# Welcome

## Message from the Country Managing Partner

**Peter Surja**  
Country Managing Partner  
EY Indonesia

It is my great pleasure to welcome you to this Entrepreneur Of The Year 2022 Awards Ceremony, a momentous event recognizing and honoring exceptional entrepreneurs.

After two years of hiatus due to the COVID-19 pandemic, we are delighted to bring back EY Entrepreneur Of The Year™ (EOY) program as part of our long-standing commitment to entrepreneurship across Indonesia, to help ensure that we are working with and supporting more of tomorrow's business leaders. This is the 19th year that we are holding this prominent program. Since its inception, the EOY global program has grown dramatically and now operates in more than 145 cities and 60 countries worldwide.

The pandemic has changed our world profoundly - as it urges us to see and respond to situations in a completely different way. Business is compelled to remain resilient amid uncertainty in the face of one of the world's greatest economic challenges. With the theme "**The Unstoppables: Entrepreneurs Who Reframe Our World and Win in This Challenging Era**", this evening, we are celebrating Indonesia's finest entrepreneurs, whose unbounded ambitions deliver innovation, growth, and prosperity that help transform our world.

We at EY acknowledge that entrepreneurs play a critical role in our nation's economic recovery following disruptions like what we face today. I firmly believe that our finalists are true visionaries with notable products and services that benefit society at large.

The EOY finalists this year were selected based on their demonstration of long-term value through entrepreneurial spirit, purpose, growth, and impact, among other core contributions and attributes. The EOY country winner will represent Indonesia at the **EY World Entrepreneur Of The Year™ 2023 event in Monte Carlo, Monaco** and vie for the world's most prestigious title for entrepreneurs. This will undoubtedly give the EOY country winner the opportunity to be part of a global entrepreneurial network, to expand and open new markets with participants from other countries.

As we celebrate our Unstoppable Entrepreneurs and their outstanding achievements tonight, it is my fervent hope that this program will continue to inspire us and instill in each of us the desire to do our part in making positive impact on our society and the world at large.

Sincerely,

Peter Surja

# A Glimpse of Entrepreneur Of The Year 2019

# World Entrepreneur Of The Year 2022 at a Glance

Gaston Taratuta  
*Aleph*  
World Entrepreneur Of The Year 2022

“

I'm truly grateful and humbled to be named the 2022 EY World Entrepreneur Of The Year, and I hope to be able to use this platform to empower the entrepreneurs of the future.

**Gaston Taratuta**

*Founder and CEO of Aleph*

World Entrepreneur Of The Year 2022

## Meet Our 2022 Finalists

**Anderson Sumarli**

Ajaib Group

“

## How to make my success help others to be successful.

Anderson believes that the future of finance lies in the intersection of capital market, banking, and crypto. In 2019, Ajaib was launched with a vision to help young Indonesian generation to start their investment journey and increase their financial literacy for a better life.

Ajaib provides financial technology services such as stock trading and mutual funds, which are all licensed by Otoritas Jasa Keuangan (OJK) Indonesia. Unlike other brokers, it must adopt a unique marketing method to reach, attract and educate its customers, especially the middle market and the young generation.

Within less than three years, Ajaib has reached more than two million customers. It is now the 7th unicorn company in Indonesia, and the first investment fintech unicorn in Southeast Asia. As the controlling shareholder of PT Bank Bumi Artha Tbk (BNBA), Ajaib recently launched “Ajaib Kripto” as its newest product to allow investors to trade cryptocurrency.

Anderson through Ajaib is on his way to building the future of Indonesia’s financial market. Be it through Ajaib Sekuritas and its community, or the new exciting cryptocurrency with its blockchain technology, the journey will surely continue to create a better life for many Indonesians.

**Belva Devara &  
Iman Usman**

PT Ruang Raya Indonesia

“

**Education is a human right that we will  
always fight for.**

Ruangguru was founded in 2014 by Belva Devara and Iman Usman, who both realized that education is still a privilege in Indonesia. The education platform was created to realize their dream of providing access to quality education through technology, so that every child would have a more equitable opportunity to improve his/her livelihood.

In the past three years, Belva and Iman entered new verticals in education, for both formal and non-formal learning. The company launched new products to its ecosystem to cater to students' needs across all levels, especially the lifelong learning segment. It includes a language course, a coding school for kids, a learning management system, a study abroad preparation platform, skill-based courses, corporate training materials, among others.

