We'll empower you with the latest technology, surround you with high-performing teams, and provide the global scale and diverse and inclusive culture you need to discover your full potential. Through our coaching and training programs, you'll develop the skillsets you need to stay relevant today and, in the future, – all while building a network of colleagues, mentors, and leaders who will be on the journey with you at EY and beyond.

The exceptional EY experience. It's yours to build.

The opportunity: your next adventure awaits.

EY-Parthenon strategy consultants — leading business professionals for the C-suite — team together to answer highly challenging strategic questions on the CEO agenda while delivering full potential impact for our clients. As strategic journey professionals for our clients, providing data-driven strategies through execution, we bring access to leading depth and breadth of perspectives from across our organization, and we deliver on our strategies with tremendous global scale. This combination helps our clients realize their optimal impact and long-term value.

The Software Strategy Group is a specialized advisory practice within EY-Parthenon serving private equity investors, their portfolio companies, and corporate clients on topics ranging from diligence through strategy and execution, focused on evaluating technology-driven markets, assessing technology companies, and helping technology companies solve their toughest challenges.

We sit at the nexus of two of the fastest-growing parts of the economy – technology and private equity – and we want to build the next generation of leaders of what we call the ‘Software Economy.’ As an EY-Parthenon Software Strategy Summer Consultant, you’ll participate as a valued member of project teams helping clients address their most pressing strategic challenges. We provide unmatched access to world-leading clients, mentorship from former C-level executives, and the ability to play a role in the largest technology transactions.

Over the summer, you’ll be responsible for identifying information sources, assembling data, performing analyses, structuring hypotheses and developing presentations. Summer Consultants work on a variety of client issues, such as performing due diligence on acquisition candidates, assessing attractiveness of potential targets, understanding new markets, and helping our clients evaluate companies’ suitability for growth and ability to execute on their corporate strategy. You’ll also interact with our clients, making this an exceptional place to gain firsthand insights into how investors and management teams operate and make decisions.

Your key responsibilities

- Participate in discussions with private equity investors and technology executives
- Contribute to commercial and technology due diligence evaluations of various businesses, including identifying opportunities and risks that would come from an acquisition or investment of a given business
- Contribute to market evaluations and competitive assessments, including the development of strategic recommendations
- Collect and analyze data from a variety of primary and secondary sources
- Effectively communicate your findings and insights to the project team and to clients

What we look for

- **You have an agile, growth-oriented mindset.** What you know matters. But the right mindset is just as important in determining success. We’re looking for people who are innovative, can work in an agile way and keep pace with a rapidly changing world.
- **You are curious and purpose driven.** We’re looking for people who see opportunities instead of challenges, who ask better questions to seek better answers that build a better working world.
- **You are inclusive.** We’re looking for people who seek out and embrace diverse perspectives, who value differences, and team inclusively to build safety and trust.
- **Qualifications.**
 - A predicted MBA degree from a leading business school
 - A record of achievement with previous employer(s)
 - Demonstrated interest in the tech industry through startup experience, internships, course work, extracurricular activities, or research and writing on the tech industry
 - A strong aptitude for quantitative and qualitative research and analysis
 - The ability to assess complex situations and business problems to formulate potential solutions for our clients
 - The ability and the confidence to establish meaningful relationships with clients and colleagues
 - Unwavering integrity, work ethic and flexibility to quickly adapt to new environments/clients

- Proficiency with Microsoft Office, including Excel, PowerPoint and Word
- Proficiency in the English language, including the ability to listen, understand, read and communicate effectively, both in writing and verbally, in a professional environment
- Willingness and ability to learn and work independently with minimal supervision
- Effective organization and time management skills, with the ability to work under pressure and adhere to project deadlines
- The ability and willingness to travel and work in excess of standard hours when necessary
- Access to reliable transportation to/from the EY office and client sites. A driver's license is strongly recommended as ride share and public transportation options may not be available in all locations.

What's in it for you

- Accelerate your technical capabilities and transformative leadership skills with future-focused courses and development programs.
- Broaden your horizons by working on highly integrated teams across the globe and collaborate with people of diverse backgrounds – both professionally and culturally.
- Bring out the best in yourself with continuous investment in your personal well-being and career development.
- Develop your own personal purpose and help us create a positive ripple effect on our teams, our business, clients and society – building a better working world, together.

A competitive compensation package where you'll be rewarded based on your performance and recognized for the value you bring to our business. The hourly pay for this job, in the US, is \$87.50. Individual salaries are based on education, geographic location, and alignment to the market data. In addition should you join us full time, our Total Rewards package includes medical and dental coverage, pension and 401(k) plans, and a wide range of paid-time-off options. Under our flexible vacation policy, you'll decide how much vacation time you need based on your own personal circumstances. You'll also be granted time off for designated EY Paid Holidays, Winter/Summer breaks, Personal/Family Care, and other leaves of absence when needed to support your physical, financial and emotional well-being.

What you can expect
