set to zero in case of liquidity shortages directly caused by COVID-19.
- ▶ Tax liabilities, wage taxes, wage tax related duties and social security payments due may be deferred on application without interest.

In addition, it was announced that a fixed costs subsidy will be granted by AWS (application starts on 15 April 2020).
- ▶ On 3 April 2020 it was additionally announced by the Austrian government that it is planned that all companies that take advantage of government aid funds have to consider a one-year ban on dividend distributions and that manager bonuses must be reduced by 50% compared to the previous year. Further developments in this context should be monitored carefully.
- ▶ On 3 April 2020, the Austrian government adopted the third, fourth and fifth COVID-19 Act, with the following amendments (among others):
 - ▶ Writings and official acts in connection with COVID-19 are exempt from stamp duties from 1 March 2020 until 31 December 2020.
 - ▶ The physical presence of shareholders and board members at meetings is no longer required until 31 December 2020.

Those bonuses must qualify as additional payments that are made exclusively for this purpose and have not been granted previously.

Overview

Federal

- ▶ On March 18, 2020, Prime Minister Trudeau announced a new set of economic measures to help stabilize the economy to be delivered as part of the Government of Canada’s COVID-19 Economic Response Plan. Since being announced, a number of these new measures have been periodically expanded, and they were in addition to a coordinated package of measures to support the functioning of markets, the resilience of the financial sector and continued access to financing for Canadian businesses that has also been periodically amended since being announced on March 13, 2020 by the Minister of Finance, Governor of the Bank of Canada and Superintendent of Financial Institutions.

Provinces and Territories

- ▶ All Canadian provincial and territorial governments have now also announced stimulus measures and these are also summarized here.

Personal tax

- ▶ **Individuals: Extended tax return filing deadline** - For individuals (other than trusts and deceased individuals), the 2019 personal tax return (T1) filing due date is deferred until 1 June 2020; for deceased individuals who died between 1 January and 31 October 2019, the filing deadline is deferred until 1 June 2020 (or 15 June 2020 for deceased self-employed individuals); and for deceased individuals who died after October 2019 and before 1 June 2020, the filing deadline is deferred until the later of 1 June 2020 (or 15 June 2020 for deceased self-employed individuals) and six months after their death. However, late-filing penalties will not be charged if payments are made and the return is filed by 30 September 2020. This extension (and the non-application of late-filing penalties) also applies to Form T1135, *Foreign Income Verification Statement*, and, subject to certain exceptions, any other forms tied to the T1 filing deadline (see **Individuals and Trusts: Deferral of administrative income tax actions** below). Individuals are encouraged to file their returns before September to ensure the proper calculation of benefit entitlements (see **Canada Child Benefit and GST/HST credit payments for 2020-21 benefit year** below) and to ensure timely receipt of any tax refund owing to them.
- ▶ **Individuals: Deferred payment of income tax** - The payment of any income tax amounts that become owing on or after 18 March 2020 and before 30 September 2020 may be deferred until 30 September 2020; however, for deceased individuals who died after October 2019 and before 1 June 2020 (or 15 June 2020 for deceased self-employed individuals) payment may be deferred until the later of 1 September 2020 or 6 months after their death. This measure applies to income tax balances and instalments owing under Part I of the *Income Tax Act* (i.e., therefore, this deferral does not apply to remittances and tax payments owing under various other parts of the *Income Tax Act*, such as Part XIII withholding tax). The deferred payments will not be subject to interest or penalties during this period.
- ▶ **Electronic signatures** - Effective immediately, the CRA will recognize electronic signatures as having met the signature requirements of the *Income Tax Act*, on a temporary administrative basis only. This measure will apply to authorization Form T183, *Information Return for Electronic Filing of an Individual's Income Tax and Benefit Return*.
- ▶ **Trusts: Extended tax return filing deadline and deferred payment** - For trusts with a 31 December 2019 taxation year-end, the tax return (T3 return) filing due date is deferred until 1 May 2020; for trusts with a filing due date after 30 March and before 31 May, the filing due date is deferred until 1 June 2020; for trusts with a filing due date on 31 May, or in June, July, or August, the filing due date is deferred until 1 September 2020. Also, all trusts that have an upcoming income tax balance due date or an income tax instalment payment due date before 30 September 2020, will have their payment due date deferred until 30 September 2020 (this payment deferral also applies to the Part XIII remittance requirement associated with income paid or payable to non-resident beneficiaries). The CRA has indicated that penalty and interest implications for upcoming trust tax obligations not covered by this relief will be considered on a case-by-case basis.
- ▶ **Trusts: Extended information return filing deadline** - The deadline for trust information returns (T3 slips and T3 Summary) is also deferred until 1 May 2020 for trusts with a 31 December 2019 taxation year-end, until 1 June 2020 if the information return is due after 30 March and before 31 May, and until 1 September 2020 if the information return is due on 31 May, or in June, July, or August.

Personal tax (continued)

- ▶ **Individuals and Trusts: Deferral of administrative income tax actions** - Deferral to 1 June 2020 of administrative income tax actions (other than income tax return filing and payments deadlines outlined above) due after 18 March 2020 and before 31 May 2020, including the filing of information returns, forms, elections, designations, and responses to information requests. This deferral does not apply to payroll deductions (including related activities) nor to Form T661, Scientific Research and Experimental Development (SR&ED), Form T2038(IND), Investment Tax Credit (Individuals), or related forms, receipts, documents, or prescribed information. A similar deferral to 1 September 2020 applies to administrative income tax actions due on 31 May, or in June, July, or August 2020 (presumably the exception for Form T661, Form T2038(IND), etc., also applies to the deferral to 1 September).
- ▶ **GST credit: One-time special payment** - On 9 April 2020, a one-time special payment will be made through the GST credit to assist low- and modest-income individuals and families. The special payment will double the maximum annual GST credit amounts paid for the 2019-20 benefit year. The estate of a deceased individual is eligible to receive the one-time special payment if they were eligible for any GST/HST credit quarterly payments in the 2019-2020 benefit year (July 2019 - June 2020).
- ▶ **Enhanced Canada Child Benefit payments** - On a one-time basis, for the 2019-20 benefit year only, the maximum annual Canada Child Benefit payment amounts will be increased by \$300 per child. The increase will be included as part of the May 2020 payment.
- ▶ **Canada Child Benefit and GST/HST credit payments for 2020-21 benefit year** - Individuals who are currently receiving Canada Child Benefit payments or the GST/HST credit for the 2019-20 benefit year and who have not been able to file their 2019 income tax return by 30 April (and are taking advantage of the extended personal tax return filing deadline to 1 June) will continue to receive benefit and/or credit payments until the end of September 2020, with the payment amounts being based on their 2018 tax return information. If 2019 tax returns are not received and assessed by early September 2020, the estimated benefit/credit payments will stop in October 2020 and the individual will have to repay the estimated amounts that were issued as of July 2020.
- ▶ **RRIF withdrawals and RPP payments** - Effective immediately, the required minimum withdrawals from RRIFs will be reduced by 25% for 2020 (the unreduced minimum amounts will continue to apply though for the purposes of applying certain exemptions under the Income Tax Act). A similar reduction is introduced for individuals receiving variable benefit payments under a defined contribution RPP.
- ▶ **Temporary measure re. already filed paper returns** - Beginning on 20 April 2020, the CRA will allow an electronic filer to submit a personal tax (T1) return for their client, even if a paper return has already been filed for the tax year, but has not yet been processed; the same applies for unprocessed requests sent by mail to change a return. This temporary measure excludes returns where the CRA's web response stated that the return must be paper filed, or electronic filing exclusions are applicable.
- ▶ **Taxable benefits** - In the particular context of the COVID-19 crisis, the CRA is willing to accept that a total or partial reimbursement not exceeding \$500 for the purchase of personal computer equipment to enable an employee to immediately and properly perform their work from home, is not a taxable benefit for the employee (provided supporting documentation is provided to obtain the reimbursement).
- ▶ **Deferred registered pension plan election (eligible period of reduce pay)** Under proposed amendments to the Income Tax Regulations, the deadline for a member of a money purchase or defined benefit pension plan to make an election to recognize an eligible period of reduced pay that ended in 2019 as pensionable service under the plan is extended from 30 April 2020 to 1 June 2020 (or such later date as is acceptable to the minister of national revenue), subject to any plan restrictions. This provides for the credit for the additional pensionable service to be reported by way of a pension adjustment rather than a past-service pension adjustment.
- ▶ **Deferred Salary Leave Plan (DSLP) maximum deferral period and minimum leave period** - A health care spending account (HCSA) that qualifies as a private health services plan (PHSP) and which has unused credits or unreimbursed eligible medical expenses expiring between 15 March and 31 December 2020, could temporarily permit the carry forward of those unused credits or unreimbursed expenses for a reasonable period to allow members to access services that were otherwise restricted during the COVID-19 outbreak. A period of up to six months would generally be considered reasonable and would not, in and of itself, disqualify the HCSA from being a PHSP.

Personal tax (continued)

- ▶ **Retroactive RPP money purchase contributions** - Under proposed amendments to the Income Tax Regulations, a retroactive contribution will be permitted to be made to an employee's money purchase account in respect of the 2020 year (regardless of whether or not the employee was subject to reduced service or reduced pay), provided the contribution replaces, in whole or in part, a contribution that would have otherwise been required for the 2020 year, and the employee/employer contribution is made after 2020 and before May 2021 (or a written commitment to contribute is made by the employee before May 2021 and the employer's contribution will match an employee's committed contribution). The retroactive contribution will be added to the employee's pension adjustment for 2020.
- ▶ **Pension coverage during periods of reduced pay** - Under proposed amendments to the Income Tax Regulations, the requirement that an employee must be employed for at least 36 months in order to continue to earn full pensionable service for an eligible period of reduced pay under the RPP rules will not apply for 2020. The suspension of this requirement permits employers to provide unreduced pension coverage to all employees, including newer employees. As well, the requirement that the reduction in pay must be generally commensurate with the reduction in work hours will not apply for 2020.
- ▶ **HCSA unused credits or unreimbursed eligible medical expenses** - HCSA unused credits or unreimbursed eligible medical expenses - A health care spending account (HCSA) that qualifies as a private health services plan (PHSP) and which has unused credits or unreimbursed eligible medical expenses expiring between 15 March and 31 December 2020, could temporarily permit the carry forward of those unused credits or unreimbursed expenses for a reasonable period to allow members to access services that were otherwise restricted during the COVID-19 outbreak. A period of up to six months would generally be considered reasonable and would not, in and of itself, disqualify the HCSA from being a PHSP.
- ▶ **Residency determinations** - If an individual who is visiting Canada from another country has had to remain in Canada solely because of the COVID-19 travel restrictions, this factor alone will not cause the CRA to consider the individual to be a resident of Canada under the common-law factual residency test. In addition, subject to certain conditions and on a temporary administrative basis, the days during which an individual is present in Canada and is unable to return to their country of residence solely as a result of the travel restrictions will not count towards the 183-day limit for the deemed residency test. This temporary administrative position applies for the period 16 March to 31 August 2020.
- ▶ **Cross-border employment income** - U.S. residents who regularly exercise their employment in Canada but would normally not be present in Canada for more than 183 days (and, for that reason, are not normally taxable in Canada on their employment income under the Canada-U.S. treaty) may now be exercising their duties in Canada for an extended period of time solely as a result of the COVID-19 travel restrictions. In these circumstances, the CRA has indicated that those days will not be counted toward the 183-day test in the Canada-U.S. treaty and these individuals will continue to benefit from the treaty relief provided under the tax treaty. The same administrative approach will be taken by the CRA for employees that are resident in other countries with which Canada has a tax treaty. This temporary administrative position applies for the period 16 March to 31 August 2020.

Personal tax (continued)

Individuals will continue to benefit from the treaty relief provided under the tax treaty. The same administrative approach will be taken by the CRA for employees that are resident in other countries with which Canada has a tax treaty. This temporary administrative position applies for the period 16 March to 31 August 2020.

- ▶ **Temporary issuance of comfort letters for dispositions of taxable Canadian property** - If a vendor has submitted a request for a section 116 compliance certificate (Forms T2062, T2062A, T2062B, or T2062C) and, due to a COVID-19-related CRA service interruption, the certificate has not been issued by the time a purchaser's remittance is due (i.e., within 30 days after the end of the month in which the property was acquired), the purchaser or vendor may request a comfort letter from the CRA (on an urgent and temporary basis, electronically by e-mail). [The comfort letter advises the purchaser/vendor/ representative to retain the funds they have withheld but not remitted to the CRA until the CRA's review is complete and the CRA requests the purchaser to remit the required tax.] Urgent requests for a section 116 compliance certificate can also be made electronically by e-mail. No penalty will be assessed by the CRA provided the tax is remitted when requested. These temporary administrative relief measures apply for the period 16 March to 31 August 2020.
- ▶ **Clearance certificates** - Legal representatives who submitted a request for a clearance certificate (Form TX19) after 12 March 2020 are encouraged to resubmit the request and supporting documents electronically, either through Represent a Client or by e-mail.
- ▶ **Requests for Individual Tax Numbers (ITN)** - To ensure they are processed by the CRA, applications for ITNs must be done separately from any international waiver application (e.g., under Regulation 105) or request for a certificate of compliance under section 116 of the *Income Tax Act*. The application must be made using Form T1261, Application for a Canada Revenue Agency Individual Tax Number (ITN) for Non-Residents.
- ▶ **Non-resident individuals: Section 216 return for rental (or timber royalty) income** - Non-resident individuals who have elected under subsection 216(4) to have Part XIII tax withheld on their net rental or timber royalty income (rather than gross rental or royalty income) and pay tax on that income at graduated rates, and who would otherwise have a filing deadline of 30 June 2020 for the related T1 return (Section 216 return), may now file the Section 216 return by 1 September 2020. Penalties (including late-filing penalties) and interest will not be applied if the Section 216 return is filed and any related payments are made by 1 September 2020.
- ▶ **Non-resident individuals: Section 217 return for Canadian benefits** - Non-residents who are electing under section 217 to report certain Canadian benefits on a T1 return (Section 217 return) and pay tax on that Canadian-source income at graduated rates, and who would normally have a filing deadline of 30 June 2020, may now file the Section 217 return by 1 September 2020. Penalties (including late-filing penalties) and interest will not be applied if the Section 217 return is filed and any related payments are made by 1 September 2020.

- ▶ **Temporary extension of Old Age Security (OAS) payments for non-residents** - OAS payments to non-resident seniors have temporarily been extended in circumstances where the non-resident senior's 2019 OAS Return of Income (OASRI) has not yet been assessed. To continue to receive uninterrupted OAS benefits, non-resident seniors are encouraged to file their 2019 OASRI as soon as possible and no later than 1 October 2020.
- ▶ **Support for individuals with disabilities** - A one-time, tax-free, non-reportable payment of \$600 to assist individuals with disabilities who qualify for the disability tax credit, the Canada Pension Plan disability benefit or Quebec pension plan disability benefit, or disability supports provided by Veterans Affairs Canada has been proposed. If Bill C-20 is enacted, eligible individuals will receive the payment automatically. In addition, individuals who may be eligible for the disability tax credit but have not yet applied for a disability tax credit certificate with the CRA, will have 60 days to do so after Bill C-20 receives royal assent in order to qualify for the one-time payment. The one-time payment will also be adjusted to provide a top-up for certain eligible seniors receiving old age security pension (i.e., the top-up would be \$300 if the individual received the one-time senior's tax-free payment of \$300, or \$100 if the individual is eligible for the guaranteed income supplement or allowances and has received the one-time senior's tax-free payment of \$500).

VAT, GST and trade

- ▶ **GST/HST returns** - Although the filing deadline of the GST/HST returns remains unchanged, the CRA won't impose late-filing penalties provided the return is filed by 30 June 2020.
- ▶ **GST/HST remittances and import duties** - The payment of GST/HST remittances, as well as import duties, may be deferred until 30 June 2020. More specifically, this extension applies to GST/HST monthly filers' remittances of amounts collected for the February, March, and April 2020 reporting periods; GST/HST quarterly filers' remittances of amounts collected for the 1 January 2020 through 31 March 2020 reporting period; GST/HST annual filers' remittances of amounts collected and owing for their previous fiscal year, as well as instalments in respect of their current fiscal year, that are due in March, April or May 2020; and payments owing for customs duties and GST on imports for March, April, and May 2020 statements of account (all other payments due to the Canada Border Services Agency, such as on re-assessments, penalties, etc., are also deferred to 30 June 2020). Businesses that continue after 30 June 2020 to experience difficulty in remitting GST/HST and customs duty amounts owing can contact the CRA and the CBSA to make a request for the cancellation of penalties and interest, and/or for a flexible payment arrangement with the CRA.
- ▶ **Prioritization of audit actions** - On 28 May 2020, the CRA announced the resumption of a full range of audit work and the adaptation of its practices to reflect the health and economic impacts of COVID-19 (e.g., option to send the CRA information by e-mail, additional time and upfront consultation on requests to provide the CRA with information and access). For more details, see **Prioritization of audit actions** under the "Business Tax and Charities" column.
- ▶ **Trade: Waiver of late accounting penalties** - 53 business days grace period before imposing penalties for late accounting declarations for imported goods released on minimum documentation. (Applicable to transactions released from 11 March 2020 to 26 May 2020, inclusively).
- ▶ **Trade and GST/HST: Imports of U.S.-plated vehicles** - Temporary import of U.S. vehicles driven by Canadians without paying customs duties and taxes, provided the vehicles remain in Canada no longer than 60 days from the date of importation, and are only used for personal transportation to get its passengers from the border to a specific destination in Canada and return.
- ▶ **Tariffs waiver on certain medical goods** - Relief of customs duty is provided for personal protective equipment and other necessary medical equipment which were imported on or after 5 May 2020.
- ▶ **Clearance certificates** - Legal representatives who submitted a request for a clearance certificate (Form GST352) after 12 March 2020 are encouraged to resubmit the request and supporting documents electronically, either through Represent a Client or by e-mail.

