# EY post-Brexit customs analytics health check

## So how did you do?

- ▶ We are now six months post-Brexit and the dust is beginning to settle. How have your imports, exports and supply chain been affected? Were the impacts as expected? Are you confident you have clarity on your Global Trade costs and obligations? Are you certain you are benefitting from available duty and cost-savings opportunities post-Brexit? Could your business benefit from a post-Brexit analytics health check?
- ▶ EYs global trade analytics uses external government data on your business's imports and exports to assess post-Brexit supply chain performance, highlight any compliance issues and identify duty and operational cost-savings.

### How EY teams provide actionable trade insights from customs authority held data

- 1. Data request** EY will support with the request to customs authorities for data submitted since the end of the transition period.
- 2. Analytics** EY will use this data in our trade analytics platform to create insights through analytical dashboards.
- 3. Workshop** EY will host a 1 hour workshop to present the analytics and findings, which may include identified duty overpayments or underpayments, cost-savings opportunities, and compliance considerations.
- 4. Report** EY will provide summary views of the selected dashboards as well as a brief report outlining the top actions and opportunities for you to take forward.
