

Technology automates fund services. **WAMapps** elevates them.

WAMapps is a single, secure platform that enhances risk management across audits, reporting and tax. It enables flexible reporting, smoother workflows and sharper insights.

A new level of service

As a truly global data, reporting and analytics platform built specifically for wealth and asset management firms, WAMapps transforms the fund service experience. It allows us to better collaborate with you and administrators, and add value to your operations every day, at every step.

- | Reveals deeper insights based on comprehensive current data
- | Keeps you updated on everything that's happening, in every area
- | Allows us to be more forward-looking, interactive and responsive
- | Helps you look at risk in new ways

Comprehensive

Brings all of your data together
(including third-party administrators and market data)

A single, standardized data source supports richer analysis and expanded review coverage across services

Works where you want it to
(throughout the Americas, APAC and EMEA)

Visual

- | A single sign-on gives you access to your services through an integrated dashboard.
- | Rich visualizations surface data in compelling new ways.
- | Revealing views bring anomalies to light.
- | Smart information design adds clarity to workflows.
- | You can see the whole picture then easily drill down to the details.

A holistic approach, driven by singular principles:

- | Knowing where things stand provides comfort beyond convenience.
- | Working from one shared data source reduces human error and mitigates risk.
- | Data quality and reliability improve insights.
- | Our continual investment will help cutting-edge capabilities stay cutting-edge.
- | The point is to get you back to your core competencies.

Scalable

Across funds
Add funds easily and gain economies of scale

Across regions
Purpose-built to support your needs globally

Across services
Access everything we do for you now; expand easily as your service needs evolve

Proven

280+ clients
13,500+ funds
25+ purpose-built apps
Continual investment in technology