Business tax

- ▶ **Corporations: Extended tax return filing deadline** - For corporations, any income tax return (T2) filing due date after 18 March 2020 and before 31 May 2020 is deferred until 1 June 2020. This extension also applies to any other forms tied to the T2 filing deadline, except Form T661, *Scientific Research and Experimental Development (SR&ED)*, Form T2 Schedule 31, *Investment Tax Credit - Corporations*, or related forms, receipts, documents, or prescribed information. A similar deferral to 1 September 2020 applies to corporations having a T2 filing due date on 31 May, or in June, July, or August 2020 (presumably, the exception for Form T661, Form T2 Schedule 31, etc., also applies to the deferral to 1 September 2020).
- ▶ **Corporations: Deferred payment of income tax** - For corporations, the payment of any income tax amounts that become owing on or after 18 March 2020 and before September 2020 may be deferred until 1 September 2020. This measure applies to income tax balances and instalments owing under Part I of the *Income Tax Act* (i.e., therefore, this deferral does not apply to remittances and tax payments owing under various other parts of the *Income Tax Act*, such as Part XIII withholding tax). The deferred payments will not be subject to interest or penalties during this period.
- ▶ **Corporations: Deferral of administrative income tax actions** - Deferral to 1 June 2020 of administrative income tax actions (other than income tax return filing and payments) due after 18 March 2020 and before 31 May 2020, including the filing of information returns (such as Form T1134, *Information Return Relating to Controlled and Not-Controlled Foreign Affiliates*), forms, elections, designations, and responses to information requests. This deferral does not apply to payroll deductions (including related activities) nor to Form T661, *Scientific Research and Experimental Development (SR&ED)*, Form T2 Schedule 31, *Investment Tax Credit - Corporations*, or related forms, receipts, documents, or prescribed information. A similar deferral to 1 September 2020 applies to administrative income tax actions due in June, July, or August 2020 (presumably the exception for Form T661, Form T2 Schedule 31, etc. also applies to the deferral to 1 September).
- ▶ **Electronic signatures** - Effective immediately, the CRA will recognize electronic signatures as having met the signature requirements of the *Income Tax Act*, on a temporary administrative basis only. This measure will apply to authorization Form T183CORP, *Information Return for Corporations Filing Electronically*.
- ▶ **Partnerships: Extended information return filing deadline** - For partnerships, any income tax information return filing due date after 18 March and before 31 March 2020 is deferred until 1 May 2020; until 1 June 2020 for those with a filing due date after 31 March and before 31 May; and until 1 September 2020 for those with a filing due date on 31 May, or in June, July, or August 2020.

VAT, GST and trade (continued)

- ▶ **Electronic signatures** - Effective 6 July 2020, businesses will temporarily be able to use a new electronic service to submit a GST/HST document with an electronic signature. The link to this new service will be found on the My Business Account main web page of the GST/HST program account menu. Where the signature on a form submitted through My Business Account is not that of the person submitting the form, the person submitting the form will have to ensure to obtain a valid signature.

Business tax (continued)

- ▶ **NR4 reporting: Extended information return filing deadline** - The deadline to file Form NR4, *Statement of Amounts Paid or Credited to Non-Residents of Canada*, is extended to 1 May 2020.
- ▶ **Charities: Extended filing deadline** - For all charities with a Form T3010, *Registered Charity Information Return*, due between 18 March 2020 and 31 December 2020, the filing deadline is extended to 31 December 2020.
- ▶ **Prioritization of audit actions** - On 28 May 2020, the CRA announced the resumption of a full range of audit work and the adaptation of its practices to reflect the health and economic impacts of COVID-19 (e.g., option to send the CRA information by e-mail, additional time and upfront consultation on requests to provide the CRA with information and access). The CRA will prioritize higher dollar audits first, audits close to completion, and those of strategic importance. Requirements for Information (RFIs) issued prior to 16 March 2020 and due after that date will be reviewed and taxpayers and third parties will be contacted if needed. Efforts to combat suspected fraud and other criminal activity are also advancing.
- ▶ **Temporary wage subsidy** - Eligible employers that pay remuneration to an employee on or after 18 March 2020 and before 20 June 2020, benefit from a reduction in remittances of federal, provincial, or territorial income tax by the amount of the subsidy. Eligible employers include CCPC's eligible for small business deduction (without regard for the grind-down for passive investment income), as well as individuals (other than trusts), eligible partnerships, non-profit organizations and registered charities. The subsidy is equal to 10% (or a lower percentage elected by the eligible employer) of remuneration paid during that period, up to a maximum subsidy of \$1,375 per employee and \$25,000 per employer. This measure is only applicable to remittances made to the CRA. [Note: In circumstances where an eligible employer also qualifies for the Canada Emergency Wage Subsidy (see below), any benefit received or receivable from the temporary wage subsidy will reduce the subsidy available under the Canada Emergency Wage Subsidy.]
- ▶ **Canada emergency wage subsidy (CEWS): Initial program (applicable to 4 July 2020)** - This measure is comprised of two parts: a 75% wage subsidy, and a 100% add-on refund of certain payroll contributions. Eligible employers are entitled to the 75% wage subsidy when they suffer a drop in revenues of at least 15% in March 2020 or 30% in April, May, or June 2020, from arm's length sources, when compared to either the same months in 2019, or the monthly average of the revenues earned in January and February 2020 [special rules are provided, for this revenue qualification test, for corporate groups, affiliated groups, joint ventures, and non-arm's length entities; cash method accounting may also be used]. Unlike for the 10% temporary wage subsidy, eligible employers generally include all types of employers aside from public sector employers. The subsidy generally applies at a rate of 75% on the first \$58,700 of eligible remuneration paid to an eligible employee (i.e., generally an individual employed in Canada) during one of the first four qualifying periods (with Period one commencing on 15 March 2020 and Period four ending on 4 July 2020), providing a maximum benefit of \$847 per week per employee. The eligible remuneration includes salary, wages, and other remuneration (such as commissions), (continued)

Business tax (continued)

(continued) but not severance pay or items such as stock option benefits. In addition, eligible employers are also entitled to a 100% refund of the employer-paid EI, CPP, QPP and QPIP contributions that are made for eligible employees for each week throughout which those employees are on leave with pay (for the full week, without performing any work) and for which the employer is eligible to claim the 75% wage subsidy. No CEWS is available for remuneration paid to an employee who has been without remuneration for 14 or more consecutive days in a particular qualifying period. As announced on 17 July 2020, this measure is extended until 19 December 2020, with significant changes to the design of the program. The application deadline is also extended from 30 September 2020 to 31 January 2021. See CEWS: Redesigned program (applicable as of 5 July 2020) (below).

CEWS: Redesigned program (applicable as of 5 July 2020) - As indicated above, the CEWS has in effect been extended to 19 December 2020. Details of the redesigned program have been announced for qualifying periods five to nine (with Period five commencing on 5 July 2020 and Period nine ending on 21 November 2020); the program can then be further extended by regulation to no later than 31 December 2020 (a standard four-week "Period 10" would thus end 19 December 2020). The main change to the redesigned program is that the bright line test requiring a 30% decline in revenue, which applied to Periods two to four, does not apply for Periods five to nine; instead, a sliding scale is used and all eligible employers experiencing any decline in revenue will qualify for some level of CEWS support (depending on the scale of revenue decline). Key elements of the redesigned program include: a new two-tiered subsidy structure in respect of active employees that is composed of a base subsidy of up to 60% on eligible remuneration of up to \$1,129 per employee per week (calculated on a sliding scale that gives more support to those employers with higher rates of revenue decline) and a top-up subsidy of up to 25% for employers that experienced an average drop in revenue of more than 50% in the preceding three calendar months; a separate subsidy rate structure for furloughed employees (for Periods five and six, the subsidy calculation would be the same as the subsidy calculation that applied for Periods one to four, and beginning in Period seven, the subsidy calculation will be modified to align with benefits provided under the CERB or Employment Insurance); and a safe harbor rule for Periods five and six will apply to ensure that an eligible employer with a revenue decline of 30% or more will receive no less CEWS support for Periods five and six under the redesigned CEWS program than they would have under the initial design that applied for Periods one to four. The requirement that an employee not be without remuneration for 14 or more consecutive days in a particular qualifying period to qualify as an eligible employee has also been removed.

- ▶ **Waiver of money purchase pension plan minimum contribution rule** - The 1% minimum contribution rule applicable to a money purchase provision of a registered pension plan will be waived for the remainder of 2020, if the plan is amended to suspend accruals under the plan for the year (i.e., meaning there will be no employer or employee contributions to the plan following the amendment).
- ▶ **Residency determinations** - Where the issue of dual residency of a corporation is resolved under one of Canada's income tax treaties that contains a residency tie-breaker rule that looks to the corporation's place of effective management (among other factors), the CRA has indicated that it will not consider the corporation to be resident in Canada solely on the basis that one or more directors of the corporation had to participate in a board meeting from Canada because of COVID-19 travel restrictions. In the case of dual residency with non-treaty countries, the CRA will determine residency on a case-by-case basis. These rules will also apply to other foreign entities that are considered corporations under Canadian income tax law (such as LLCs), as well as, where appropriate, commercial trusts. This temporary administrative position applies for the period 16 March to 31 August.
- ▶ **Carrying on business in Canada filing obligations** - If a non-resident entity is resident in a non-treaty country and it can be demonstrated that the entity meets the threshold of "carrying on business in Canada" solely because of COVID-19 travel restrictions, the CRA will consider whether administrative relief from the obligation to file a Canadian income tax return (and presumably pay tax in Canada) is appropriate on a case-by-case basis. For non-resident entities that are carrying on business in Canada and are resident in a treaty country, the treaty-based income tax return filing obligation (to claim the treaty exemption from Canadian income tax) will continue to apply.
- ▶ **Permanent establishment determinations** - On an administrative basis, a non-resident entity will not be considered to have a permanent establishment in Canada if its employees perform their employment duties in Canada solely as a result of the COVID-19 travel restrictions. In addition, the CRA will not consider an "agency" permanent establishment to exist solely due to a dependent agent concluding contracts in Canada on behalf of the non-resident entity while the travel restrictions are in force, provided that such activities are limited to that period and would not have been performed in Canada but for the travel restrictions. The CRA will also exclude from the 183-day presence test in the "services permanent establishment" provision of Canada's tax treaties (e.g., Article V(9)(a) of the Canada-U.S. treaty), any days of

Business tax (continued)

physical presence in Canada that are solely the result of the travel restrictions. These temporary administrative positions apply for the period 16 March to 31 August 2020.

- ▶ **Reduced withholding of source deductions by non-resident employers** - Where a Canadian resident employee of a non-resident entity is required to perform their employment duties in Canada on an exceptional and temporary basis as a result of the COVID-19 travel restrictions and that employee has previously been issued a letter of authority (for the reduction of Canadian source deductions) for the taxation year during which the travel restrictions were in place, the CRA has indicated that the letter of authority will continue to apply and the withholding obligations of the non-resident entity will not change in Canada. This relieving measure applies only if there are no changes to the withholding obligations of the non-resident entity in the other jurisdiction. This temporary administrative position applies for the period 16 March to 31 August 2020.
- ▶ **Electronic submission of Regulation 102 and 105 and RC473 waiver requests** - As a result of CRA service interruptions due to COVID-19 and the COVID-19 travel restrictions, urgent waiver requests may be submitted electronically by email on a temporary basis. However, as of 19 June 2020, requests may also be submitted through My Account, Represent a Client and My Business Account, and where possible, these portals should be used instead of email.
- ▶ **Regulations 102 and 105 penalty relief** - In circumstances where a Regulation 102 or 105 waiver request was submitted to the CRA, but (as a result of service interruptions due to COVID-19) was not processed by the CRA within 30 days, the payer will not be assessed for failure to deduct, withhold or remit any amount as required by Regulations 102 and 105, in respect of an amount paid to a non-resident person covered by the particular waiver request. However, to qualify for this relief, the person paying the amount must demonstrate that they have taken reasonable steps to ascertain that the non-resident person was entitled to a reduction or elimination of Canadian withholding tax under an income tax treaty with Canada. Also, the non-resident and the person paying the amount must otherwise fulfil their Canadian reporting and remitting obligations in respect of the waiver application. This temporary administrative position applies for the period 16 March to 31 August 2020. The CRA will review other situations where a waiver request could not be submitted due to the COVID-19 travel restrictions, or other consequences of the COVID-19 crisis, and no amounts were withheld under Regulations 102 or 105, on a case-by-case basis.
- ▶ **Temporary issuance of comfort letters for dispositions of taxable Canadian property** - See the corresponding entry under the "Personal Tax and Trusts" column.
- ▶ **Clearance certificates** - Legal representatives who submitted a request for a clearance certificate (Form TX19) after 12 March 2020 are encouraged to resubmit the request and supporting documents electronically, either through Represent a Client or by e-mail.
- ▶ **Flow-through share issuers: Canadian exploration expenses** - The period within which a mining corporation must incur eligible flow-through share expenses under the general and look-back rules for renouncing Canadian exploration expenses (CEE) will be extended by 12 months; this extension will apply to flow-through share agreements entered into on or after 1 March 2018 and before 2021 under the general rule and agreements entered into in 2019 or 2020 under the look-back rule. In addition, the Part XII.6 flow-through shares tax will be amended to apply as if expenditures were incurred up to one year earlier than actually incurred for agreements entered into in 2019 or 2020; if amounts are not expended by the end of 2021 for agreements entered into in 2019 or 2022 for agreements entered into in 2020, Part XII.6 tax will apply.

Additional federal tax measures and information:

- ▶ **Collections activities:** The CRA has announced that collections activities on new debts will be suspended until further notice, and flexible payment arrangements will be available. Banks, employers and other third parties do not need to comply or remit on existing Requirements to pay (RTP) during this time.
- ▶ **Objections and appeals:** For objections due on or after 18 March 2020, the deadline has been extended until 30 June 2020. Any objections related to Canadian taxpayers' entitlement to benefits, credits, GST/HST refund claims, and SR&ED claims have been identified by the CRA as a critical service which has continued to be delivered during this time. With respect to objections related to other tax matters filed by individuals and businesses, the CRA held these accounts in abeyance prior to 3 July 2020 - CRA's dispute resolution and taxpayer relief programs have since resumed operations. The CRA will advise taxpayers if there are COVID-19-related delays in finalizing resolution of a dispute or request for relief.
- ▶ **Appeals before the Tax Court of Canada:** The Tax Court of Canada ordered the extension of all timelines prescribed by the rules of that Court while it was closed for business until 3 July 2020. The Tax Court of Canada resumed operations and reopened for the transaction of business on 6 July 2020.
- ▶ **Federal Courts and Supreme Court of Canada activities:** A timeline extension is provided by the Federal Court while its activities are suspended until 15 June 2020. Although some are suspended, certain filing deadlines (e.g., re commencing an appeal from a Tax Court of Canada decision) continue to apply at the Federal Court of Appeal, unless a request for an extension of time is made. Deadlines that are imposed by the Rules of the Supreme Court of Canada, are suspended until further notice; however, deadlines that are imposed by statute (e.g., re. commencing an appeal from a Federal Court of Appeal decision) remain in force. Appeals are scheduled to begin being heard in June 2020 by the Supreme Court of Canada.

▶ **Individuals: Climate action tax credit increase** - In July 2020, a one-time special payment will be made by British Columbia to individuals through an increase in the maximum amounts under its BC Climate Action Tax Credit. In addition, the income threshold amount (at which the credit is reduced to zero) is increased for the one-time special payment. Individuals who are currently receiving BC climate action tax credit payments for the 2019-20 benefit year and who have not been able to file their 2019 income tax return by 30 April (and are taking advantage of the extended personal tax return filing deadline to 1 June) will receive the one-time special payment of the BC climate action tax credit for July 2020, with the payment amount being based on their 2018 tax return information. If 2019 tax returns are not received and assessed by early September 2020, the individual will have to repay the estimated amount that was issued for July 2020.

- ▶ **Extended logging tax filing deadline** - For logging tax returns due between 18 March and 31 August 2020, the filing deadline is extended to 1 September 2020. Penalties and interest won't be charged if the deferred payment requirements are met by the extended filing deadline.

In addition, also effective 4 May 2020, the Insurance Corporation of British Columbia (ICBC) (instead of the Ministry of Finance) may provide a refund of prepaid "MJV tax" if a MJV ceases to be prorated licensed within the vehicle licence period and between 11 March 2020 and 30 September 2020. Refunds due to unlicensed or overlapping periods may now be provided before the end of the original vehicle licence period (instead of after such period).

