

Thinking about applying to Smart Futures? Great – here’s what to expect!

The application process is a chance for us to find out more about you, so relax and be yourself!

Application process

There are two stages to applying. Read below for more information on each stage so that you are clear on what to expect.

1. Apply online

Once you’ve registered for the Smart Futures programme, we will capture your personal details and more about your background. Remember there is no academic criteria therefore we won’t screen out your application on your academic grades.

If your application is successful you will be asked to telephone interview.

2. Telephone interview

The final stage of the process is a telephone interview which should last around 20-25 minutes. It is designed to help us get to know your individual strengths and motivations for applying to Smart Futures. We want to get to know you, so relax and be yourself.

Places are allocated on a first come first served basis so we advise that you apply sooner rather than later.

Technical support

If you need technical support at any point across the selection process, and you can’t find the information you are looking for on our website, you can contact us at smartfutures@eyfoundation.ey.com or 0207 951 3133.