Ruangguru has also expanded its business globally, with the learning app launched under the name **KienGuru** in Vietnam in 2019 and **StartDee** in Thailand in 2020. This makes Ruangguru the largest and most comprehensive education tech company across Southeast Asia. Today, Belva and Iman lead more than 300,000 teachers offering services in over 100 subjects catering to more than 38 million users.

Ruangguru has raised more than USD 150 million of funds from reputable investors. The company claimed its accomplishment of reaching profitability over the past two years. To help grow its services even further, it plans to go for Initial Public Offering in the future.

**Edward Tirtanata**

PT Bumi Berkah Boga

“

I believe that I have to achieve my goal sustainably and be my better version every day.

Edward started his career in EY Tax before becoming a serial entrepreneur. His business portfolio ranges from commodities, clothing, management consulting, now tapping into the food and beverage (F&B) industry. He launched Kopi Kenangan in 2017, with a vision to bring high-quality Indonesian coffee to the world, not as a commodity, but as a brand.

Kopi Kenangan targets a gap in the market between high-priced coffee served by international coffee chains and instant coffee sold at country's roadside kiosks and street stalls. It is now a leading grab-and-go tech-enabled coffee chain operating more than 700 stores across 45 cities in Indonesia, making it the biggest F&B brand in Indonesia reaching Unicorn status in 2021. The business grows with other brands namely **Cerita Roti, Chigo, and Kenangan Manis**.

Edward believes that leading with heart approach is the winning strategy response to the COVID-19 pandemic. He and the top management team quickly took an IDR 1 salary to guarantee no layoff of the employees. He also adopted a data-driven approach using Kopi Kenangan proprietary heatmap technology. This helps them to locate the potential areas closer to the customers and begin a rapid expansion opportunity of 600 stores during the pandemic.

Kopi Kenangan has raised over USD 240 million to date from high-quality investors. Its next goal is to become the largest food and beverage business in Indonesia and Southeast Asia, providing affordable quality products, fast and friendly service, with quality control and creative business development.

**Farell Sutantio**

PT Cisarua Mountain Dairy Tbk

“

Work hard in silence and let success make the noise.

Cimory Group was established by Farell's father, **Bambang Sutantio** in 1990, focusing on the differentiation and innovation of protein-based products. Farell joined his family business shortly after finishing his studies, with the aim of transforming the company's business model in order to be more relevant and sustainable. Today, as the President Director and CEO of the company, he is responsible for overseeing Cimory Group's strategic and commercial functions.

Under Farell's leadership, Cimory managed to reach another business vertical. Despite the challenges brought by the pandemic, the company determined to win the market by releasing more products using digital ads campaign. In 2021, he brought Cimory to go public in the Indonesia Stock Exchange, raising IDR 3.66 trillion to fund its future expansion. Today, as the business model transformation is fully implemented, more than 80% of Cimory's revenue comes from products and channels that did not exist in 2012.

Passionate about social causes and sustainability, Farell strongly believes that creating jobs is the best way a company can do to create a lasting impact. He is the mind behind the creation of **Miss Cimory**, a program to help Indonesian women, particularly housewives, become empowered and to improve their income and quality of life. Having 4,000 women agents and over 160 centers across Indonesia, Miss Cimory has become a promising direct selling pipeline that successfully contributes to around 10% of the company's revenue.

**Farian Kirana**

PT Lion Express

“

**Entrepreneurship is to have ambition and appreciation in life and in business.**

Established in 2013, Lion Express is a subsidiary of Lion Group, one of the biggest airline holding companies in Indonesia. As the nephew of **Rusdi Kirana**, the Founder of the group, Farian stepped in as the company's young leader for its over 1,000 employees. His vision for Lion Parcel is to create a sustainable business by being an agile company in the logistics industry. He is keen to balance the growth mindset taken from successful startups, and other business fundamentals from established corporations.

Nine years later, Lion Parcel can cover up to 98% of Indonesia and 16 international destinations. Their coverage and services are backed by Lion Parcel's strong infrastructure, with more than 7,000 agents, 15,000 delivery couriers, and 3,000 fleets. In the future, Farian envisions Lion Parcel to be a more tech-enabled company with a strong operation, continuing and improving as they grow.

Amidst the flight restriction due to the COVID-19 pandemic, Lion Express continued to adapt and be flexible by expanding its land fleets significantly. It launched a new service called **JAGOPACK**, a package delivery service at low prices that can accommodate package delivery from and to all over Indonesia.