<p>Quebec (continued)</p>	<ul style="list-style-type: none"> ▶ Childcare expenses tax credit and disability supports deduction - Amendments to the requirement to physically “attend a qualified educational institution” for purposes of being eligible to claim either the refundable childcare expense tax credit or the disability supports deduction, so that courses offered by a post-secondary qualified educational institution and taken at a distance or virtually may qualify. The changes apply to expenses incurred after 31 December 2019. 	<ul style="list-style-type: none"> ▶ Small business deduction: Calculation of remunerated hours - Amendments to provide for an adjustment to the calculation of a corporation's remunerated hours for purposes of meeting Quebec’s minimum 5,000/5,500 hours threshold for the small business deduction, so that the impact of any temporary suspension of the corporation’s activities between 15 March and 29 June 2020 (the “closing period”) is limited. Specifically, where all or part of the closing period is included in a corporation's given taxation year, the number of remunerated hours determined in respect of the corporation's employees, for the given year, will be grossed-up and deemed to be determined as if the given year was a shorter year that didn't include the closing period and the number of remunerated hours were in respect of that shorter year. This adjustment will also apply to the calculation of the remunerated hours of a partnership. ▶ Discretionary powers re certain tax incentive measures - Temporary discretionary powers granted to departments and public agencies other than Revenu Québec in the administration of non-tax parameters that are necessary to obtain related tax incentives, so that the department or agency can exceptionally authorize eligibility if the recipient taxpayer demonstrates that their inability to meet the non-tax parameters is directly attributable to measures put in place to mitigate the effects of the COVID-19 pandemic. Similar temporary discretionary powers will also be granted to Revenu Québec where the eligibility for a fiscal measure depends on the qualification of eligible salary or wages, as well as in the context of the application of the refundable tax credit for the production of performances, or where a corporation has failed to apply to the Société de développement des entreprises culturelles in order to claim a tax credit for the cultural sector. These amendments generally apply to taxation years ending after 14 March 2020.

Overview

- ▶ On 17 March 2020, the Croatian Government adopted a first package of measures to help the Croatian economy fight the COVID-19 uncertainties. The March package of measures consists of 63 measures. The total value of the economic package exceeds HRK 30bn (approx. EUR 4 billion).
- ▶ On 2 April 2020, the Croatian Government adopted the second package of measures to help the Croatian economy fight the COVID-19 circumstances. The total combined value of COVID-19 April economic package exceeds HRK 18bn (approx. EUR 2.4bn).
- ▶ Combined, the economic packages comprise of more than 60 measures, which are enacted through more than 20 legislative acts and corresponding bylaws.

- ▶ The Croatian Government has released a set of measures aimed at assisting employers to preserve jobs and maintain their workforce. The primary employment economic measure is financial aid to the COVID-19 affected employers in the amount of HRK 4,000 (approx. EUR 550) per employee per month, for the months of April and May. The amount of financial aid for the month of March was HRK 3,250 (approx. EUR 450). Employers are exempted from the obligation to pay social contributions on the amount of salary received as financial aid for the purpose of preserving jobs.
- ▶ The Croatian Government continues to assist the overall economy by encouraging special COVID-19 credit lines, reprogramming of liabilities options and standstills on the existing loan obligations.

 - ▶ The import of goods needed to counter the effects of the COVID-19 pandemic is exempt from VAT based on Commission Decision (EU) 2020/491 of the European Commission. The deadlines and the conditions for the exemption are prescribed by the Minister of Finance Bylaws. The exemption applies exclusively to bodies governed by public law and goods that are exempt from custom duties in accordance with customs regulations and European Commission's decision.

Overview

- ▶ The Ministry of Finances and Prices has issued two main set of rules associated with COVID-19 for companies and others in the economy. These rules deal with tax and other financial matters applicable during the more acute period of the COVID-19 pandemic in Cuba, as well as the so-called recovery period, which the Cuban government is describing as a three-phased process.
- ▶ Beginning from 18 June 2020, all Cuban provinces, except Havana and Matanzas, are currently under Phase One of the recovery period. Tax and financial matters for the recovery period were announced on 15 June 2020 by the Minister of Finances and Prices.
- ▶ It should be noted that there are no differences between measures issued for the more acute period of the COVID-19 pandemic and those issued for the recovery period, insofar as joint venture companies and foreign companies registered with the Chamber of Commerce are concerned.

Personal tax

- ▶ Cuba has authorized the deferral of tax obligations that apply equally to all tax payments and the submission of the annual tax return. These measures apply both during the more acute period of the COVID-19 and during Phase One of the recovery period.
- ▶ Personal income tax obligations will be resumed as from the date of entry into force of Phase Two, which includes complying with partial payments and submitting the annual tax return for 2019.
- ▶ A tax rebate consisting of a 5% reduction of the total amount payable will be granted to taxpayers complying with payment obligations within 60 days as from the entry into force of Phase Two.

Business tax

Joint Venture companies

- Companies must comply with corporate income tax obligations during the COVID-19 emergency. However, the following tax and fiscal measures are available for those activities affected by COVID-19:
- ▶ The general principle is that losses associated with COVID-19 must be covered with contingency reserves up to their limit.
 - ▶ Companies with losses exceeding contingency reserves may request from the Ministry of Finances and Prices their evaluation for the application of any of the measures available.
 - ▶ In case of joint venture companies, measures available include the deferral of both tax payments and the submission and payment of the annual tax return.
 - ▶ In the event the tax payment deferral is authorized, no default interest will be charged.

This restriction also applies to existing license applications which have not yet been granted.
- ▶ The lending rate for commercial banks has been reduced to 1%. Additionally, the extra interest rate of 200 basis points for loans exceeding ANG 20 million is suspended.
- ▶ Banks are allowed to maintain a negative balance with the CBCS.
- ▶ The interest on so called "certificates of deposit" will be reduced to retain money in the market.
- ▶ Micro, small and medium-sized businesses in sectors that have been seriously affected are entitled to a credit facility of up to ANG 100,000 to cover their fixed costs. The interest rate will be 2% for the first six months and subsequently it will increase to 6%.
- ▶ Financial compensation will be provided to people and organizations involved in caretaking of for example the elderly, the disabled and families with children.
- ▶ Everyone who lost employment from 15 March 2020, will receive a financial compensation of maximum ANG 1,000 per month.
- ▶ Social welfare recipients can generate earnings up to ANG 600 per month through temporary jobs. As these jobs became unavailable, social welfare recipients could be entitled to monthly financial support of ANG 450 if they can provide evidence that they are missing the ANG 600 income.
- ▶ Financial support of ANG 1,335 per month will be provided to small businesses and self-employed entrepreneurs (with no employees). Priority will be given to those sectors that have been seriously affected, such as public transportation, the hospitality sector, the retail business, advertising and entertainment.
- ▶ Employers that experienced a drop in the turnover of at least 25% will receive a monthly financial support to cover the employees' salaries to keep as many employees as possible employed. The financial support amounts to 80% of the total wage expenses multiplied by the percentage of decrease in turnover. Additional requirements apply, for example that all permanent employees must continue to be employed and there will be a maximum salary threshold of ANG 5,781.

Personal tax

- ▶ **Payment arrangements for outstanding tax liabilities** :Ongoing payment arrangements and granted extensions of payment may be suspended upon request. Companies and (self-employed) individuals can file a request for temporary suspension of payment with the Tax Collector.
- ▶ **Project 'Compliance' will be temporarily suspended:** Under 'Project Compliance', the Curaçao Government worked on creating more awareness with taxpayers regarding their fiscal responsibilities as well as a more effective and active collection of outstanding tax liabilities. As a lot of companies and self-employed individuals will be facing financial difficulties in Curaçao, the active pursuit of outstanding tax liabilities in connection with 'Project Compliance' will be suspended.
- ▶ **Reduced interest rate of 0% for late payment** : When companies and (self-employed) individuals fail to pay their tax liability timely, interest for late payment is imposed. However, the interest rate for late payment of outstanding tax liabilities will be temporarily reduced from 6% to 0%.

By increasing the net wages of individuals, the Government aims to stimulate extra spending by the public.

VAT, GST and trade

- ▶ Items listed under the first six bullets in the personal income tax section also apply to this section in addition to the following measures:
- ▶ **Hospitality and designated businesses do not have to remit the sales tax collected:** In order to provide additional financial relief to the hospitality and designated businesses, these businesses are relieved from remitting the sales tax collected to the Curaçao tax authorities. Instead these funds can be used by the businesses to cover other expenses.
- ▶ **0% Import duties and sales tax on hygiene and sanitary/cleaning products:** In addition to the introduced measures concerning maximum margins that businesses can apply on the sale of certain goods, the rate of import duties and sales tax on hygiene and sanitary/cleaning products will be reduced to 0%. - ▶ After the emergency period, the tax authority can reduce the interest rate upon deferral of payment of the tax arrears by up to 100% as of the date of adoption of the deferral decision 31 December 2021. Thus, the effective interest rate can be reduced to 0% until 31 December 2021 via a decision of the tax authority.
- ▶ The employer is released from the obligation to pay minimum any social tax liability lower than 540 euros a month on wages paid in March, April and May 2020. The state made the advance payments of social tax payable by sole proprietors in the first quarter of 2020. In cases where private entrepreneur have already paid the tax, such funds may be used to cover other taxes.
- ▶ In the period between 12 March 2020 and 1 July 2020, corporate donations and gifts made to hospitals, welfare institutions and state and local government authorities are exempt from corporate income tax.

Overview

- ▶ The French Government has implemented, among others, tax measures (tax deferral, filing postponement, cash incentive, adjustment of deadlines, etc.) to help businesses and, to a lesser extent, individuals (filing postponement and exceptional tax-exempt premium), to help reduce tax formalities and provide support from treasury and employment perspectives.
- ▶ The following measures are temporary and could be renewed. Mostly subject to no justification to facilitate procedures, these measures are dedicated to companies encountering extreme difficulties in different activity sectors. Other measures could be implemented in the future.
- ▶ The French government has announced that a new lockdown was to commence on 30 October 2020. The requirements are however more flexible than for the first lockdown.

Personal tax

- ▶ For the self-employed, adjustment of the rate and the down payments at source of income tax, or deferral of payment of the personal income tax down payments from one month to another up to three times if monthly instalments, or from one quarter to the next if quarterly instalments. Adjustments to be made via the website impots.gouv.fr, under the heading "Manage my direct debit" (before the 22nd of a given month, in order to be taken into account for the following month).
- ▶ For employees, no deferrals or discounts contemplated for the employee's payments at source of personal income tax.
- ▶ Employers are encouraged to pay to their employees an exceptional tax-exempt purchasing power premium (*prime de pouvoir d'achat*) exempt from tax and social contributions under certain conditions. The second amending finance bill for 2020 provides for an exceptional tax-exempt premium to health-care personnel of EUR 500, up to €1,500 for the most exposed professionals. The third amending finance law for 2020 extends this exemption to premiums paid in 2020 by private health establishments or in the social and medico-social sector to their agents and employees mobilized in the same way.
- ▶ The fact that an individual finds himself blocked in France due to the exceptional measures should not have any adverse consequence on the assessment of tax residence in France. A temporary stay under travel ban decided by the country of residence is not likely to characterize a tax residence in France under the article 4 B of the French tax code. In addition, several agreements have been concluded with bordering countries in order to ensure that the specific tax treatment of cross-border workers will not be affected by home-working measures.

VAT, GST and trade

- ▶ No VAT payment deferral, the postponement only concerns direct taxes and not VAT and similar taxes (VAT or excise duties are indirect taxes collected by businesses on behalf of the state, no payment deferrals are expected at the present time).
- ▶ However, Government states an objective of rapid refund of VAT credit to companies (i.e., within one month in 80% of cases). Ministerial order dated 18 March 2020 temporarily increases the thresholds for the automatic delegation of signature for the reimbursements of tax credits requests.
- ▶ Companies encountering difficulties in gathering all the documents useful for establishing their CA3 return, can make a simple estimate of the amount of VAT due (margin of error tolerated of 20%).
- ▶ Possibility of paying a lump sum of VAT calculated on the basis of the VAT amounts declared for previous months for companies having experienced a decrease in their turnover (the proper application of such tolerance may be subject to tax audit by the FTA afterwards).
- ▶ Tolerance on the part of the French Tax Authorities, allowing invoices issued in paper form then scanned and sent by email (without following the entire electronic invoicing process specific to electronic invoicing) by any supplier to its client without the need to send the corresponding paper invoice by post.
- ▶ VAT rate applicable to several products adapted to the fight against the spread of COVID-19 temporarily reduced from 20% to 5.5%. This measure includes masks and protective clothing as well as products intended for personal hygiene, including hydro-alcoholic gels (the precise characteristics are described by decrees). This temporary measure should apply until 31 December 2020.
- ▶ Donations of sanitary materials (masks, gels, protective clothing and respirators) carried out by companies for the benefit of health establishments will be exempt from VAT regularization.

Business tax

- ▶ Postponement upon request and without penalty of the payment direct taxes instalments (for CIT down payment, corporate property tax or property tax (*taxe foncière*) and business contribution on the added value (“CVAE”)) or tax audit liabilities, or if already paid, request for a reimbursement (specific form available on the tax authorities’ website). At this stage, this only applies to those direct taxes due in March, April, May: down payment from corporation tax, payroll tax, and for companies that pay these taxes monthly from the companies’ property tax and the CVAE. Payment of the property tax due on 15 October 2020 can be suspended upon request for a period of three months.
- ▶ If the company is facing major financial difficulties due to COVID-19, a settlement plan can be requested from the public accountant in order to spread or defer the payment of tax debt. If the difficulties cannot be resolved by such a plan, the company may request a rebate of direct taxes subject to a personalized examination of the difficulties actually encountered. This request can be made by filling in a dedicated form on the tax authorities website. The French Minister of the Economy announced a system of settlement plans allowing small companies (VSEs and SMEs), without condition of sector of activity or loss of turnover, to spread payment of their taxes due during the period of health crisis for 12, 24 or 36 months.
 - ▶ For large companies and large groups with more than 5,000 employees or €1.5 billion in sales, deferrals of payment deadlines will only be granted in the absence of dividend payments or share buybacks until the end of 2020. In addition, companies that are able to do so are invited to fulfil their reporting and payment obligations within the initial timeframe.
- ▶ Acceleration of reimbursements of tax credit (tax credit for competitiveness and employment (*CICE*), R&D tax credit (*CIR*), Innovation tax credit (*CII*), etc.) receivables due to companies upon request. The companies must file a tax credit refund request (#2573 form), the tax credit supporting form (#2069-RCI form), if the CIT return is not ready yet, the statement of CIT balance (#2572 form) indicating the CIT due. The FTA have a target of reimbursing tax credits in three months for 75% of companies. Ministerial order dated 18 March 2020 temporarily increases the thresholds for the automatic delegation of signature for the reimbursements of tax credits requests.
- ▶ Solidarity fund created by the State and regions for entrepreneurs, merchants, artisans and financial support of €1,500 for the smallest businesses, the self-employed and microenterprises in the sectors most affected. Municipalities and large companies will be able to contribute to the financing of the fund. For the most difficult situations, additional support of € 2,000 may be granted on electronic request to the Conseil Regional to avoid bankruptcy on a case-by-case basis. The amount granted will depend on the loss of turnover incurred. This fund is aimed at companies with a workforce less than or equal to 10 employees, turnover of less than €1,000,000 and a taxable profit of less than €60,000. In addition, Bruno Lemaire, Minister of the Economy and Finance, announced on 29 October 2020 that all companies with less than 50 employees that are administratively closed or those from certain sectors that do not close but suffer a loss of turnover of at least 50% may receive compensation of up to 10,000 euros. For all other companies with less than 50 employees that can remain open but suffer a loss of more than 50% of their turnover, an aid from the solidarity fund of up to 1,500 euros per month will be reinstated.
- ▶ Smallest companies that encounter financial difficulties can send a request for a postponement to their water, gas or electricity supplier who may not suspend, interrupt or reduce, including by terminating a contract, the supply of electricity, gas or water. The application of penalties, the lease termination or the activation of guarantees due to the default of payment of rents is prohibited. The finance bill for 2021 provides for a tax credit to incite lessors to cancel part of their rents.
- ▶ The government decided to resize the partial unemployment scheme (also called partial or technical unemployment or *chomage partiel*). This scheme is a tool generally used to prevent redundancies which enables employers encountering economical difficulties to have all or part of the cost of their employees paid by the State. According to the new partial unemployment scheme, the allowance paid by the State to the company is now proportional to the income of employees placed in partial activity, up to a threshold of 4.5 times the minimum wage. The employer pays the employee an indemnity equivalent to 70% of his gross hourly earnings, which corresponds on average to around 84% of the employee’s net salary. As from 1 June 2020, the conditions for taking over of the unemployment scheme will be amended to follow the resumption of activity. The compensation paid to the employee is unchanged but companies will be reimbursed 60% of gross salary by the State, instead of 70% previously. Companies utilizing the partial unemployment mechanism are required to make no dividend distributions in 2020.

