

Ongoing Challenge of Bribery and Corruption

Call for action

Sudden and tectonic change creates opportunities for unethical behavior, including fraud and corruption. The pandemic has made it harder for businesses to act with integrity. The challenge is a growing gap between what organization's senior leaders say is important and what they are prepared to do for individual gain.

(EY Global Integrity Report, 2022)

Unethical behavior in senior or high performers is tolerated in the organization

ISO 37001 Anti Bribery Management System

The ISO 37001 framework

Why ISO 37001?

Global standard

A global language in governance and integrity.

Increasing ethics practice

Bribery is the most prevalent corruption conduct (around 80%) according to international and national statistics from the last two decades.

Integrating organization's current practice

The standard can be adopted independently or integrated into a pre-existing management system.

Applicable for public, private, or non-profit sectors

ISO 37001 is adaptable to all types of organizations, irrespective of size, geography or exposure to bribery risk.

What We Offer

Have you done enough to safeguard your organization against the risk of bribery & corruption? Find out how we can help. Ask EY.

The framework

A clear framework will provide clear direction on how an organization can prevent, detect and combat bribery. EY can also help the organization to prepare all necessary requirements for ISO 37001 certification.

Trainings

Aside from the framework, tools, and controls, organizations should also train their personnel to understand the importance of Anti-Bribery Management Systems.

Tools and controls
