# Welcome

## Message from the Country Managing Partner

I am pleased to welcome you to this Awards Ceremony of the Entrepreneur Of The Year 2023 - a renowned global program dedicated to entrepreneurs.

Since 2001, the EY Entrepreneur Of The Year™ (EOY) Indonesia program has honored and given acclaim to a number of Indonesia's finest entrepreneurs for their outstanding achievement, leadership, and vision. It is part of our longstanding commitment at EY - to promote entrepreneurship across the country, inspiring tomorrow's business leaders to realize their bold ambitions.

With this year's theme, **The Art of Entrepreneurship: Entrepreneurs who demonstrate purpose, vision, and success through impactful innovation**, we are proud to have eleven innovative entrepreneurs as finalists who dared to create masterpieces of entrepreneurial art. They are selected based on their demonstration of long-term value through entrepreneurial spirit, purpose, growth, and impact, among other core contributions and attributes that have helped reframe the business world.

Through EOY, we are driven to inspire and support entrepreneurs to continue on with their growth journey through their innovative services and products, access relevant insights to help them navigate the road ahead, and create long-term and sustained value that brings about positive impact on the economy and to the society.

Tonight, we honor our outstanding finalists in this 21<sup>st</sup> year of organizing the program in Indonesia, following the resounding success of previous programs. I hope you share my enthusiasm and excitement as we are about to find out the winners and who will represent Indonesia in the EY World Entrepreneur Of The Year™ 2024 at Monte Carlo, Monaco.

Sincerely,

**Peter Surja**

Country Managing Partner

EY Indonesia

**EY Entrepreneur  
Of The Year™**

# What makes your business a masterpiece?

Discover the art  
of entrepreneurship.

The better the question. The better the answer.  
The better the world works.

# Message from Program Sponsor

It is a great pleasure to extend a warm welcome to the EY Entrepreneur Of The Year 2023 Awards Ceremony, a special occasion designed to celebrate the spirit of entrepreneurship, innovation, and the significant impact created by entrepreneurs in Indonesia.

Over the past years, we have witnessed the remarkable impact made by entrepreneurs across various sectors and industries in Indonesia. They not only inspire us but also generate opportunities for employment, innovation, and positive societal change.

**The Art of Entrepreneurship: Entrepreneurs Who Demonstrate Purpose, Vision, and Success Through Impactful Innovation** theme encapsulates the determination that has driven many entrepreneurs on their journeys to success. Entrepreneurs serve as pioneers who play a key role in economic growth and create new opportunities for our society.

In its commitment to support entrepreneurship in Indonesia, BCA provides comprehensive support as a sponsor for this prestigious program. We firmly believe that entrepreneurs are the driving force behind Indonesia's economic growth.

Congratulations to all the exceptional finalists in the EY Entrepreneur Of the Year Program. I am delighted to share that several finalists are BCA's clients. Your spirit, determination, and vision serve as a wellspring of inspiration for all of us. Please continue to innovate and contribute to the economy and society, as you are instrumental in building a brighter future for Indonesia.

My heartfelt thanks go to the EY team and all those involved in the organization of this program. May this event achieve resounding success and provide well-deserved recognition to these remarkable entrepreneurs. Let us collectively celebrate the success of entrepreneurship in Indonesia.

Thank you.

**Vera Eve Lim**  
Director  
PT Bank Central Asia Tbk

# A Glimpse of Entrepreneur Of The Year 2022

EY is dedicated to recognizing the contributions of entrepreneurs and acknowledging their restless drive to create positive impacts. Our commitment to entrepreneurship around the world is to ensure that we are working with and supporting more of tomorrow's global leaders, today.

# World Entrepreneur Of The Year 2023 at a Glance

“

I am honored to receive this prestigious distinction as EY World Entrepreneur Of The Year. I hope that I can continue the legacy of this great award by driving conversations about business challenges, helping to come up with big new ideas, and bringing in new voices along the way.

# Recipient of Honorary Lifetime Achievement Award 2023

“

Work together, grow together,  
prosper together.

**Lim Hariyanto Wijaya Sarwono**

Founder of Harita Group

Mr. Lim Hariyanto Wijaya Sarwono, more widely known as Lim Hariyanto, is the founder of Harita Group - an Indonesian conglomerate with key investments in the natural resources industry. What started as humble beginning in 1915 when his father first established the business - in the form of a small grocery store in the village of Long Iram located along the banks of Mahakam River, East Kalimantan - had grown under his attentive management to include four publicly listed firms today, employing over 65,000 workers nationwide. Hence, the #552 in Forbes List of Billionaires in 2023 and #36 among Indonesia's 50 Richest in 2022.