Business tax (continued)

- ▶ State guarantee up to €300b of bank loans ("PGE") that businesses may need resulting from the pandemic and support from the Banque de France into negotiating rescheduling of existing bank credits. This loan may represent up to 3 months of 2019 turnover, or two years of payroll for innovative or businesses created as from 1 January 2019. No reimbursement will be required in the first year. The loan will benefit from a state guarantee up to 70 to 90%, depending on the size of the business. Bruno Lemaire, Minister of the Economy and Finance announced on 29 October 2020 that companies can now take out a loan until 30 June 2021, extended from 31 December 2020. Amortization of the state-guaranteed loan may be spread over 1 to 5 additional years, with rates for SMEs negotiated with French banks ranging from 1 to 2.5%, including the state guarantee. All companies wishing to do so will be able to request a further one-year deferral of repayment, i.e., a total of two years of deferral. The State will be able to grant repayable advances capped at three months of turnover for companies with more than 50 employees.
- ▶ Companies are allowed to request the early repayment of tax receivables resulting from an option for the carry-back of their tax losses made at the latest for the FY ended on 31 December 2020 (option exercised before beginning of May 2021, i.e., the deadline for filing the CIT return for the FY ended on 31 December 2020).
- ▶ Companies in the hotel and catering sector can benefit from a 3-month deferral of public service broadcasting contribution. This tax deferral is not automatic, companies that encounter difficulties must request it from their business tax service ("SIE"), and by mentioning it in their VAT declaration filed in April and specifying the amount of the broadcasting contribution which should have been declared and paid in April. They can thus declare and pay the amount of their broadcasting contribution during the VAT declaration filed in July.
- ▶ Companies subject to CIT which carry out the activity of publisher of on-demand television, radio or audiovisual media services may benefit from a tax credit equal to 15% of the amount of creation expenses if they justify a decrease in turnover of at least 10%. The expenses incurred are those contributing to the development of the production of cinematographic and audiovisual works declared to the Superior Audiovisual Council (CSA or *Conseil Supérieur de l'Audiovisuel*) listed in several categories. The tax credit is equal to 15% of the total amount of expenses incurred from 1st March 2020 to 31 December 2020 in France, in another EU Member State or in another State party to the EEA. The total amount of tax credit granted cannot exceed the amount of the decrease in turnover observed. This tax credit's scope has been widened to production of live shows expenses to theater and variety shows expenses (which had been excluded from 1st January 2019), which notably includes shows of humor. This tax credit amounts to 15% (30% for SMEs) of the expenses of creation, exploitation, and digitization not only of a live musical spectacle but also of a theater or variety shows.
- ▶ The *CFE (cotisation foncière des entreprises)* payment has been delayed to 15 December 2020. In addition, SMEs belonging to specific economical sectors affected by the pandemic (i.e., the tourism, hotel, catering, sport, culture, air transport and events sectors) will benefit, upon deliberation by the municipalities, from a partial relief from the *CFE 2020*.
- ▶ Suspension of statute of limitation applicable to tax audit procedures when standard statute of limitation would have expired on 31 December 2020 (suspension for the period between 12 March 2020 and one month after the ending date of the state of health emergency regardless of the date of initiation of control). In addition, the official instruction has been given not to initiate any new tax audit during the sanitary crisis and to continue pending tax audits "with discernment" (no new procedural notice, freezing of consequences of failure to meet deadlines), this instruction should progressively come to an end in the coming days/weeks, ongoing tax audit should resume.
- ▶ France implemented the 6-month postponement of DAC 6 reporting measures. This reporting obligation originally took effect from 1st July 2020 with a retrospective period (the arrangement having a first stage of implementation taking place between 25 June 2018 and 30 June 2020 had to be declared by 31 August 2020 at the latest). Implementing the European Council authorization, the French government introduced the following provisions: (i) for arrangements that occurred during the retrospective period: the declaration deadline is extended from 31 August 2020 to 28 February 2021, and (ii) for arrangements to be implemented as from 1st July 2020: the declaration deadline is postponed to 1 January 2021.
- ▶ Small and medium-sized companies can benefit under conditions from a plan to spread taxes due during the health crisis that can up to three years.
- ▶ Companies may request postponement of provisional account for the month of July and August for payroll tax. In this case, the payroll tax due in respect of the July and August 2020 deadlines (payroll paid in June and July) will be paid respectively on the provisional payment statements (No. 2501) for the months of September and October 2020 (to be paid in October and in November 2020).

Other measures

- ▶ French tax authorities have admitted the dematerialized registration of deeds until 10 July 2020. The companies can send said deed to the registration department by email, paying the fees by bank transfer.
- ▶ The employee and employer social contribution payments (URSSAF) due on 5 or 15 October 2020 may be postponed upon request or with specific conditions without prior request in some situations. The exemption system has been extended and enforced, it concerns all companies employing less than 50 people and administratively closed, some SMEs and all independent workers.
- ▶ Recognition of the Coronavirus as a case of force majeure for public contracts.
- ▶ Government objective of quick payment of suppliers of public administrations (i.e., on average 20 days).

Overview

- ▶ Reduced hours compensation is available if 10% of the employees are affected (regular threshold of 1/3), negative hours balances will not accrue, social security contribution on the reduced hour compensation will be refunded and agency workers can be included. On 22 April 2020, the government announced an increase in compensation benefits to up to 87% (depending on duration and family status) for those whose working time had been decreased by more than 50%.
- ▶ Small businesses with up to 10 employees receive a direct subsidy for certain expenses (e.g., rent payments) in form of a one-time payment if economic hardship is caused by COVID-19. The payment will amount up to EUR 9,000 for businesses with up to 5 employees and up to EUR 15,000 for businesses with up to 10 employees. However, the subsidy will be considered taxable income.
- ▶ Conditions for the KfW-Unternehmerkredit (business loan companies) and the ERP-Gründerkredit-Universell (stfor existing art-up loan for companies that are less than five years old) are loosened by raising the level of risk assumptions (indemnity) for operating loans and extending these instruments to large enterprises. The previously applicable turnover thresholds are eliminated and the programs are now available to enterprises irrespective of their turnover. Higher risk assumptions of up to 80% (90% for small and medium businesses) for operating loans of up to EUR 1 billion will increase banks' willingness to extend credit.
- ▶ The KfW can now participate in syndicated financings and assume up to 80% of the risk (however limited to 50% of the overall financing risk).
- ▶ The KfW-Schnellkredit 2020 disburses up to EUR 800,000 for individual businesses (depending on monthly turnover and number of employees) quick and unbureaucratically, as the KfW waives credit risk assessments and dispenses the underwriting commercial bank from 100% of the liability.
- ▶ For guarantee banks (Bürgschaftsbanken), the guarantee limit is doubled, to EUR 2.5 million. The Federation increased its risk share in guarantee banks by 10% to make it easier to shoulder risks, which are difficult to assess in times of crisis. The upper limit of 35% of operating resources in guarantee banks' total exposure was increased to 50%. To accelerate liquidity provision, the Federation is giving guarantee banks the freedom to make guarantee decisions up to EUR 250,000 independently and within a period of three days.

The large guarantee program (parallel guarantees from the Federation and the Länder) was opened up to companies in other regions, as well.
- ▶ For companies that have temporary serious financial difficulties because of the crisis and therefore do not have easy access to existing support programs, additional special KfW programs were launched.
- ▶ The former bank rescue fund "Soffin" was converted into an "economic stabilization fund" for large businesses which are critical for the system. The fund can provide equity financing, participate in re-financing (e.g., absorb certain liabilities) and has a volume of EUR 600 billion.
- ▶ Insolvencies due to the COVID-19 impact have not to be declared until 30 September 2020. Further, the law implements a moratorium for certain obligations which were taken on prior to 8 March and if their fulfillment would constitute a danger for health of economic survival. Moreover, lease agreements cannot be terminated due to outstanding lease payments for the period 1 April to 30 June if the lessee's inability to pay the lease payments is due to COVID-19 impact.
- ▶ For certain types of reorganizations (e.g., mergers and de-mergers), a balance sheet not older than 8 months has to be filed with the responsible court. This deadline is extended to 12 months, which effectively also means that such transactions can now be executed with 12 months retroactivity for tax purposes as the balance sheet date is generally decisive in this regard.
- ▶ On 4 May 2020, the MoF and the MoE issued a press statement, regarding further support for startups, to the amount of EUR 2 billion. The measures are intended for start-ups, young technology companies and SMEs who often do not fulfill the requirements for other stimulus measures due to their age. The program consists of two pillars. Pillar I "Corona matching facility" which intends to support startups currently financed through venture capital funds, and pillar II which is aimed at startups and SMEs without access to pillar I.
- ▶ An additional large economic stimulus package is currently discussed and expected for June. Discussed measures range from accelerated amortization, improved possibilities to utilize tax losses, increased child subsidy, a general lump-sum subsidy for "everyone", industry specific measures such as a direct grant for the acquisition of electric or plug-in hybrid cars and other potential measures.
- ▶ Subsidies for COVID-19-related R&D, investments in testing infrastructures and production facilities in Germany are expected (volume approx. EUR 5 billion):
 - ▶ Up to 80% of eligible costs in case of new investments (95% if project is completed within 2 months or project with more than one Member State)
 - ▶ Up to 100% of eligible costs for R&D activities
 - ▶ Up to 75% of eligible costs in case of upscaling of existing facilities (90% if project is completed within 2 months)
- ▶ No final decision as to whether this will be in form of direct grants, tax benefits, repayable advances or loss cover guarantees yet

Business tax

- ▶ After a political announcement and after individual federal states had already published decrees and information on deferral and enforcement relief in connection with the coronavirus, on 20 March 2020, the Ministry of Finance also specified the tax relief measures in two official letters (decree of the Federal Ministry of Finance and identical decrees of the federal states on trade tax aspects). Additional decrees with minor adjustments followed throughout the past weeks. The basic intention is to avoid liquidity bottlenecks for taxpayers due to tax payments. Overall, businesses shall be able to defer billions of Euros in tax payments.
 - ▶ The measures are as follows:
 - ▶ **Deferral of tax payments:** Taxpayers which can demonstrate that they are directly and not insignificantly affected may, until 31 December 2020, submit applications for the deferral of taxes which are already due or are becoming due until that date. Requests for deferral of taxes which become due after 31 December 2020 must be specifically justified. Interest on deferred taxes shall generally be waived. Monthly and quarterly declarations for wages taxes (including tax payments) can be deferred for up to two months if the COVID-19 virus impedes bookkeepers to submit timely declarations.
 - ▶ **Reduction of tax prepayments:** Taxpayers may, until 31 December 2020, submit applications for the adjustment of tax prepayments. Requests for adjustment of tax prepayments which only concern periods after 31 December 2020 must be specifically justified. As soon as it becomes clear that a taxpayer's income in the current year is expected to be lower than in the previous year, tax prepayments shall be reduced in a swift and straightforward manner.
 - ▶ **Loss carryback:** In a decree dated 24 April 2020, the MoF permits an accelerated flat rate loss-carry back of 15% the relevant 2019 income, limited to EUR 1 million for single individuals or corporations, EUR 2 million for joint-filing individuals. The loss carryback is granted upon application.
 - ▶ **Waiver of enforcement measures and penalties:** If the tax office becomes aware of the fact that a taxpayer is directly and not insignificantly affected, either through notification of the debtor or in some other way, the tax office should abstain from enforcement measures until 31 December 2020. In that case late-payment penalties which would otherwise be levied from 20 March 2020 until 31 December 2020 shall be waived.
 - ▶ On 6 April 2020, the MoF issued a non-binding FAQ document aiming at application questions.
 - ▶ Among other things, this catalogue clarifies that the possibility of waiving enforcement also exists for wage tax and that tax deferrals should only be granted for taxes that have been determined
 - ▶ **Who can benefit?** According to the decree only those taxpayers shall benefit from the tax relief measures who can demonstrate that they are directly and not insignificantly affected by the economic consequences of the coronavirus. Only indirectly and/or insignificantly affected taxpayers shall at least based on the wording of the decrees not benefit. Whereas it is unclear when a taxpayer is considered to be directly and not insignificantly affected, the tax offices are generally asked to not apply too strict requirements when checking the conditions. It is in particular not required that the taxpayer can document and prove the specific damages and the corresponding amounts.
 - ▶ **Which taxes are covered?** The two decrees in particular cover VAT, personal income tax, corporate income tax and trade tax (the later is covered by the identical state decrees).
 - ▶ Not covered are for example wage tax and other withholding taxes (e.g. dividend and royalty withholding tax) payable by a third party. However, the overall context of the decrees should be understood in a sense that the same liquidity sequence is achieved through the above-mentioned deferral of enforcement measures without penalties. The Bavarian tax authority also points out on its homepage wage and other withholding taxes cannot be deferred, but that there is the possibility of submitting an application for a waiver of enforcement measures with the competent tax office. Thus, upon filing of the application, all tax payments covered by the measures could be stopped.
- Regarding the wage tax, we expect further guidance to be issued by the tax authorities in the near future.
- ▶ On 28 May 2020, the German parliament adopted the "Corona Tax Assistance Act" which foresees a decrease of the VAT rate for restaurant and catering services from 19% to 7% (time limited to July 2020 to June 2021), an extension of the transitional regime of sec. 2b VAT act, an extension of retroactive periods in the Transformation Tax Act and partial exemption of employer subsidies for short time work in accordance with social security law. Furthermore a legal basis for the tax exemption for Corona special payments of up to EUR 1,500 in the period 1 March to 31 December 2020 - already introduced with the BMF letter of 9 April 2020 - was created in the Income Tax Act
 - ▶ In order to grant a timely adoption of the possible postponement of the Mandatory Disclosure Regime (MDR) reporting deadline as proposed by the EU Commission the BMF has been authorized to transpose the respective extension into national law by decree once approved by the ECOFIN.

Business tax (continued)

- ▶ On 3 June 2020, the Coalition Committee announced the key points for the expected economic stimulus package. The EUR 130bn package comprises a total of 57 mostly temporary measures for short-term stimulation of private demand, but also includes long-term structural investments, in particular in digital infrastructure and climate technologies, as well as strengthening the health care system and improving future pandemic protection. In the resolution, the grand coalition also makes a commitment to the EU economic and financial crisis.
 - ▶ On 30 June 2020 the Government passed the "Second Corona Tax Assistance Act" implementing the majority of the tax measures outlined in the stimulus package:
 - ▶ **Reduction of the VAT rate**
For a limited period from 1 July to 31 December 2020, the regular VAT rate will be reduced from 19% to 16% and the reduced VAT rate from 7% to 5%.
 - ▶ **Tax loss carryback/corona reserve**
For the years 2020 and 2021, the tax loss carryback will be extended from the current EUR 1 million to a maximum of EUR 5 million and EUR 10 million (in the case of joint assessment). There is a mechanism to use the relief effect already in the 2019 tax return. In the first step of the mechanism (partial) reimbursement of the pre-payments for 2019 (flat 30% of the 2019 taxable income with respective limit on the loss-carryback). In the second step, preliminary loss carryback for 2020 of 30% of the total income of 2019. Moreover, it is possible to receive a temporary loss carryback exceeding the 30% limit upon request.
 - ▶ **Degressive depreciation**
The possibility of degressive depreciation for wear and tear (AfA) is made possible for the fiscal years 2020 and 2021. A maximum of 25 percent per year can be written off for movable fixed assets, capped at 2.5 times the current depreciation rate.
 - ▶ Increased allowance for Trade Tax additions (business expenses that are treated as non-deductible for Trade Tax purposes)
 - ▶ increase of the reduction factor for income from business operations of partnerships from 3.8 to 4 times the Trade Tax base
 - ▶ **R&D Tax Credit**
Doubling of the maximum tax assessment basis from EUR 2 million to EUR 4 million for expenditures eligible for the research allowance occurring after 30 June 2020 and before 1 July 2026.
 - ▶ **Maturity of the import VAT**
Postponement to 26th of the second following month
 - ▶ **Tax allowance for Trade tax additions**
Increase of the allowance for the addition of trade tax from EUR 100,000 to 200,000.
 - ▶ **Company eCar Taxation**
The purchase price limit for the preferential taxation of purely electric company cars will be raised from EUR 40,000 to EUR 60,000.
 - ▶ Extension of deadlines for investments under § 6b and § 7g EStG for one year.
- Other measures included in the stimulus package not covered under the Second Corona Tax Assistance Act:
- ▶ **Depreciation for digital assets:** The extended depreciation of digital assets is to be addressed within the framework of the "digitalization push". However, the coalition committee has not yet negotiated further details on this issue.
 - ▶ **Modernization of corporate tax law:** Option model to corporate income tax for partnerships
- Furthermore without direct tax reference:
- ▶ **SME package**
For small and medium-sized enterprises, interim aid is granted for the months June to August across all sectors - but with a focus on those industries particularly affected by the Corona crisis. Within this framework, up to 50 percent of the fixed operating costs can be reimbursed in the event of a drop in turnover of at least 50 percent compared to the same month of the previous year, and up to 80 percent of the fixed operating costs in the event of a drop in turnover of more than 70 percent. The maximum payment is EUR 150,000 for three months. A maximum volume of EUR 25 billion is estimated for the program.

Business tax (continued)

- ▶ **Social Security Contributions:** The general possibility of a deferral of social security payments shall be facilitated according to a circular of the responsible social security umbrella organization as of 24 March (updated 25 March). It can basically be granted if the employer plausibly explains that he suffers from financial damage (e.g., loss of turnover) due to the corona crisis. However, a deferral of social security payments is only possible if the employer has already made use of the other available corona crisis related aid measures (see above), in particular reduced hours compensation benefit (Kurzarbeitergeld), ad-hoc aid and business loans. Only if these measures are not sufficient for the employer to be able to fulfil all social security contribution obligations, he can, without providing a security, apply for an interest-free deferral of social security contributions for the months March and April (the first circular also included the month of May, though, May is not included in the latest update and therefore seems to be excluded from the deferral).
- ▶ **Social guarantee 2021:** In order to prevent an increase in non-wage labor costs, social security contributions are to be stabilized at a maximum of 40 percent by covering any additional financial requirements from the federal budget at least until 2021.

Personal tax

- ▶ Bonuses in the form of direct payments or fringe benefits to mitigate negative impacts of the Corona crisis on employees are tax free for up to EUR 1,500, if the transfer is “justifiable” (which, for the duration of the crisis, is generally assumed).
- ▶ Germany is discussing flexible regulations with its treaty partners to avoid unintended effects for cross-border commuters working at home during the crisis. Three final consultation agreements have been published (The Netherlands, Luxemburg, Austria, Belgium, France), further agreements may follow. Affected persons will receive the same tax treatment while working at home as they would have received, had they not been impacted by the measures designed to tackle the COVID-19 crisis. The provisions apply for working days between 11 March 2020 and 30 April 2020 and are automatically extended at the end of a month for an additional month unless canceled beforehand.
- ▶ **Child bonus and increase in the relief for single parents:** Families are relieved by a per-child bonus of EUR 300 which will be paid in two amounts of EUR 150 each for each child entitled to child benefit for at least one month in 2020.
- ▶ For single parents, the relief contribution for the years 2020 and 2021 will be significantly increased from currently 1,908 euros to 4,008 euros.