**Otto Toto Sugiri**  
PT DCI Indonesia Tbk

“

The right foundation of business is creating solutions that benefit society the most.

As one of Indonesia's earliest tech entrepreneurs, Toto's true passion is to make people live easier through technology. He started his professional career as IT General Manager at PT Bank Bali in 1983. As he progressed, he served as Director of PT Sigma Cipta Caraka in 1989, before he established his own ventures namely PT IndoInternet in 1994 - where he won the EOY 2001 category award as "Service Entrepreneur", and Bali Camp (under PT Sigma Cipta Caraka) in 1999.

Since 2012, Toto has been helping to grow Indonesia's digital economy by running the largest data center company in the country, under PT DCI Indonesia (DCII). The company managed to provide over half the country's local capacity (52% of total capacity). It is also the first-Tier IV data center in Southeast Asia with the most aggressive SLA in data center market (99.999%).

As a visionary, Toto is able to capture an opportunity from the increasing internet usage and demand for data center services in Indonesia. After the company went public in 2021, it has been servicing both local and international companies including more than 40 telco providers, 4 global cloud players, 4 e-commerce platforms, 8 multinational banks, 11 multinational insurance, 100 financial services industry, and more than 60 non-government and state-owned enterprise customers from various industries.

In the coming years, Toto and DCII will remain focused on leveraging their automated operations for faster expansion and consistency by investing in artificial intelligence. Toto is also hopeful that PT DCII will be the most trusted data center provider in Southeast Asia.

**Rachmat Harsono**

PT Aneka Gas Industri Tbk

“

**Always try to create value for others and bring the best out of everybody.**

Rachmat is known by his team as a visionary leader backed with a knowledgeable market-analysis, corporate finance, and advanced negotiating skills. He joined the family business in 2004 under Samator Group as the parent company and has been in leadership position as President Director since 2018.

Rachmat, the second-generation of the family, carries on the tradition by launching several transformation and innovation programs in PT Aneka Gas Industri Tbk (AGII). He focuses to leverage Internet of Things (IoT) which covers storage tank telemetering system, cylinder barcoding tracking systems, edtech platform for employee development program, digitized contract management & centralized billing system - integrated into a command center to improve operations monitoring and the company supply chain management.

Currently, AGII holds 75% to 80% market share in the medical gas sector. It became a publicly listed company in 2016 and known as the oldest industrial gas company in Indonesia. It has the largest and widest network which operates 54 plants and more than 106 filling stations across 28 provinces in Indonesia.

Amidst the oxygen crisis during the highest peak of COVID pandemic last year, Rachmat and his team managed to continue his father's legacy, to fully support Indonesian government's initiative by redirecting 90% of AGII's industrial gasses to oxygen for medical sector.

## Shinta Nurfauzia

PT Lemonilo Indonesia Sehat

“

**Entrepreneurship is about impact potential that I am very passionate about.**

A Harvard Law School alumna, Shinta aspired to be an entrepreneur and offer solutions to existing problems. Alongside her two business partners, Shinta saw that healthy products in the country still lack flavor and affordability. With the mission of making a healthy lifestyle accessible for everyone, she decided to leave her law career behind and start Lemonilo in 2016.

She envisioned Lemonilo to be the new face of fast-moving consumer goods (FMCG), driving innovations through products that it launched with health as its center and start-up agility in its spirit. Lemonilo started with a version of a product that is commonly found in Indonesia's households: instant noodles but made of all-natural ingredients and no preservatives. This becomes the standard for its products to be 3P: *Tanpa Penguat Rasa, Pengawet, atau Pewarna Buatan*.

Today, Lemonilo has released more than 40 products in the market. Its instant noodles, for instance, are now available in more than 100,000 points of sales across Indonesia. The company's next goal is to scale the products variation in the seasonings & powder drink categories.

The COVID-19 pandemic has brought a positive impact on the company's business. Since many people are more aware of their health conditions, Shinta keeps innovating by creating another variant noodle, which is Konjac/Shirataki based. She also drives the Wiranilo Reseller Program, which empowers people to become SMEs and beacons of a healthy lifestyle.

# Distinguished Independent Panel of Judges

What makes a person an exceptional entrepreneur?  
We let the experts decide.

Their profiles are associated with success, while their reputation is proof of their excellent credibility and contribution. We have assembled a team of distinctive professionals together with our 2019 EOY winner to be our judging panel for EY Entrepreneur Of The Year 2022 - because it takes one to know one. We extend our sincere gratitude to the Judges for all the hard work and dedication.