In spite of his many life accomplishments as an entrepreneur, Mr. Lim Hariyanto decided to pursue his childhood

passion of obtaining higher education at the age of 67. Two years later, he earned a bachelor's degree in Chinese Literature from Chinese International Education College/ Overseas Education College at Xiamen University. He later graduated with a master's degree in Business Administration at the age of 71, and a doctoral degree in Business Administration at the age of 77 from Shanghai Jiao Tong University. In total, it took him 10 years, 4 months, and 16 days to accomplish his academic undertaking.

Today, his business empire has been handed down to his son Mr. Lim Gunawan Hariyanto as his successor. Under the leadership of Mr. Lim Gunawan Hariyanto, the group continues to expand and reach new heights.

## **About Harita Group**

Harita Group is an Indonesian conglomerate with investments across various industries which include palm oil, bauxite and nickel mining, shipping, real estate, plywood and timber, as well as securities brokerage. Under its plantation arm, Harita manages some 190,000 hectares of oil palm plantation and is among the top ten listed plantation firms regionally. Harita, through its bauxite and nickel mining arms, is an integrated operator of mining companies with several smelter facilities under operation. Testament of Harita's commitment towards supporting Indonesia's push to down streaming program is reflected when it became the first producer of smelter grade alumina in Indonesia, and class one nickel to successfully use the highly efficient HPAL processing technology.

“

Relentlessly striving for  
business success and  
ensuring a lasting legacy.

## Andreas Wihardja & Hendry Setiawan

PT Duta Abadi Primantara

Andreas and Hendry are long-time friends who began their careers in Jakarta. They shared a vision to create a product that would be essential in people's daily lives and could be developed into a premium offering. Considering that individuals spend one-third of their lives in bed, they managed to identify a market opportunity for high-quality sleep products.

Duta Abadi Primantara (DAP) came to life in 1990, with a vision to be the number one mattress company in Indonesia and Asia that provides the best products and services. Taking over an existing mattress company, it initially introduced Florence® as Indonesia's first spring mattress brand, manufactured using locally sourced

components. It later expanded as a manufacturer and distributor serving the retail and hospitality sectors.

DAP has 14 branches throughout Indonesia and holds licenses for some of the world's most renowned mattress brands such as Aireloom®, King Koil®, Serta®, and Tempur®. These exclusive licenses extend not only to Indonesia but also to various countries in Southeast Asia such as Singapore, Malaysia, Vietnam, Philippines, and Thailand as well as in China. Andreas and Hendry's innovative approach to investing heavily in Research & Development led them to be trusted by various consumer segments, including five-star hotels.

In their 30 years of success, both Andreas and Hendry strongly believe in prioritizing quality, customer experience, and satisfaction. Looking ahead, DAP is eager to explore other product categories such as furniture. They are open to forging partnerships with international brands to facilitate collaborative expansion and growth.

“

**Embrace challenges,  
innovate fearlessly.**

## **Andree Susanto & Edwin Wibowo**

PT Tibeka Logistik Indonesia

Waresix was founded by Edwin, leveraging his logistics background, and Andree, previously involved in the lubricants-trading business. They realized the challenges of competing on price were due to logistical problems, which highlighted the widespread inefficiencies in the value chain. Recognizing a substantial opportunity in Indonesia's logistics sector, they established Waresix in 2017 to be the engine of growth for Indonesia by connecting people and islands.

Today, Waresix is known as the leading B2B Logistics Network Integrator in the country. Initially started as a warehousing platform, it currently provides tailored solutions to its customers through three

main business lines: land transport, freight, and warehousing services. These are all supported by Waresix's nationwide multimodal logistics networks connecting 220+ cities across Indonesia, with 60,000+ trucks and 390+ warehouse & inland container depots (ICD).

Leading the company as CEO and CFO, respectively, Andree and Edwin possess exceptional abilities to identify opportunities amidst challenges. As new players, they had to compete to enter the market, given the traditional logistics industry relies on established relationships. However, they led Waresix to overcome these challenges by turning its customers' logistics into one of its

competitive advantages and showcasing its superior value proposition, which includes integrated services, tech-powered operations, and unique execution capabilities.