VAT, GST and trade

- ▶ For VAT see also business tax measures and the economic stimulus package (general VAT rate reduction from 1 July to 31 December 2020)
- ▶ With regard to taxes that are administered by the customs administration (e.g. energy duty and aviation tax), the Central Customs Authority (Generalzolldirektion) has been instructed to make appropriate concessions to taxpayers. The Central Customs Authority has already reacted and provided further [guidance](#) on its homepage.
- ▶ The same applies to the Federal Central Tax Office (Bundeszentralamt für Steuern), which will proceed accordingly with regard to insurance tax and value added tax, which fall within its remit.
- ▶ The Ministry of Economy issued a press release in coordination with the Ministry of Finance that, with immediate effect, export transactions at short credit terms (credit periods of up to 24 months) within the EU as well as to selected OECD member states can be supported with state export credit guarantees. The EU Commission granted an exemption to this effect on 27 March 2020.
- ▶ **Reduced VAT rate for gastronomy:** Restaurant and catering services which are subject to the reduced tax rate due the Corona Tax Assistance Act, are expected to be taxed with VAT at a rate of 5 percent in the period from 1 July 2020 to 31 December 2020, 7 percent in the period from 1 January 2021 to 30 June 2021 and finally 19 percent again from 1 July 2021.

Overview

- ▶ A series of measures to help businesses affected by COVID-19-related restrictions were announced by the Chief Minister on 17 and 20 March 2020.

Personal tax

- ▶ Affected businesses in hospitality, leisure, distributive and catering sectors: the payment of salaries to employees "will not attract any PAYE or social insurance contributions for the month of April". (It is likely that this means that employers may calculate and pay net salary in the usual manner, but not pay the PAYE/SI, and that employees will not pay tax on this, but clarification awaited on these points).
- ▶ For all business sectors:
 - ▶ During the second quarter of 2020, payments of PAYE and Social Insurance by employers may be deferred by eight weeks from the due date. Whether such measures should be extended further will be considered in consultation with the unions and business representative organizations.

VAT, GST and trade

- ▶ Import duties have been waived until midnight on 30 April 2020 in respect of all goods except for tobacco, fuel and alcohol classes of goods. This is to be reviewed before the end of April with business representative organisations.
- ▶ Licence fees due by gaming companies on 1 April 2020 are being delayed until 1 July 2020.

Business tax

- ▶ Private landlords of affected businesses in hospitality, leisure, distributive and catering sectors will be taxed at 50% of gross rent if they do not either (a) waive at least 50% of rent due for Q2 in calendar year 2020, or (b) waive rent in Q2 and extend the lease by a further three months.
- ▶ Where a tenant is not given the above flexibility by their private landlord, Government proposes to allow the tenant "a deduction against their tax liability of three times the amount of the rent paid".
- ▶ All business rates for the second quarter of 2020 will be waived.

Personal tax

Measures adopted at first COVID-19 wave (March - September 2020)

- The payment of debts already due on 11 March 2020 or assessed and due to the Tax Administration between 11 March 2020 and 30 April 2020, as well as the payment of debt installments or partial repayments is suspended up until 31 August 2020 for:
 - Private individuals that lease real estate property to affected enterprises. No late payment interest or surcharges are calculated during the suspension period.
 - The employees of affected enterprises whose employment contract was suspended. No late payment interest or surcharges are calculated during the suspension period.
- The above apply to private individuals that lease real estate property and employees under employment contract suspension of enterprises included in the list of affected enterprises for April, only for tax debts due within April.
- The payment of debts already due on May 01 or assessed and due to the Tax Administration between 01 May to 31 May 2020, as well as the payment of debt installments or partial repayments due within May is suspended up until 30 September 2020 for private individuals that lease immovable property to affected enterprises (as listed for May 2020 measures) and employees of affected enterprises whose employment contract was suspended. A discount of 25% may be granted for on-time payment of debt instalments/partial repayment scheme instalments.
- A corresponding suspension up until 31 October was granted with respect to tax obligations due within June 2020.
- By virtue of Ministerial Decision A. 1200/2020, certain payment deadlines that have been suspended are further suspended up until 30 April 2021. No late payment interest or surcharges are calculated during the suspension period. Pursuant to a MoF Press Release dated 11 February 2021, this deadline will be further extended to 31 December 2021.
- The employees of mandatorily closed enterprises whose employment contract is suspended are eligible to pay their agreed rent price for their main residence reduced by 40% for March and April. The 40% rent reduction is also granted to the employees of affected enterprises whose employment relationship has been suspended, applicable to the rent of their main residence for April. This rent reduction was also extended for May 2020.
- Employees whose employment contract has been temporarily suspended are entitled to a 40% rent reduction for June 2020 and up until September 2020 for their main residence. An optional 30% rent reduction for the period between September and December 2020 was also recently granted.
- Moreover, certain measures were recently enacted to support landlords. Inter alia, the amount of rent that has not been or will not be paid in the context of the COVID-19 confrontation legislative framework does not constitute income and is not subject to income tax and special solidarity contribution of Art. 43A of L. 4172/2013. An employer can qualify for this subsidy if they can show that they have lost at least 25% of their trade, experience COVID-19 disruption, is unable to pay normal wages and outgoings fully and retain their employees on payroll. The scheme enables employees, whose employers are affected by the pandemic, to receive significant support directly from their employer via the payroll system.
- ▶ Initially, from 26 March 2020, the subsidy scheme will refund employers up to a maximum of €410 per each qualifying employee (however, employers should pay no more than the normal weekly net pay of the employee). The scheme was extended to 31 August 2020.
- ▶ Employers will be reimbursed for amounts paid to employees and notified to the Irish Tax Authority via the payroll process.
- ▶ The government issued revised rates on 15 April 2020. The initial revised rates now implemented, include:
 - ▶ The 85% subsidy rate for employees whose average net weekly pay does not exceed €412
 - ▶ Non tapering of the 85% subsidy where an employer contribution of more than 15% of the employees net weekly pay results in a salary payment of up to €350 per week
 - ▶ The flat rate subsidy of up to €350 for employees whose average net weekly pay is more than €412 but less than €500
 - ▶ The 70% subsidy rate for employees whose average net weekly pay is more than €500 but less than €586, with a maximum subsidy of €410 applying
 - ▶ A maximum payment of €350 per week for employees whose average net weekly pay is greater than €586 per week but not more than €960 per week, subject to specific tapering reductions based on the employer contribution to the net weekly earnings
 - ▶ The operation of the scheme will reduce the burden on the Department of Employment Affairs and Social Protection (DEASP) which is dealing with the other COVID-19-related payments
- ▶ The TWSS was replaced by the Employment Wage Support Scheme (EWSS) which is to last until 31 March 2021. As part of Budget 2021 announcement EWSS will be extended to the end of 2021. The primary criteria for qualification is that the employer must demonstrate that they are operating at no more than 70% turnover from the period July to December 2020 compared to the same period last year. The CGS does not substitute for conventional lending that would otherwise have taken place.

To date, ISIF has led to overall investment levels of three times ISIF's initial investment

 - ▶ COVID-19-related VAT and Payroll tax debts, due from 1 March 2020 to the date when sectoral restrictions are lifted, will be parked for a period of 12 months
 - ▶ No interest will accrue on the tax debts during the 12 month period
 - ▶ Thereafter, the COVID-19 related tax debts will carry a reduced interest rate of 3% (down from 10%), until the debt is paid
 - ▶ The timeframe allowed to pay the 'warehoused' debt will be flexible and determined by the ability of the business to pay both COVID-19 related debts as well as meeting its ongoing tax liabilities as they arise in the normal course
 - ▶ For the warehousing arrangement to apply, all returns must be filed in accordance with the Irish Tax Authority's guidance that has applied since the start of the current pandemic.
- ▶ The government has subsequently passed legislation affirming the warehousing of tax liabilities previously announced by the Irish Tax Authority. - ▶ [Update on Warehousing](#)
- ▶ Budget 2021 announced the extension of the Tax Debt Warehousing Scheme to incorporate the balance due on 2019 income tax liabilities and 2020 preliminary tax.
- ▶ The warehousing of income tax applies to any self-assessed taxpayer who expects their income for 2020 will be at least 25% lower than their income for 2019. In the case of taxpayers who were not chargeable persons in 2019, warehousing may apply to preliminary tax liabilities for 2020 where the taxpayer contacts Revenue advising that they are unable to pay their liabilities as a result of the impact of Covid-19 restrictions.
- ▶ Currently, ROS filers have until 10 December to pay and file their 2019 Form 11 and to pay preliminary tax for 2020. This deadline now also applies to ROS filers who wish to avail of the Debt Warehousing Scheme.
- ▶ Where there is an underpayment of preliminary tax for 2019, then the balance for the year cannot be warehoused but can be concessionally included in a 3% reduced interest phased payment arrangement if the taxpayer agrees this with Revenue no later than 10 December 2020.
- ▶ Public Consultation on Dividend Withholding Tax (DWT): The plan to have a real-time withholding tax system in place by March 2021 for dividends and distributions made by Irish resident companies has been postponed by the Irish Tax Authority due to COVID-19 and the feedback obtained through the DWT real-time feedback process. Goods imported by State organizations, State and Public bodies or other certain organizations approved by Irish Revenue can import goods to combat the effects of COVID-19 from outside the EU without payment of Customs Duty and VAT from 30 January 2020 to 31 July 2020. The processing of refunds will be prioritized in the absence, due to COVID-19, of tagged financial accounts (where applicable) as part of the tax return for accounting periods ending on or after March 2019, subject to appropriate checks in selected cases.

Overview

Stimulus package and government-backed and guaranteed loans

- ▶ In response to the rapid spread and impact of COVID-19, the Israeli Prime Minister announced on 30 March an NIS80 billion stimulus package.
- ▶ From this amount, it is expected that NIS8 billion will be extended as **government-backed and guaranteed loans to small-medium businesses, and that NIS6 billion will be extended as such loans to large businesses.**
- ▶ This SME program is designated for Israeli businesses with a maximal NIS400 million annual turnover. The loan amount that can be extended will be up to 16% of turnover for companies with an annual turnover of up to NIS25 million, or 8% of turnover for companies with a higher annual turnover, and up to a maximal amount of NIS20 million.
- ▶ The large enterprises program is designated for Israeli businesses with an annual turnover higher than NIS200 million, to which the loan amount can be the higher of 8% of turnover and NIS100m, and for tech companies - the higher of 8% of turnover or expenses (excluding interest expenses), up to NIS100 million. The scheme requires a minimal employment of at least 100 employees in Israel and that at least 50% of the business' manufacturing assets or IP are registered/recorded in Israel. It also requires that the company did not receive a loan under the COVID-19 SMEs parallel scheme.
- ▶ The company should be able to present a causal link between the business flow difficulties and working capital needs and the outbreak of the virus.
- ▶ Loans will be extended at favorable terms (e.g., five-year loan, average interest rate of Prime+1.5% that will not be paid for the first year, twelve-month grace period on the principal, reduced 5% security deposit, etc.).
- ▶ **COVID-19 High-tech companies rescue plan**
- ▶ The IIA published a fast-track grants program for high-tech companies hit by the COVID-19 economic crisis, with a fast response and, as needed, a 50% down payment. The program is aimed at small start-ups and medium-sized companies with significant assets (IP, high value, fundraising, customer, etc.) that are in a flow crisis for the next 12 months. A budget of up to NIS 5 million can be submitted to a startup or up to NIS15 million to a medium-sized company. The grant rate is between 20%-50%, with additional 10% for certain areas.

▶ Fixed costs: cash grants for small businesses and self-employed

- ▶ The Israel Government announced that NIS5 billion will be extended as business aid grants for participation in fixed costs, that will be extended to dealers that their turnover in 2019 exceeded NIS 18,000 and did not exceed NIS 20 million (and for an individual dealer - his 2019 turnover exceeded NIS300,000 and did not exceed NIS 20 million), if the March to April 2020 turnover decreased by more than 25% compared to the same period last year (and if such decrease was caused by the economic damage due to the pandemic).
- ▶ The model divides small businesses into three groups (based on the 2019 turnover data), and sets a certain "allocation key" to determine the compensation rate to the business. The maximal compensation is NIS400K.
- ▶ **Other IIA grants and reporting leniencies**
- ▶ The IIA announced that it continues to operate and that companies can continue to file requests for
- ▶ In addition, the IIA will allow certain temporary leniencies with respect to companies' reports, e.g., recognition of work performed by employees from home (rather than the company's site); leniencies regarding signatures on attendance reports and other official documents; changes and extensions to development periods, among others.
- ▶ **Self employed dedicated grants (second stage)**
- ▶ Under certain conditions, the Israeli Government will extend special grants to self-employed and controlling shareholders who are individuals if their taxable income did not exceed NIS1m in 2018 and if there was a 25% decrease in turnover during March-May compared to the same period in 2019. Grants expected to be up to 70% of the decrease in turnover, limited to NIS10,700.

- ▶ On 27 March 2020, the Israeli Government approved emergency regulations (the "Regulations") that define the period between 22 March to 31 May 2020 (the "Defined Period") as a period that will not be taken into account for the periods under the relevant tax sections listed in the Regulations, if the end of such periods falls within the Defined Period or two months thereafter. It is noted that most of the listed sections are defined by the ITA rather than by the taxpayer. The following is a non-exhaustive list relevant for decisions/announcements that should be made by the ITA rather than by the taxpayer. The following is a non-exhaustive list of the main VAT procedures that have been postponed:
 - ▶ VAT Statute of Limitation period (5 or 10 years from filing)

 - ▶ Registration certificates for computerized accounting system software that expired in the period starting from 1 March 2020 and ends on 30 June 2020, will be extended for a period of four months from the date of expiry.
 - ▶ The ITA also opened the online system for early e-filing of the 2019 tax returns for companies and individuals by representatives and announced that the refund process for taxpayers and VAT dealers will be expedited.
 - ▶ The following is a non-exhaustive list of the main income tax and withholding tax (WHT) procedures that have been postponed by the Regulations:

- ▶ The decision of the ITA Director on Transfer Pricing ruling (should be received within 120/180 days from the application date)
- ▶ The ITA's approval on a grant plan and/or a trustee for 102 Section grants (should be received within 90 days of filing).
- ▶ A decision that a merger plan meets the relevant conditions for a tax free reorganization.
- ▶ A decision on the denial of tax benefits of a merger (should be given within four years from the end of the tax year).
- ▶ In a new bill that is intended to replace the Regulations with a permanent law, certain extensions are expected to be introduced to the reporting deadlines under the Common Reporting Standard and FATCA regulations for financial institutions regarding foreign and US accounts.

In order to reduce the high unemployment rates caused by the COVID-19 crisis and to re-energize the economy, an employment incentive bill was proposed on 1 June 2020, and includes the following:

- ▶ For each employee who has been accepted for work or that has been returned from furlough that lasted at least 30 days, between 19 April and 31 May 2020, the employer will receive a grant of NIS 3,500 in four equal beats during June-September 2020 (i.e., NIS 875 per month).
- ▶ For each employee who has been accepted for work or that has been returned furlough that lasted at least 30 days, during June-September 2020, the employer will be awarded with a grant of NIS 7,500 in four equal beats during June-September 2020 (i.e., NIS 1,875 per month).
- ▶ These amounts will be granted for employees with a monthly salary higher than NIS 3,300.
- ▶ It should be emphasized that the reinstatement of an employee under the above conditions after the 15th day of the month will entitle the employer to a reduced amount of benefit, so that the first grant month is considered to be the full month following the employee's hire / return to work.
- ▶ The grant will be paid on the basis of the employer's online reporting by the ITA to the employer's bank account.

Overview

- ▶ On 19 May 2020, Italy's Law Decree n. 34, referred to as the "Relaunch Decree" (the Relaunch Decree or the Decree), was published in the Official Gazette and entered into force on the same day. While immediately in effect, the Decree will have to be converted (with potential changes) into Law within 60 days from its publication to remain in force. Some implementing measures will follow to allow part of the incentives to apply in practice.
- ▶ The Relaunch Decree introduces a third set of economic measures in response to the COVID-19 crisis, following Law Decree n. 18/2020 published in the Official Gazette on 17 March 2020 ("Heal Italy Decree") - converted into law by Law n. 27/2020 - and Law Decree n. 23/2020 published in the Official Gazette on 8 April 2020 ("Liquidity Decree") still subject to conversion (Previous Decrees).
- ▶ The Previous Decrees provided for a first response stimulus package including tax and other measures to support families and workers for a total of EUR 25 billion, as well as a set of public guarantees to allow enterprises access the banking system with the expectation to generate an injection of new liquidity for EUR 400 billion.

- ▶ The Decree provides for a multitude of incentives to families, workers and businesses. Several measures have been introduced including income support to households and a few categories of workers not covered by the Previous Decrees, a boost to the existing wage support funds along with new procedures to streamline the execution of the respective payments. Holiday bonuses to boost tourism, bicycle bonuses to encourage alternatives to public transport and babysitter bonuses were also introduced. Free cash contributions and discounted electricity bills are provided for small businesses. Other measures aim at improving the Italian health system, simplifying the release of state guaranteed loans (mainly introduced by the Previous Decrees), speeding up the payment by the Public Administration of a significant backlog of payables toward Italian businesses, and supporting the reopening of the Italian schools with the hiring of extra teachers and the funding of sanitization and renovation works.
- ▶ Additional tax measures have been introduced such as partial tax cuts of the regional tax on productive activities (Imposta regionale sulle attività produttive or IRAP) and the municipal property tax (Imposta Municipale Unica, IMU), the exemption from Value-Added Tax (VAT) for medical devices and Personal Protective Equipment (PPE), new tax credits, including an extension of existing tax credits and the possibility to have them transferred to third parties, as well as new tax payment deferrals.

