2. Accounting policies

The principal accounting policies are summarised below and have been applied consistently throughout the period and the preceding period, unless otherwise stated.

Basis of preparation

The financial statements have been prepared in accordance with international accounting standards in conformity with the requirements of the Companies Act 2006 ("IFRS").

The financial statements have been prepared on the accrual basis of accounting using a number of measurement bases, as set out in the accounting policies below. The financial statements have been prepared on a going concern basis. The company is a holding company with no commitments. The directors have considered the impact of COVID-19; which given the nature of the company's business, is not expected to adversely impact the going concern status of the company. The directors have a reasonable expectation that the company has adequate resources to continue in operational existence for at least 12 months from the date of approval of the financial statements and therefore they continue to prepare the financial statements on a going concern basis.

The company is exempt from audit for the current period as the parent has given a guarantee under s479A-479C of the Companies Act 2006.

The functional currency of the company is pounds sterling. The financial statements are presented in sterling and, unless otherwise indicated, are rounded to the nearest thousand pounds (£k).

The company is exempt from the obligation to prepare group accounts under section 400 of the Companies Act 2006 as it is a wholly owned subsidiary undertaking and its parent undertaking, Ernst & Young LLP, prepares group accounts (see note 11).

Dividend income

Dividend income is recognised when the company's right to receive dividends is established, which is when the dividend has been paid or a legally binding liability has been established for the payment of the dividend by the subsidiaries.

Income taxes

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Loans receivable are carried at amortised cost using the effective interest method if the time value of money is significant.

New and amended accounting standards and interpretations and other changes to the financial statements

Several amendments and interpretations apply for the first time in the current period, but do not have an impact on the financial statements of the company.