With their combined expertise, Waresix is poised to redefine the logistics landscape, driving efficiency, and fostering innovation throughout the industry. They believe it's possible to succeed and address the evolving industry challenges, as they aspire to penetrate and be a part of Southeast Asia economies' growth by facilitating a more fluid trade and logistics experience.

“

We the future.

## Daniel Surya Wirjatmo

PT WIR ASIA Tbk

Daniel is a futurist who firmly believes in next-generation technologies. With his extensive leadership experience, he is certain of Indonesia's local talent and their ability to create inventions. He later initiated WIR Group with his partners in 2009, driven to help brands and businesses connect with their target audiences more effectively with the power of immersive technology.

Stands for “We Indonesians Rock”, today WIR Group is known as a leading immersive technology company through Augmented Reality (AR), Virtual Reality (VR), and Artificial Intelligence (AI). It provides smart society solutions and the world of O2O

(Online to Offline) Metaverse that can be enjoyed by everyone entering the era of Web 3.0.

Under Daniel's leadership as Executive Chairman, WIR Group has rapidly evolved and gained various recognitions nationwide and globally. Since its inception, WIR Group has completed 1,000+ projects in more than 20 countries and has 5 global patents for AR which are registered nationally, as well as in the Patent Cooperation Treaty (PCT) which covers 150+ countries. Daniel himself has received numerous recognitions for his outstanding leadership and influence, recently named

The Father of Indonesian Metaverse by PR Indonesia in 2022.

Daniel set to continue WIR's mission to enrich life experiences for individuals, companies, and societies through immersive technology solutions. Building its momentum of growth after going public in 2022, he led WIR Group's processed joint venture with Salim Group in building **Nusameta** - a metaverse platform to enable interaction between the real and digital worlds for everyone. This effort is to further develop the future of Web 3.0 and strengthen WIR's position in the Indonesian metaverse industry.

“

Be faithful in the little things so you can be faithful in the greater things.

## **Erastus Radjimin**

PT Artotel Indonesia

A big believer in innovation, Erastus's dream was to pioneer an innovative business that stands out from the crowd. It eventually comes true with the establishment of ARTOTEL Group and its unique model for Indonesia's hotel industry, which successfully brings together aspects of local Indonesian culture with global hospitality best practices.

ARTOTEL Group serves as Indonesian hotel operator management that integrates 4 business pillars: Hotel (Stay), Food & Beverages (Dine), Event Management (Play), and Curated Merchandise (Shop). It proudly owns a wide selection of brands including

ARTOTEL, DAFAM, MAXONE, and the KYRIAD Franchise Brand to meet the accommodation needs of all market segments.

With Erastus at the helm of the group, ARTOTEL Group was able to remain resilient during the pandemic and rebound by doubling down on business diversification, operational digitization, employee training, and property expansion. It now manages more than 100 hotels and 10,000 guest rooms across 36 cities in Indonesia while employing local 7,000+ artists - many of whom have even gone international.

Positioning itself for the future, Erastus set his eyes on strengthening ARTOTEL Group's leading position in the country and expanding its business offerings throughout Southeast Asia. To support this, he ensures ARTOTEL Group has adopted an offensive strategy geared toward digitalizing its business to capture future growth while enhancing the hotel chain's physical footprint.

“

Our biggest enemy is not failure. It is the temptation to be ordinary.

## **Gibran El Farizy**

PT Multidaya Teknologi Nusantara

Gibran, the visionary founder of eFishery, saw ineffective feeding practices in the fish farming sector, where overfeeding can result in financial losses for farmers and environmental degradation due to excess feed waste. Recognizing the need for innovative solutions, Gibran founded eFishery in 2013, dedicated to creating intelligent automatic feeding solutions for fish farms with the help of IoT technology.

Since then, eFishery has grown as the first Aquaculture Technology startup in Asia that develops innovations in the aquaculture field. More than just an intelligent automatic feeding provider, eFishery expanded its business by providing more comprehensive

solutions including marketplace access, education on cultivation, and financing options for small-scale fish farmers.

To enable direct connections with customers and open broader market opportunities for farmers, eFishery also focuses on distributing fish, shrimp, and fishery products from and to various regions in the country. As a result, it has supported 70,000 cultivators with 4 superior eFishery products in 280 cities/regencies that are dedicated to developing the Aquaculture sector sustainably.