Business tax

- ▶ Enterprises affected by COVID-19 will be entitled to a double deduction on their investment in plant and machinery for the period from 1 March to 30 June 2020.
- ▶ Contributions made to the COVID-19 Solidarity Fund during the fiscal years ending 30 June 2020 and 2021 qualify for a tax deduction for companies. As a company may, however, have a financial year end other than 30 June, this may give rise to various interpretations. A strict application of the law would imply that the contribution that is deductible should be made during the years ending 30 June 2020 and 2021 only. It is expected that the law will be clarified regarding this provision. The contribution may be restricted if the company has exempt income. Hence, it cannot be assumed that any contribution during the qualifying period would be wholly deductible.
- ▶ Employers may benefit from an allowance under the Wage Assistance Scheme (WAS). An eligible employee is an employee employed on a part-time or full-time basis by an employer earning gross income from a business. Employees employed by a charitable institution, by the MRA or registered under the Registration of Associations Act, charitable trust or charitable foundation are also considered as eligible employees. The law specifically provides that any other categories of employees may be prescribed by way of regulations. The monthly basic salary for the months of March, April and May 2020 (or any other prescribed month), should not exceed Rs50,000. Where the main business activities of the employer occurs in Mauritius, the allowance is computed as a percentage of the basic salary or wage of the employee for the months of March, April and May 2020, and may not exceed a certain value. For any other prescribed month, the portion of the allowance and maximum amount will be defined in the regulations. The following categories of employees do not qualify for the WAS: an employee of a Ministry, a Government department, a local authority, a statutory body or the Rodrigues Regional assembly, or any employee employed by any prescribed employer or any such categories of employees that may be prescribed.
- ▶ An employer who has benefited from an allowance under the WAS may be subject to a levy. Depending on the level of its taxable profit, a company may have to effectively refund the aggregate amount of any WAS allowance through the levy. The levy is restricted to 15% of the taxable profit of the company. For the purpose of the levy, the taxable profit should exclude any tax loss brought forward. A company with a tax loss during the year is not required to pay the levy. The WAS allowance would be considered as a subsidy in those cases. To determine the tax loss for the relevant year, the WAS allowance should be considered in the first instance. The levy is payable at the time the company submits its annual tax return, though the WAS allowance may be granted for the months of March, April and May 2020 or any such other prescribed month. There are various provisions on the powers of the Mauritius Revenue Authority (MRA), including the application of the various anti-avoidance provisions on the levy.
- ▶ The MRA has advised that no interest and penalties will apply if non-submission of a tax return or non-payment of any tax is the result of the current curfew order.

Overview

- ▶ Namibia's Minister of Finance announced on 1 April 2020 the launch of an Economic Stimulus and Relief Package to mitigate the impacts of COVID-19.
- ▶ The Government in collaboration with stakeholders and development partners adopted a Stimulus and Relief Package amounting to N\$8.1 billion (approx. USD \$465 million) in total.
- ▶ The relief measures took effect immediately.
- ▶ On 27 April 2020 the Minister of Finance and the Social Security Commission (SSC) announced the launch of the National Employment and Salary Protection Scheme to mitigate the negative impact of the COVID-19 pandemic on employment in Namibia. The scheme consists of two programs, namely the Employer Wage Subsidy Program and the Affected Employees Program.

Personal Tax

- ▶ A one-time emergency income grant of N\$750 to employees who have lost their jobs due to the pandemic, limited to a maximum of N\$562 million across the program in total. Only Namibian citizens between the ages of 18 and 60 years of age, who do not receive any other social grants, qualify for this grant.
- ▶ The Affected Employees' Program aims to support low income earners exposed to loss of income due to the pandemic. Low income earners and employees in vulnerable employment can apply for a grant for three months: May, June and July 2020. The grant will be limited to 50% of the employee's monthly salary, subject to a minimum amount of N\$1,000 per month. Any benefits to be received by the employee will be netted off against other grants received from the State (e.g., the emergency income grant). The employer is required to initiate the application process, but the grant will be paid directly to the employee. The submission of applications for the abovementioned grants commenced on 5 May 2020 for employees' meeting the following qualifying criteria:
 - ▶ The employee should have been registered with the SSC as at 1 February 2020;
 - ▶ The employee should be able to prove loss of income related to the COVID-19 pandemic; and
 - ▶ The employee should earn less than N\$50,000 per annum, being the tax-exempt threshold for individuals in Namibia.
- ▶ Tax-back loan scheme for tax-registered and tax-paying employees and self-employed individuals who have lost income or part thereof equal to 1/12th of their tax payment in the previous tax year. The loans may be applied for at banks, will be guaranteed by the Government and will only be repayable after one year and will bear interest at the prime lending rate less 1%. The total guarantee will be capped at N\$1.1 billion in total.

VAT, GST and Trade

- ▶ The accelerated repayment of overdue and undisputed VAT refunds to a total program amount of about N\$3 billion.

Business tax

- ▶ Tax-back loan scheme for non-mining corporates of 1/12th of their tax payment in the previous tax year, capped in total at N\$470 million. The loans, that may be applied for at banks, will be guaranteed by the Government. The loans will only be repayable after one year and will bear interest at the prime lending rate less 1%.
- ▶ The Employer Wage Subsidy Program aims to support employers in severely impacted industries. The support includes a wage subsidy and a social security contribution waiver.
- ▶ Employers in the aviation, construction and tourism and hospitality sectors may apply for a wage subsidy of 17% of their wage bill. Employers from these industries will be required to enter into an agreement with the State, and must meet the certain conditions to qualify for the wage subsidy, namely employers:
 - ▶ Must be registered with the SSC and be in good standing;
 - ▶ Should agree to not retrench staff for the three months May, June and July; and
 - ▶ Will not be permitted to reduce employee salaries by more than 50%.
- ▶ Any benefits to be received by the employer under the wage subsidy scheme will be netted against any claims the respective employer may have received from the State or other forms of compensation (International Federation of Consulting Engineers or insurance).
- ▶ Employers from the aviation, construction and tourism and hospitality sectors will also qualify for the social security contribution waiver for a period of three months: May, June and July 2020.
- ▶ Employers from selected additional sectors may apply for a social security contribution waiver for a period of three months: May, June and July 2020. The sectors include domestic and garden workers, entertainment, farming, manufacturing, retail (non-food), services and transport.
- ▶ Employers outside any of the above-mentioned sectors may also apply for the social security contribution waiver if the employer was affected by the COVID-19 pandemic and the employer can provide proof in this regard. Consideration of these applications will be based on merit.
- ▶ The relaxation of labor regulations to avoid major retrenchments and business closures by allowing employers to negotiate a temporary 20% reduction of salaries and wages during the crisis period (and a reduction of salaries of up to 40% for the worst-hit industries).
- ▶ The facilitation of a non-agricultural small business loan scheme of N\$500 million to be provided by the Development Bank of Namibia and guaranteed by the Government.
- ▶ The facilitation of an agricultural business loan scheme for farmers and agricultural businesses of N\$200 million to be provided by the Agricultural Bank of Namibia and guaranteed by the Government.

- ▶ **Short-term absence payment** - From 9 February 2021, businesses and the self-employed can apply for a one-off payment of \$350 per employee required to isolate while awaiting a COVID-19 test if the employee cannot work from home. Employers can apply once in any thirty-day period (unless the worker is required to re-test) per eligible worker.
- ▶ **Leave support scheme** - provides a 2-week lump sum payment equivalent to the wage subsidy for eligible workers identified as someone who has (or may have) been in contact with someone with COVID-19 and must self-isolate for a period. For example, close or casual contacts who have been told to self-isolate by a health official through the contact tracing process. The worker must also be unable to work from home. The scheme has been extensively modified since it was first introduced in 2020.

At Alert Levels 2, 3 and 4:

- ▶ **Resurgence support payment** - enacted 18 February 2021 - in the case of Alert Level 2 (or above) anywhere in New Zealand lasting at least 7 days, businesses anywhere in New Zealand that incur a 30% or greater revenue drop in a 7-day period (compared to a typical 7-day period in the 6 weeks prior to the increase from Alert Level 1) as a result of the Alert Level escalation, may be eligible for a one-off payment of \$1,500 plus \$400 per employee (up to 50 FTEs) - this means the maximum claim is \$21,500. Additionally, businesses cannot make a claim that is greater than 4 times their revenue decline amount. The business must also be considered viable and ongoing and must have been in business for at least 6 months. Certain businesses (e.g. those with seasonal income) have altered requirements. The payment must be used to cover business expenses such as wages and fixed costs.

At Alert Levels 3 and 4:

- ▶ **Wage subsidy support** - in the event of an escalation to Alert Level 3 or 4 anywhere in New Zealand lasting for at least 7 days, the wage subsidy will become available to eligible businesses impacted by the escalation in Alert Level. Support will be provided in two-weekly payments and total support will match the duration at Alert Level 3 or 4 rounded to the nearest fortnight. Payment rates are \$585.80/week for each fulltime employee (\$350/week for each part-time employee). Businesses must have suffered a 40% reduction in revenue, measured against typical fortnightly revenue in the six weeks prior to the Alert Level escalation. Other eligibility criteria and terms and conditions also apply.

Expired wage subsidy support

- ▶ Initial 12-week wage subsidy scheme - introduced on 17 March 2020, applications closed on 9 June 2020.
- ▶ Extended 8-week wage subsidy scheme - open from 10 June 2020 until 1 September 2020.
- ▶ 2-week resurgence wage subsidy - open from 21 August 2020 until 3 September 2020.
- ▶ All of the above expired wage subsidies provided a lump sum payment of \$585/week for full-time employees and \$350/week for part-time employees. The percentage decline in revenue requirement differed under each scheme and other eligibility criteria also applied. For further details on these schemes, please contact the New Zealand Tax Policy team: Sarah-Jane.leslie@nz.ey.com or Daniel.doughty@nz.ey.com.

Other relief

- ▶ **Two loan schemes** provide additional funding for struggling businesses. The Business Finance Guarantee Scheme announced on 24 March 2020 targeted at medium and larger businesses, and a Small Business Cashflow Loan scheme announced 1 May 2020 for Small and Medium business. Both of these schemes have been modified since they were first announced.
- ▶ **The 2020 Budget** announced a **\$50b COVID-19 Response and Recovery Fund**. Most of this amount has been spent or allocated, with the remainder set aside for any future outbreaks.
- ▶ **Various tax relief provisions** have also been introduced, see "personal tax", "GST" and "business tax" headings for further details of key measures.

Personal tax

- ▶ The provisional tax threshold, which determines the requirement to pre-pay taxes, has been raised from \$2,500 RIT to \$5,000. The change applies from the 2020/21 income year and is expected to result in 95,000 fewer taxpayers needing to pre-pay their taxes.
- ▶ Inland Revenue has clarified that employers can provide employees with a \$15 a week tax free allowance for business related costs, and can reimburse employees up to \$400 for business related furniture, on a tax-exempt basis. This Determination is temporary and applies to payments made from 17 March 2020 to 17 March 2021 (extended from the originally announced expiry date of 17 September 2020). A further extension announced in February 2021 extends this position for payments made from 18 March 2021 to 30 September 2021.
- ▶ A COVID-19 Income Relief Payment providing up to 12-weeks of financial support to New Zealand residents and citizens was available to those who lost their job or business due to COVID-19. Eligible applicants were able to receive a weekly, tax free sum for each week between 8 June and 13 November 2020 dependant on working hours (\$490/week for a full-time worker, or \$250/week for a part-time worker).
- ▶ Inland Revenue has released guidance confirming that individuals "stranded" in New Zealand will not necessarily trigger New Zealand tax residency under domestic day-count rules, provided they leave the country within a reasonable time after they are no longer practically restricted in travelling.

VAT, GST and trade

- ▶ Taxpayers that have difficulty paying outstanding taxes may set up an instalment arrangement, obtain deferrals or get debts written-off due to serious hardship.
- ▶ New Zealand Customs Authority has payment deferral options available in some cases, and penalties and interest applicable to late paid duties arising on or after 25 March 2020, can be remitted if payment is constrained due to COVID-19 for up to two years.
- ▶ Extensions generally cannot be granted for GST and PAYE returns, but any penalties for late filing may be relieved. Under limited circumstances penalties for late payments incurred due to the effects of COVID-19 may also be relieved.
- ▶ The law has been clarified that GST does not apply on the wage subsidies discussed above.
- ▶ The Commissioner of Inland Revenue has used her new discretion (detailed under "business tax") to issue the following GST-related variations:
 - ▶ A variation (COV 20/03) enabling a taxpayer's election to change GST taxable periods to take effect earlier in certain circumstances. This variation applied from 6 June 2020 to 30 June 2020. A related variation (COV 20/11) applies from 4 November 2020 to 31 March 2021.
 - ▶ A variation (COV 20/09) applicable to GST registered taxpayers with a taxable activity of supplying accommodation who between 14 February - 31 October 2020 change to making exempt supplies of accommodation leaving them with no taxable activity. This variation applied from 17 March 2020 to 31 October 2020.
- ▶ Inland Revenue has extended the date by which taxpayers must inform the Commissioner of their election to use the GST ratio method for provisional tax for the 2021 year. Taxpayers unable to notify their election within the required timeframe as a result of COVID-19 have until 19 August 2020, or the day before the start of their 2021 income year (whichever is later) to make the election.

Business tax

- ▶ **Re-introduction of depreciation on commercial buildings:** Depreciation deductions at 2% diminishing value or 1.5% straight line have been reintroduced for new and existing industrial and commercial buildings, including hotels and motels. The impact of these additional deductions will have the effect of reducing taxes payable for the 2020-21 income year with a reciprocal impact on provisional taxes payable immediately. There are also deferred tax accounting implications of the reintroduction.
- ▶ **UOMI write off:** There is a new process to remit Use of Money Interest (UOMI) payable on or after 14 February 2020 for impacted businesses. The new process will be in place for two years. Businesses and individuals will need to show an inability to pay tax by the due date as a result of being significantly adversely affected by the COVID-19 pandemic. Additional changes have been announced to provide the Commissioner of Inland Revenue the discretion to remit UOMI on certain provisional taxpayer's terminal tax for the 2020/21 year accrued up to their terminal tax date subject to certain conditions (previously the Commissioner could only remit interest accrued after a taxpayer's terminal tax date).
- ▶ **Low value assets:** The previous \$500 low-value asset threshold has been changed to \$5,000 to allow businesses to deduct upfront the cost of assets purchased rather than depreciate. The threshold increase applies from 17 March 2020, but will reduce to \$1,000 from 17 March 2021.
- ▶ **R&D measures:** The rules that allow R&D tax credit refunds have been made more accessible for businesses. This allows a claim for refundable credits for eligible businesses from the 2019/20 year. (note: the New Zealand tax year runs 1 April to 31 March). In addition, Budget 2020 allocates \$150 million to a new short-term loan scheme (applications are open until 31 March 2021) to incentivise businesses to continue R&D projects which might otherwise be shut down due to COVID-19. Changes deemed to take effect from 1 July 2020 clarify that expenditure funded by this loan scheme is deductible for tax purposes and will not be ineligible expenditure for the purposes of the R&D tax credit regime.
- ▶ **Tax loss carry-back scheme:** New rules have been enacted to allow taxpayers expecting a loss during the 2019/20 or 2020/21 years to obtain a refund of prior year taxes paid by carrying back the loss to the immediately preceding profit year. Carry-back and offset can be based on estimated loss for the current year, but any over-estimate (resulting in taxes that need to be repaid) will result in use of money interest. This scheme is intended to be temporary, with a permanent loss carry-back mechanism to be introduced in due course. On 15 June 2020, Inland Revenue released an Interpretation Statement outlining the Commissioner's understanding of new anti-avoidance provisions that apply to the recently enacted loss-carry back regime.
- ▶ **Loss continuity rules:** Changes have been announced to relax the rules that allow for carry forward of tax losses, by introducing either a "same or similar" business test or a "major change" test from the 2020/21 income year. The legislation for this is expected to be introduced in 2021.
- ▶ **A new discretionary power** allows the Commissioner of Inland Revenue greater flexibility to modify timeframes or procedural requirements for taxpayers who are impacted by COVID-19. This power is not tax-type limited, and applies to all taxpayers impacted by COVID-19. The power is time limited and will expire on 30 September 2021. Key instances where the Commissioner has exercised her discretion to date include extensions to the timeframes applicable to:
 - ▶ When tax transfers can be made from a tax pool for the 2019 income year.
 - ▶ A taxpayer's ability to obtain a tax deduction for a bad debt in the 2020 income year.
 - ▶ When a company can elect to be a "look-through company" for the 2019 income year.

Business tax (continued)

- ▶ Inland Revenue has released a public ruling (BR Pub 20/06) on whether certain income tax and GST provisions relating to a director's liability for tax of a company will apply to a director that has been affected by COVID-19 that has relied on the safe harbour in the Companies Act (see "Other measures - Regulatory relief" for details of the safe harbour). The ruling concludes that, of itself, reliance on the safe harbour by a director, and the company continuing to trade or carry on business or incur new obligations on ordinary commercial business terms, will not result in a director's liability for tax under those income tax and GST provisions.
- ▶ **Company tax residence and permanent establishments:** Inland Revenue has confirmed that the COVID-19 pandemic will not generally cause corporate taxpayers to become tax resident in New Zealand due to directors of a company being confined or stranded in New Zealand. This position will be reviewed by Inland Revenue from 1 April 2021. In relation to permanent establishments, Inland Revenue has confirmed that the COVID-19 pandemic will not generally cause non-resident companies to have a permanent establishment in New Zealand because their employees are confined or stranded in New Zealand.