# Family Enterprise

## Accelerating growth for family-owned enterprises from one generation to the next.

Family enterprise owners face unique challenges as they balance the need to accelerate growth with the effort to build the family legacy.

With the rapid changing market environment driven by technology disruption, sustaining growth and profitability of the family enterprise has become increasingly challenging. Family enterprises need to navigate business issues by executing a growth strategy that considers both the broader capabilities of the organization and changing family circumstances.

Drawing from decades of experience supporting entrepreneurial families in many countries, we have identified the success factors for family enterprise growth -- the Growth DNA Model. This model and the EY 7 Drivers of Growth pinpoint the issues and areas of focus that will help build a long-term, intergenerational legacy.

To learn how EY can help accelerate growth for your family business, visit us at [ey.com/familybusiness](https://www.ey.com/familybusiness).

### EY Family Business Award of Excellence

Through its Family Business Award of Excellence, EY recognizes exceptional entrepreneurs who lead today's successful family businesses and demonstrate the unique resilience, family value and long-term vision that characterize best family businesses.

This honorary award recognizes that family businesses are true innovators in their sector, and more often, lead their market and contribute greatly to their communities.

Past recipient of the EY Family Business Award of Excellence was PT Industri Jamu dan Farmasi Sido Muncul Tbk, led by its CEO, **Irwan Hidayat**.

# EY NextGen Academy

Developing the global next generation of mold-breakers who help transform the world.

EY NextGen Academy is a market-leading program for the next generation family business of leaders and professionals. Created in 2008, the program acts as an incubator to support future mold-breakers to pursue their passion towards business and ownership succession.

Our one-week training program combines knowledge from the world's leading business school with practical experience and advice from EY. Exclusively designed with a three-tier approach, it focuses on discovering potential, developing talent, and turning innovation into value.

The EY NextGen knowledge and network will benefit participants to create business strategy, tackle the dynamic challenges of running a family business, and make the impossible possible.

## Board Professional Program 2023

Application is now open!

Are you serving or considering serving on a private or family-linked board, including in family business, family office or family foundation?

Join in-person EY NextGen Academy Board Professional Program. EY teams and our global academic collaborator, INSEAD, can help you build on your board acumen and performance.

Over the course of two modules in the United States and France, participants discover how they can bring value to both the board and the family enterprise.

Module 1:	1-4 February 2023
	San Francisco/Palo Alto, US
Module 2:	29 March-1 April 2023
	Paris/Fontainebleau, France

Founded and produced by

**Building a better  
working world**

EY exists to build a better working world, helping create long-term value for clients, people and society and build trust in the capital markets.

Enabled by data and technology, diverse EY teams in over 150 countries provide trust through assurance and help clients grow, transform and operate.

Working across assurance, consulting, law, strategy, tax and transactions, EY teams ask better questions to find new answers for the complex issues facing our world today.

EY refers to the global organization, and may refer to one or more, of the member firms of Ernst & Young Global Limited, each of which is a separate legal entity. Ernst & Young Global Limited, a UK company limited by guarantee, does not provide services to clients. Information about how EY collects and uses personal data and a description of the rights individuals have under data protection legislation are available via [ey.com/privacy](https://ey.com/privacy). EY member firms do not practice law where prohibited by local laws. For more information about our organization, please visit [ey.com](https://ey.com).

**Forbes** INDONESIA

**Championing Entrepreneurial Capitalism in Indonesia**

Launched in October 2010, Forbes Indonesia brings all of the people and business coverage established internationally by Forbes with a special focus on Indonesians and the Indonesian market. Forbes Indonesia's unique insights into the Indonesian market, its proprietary lists and its mix of local and international content, have established it as the leading business magazine in Indonesia. The mission has been and remains clear: to be the most trusted information resource for business leaders.

**EY World Entrepreneur  
Of The Year™**

Monte Carlo | 2023

## **Stay inspired**

We'll see you next year in  
Monaco when we celebrate  
23 years of entrepreneurship.

### About EY Entrepreneur Of The Year™

EY Entrepreneur Of The Year™ is the world's most prestigious business awards program for entrepreneurs. The program makes a difference through the way it encourages entrepreneurial activity among those with potential and recognizes the contribution of people who inspire others with their vision, leadership and achievement. As the first and only truly global awards program of its kind, Entrepreneur Of The Year celebrates those who are building and leading successful, growing and dynamic businesses, recognizing them through regional, national and global awards programs in more than 145 cities in more than 60 countries.