Gibran received various awards for his dedication and groundbreaking approach to improving the lives of small-scale fish farmers and eFishery's contribution to Indonesia's GDP. Together with his team, Gibran will continue his mission to "Feed the world through Aquaculture" and pioneering solutions that promote efficiency, sustainability, and profitability.

“

Be useful for others.

## Kresna Adiprawira

PT Data Sinergitama Jaya Tbk

Kresna began his career in 1999 in Silicon Valley, joining the insurance technology startup named Esurance. He later established Inotech, an IT company in 2007 upon his return to Indonesia with the aim of contributing to the country's digital transformation and addressing the shortage of experienced professionals. In 2011, he founded Elitery, a service provider specializing in the latest data center technology to serve the growing domestic market.

As technology advanced, Kresna possessed the courage to take risks to realize Elitery's vision. He decided to pivot Elitery's main business activities from traditional data center to virtual data center (cloud technology). It now

provides services in managed cloud and managed networks while providing solutions such as Disaster Recovery (DRaaS), Backup as a Service (BaaS), CCTV solution, Integrated Reporting Information System, and Source Remote Working Apps. Also, since 2022, Elitery focuses on Healthcare Technology & Cybersecurity.

With 20+ years of hands-on experience in IT operations and 12 years in business development, product development, and business operations, Kresna is relentlessly developing Elitery's business portfolio. Today, Elitery has served 200+ government and enterprise customers, protecting 500+ servers, managing 1,000+ cloud resources, and monitoring

1,000+ ATM banking. Elitery is trusted by world-class cloud service providers, such as Google Cloud Platform and Amazon Web Services, as a go-to-market partner in Indonesia.

Kresna is constantly striving to make a meaningful impact on society and industry. He initiated **TALENTA** (The Acceleration of Indonesia's Transformation to a Digital Economy by Improving Digital Talent) program in collaboration with United States Agency for International Development (USAID) and Amazon Web Services (AWS). The program should foster an ecosystem that empowers homegrown talent and positions Indonesia as a global player in technology and innovation.

“

Be daring. Be different.

## Sayan Gulino

PT Bali Ocean Magic

Waterbom Bali was established by Sayan's father, **Santo Gulino**, an Italian-American who relocated to Bali and envisioned the idea of building a water park in Kuta. Sayan started his journey with the park at the age of 13, taking on various roles within the operations team, ranging from locker boy to guest relations officer, all while pursuing his education. He was later appointed as CEO in 2017, continuing his father's legacy of bringing the park to new heights.

As a globally renowned boutique and botanical water park, Waterbom shows a strong emphasis on customer service and environmental sustainability. Unlike a typical unappealing concrete water park, Waterbom offers 22 world-class slides

amidst carefully landscaped gardens and water features, conserving 55% of the area as green space including several endangered native species. This nature-blend concept offers a refreshing and natural environment for its guests.

Sayan has revolutionized the water park experience by taking sustainability commitment to the next level through a substantial investment of over \$136,000 in renewable energy. It recently developed Oasis Gardens - an additional 1.3 hectares featuring a new lagoon-style pool, 4 new slides, poolside gazebos, café - all using an Environmentally Sustainable

Design (ESD) approach to embracing sustainability as its core.

For more than 15 years, Sayan has been an integral part of Waterbom Bali, contributing significantly to its unprecedented success, resulting in multiple consecutive years of being acknowledged as Asia's #1 Water park by TripAdvisor and Certified Climate Neutral through UN Framework Convention on Climate Change.

“

It always seems  
impossible until it's done  
– Nelson Mandela.

## Steven Wongsoredjo

PT Krakatau Karya Abadi

Growing up in a retail family business serving rural areas, Steven witnessed distribution inequality affecting the price of goods in Indonesia. Given that the first generation of e-commerce can only capture 7%-10% of the offline retail market, he decided to build Super, envisioned to help Indonesia SMSEs, especially warung, in over 500+ second-tier, third-tier cities, and rural areas in Indonesia.

Super is one of the top Y-Combinator companies, overseeing the main feature, SuperAgen, agent-led commerce that enables community leaders to become retailers. Established in 2018, Super currently operates in East Java and South

Sulawesi, mostly in tier-2 to tier-4 cities. It is the first social commerce platform in Indonesia that is ISO 9001:2015 certified.

The commitment to building Super in rural areas was a tough beginning for Steven and his team, as no one believed it could work. With his tenacity and problem-solving ability, Steven managed to lead the business over investors' rejection and language barriers from diverse local teams and users, among many others. From a humble beginning, Super now has 47,000 agents across 40 cities and to date has raised USD 106 million from prominent investors such as Softbank, Jay-Z, and Alpha JWC.