Other measures

Financial relief:

- ▶ Mortgages and business loans are eligible for **repayment holidays** from 26 March 2020 until 31 March 2021.
- ▶ The **Business Finance Guarantee scheme** was announced on 24 March 2020 and has since undergone modifications. The scheme currently provides for loans up to \$5 million for firms with a turnover of up to \$200 million per annum. The loans are for a maximum of five years and are expected to be provided by the banks at competitive, transparent rates. The Government will carry 80% of the credit risk, with the other 20% to be carried by the banks. The scheme is open for applications until June 2021 (extended from the previous expiry date of 31 December 2020). The criteria for borrowing has been extended from liquidity support/bridging finance to enable general purpose borrowing, including for capital investment, for businesses affected by COVID-19. In addition, loans made under the scheme can be used to re-finance up to 20% of a borrower's existing indebtedness. Additional availability and flexibility was also announced by the Government on 15 December 2020.
- ▶ **Small Business Cashflow Loan Scheme:** From 12 May 2020, Inland Revenue can provide loans of up to \$100,000 to eligible organisations with 50 or fewer FTE employees. The scheme has been extensively modified since it was first introduced. The loans have an interest free period of two years (previously one year) and a maximum term of five years. Interest applies at 3% if the loan is not repaid within the interest free period. The scheme applies until 31 December 2023 (previously 31 December 2020). Current eligibility criteria includes that the business must demonstrate an actual drop in revenue of at least 30% because of COVID-19, which must generally be measured over any 14-day period in the previous six months, compared with the same 14-day period a year ago. Other eligibility criteria also apply and there are restrictions around the use of the funds (although these restrictions have eased since the scheme was first introduced).

Other measures (continued)

Regulatory relief:

- ▶ Legislative changes retrospectively provided a 'safe harbour' from insolvency duties under the Companies Act, to provide relief to Directors from the risks of trading while insolvent. These changes expired on 30 September 2020.
- ▶ Changes allow businesses to place existing debts into hibernation, until they are able to start trading normally again. Subject to certain conditions. The deadline for businesses applying to enter into debt hibernation is 31 October 2021 (extended from the previous date of 24 December 2020).
- ▶ Changes have been made to relieve businesses of certain regulatory requirements and Companies Office filings. Most of these changes apply until 31 March 2021, though electronic signatures will remain acceptable when signing security agreements that contain powers of attorney until 15 May 2021.
- ▶ In January 2021, it was announced that new exemptions granted by the Registrar of Companies will further ease compliance obligations on companies affected by COVID-19. The exemptions relax requirements for a range of procedural and administrative matters in the Companies Act, and apply to acts or omissions from 21 March 2020 - 31 March 2021. If a company decides to rely on an exemption, they must send a notice to the Registrar no later than 31 March 2021. Refer to the Companies Office website for further details: <https://www.companiesoffice.govt.nz/covid-19/exemptions-from-compliance-obligations/covid-exemptions-for-companies-and-administrators/>
- ▶ Changes have also been made to provide relief for commercial tenants, through extensions of lease cancellation periods, which can require landlords to negotiate with tenants on rent reductions.

Business tax (continued)

Income from employment

The income of nonresident individuals from employment exercised in the Philippines will not be subject to income tax in the Philippines if the following conditions concur:

- ▶ The employee has not been present in the Philippines for more than 183 days (more than 120 days for residents of Poland, at least 90 days for residents of the United States of America) in aggregate in the year of income, fiscal year, calendar year, or any twelve-month period depending on the applicable tax treaty;
- ▶ His/her remuneration is paid to him/her by, or on behalf of an employer that is not a resident of the Philippines; and
- ▶ His/her remuneration is not deductible against the profits of a permanent establishment which the foreign employer has in the Philippines.

Special tax residency rules

Where an individual is prevented from leaving the Philippines on his or her scheduled day of departure as a result of the travel restrictions imposed by the government as a safety measure to contain COVID-19, the individual will not be regarded as being present in the Philippines for tax residence purposes for the period after the scheduled day of departure. This will be considered a "force majeure" for purposes of establishing such individual's tax residence, provided that he or she leaves the Philippines as soon as the circumstances would permit, such as when the travel restrictions and/or quarantine measures have been lifted. Each case will be assessed and evaluated independently based on factual and unaltered evidence.

Inadvertent creation of PE

1. Home Office PE

Work from home arrangements in compliance with the Philippine government's imposition of strict home quarantine measures due to COVID-19 and not pursuant to the enterprise's requirement would not create a PE of the foreign enterprise in the Philippines because the conduct of business activities thereat lacks a certain degree of permanency and the home office is not at the disposal of the foreign enterprise.

Temporary interruptions of construction activities due to the COVID-19 pandemic should be included in computing the duration of a site and in determining whether such construction site constitutes a PE.

2. Dependent Agent PE

For income tax purposes, the extended period of stay in the Philippines of an employee, partner or agent of a non-resident foreign corporation due to travel restrictions related to COVID-19 will be disregarded in counting the taxable presence of the non-resident foreign corporation in the Philippines on whose behalf the employee, partner or agent is acting.

In summary, the effects of COVID-19 will not result in the creation of a PE if the following requirements are met:

- ▶ The non-resident foreign company did not have a permanent establishment in the Philippines before the effects of COVID-19.
- ▶ There are no other changes in the company's circumstances save for the extended stay of its employee, partner or agent in the Philippines because of travel restrictions; and
- ▶ The employee, partner or agent should leave the country as soon as the circumstances would permit.
- ▶ A different approach will be applied, however, if the employee, partner or agent was habitually concluding all cases where restrictions imposed by COVID-19 affect the applicability of Philippine tax laws and tax treaties on a taxpayer's tax position, records shall be maintained outlining the circumstances and submitted to the Bureau in support of the taxpayer's application for relief from double taxation.
- ▶ Qualified persons with unpaid internal revenue tax liabilities due to inadvertence, erroneous payment, or failure to file returns/pay taxes may apply for the Voluntary Assessment and Payment Program until 31 December 2020, unless extended. Under certain conditions, approved applications will not be audited for the year 2018 contracts on behalf of enterprise in the Philippines before the COVID-19 crisis.
- ▶ In for the tax types covered by the availment. The benefit will apply to all internal revenue taxes covering the taxable year ending 31 December 2018 and fiscal year 2018 ending on the last day of the months of July 2018 to June 2019. The amount of taxes for voluntary payment shall be determined based on a schedule provided.

These measures complement earlier actions of the BSP, including (i) the timely suspension of the term deposit facility auctions for certain tenors; (ii) the temporary reduction in the term spread on the peso rediscounting loans relative to the overnight lending rate to zero; and (iii) various time-bound relaxation of various regulations pertaining to compliance reporting, calculation of penalties on required reserves, and single borrower limits.
- ▶ On 28 April 2020, the BSP waived fees on applications to provide electronic payment and financial services (EPFS) as an additional relief to BSP-supervised financial institutions. The relief is effective for a period of six months from 8 March 2020.
- ▶ On 5 May 2020, the BSP adopted relief measures to support MSME+ including (i) temporary reduction in credit risk weights of loans granted to MSME+ that are current in status; (ii) assignment of a lower risk weight for MSME exposures that are covered by guarantees; (iii) deferred implementation of the revised risk-based capital adequacy framework to 1 January 2023; and (iv) extended period of relief on the reporting of past due and non-performing loans of borrowers affected by COVID-19 to 31 December 2021, subject to reporting to BSP. The BSP also earlier recognized MSME loans as alternative compliance with bank reserve requirements and relaxed KYC requirements for retail clients.
- ▶ On 25 June 2020, the Monetary Board cut the interest rate on the overnight reverse repurchase (RRP) facility by 50 Bps to 2.25%, effective 26 June 2020. The interest rates on the overnight deposit and lending facilities were reduced to 1.75% and 2.75%, respectively. This is the fourth monetary policy rate cut this year with a cumulative 175 Bps reduction since February 2020.

Measures to support the continuity of employment contracts

Companies facing a business crisis situation (including situations of complete stop of business activity due to interruption of supply chain or cancelation of purchase orders, as well as situations of sudden reduction of at least 40% of turnover when compared with previous FY) are entitled to a financial aid, per employee, aimed to support the payment of wages and the continuity of the employment contracts.

The main features of this regime are the following:

- ▶ Employee remuneration: Employees are entitled to a remuneration corresponding to 2/3 of the employee's gross salary, capped at 1,905 euro (equivalent to 3 times the national minimum wage).
- ▶ Term: 1 month, extendable for additional months, up to 6 months.

Companies/employers benefitting from the measures above are also entitled to receive an extraordinary financial incentive, per employee, to support the resume of the business activity.

Finally, the Government has announced (i) suspension of the payment date of the Single Social Fee of 20 March, and (ii) reduction of social contributions due in March, April and May with two-thirds of any remaining payment to be paid in either a 3- or 6- month instalment plan, starting in the second half of 2020.

Deferral of Social Security Contributions:

The Decree-Law n.º 10-F/2020 dated 26 March 2020 foresees the deferral of Social Security contributions for employers complying with the following requirements:

- ▶ The total number of employees is less than 50;
- ▶ The total number of employees is between 50 up to 249, if a sudden reduction of least 20% of turnover occurs in March, April and May 2020 compared with same months of 2019. Such reduction should be confirmed by electronic invoices (e-fatura) provided to Portuguese tax authorities during the relevant months. For companies conducting business activities for less than 12 months, the reduction of turnover is computed as an average from the start of operational activity and as of the present time.
- ▶ The total number of employees is 250 or more, if the business activity (i) was shut down to enforce a legal provision, or (ii) fits in the aviation or tourist sector provided that a reduction of at least 20% of turnover occurs in March, April and May 2020 compared with same months of 2019. For companies conducting business activities for less than 12 months, the reduction of turnover is computed as an average from the start of operational activity and as of the present time. As stated above, the evidence of turnover reduction are the electronic invoices submitted to Portuguese tax authorities throughout the relevant months. Companies falling under this requirement should also qualify for an additional set of conditions in terms of, inter alia, activity sector (e.g., hospitality or aviation)

General tax measures include:

- ▶ Reinforcement of the information available on the utilization of electronic services by the taxpayers in alternative of physical visits to the tax offices;
- ▶ The infection or prophylactic isolation of taxpayers or certified accountants, confirmed by health authorities represents a sufficient condition to justify the incapacity of the taxpayer/company to comply with tax obligations;
- ▶ If treasury shortages do not allow the full settlement of the CIT/PIT due for FY 2019, taxpayers are allowed to request that the tax due is paid by instalments, without having to wait for a tax enforcement procedure (this request is subject to approval by the Minister of Finance).

CIT measures:

On 11 March 2020, the Portuguese Government announced the following measures (foreseen in the Order n.º 104/2020-XXII) mainly related with the deferral of CIT fillings and payment:

For entities whose FY is different from the civil year, it is not known yet how this measures will apply. Nevertheless, further clarifications are expected to be issued soon.

With effect from 3 June 2020, Law n.º 16/2020 revoked the suspension of the deadlines for court and administrative procedures, and only certain (i) insolvency and foreclosure procedures related to immovables used for residential purposes, and (ii) eviction procedures against specially vulnerable persons remain suspended. The Law encourages the appropriate due diligence to be performed by telematic means. However, if those means are not suitable to the specific case at hand, diligence might be performed in person. In this case, social distancing measures and recommendations from the public health authorities must be followed.

In addition, deadlines applicable to administrative entities, previously suspended until 26 May 2020, are considered due on the following dates:

- ▶ Deadlines for the due date occurring during the suspension period are considered due on the 20th business day following the entering into force of this Law, i.e., 3 June 2020. Accordingly, the due date for administrative deadlines is 1 July 2020
- ▶ Deadlines for the due date occurring during the 20 business day from 3 June 2020 are due on the 20th business day

Overview

- ▶ After the state of emergency ended, the Romanian authorities issued various acts regulating tax measures designed to support taxpayers. The main acts are the following:
 - ▶ GEO no. 48/2020, published on 16 April 2020, which completed a series of normative acts applicable on the Romanian territory in order to continue the series of measures adopted as a result of the termination of the state of emergency. The main measures concern enforcement measures, prescription terms in tax matters, the VAT reimbursement mechanism and payment rescheduling
 - ▶ GEO no. 69/2020 published on 14 May 2020, for the amendment and completion of the Romanian Tax Code, as well as for the establishment of tax measures. The main amendments concerned:
 - ▶ The extension of payment and declarative terms until 30 June 2020, the procedure for registration for VAT purposes of taxable persons based in Romania
 - ▶ The procedure of granting of bonuses for tax obligations for 2019 and the establishment of bonuses/incentives for employees carrying out activities that involve direct contact with citizens and are at risk of infection with COVID-19
 - ▶ The procedure of tax credits and contributions paid until 30 June 2020
 - ▶ The new provisions of tax amnesty for tax accessories
 - ▶ GEO no. 90/2020 published on 29 May 2020, which brings certain changes regarding the tax facility of restructuring the main and accessory budgetary obligations provided by Ordinance no. 6/2019 on the establishment of tax facilities, in the sense of extending the scope of application and the terms according to which the tax obligations that may be subject to restructuring were determined.
 - ▶ GEO no. 90/2020 introduced also the extension of some deadlines regarding the tax measures adopted by GEO no. 29/2020 and GEO no. 48/2020, until 25 June 2020, including:
 - ▶ The term until when a subsequent tax inspection will be performed for the VAT refund through the returns submitted within the legal submission period is made
 - ▶ The term until no interest and penalties are calculated for the late payment of instalments in the unpaid rescheduling schedules
- ▶ The term until the suspension of the conditions for maintaining the validity of the payment instalments granted according to the law, of the measures of forced execution of the budget receivables operates and;
- ▶ The term until the prescription terms of the right of the tax body to establish tax receivables and to request the forced execution, as well as that of the taxpayer/payer to request the restitution of the tax receivables are suspended or do not start to run

Overview (continued)

- ▶ **Payment of tax obligations:** No late payment interest and penalties will be computed for tax obligations due after the date of entry into force of GEO 29/21.03.2020 for the entire period of the state of emergency (i.e., currently 15 May 2020) and an additional 30 days thereafter. These tax obligations will not be considered as overdue. Thus, it is understood that tax clearance certificates without any outstanding liabilities may still be obtained by taxpayers participating in auctions. However, the deadline for submission of tax returns has not been postponed. Furthermore, GEO 48/2020 stipulates that for the late payment of instalments related to rescheduled tax liabilities, no late payment interest and penalties shall be computed until the expiration of the 30 days term after the end of the state of emergency on 15 May 2020.
- ▶ **Suspension of forced execution:** Forced execution for budgetary receivables by garnishment, other than forced executions that are applied for the recovery of the budgetary receivables established by court decisions in criminal matters, arising from the commitment of offenses will be suspended or will not be started. No additional procedures are required from the tax authorities.
- ▶ **Beneficial owner statement:** The deadline for submission of the beneficial owner statement will be extended for three months after the termination of the state of emergency. During the state of emergency, requirements for submission of the statement are suspended.
- ▶ **Postponement of payment of utilities and rent:** Small and medium-sized enterprises (SMEs) that interrupted wholly or partially their business activity based on the decisions of the public authorities during the state of emergency and that hold a state of emergency certificate issued by the Ministry of Economy, Energy and Business Environment, will benefit from deferred payment for utility services - electricity, natural gas, water, telephone and internet services - and deferred payment of rent for the building used as a registered office and/or secondary office.
- ▶ **Invoking force majeure clause:** In the case of the contracts concluded by SMEs, other than for utilities or renting of spaces, the force majeure clause can be invoked only after demonstrating an attempt to renegotiate the contractual clauses taking into account the exceptional conditions generated by the state of emergency. With respect to commercial contracts concluded by SMEs, as well as with respect to other contracts, it is important to analyze to what extent the COVID-19 pandemic can be considered a force majeure situation such that this clause can be invoked, taking into account the particularities of each case.
- ▶ **Public authority contracts:** During the state of emergency the penalties provided for in contracts concluded by SMEs with the public authorities will not be due.
- ▶ **Granting guarantees for SME loans:** Through the program for supporting SMEs, IMM INVEST ROMANIA, state guarantees can be granted in favor of each beneficiary participating in the program for one or more loans for investments in/financing of working capital.

For SMEs, the value of a guarantee can represent a maximum of 80% of the financing value, excluding interest, commissions and bank charges related to the credit guaranteed. The maximum value of the state- guaranteed financing that can be granted to a beneficiary for investments is RON 10,000,000, and for financing the working capital cannot exceed the average of the expenses related to the working capital in the last two fiscal years and are subject to a cap of RON 5,000,000.

At the same time, guarantees can be granted for loans for financing of working capital, up to a maximum of 90% of the value of the financing, excluding interests, commissions and bank charges related to the credit guaranteed, subject to a cap of RON 500,000 for micro-enterprises (which are maximum RON 1,000,000 sized enterprises).
- ▶ **Suspension of certain payments due under credit and leasing agreements:** Debtors (both individuals and certain categories of professionals and legal entities, except for credit institutions) may request creditors, by 14 May 2020, to suspend credit instalments, interests and fees due under credit and leasing agreements concluded before 30 March 2020. The suspension period may vary between one month and nine months, but it will not extend past 31 December 2020. Interest on outstanding amounts is capitalized in the credit balance as of the end of the suspension period, except for retail mortgage loans, where the ancillary interest for the suspension period represents a distinct and independent claim (guaranteed by the Romanian state). Overview

- ▶ On 18 February 2020, against the backdrop of uncertain times and COVID-19 outbreak, Singapore's Deputy Prime Minister and Minister for Finance, Mr. Heng Swee Keat, delivered the 2020 Budget. To deal with the immediate challenges and COVID-19, S\$6.4 billion was committed toward the Stabilisation and Support Package, the Care and Support Package, and to support our frontline agencies.
- ▶ The Deputy Prime Minister and Minister for Finance, Mr. Heng Swee Keat, delivered on 26 March 2020 a 2020 Supplementary Budget (known as the Resilience Budget), as both the global economy and COVID-19 outbreak had worsened since the first package was announced.
- ▶ Measures worth over S\$48 billion were introduced in this Resilience Budget which focuses on:
 - ▶ First, save jobs, support workers, and protect livelihoods.
 - ▶ Second, help enterprises overcome immediate challenges.
 - ▶ Third, strengthen economic and social resilience.
- ▶ Singapore eased its monetary policy on 30 March 2020. The COVID-19 (Temporary Measures) Act was gazetted on 7 April 2020 to offer temporary relief to individuals and businesses who are unable to fulfil their contractual obligations because of COVID-19.
- ▶ Minister Heng Swee Keat announced an unprecedented third round of support measures in his Solidarity Budget speech on 6 April 2020. An additional support of S\$5.1 billion will be mobilised to save jobs, protect the livelihood of the people, preserve capacity and capabilities, and provide immediate cash in hand for households to tide Singapore through its significantly stricter pre-emptive measures which will kick in from 7 April until 4 May 2020 (circuit breaker period).
- ▶ Singapore announced an extension of the circuit breaker period till 1 June 2020 (from 4 May 2020) and put in place tighter measures during the circuit breaker period. The Government will also continue to support businesses and people through building on the measures introduced in the earlier Budgets. The added support measures will amount to S\$3.8 billion.
- ▶ On 2 May 2020, it was announced that circuit breaker measures will be progressively eased over the coming weeks. As restrictions will be cautiously lifted over the coming weeks, new safeguards may be put in place to ensure the safe and gradual resumption of economic and community activities.
- ▶ On 26 May 2020, Minister Heng Swee Keat announced a fourth round of support measures in his Fortitude Budget speech; an additional S\$33 billion will be used to give more support to businesses which are not yet ready to re-open, and to workers who are still unable to resume work. The Budget will continue to support workers and businesses who remain affected by border closures and safe distancing measures. Additional support is also provided to households and community to cope with the disruptions, and seize new opportunities in adversity. Funding is also provided to frontline agencies, to boost clinical management of cases, and swabbing and testing capabilities.
- ▶ On 17 August 2020, Minister Heng Swee Keat announced a further round of support measures in his Ministerial Statement on Continued Support for Workers and Jobs. Although Singapore's COVID-19 situation is now under control, the global economy remains very weak. As some of the measures announced previously will be ending soon, the new round of measures worth S\$8 billion seeks to advance strategies in three areas:
 - ▶ First, continued support for jobs and create new ones.
 - ▶ Second, provide further support for sectors which are hit the hardest.
 - ▶ Third, position Singapore to seize growth opportunities in a post-COVID-19 world.
- ▶ Minister Heng Swee Keat announced in a Ministerial Statement on 5 October 2020 that the support over the four Budgets this year has been to provide immediate relief and also to minimise the scarring effects of COVID-19 on our economy, by preparing our businesses and workers to emerge stronger. The Statement gives an overview of the progress of our fight against COVID-19, the fiscal position, and the strategies going forward.

- ▶ On 23 July 2020, a Decision on the extension of the measures of partial reimbursement of salary compensation for workers on temporary waiting for work was adopted, extending the partial reimbursement of compensation to workers that are assigned to wait for work from home until 31 August 2020. As per Mega Act 4 the Government can extend this measure one more time, before the end of September 2020.
- ▶ **Partial subsidies for reducing full time work:** Mega Act 3 introduces the possibility of ordering part-time work to full time employees while sending them to temporary wait for work. The subsidy could be awarded to employers based on an application filed with the Employment Service of Republic of Slovenia (ES) on a monthly basis (for the previous month). The employer have to give consent for the public disclosure of the data on the recipients of the subsidy and agree not to violate the prohibition of dismissal of worker during the period of receiving the subsidy and for one month after. An employer, who received approved subsidy from the ES and provides workers with work for at least part-time work is able to claim a partial refund of the compensation for waiting for work for such employees. Employers who are eligible for this measure are:
 1. Legal or natural person who was entered in the Business Register of Slovenia before 13 March 2020 and employs employees on the basis of a full-time employment contract and;
 2. According to the employer's estimate, at least 10% of employees cannot be provided at least 90% of work per month.

Overview (continued)

- ▶ Before ordering part-time work for employees or any change in this regard, the employer must consult with the trade union before the start or change. In case there is no trade union the employer should consult with works council. If there is neither one nor the other body at the employer, the employer must inform the employees in advance in the usual manner prescribed by the employer. The law provides for a time limit for the said measure, namely from 1 June to 31 December 2020.
 - ▶ The employer must inform the employee in writing about the reduced working hours, while the employee reserves the right to: (i) remuneration for work when actually working; (ii) for the difference up to full-time work, the employee receives salary compensation in accordance with the Employment Relationships Act (i.e. 80% of the average salary for the previous three months); (iii) to perform full-time work at the request of the employer. The employee may register in the register of jobseekers during the ordered part-time work and may also be included in the measures provided by the Employment Service to registered jobseekers.
 - ▶ **Salary compensation for workers absent due to ordered quarantine:** The employers that are entitled to reimbursement of salary compensation are those who declare that they cannot organize work from home for the worker(s) that are quarantined. The time limit for salary compensation entitlement is limited to the duration of the quarantine period. Reimbursements of salary compensations for employer due to the ordered quarantine is time limited to a maximum up to 30 September 2020. The law provides for two types of salary compensation in the event of a quarantine ordered to a worker:
 - ▶ **Quarantine is ordered to a worker at a border crossing:** In this case, the worker is entitled to a salary compensation in the amount determined by the Employment Relationship Act for the force majeure cases, i.e., 50% of regular salary, but not less than 70% of the Slovenian minimum wage.
 - ▶ **The worker was quarantined due to contact with infected individual:** In this case, the salary compensation is set as when employer has temporary inability to provide work for business reasons to worker as per Employment Relationship Act. The salary compensation salary would amount to 80 percent of the full-time monthly salary from the last three months or last three months before the start of the absence.
 - ▶ **Payment of tax advances (for legal entities and sole-entrepreneur)** The Act stipulates that advance payments of personal income tax for natural persons engaged in business activity (self-entrepreneur) and advance payments of corporate income tax, which will be due after the adoption of the Act, and up to and including 31 May 2020, are not required to be paid. At the same time, these advances are not considered to be accounted for, and thus the unpaid instalments of the tax are not deducted from the advance payment of personal income tax from the activity for 2020 or from the personal income tax calculated for 2020 (the expected payment of personal income tax in 2021 for 2020).
- Worker must inform employer about the order quarantine within three days from received Decree. The employer should apply for reimbursement of salary compensation via electronic application at the Employment Service of the Republic of Slovenia within 30 days from the beginning of the absence of employees due to ordered quarantine. Reimbursements are paid to the employer on a monthly basis, in pro-rated or full amount on the last day of the month which follows the month in which the salary compensation according to this Act was paid.

Overview (continued)

- ▶ **Tax relief on donations:** Companies and sole entrepreneurs that donate their funds for the purpose of eliminating the effects of the COVID-19 pandemic paid to the specially opened transaction bank account of the Republic of Slovenia or other EU Member States, are eligible for the additional tax relief. Taxpayers who have income from business activity may, in addition to decreasing tax base in accordance with Article 59 of the Corporate Income Tax Act ("ZDDPO-2") or Article 66 of the Personal Income Tax Act ("ZDoh-2"), further reduce the tax base for the entire amount of donations made to address the effects of the COVID-19 pandemic. The amount of donations includes all payments made after 13 March 2020 and up to the decision of the Government of the Republic of Slovenia to close a specially dedicated transaction bank account for the purpose of eliminating the consequences of the COVID-19 pandemic. In order to claim the relief, the companies should follow the rules of provisions provided by the ZDDPO-2 and ZDoh-2.

The exemption applies only to goods that are intended for distribution free of charge to persons affected by the pandemic or goods given to free use by entities engaged in health care, provided that the goods remain the property of the authorities (including governmental bodies and local authorities) or charitable organizations. Besides, the goods need to be primarily delivered to a government body or organization, a local authority or other organization that is considered a charitable organization.
- ▶ **Refund of received state aid:** Recipients of state aid that are in fact not entitled, will have to repay the received funds to the State. Namely, the companies which will distribute a profit (dividend), purchase their own shares or their own business share, or pay the reward and part of the salary for business performance to management in 2020 or later for 2020, are obliged to inform the Tax Authorities. The Tax Authorities will then issue a Decree regarding the refund of received state aid with penalty interest. Penalty interest would be calculated for period from when the state aid was given to the company and up to the time the state aid is returned.
- ▶ **Foreclosures:** Workers who have court or tax foreclosure will not be required to pay them in the period when the said Act is in force - which is expected to be up to 31 May or 30 June 2020. Foreclosures on March salaries will not therefore be executed on part of the compensation for waiting for work). For April and May, no foreclosures will be executed on salaries irrespective of type of payment. This does not, however, apply to deduction for child support payments, which must continue to be properly accounted for and deducted.
- ▶ **Payment deadlines** - Payment deadlines when the creditor is a public authority is extended to 60 days. That deadline will remain in force for one year after the end of the COVID-19 pandemic.
- ▶ **Submission and publication of annual reports for insurance companies:** Insurance agencies must submit an annual report and an auditor's report on the auditing of the annual report to the Insurance Supervision Agency no later than five months after the end of the calendar year
- ▶ **Cadastral income:** Due to the anticipated loss of production of basic agricultural and forestry products, the Act stipulates that for 2020 the tax base from potential market income for products from land shall be determined at 50% of cadastral income determined on 30 June 2020 and the tax base from potential market income for hive production of 35% of the flat rate per hive established on 30 June 2020
- ▶ The deadline for submission of assessments, extension of deadlines for submission of Corporate Income Tax Returns and annual reports is extended
- ▶ The tax authorities may allow the deferral of tax payments for individuals and legal entities for a maximum of 24 months or payment in 24 instalments for reasons arising from COVID-19 without any (late) interest becoming due.
- ▶ The Government may further amend the proposed deadlines, should the COVID-19 pandemic escalate further.

Personal tax

- ▶ The law extends the deadline for issuance of informative tax calculation for personal income tax for 2019 to 30 June 2020. The issuance of informative calculations by the Financial Administration of Republic of Slovenia, is thus moved from 31 March 2020 to 31 May 2020.
- ▶ In accordance with the aforementioned measure, all resident taxpayers who will not be served with the 2019 informative tax calculation by 15 July 2020 will have their tax filing deadline moved to 31 August 2020.

Overview

- ▶ On 26 August 2020, the 2020 Disaster Management Tax Relief Bill and the 2020 Disaster Management Tax Relief Administration Bill (“the Bills”) were passed by the National Assembly. The Bills are now with the National Council of Provinces for approval before they are sent to the President for Assent.
- ▶ On 28 October 2020, the Taxation Laws Amendment Bill was introduced in the National Assembly.

Personal tax

- ▶ For individual taxpayers, the tax-deductible limit for donations was increased from 10% to 20% of taxable income for Solidarity Fund donations during the 2020/21 tax year. This applies to donations actually paid or transferred to the Solidarity Fund on or after 1 April 2020 but on or before 30 September 2020 in respect of any year of assessment ending on or after 1 April 2020 but on or before 28 February 2021.
- ▶ For the period 1 April 2020 to 30 September 2020, employers could factor in Solidarity Fund donations made on behalf of an employee of 33.3% (for three months) or 16.66% (for six months) of an employee’s monthly salary when calculating employees’ tax.
- ▶ A COVID-19 Temporary Employer-Employee Relief Scheme (COVID-19 TERS) was introduced to pay employees a portion of their salary during the temporary closure of their employer’s businesses. This is facilitated by the Unemployment Insurance Fund. Employees may receive a salary benefit up to a maximum of R17 712 per month, based on an income replacement scale ranging from 38% to 60%.
- ▶ The TERS relief also allows access to an illness benefit for employees who either self-quarantine without a medical certificate or who quarantine upon consultation with a medical practitioner.
- ▶ To access the TERS relief, the employer must be registered for Unemployment Insurance Fund (UIF) and the employer’s closure must be directly linked to the COVID-19 pandemic.
- ▶ The Taxation Laws Amendment Bill, 2020 is proposing to reduce the 183-day threshold requirement for the foreign remuneration exemption to 117 days. Currently, individuals who spend more than 183 days working outside South Africa would have qualified for exemption in respect of their remuneration earned while working outside the country. However, due to travel bans during the COVID-19 pandemic, these individuals could not travel and therefore could not qualify for the above exemption. As such, it is proposed that the number of days that a person spends working outside South Africa will be reduced to more than 117 days (i.e. from more than 183 days) in any 12-month period, for years of assessment ending on or after 29 February 2020 but on or before 28 February 2021.

VAT, GST and trade

- ▶ The importation of “essential goods” (as defined in Regulation R.398 in Government Gazette No 43148 of 25 March 2020) qualify for a VAT exemption on importation during the COVID-19 pandemic.
- ▶ A full rebate of customs is also available where ITAC has approved the rebate for the goods concerned.
- ▶ There are specific requirements to be met in order to qualify for this relief.
- ▶ On 26 March 2020 SARS published Binding General Ruling 52 whereby the following time periods are extended:
 - ▶ To levy VAT at the zero rate on the export of goods, these goods must generally be exported within 90 days of issuing an invoice or receiving any payment, whichever is the earlier. This time period has been extended by three months.
 - ▶ To qualify for a VAT refund from the VAT Refund Administrator, goods must generally be exported within 90 days from the tax invoice and the refund application must be submitted within 90 days from the date of export. This time period has been extended by three months.
- ▶ From May 2020, smaller VAT vendors in a net refund position are temporarily permitted to file VAT returns monthly, instead of once every two months, thereby unlocking input tax refunds more rapidly.
- ▶ Excise duty payments due in May 2020 and June 2020 on alcoholic beverages and tobacco products were deferred by 90 days for excise-compliant businesses.

Business tax

- ▶ From 1 April 2020 to 31 August 2020, tax-compliant Small, Micro and Medium-Size Enterprise (SMME - a business with gross income not exceeding R100 million) could defer 35% of their employees' tax liabilities. The deferred liability must be settled over six months (from 7 October 2020 to 5 March 2021).
- ▶ From 1 April 2020 to 31 March 2021, tax-compliant SMMEs could defer a portion of their first and second provisional tax payments. A first provisional tax payment due from 1 April 2020 to 30 September 2020 will be based on 15% of the estimated total tax liability, while a second provisional tax payment due from 1 April 2020 to 31 March 2021 will be based on 65% of the estimated total tax liability.
- ▶ To avoid interest, deferred payments will need to be paid as part of the SMME's third "top up" provisional tax payment.
- ▶ Businesses with a gross income of less than R100 million can apply for additional payment deferrals without incurring penalties.
- ▶ Businesses with a gross income exceeding R100 million that can show they are incapable of making payments due to COVID-19, may apply directly to SARS to defer tax payments without incurring penalties.
- ▶ A four-month holiday for Skills Development Levy contributions by employers (1% of total salaries), beginning 1 May 2020 and ending on 31 August 2020. This is a suspension (not a deferral), and as a result, employers will not become liable for these amounts after 31 August 2020.
- ▶ The Employment Tax Incentive (ETI) is expanded for tax-compliant employers from 1 April 2020 until 31 July 2020, by increasing the maximum monthly ETI claim (by R750) for eligible employees and also extending the ETI to employees that would not otherwise qualify (due to time or age) where those employees earn less than R6,500 a month. SARS will also increase the schedule of Employment Tax Incentive (ETI) reimbursements payments from twice per year to monthly.
- ▶ A three-month delay in the filing and payment of Carbon Tax from 31 July 2020 to 31 October 2020.
- ▶ The 2020 Budget tax proposals to restrict the net interest expense deduction to 30% of earnings and to limit an assessed loss carried forward to 80% of taxable income, were to be effective for tax years commencing on or after 1 January 2021. These measures will be postponed to 1 January 2022.
- ▶ A COVID-19 disaster relief organization will (on application and approval by SARS) be deemed to be a public benefit organization (PBO). The approval will only apply for a period of six months (1 April 2020 to 30 September 2020). These PBOs qualify for tax-exempt status. Donations made to a COVID-19 disaster relief organization during the period 1 April 2020 to 30 September 2020 will be tax deductible to the donor (limited to 10% of taxable income). Donations made to or by these PBOs will be exempt from Donations Tax.
- ▶ In addition, any amounts received or accrued from a COVID-19 disaster relief organization will not be subject to employees' tax (for the period 1 April 2020 to 30 September 2020). Such payments will, however, be subject to tax in the hands of the employee on assessment.
- ▶ For corporates, the tax-deductible limit for donations made to the Solidarity Fund will be increased from 10% to 20% of taxable income. This applies to donations paid or transferred to the Solidarity Fund on or after 1 April 2020 but on or before 30 September 2020 in respect of any year of assessment during which that amount was paid.

- ▶ The independent Bank of England, in charge of monetary policy, reduced the Bank interest rate from 0.75% to 0.1%, and in the period between March and November 2020, purchased £250 billion in (mainly UK Government) bonds to increase quantitative easing.

- ▶ Kickstart Scheme: A scheme to create new, subsidized jobs for young people, providing 100% (but capped) funding for six-month job placements.
- ▶ Two measures were announced, but never introduced as the CJRS was extended instead. One was a Job Retention Bonus (JRB) providing a £1,000 bonus to employers for retaining employees. The other was a Job Support Scheme (JSS) initially intended to replace the CJRS.