Steven received many awards for his vision and business achievement, including top 10 featured honorees of Forbes 30 under 30 Asia and social impact awards from Credit Suisse and Alibaba Cloud in 2022. Looking ahead, Super will soon expand to the east of Indonesia, where most price inequality problems occur, while setting its eye for IPO opportunity in the near future.

“

God is our CEO.

## Yozua Makes

PT Plataran Indonesia

Yozua Makes is a multi-disciplinary, multi-faceted, and multi-dynamic person with highly reputable recognition in business, government, education, and legal circles. Despite having zero background in the hospitality industry, he has successfully achieved making Plataran the pioneer in the Indonesian hospitality industry by establishing a holistic and extensive hospitality group that has created meaningful and transformative contributions to society and Indonesia.

A true Indonesian icon, Plataran's vision is to contribute to Indonesia and Indonesians, by showcasing the rich and diverse natural and cultural heritage of this remarkable archipelago to the world. Focusing on

the premium market, Plataran is the country's only integrated hospitality group with nine hotels and resorts, dining venues, catering services, nine vessels, and two national parks - spread across Java, Bali, and Komodo areas.

Plataran has expanded significantly over the past 14 years, despite cycles in the hospitality industry combined with the unforeseen pandemic. Yozua established the EESG (Entrepreneurship + Environmental, Social, and Governance) as the compass of Plataran, which demonstrates Yozua's leadership, professionalism, and entrepreneurial spirit that ensure sustainability.

Yozua and his 1,500 entrepreneurial staff will continue to uplift Indonesia and the lives of Indonesians for the better by preserving Indonesian culture, community, and environment. He hopes to continue demonstrating leadership values as part of actualizing his vision of "Indonesia Incorporated" - an ecosystem of leaders from various industries and with different skill sets, all working together to drive Indonesia to further growth.

## Founded and Produced by

### About EY Entrepreneur Of The Year™

EY Entrepreneur Of The Year™ is the world's most prestigious business awards program for unstoppable entrepreneurs. These visionary leaders deliver innovation, growth and prosperity that transform our world. The program engages entrepreneurs with insights and experiences that foster growth. It connects them with their peers to strengthen entrepreneurship around the world. EY Entrepreneur Of The Year is the first and only truly global awards program of its kind. It celebrates entrepreneurs through regional and national awards programs in more than 145 cities in over 60 countries. Winners go on to compete for the EY World Entrepreneur Of The Year™ title. ## Sponsor

BCA is one of the leading commercial banks in Indonesia with the core business of transaction banking. BCA also offers a full range of financial services in consumer, SME, commercial and corporate segments. As of March 2023, BCA has the privilege of serving more than 36 million customer accounts, processing around 77 million of daily transactions through a network of 1,247 branches; 18,348 ATMs as well as the 24-hour internet & mobile banking systems; supported by 24/7 Halo BCA contact center. BCA's presence is complemented by a number of subsidiaries focusing on vehicle financing, sharia banking, securities, general and life insurance, digital bank, remittance as well as venture capital business. BCA is committed to building lasting relationship with customers, putting people first, and making positive impact on society at large. With around 25,000 employees, BCA's vision is to be the bank of choice and a major pillar of the Indonesia economy.

**EY World Entrepreneur  
Of The Year™**

Monte Carlo | 2024

## **An event of global significance**

See you next year in Monte Carlo, Monaco, to celebrate the accomplishments of leaders whose vision and innovation are creating long-term value and building a better working world.

## EY | Building a better working world

EY exists to build a better working world, helping to create long-term value for clients, people and society and build trust in the capital markets.

Enabled by data and technology, diverse EY teams in over 150 countries provide trust through assurance and help clients grow, transform and operate.

Working across assurance, consulting, law, strategy, tax and transactions, EY teams ask better questions to find new answers for the complex issues facing our world today.

EY refers to the global organization, and may refer to one or more, of the member firms of Ernst & Young Global Limited, each of which is a separate legal entity. Ernst & Young Global Limited, a UK company limited by guarantee, does not provide services to clients. Information about how EY collects and uses personal data and a description of the rights individuals have under data protection legislation are available via [ey.com/privacy](https://ey.com/privacy). EY member firms do not practice law where prohibited by local laws. For more information about our organization, please visit [ey.com](https://ey.com).
